Client: BBC
Project: escondido Public work-western
Date Received: 11-24-10
Sampler's Name: Yes No Yard
Sample(s) received in cooler: ~~Yes~~
No (Skip Section 2)
Shipping Information:

Section 2
Was the cooler packed with: 4 Ice ____ Ice Packs ___ Bubble Wrap ___ Styrofoam
____ Paper ____None ___ Other_____
~~Cooler~~ or box temperature: 3.0

(Acceptance range is 2 to 6 Deg. C.)

Section 3	YES	NO	N/A
Was a COC received?	✓		
Is it properly completed? (IDs, sampling date and time, signature, test)	✓		
Were custody seals present?		✓	
If Yes – were they intact?			✓
Were all samples sealed in plastic bags?	✓		
Did all samples arrive intact? If no, indicate below.	✓		
Did all bottle labels agree with COC? (ID, dates and times)	✓		
Were correct containers used for the tests required?	✓		
Was a sufficient amount of sample sent for tests indicated?	✓		
Was there headspace in VOA vials?		✓	
Were the containers labeled with correct preservatives?	✓		
Was total residual chlorine measured (Fish Bioassay samples only)? *			✓

*: If the answer is no, please inform Fish Bioassay Dept. immediately.

H&P Project: BBC042512-L4
Client Project: Escondido Wyard.2 / 901 N. Washington

Dear Mr. Walter Craig:

Enclosed is the analytical report for the above referenced project. The data herein applies to samples as received by H&P Mobile Geochemistry, Inc. on 25-Apr-12 which were analyzed in accordance with the attached Chain of Custody record(s).

The results for all sample analyses and required QA/QC analyses are presented in the following sections and summarized in the documents:

- Sample Summary
- Case Narrative (if applicable)
- Sample Results
- Quality Control Summary
- Notes and Definitions / Appendix
- Chain of Custody

Unless otherwise noted, all analyses were performed and reviewed in compliance with our Quality Systems Manual and Standard Operating Procedures. This report shall not be reproduced, except in full, without the written approval of H&P Mobile Geochemistry, Inc.

We at H&P Mobile Geochemistry, Inc. sincerely appreciate the opportunity to provide analytical services to you on this project. If you have any questions or concerns regarding this analytical report, please contact me at your convenience at 760-804-9678.

Sincerely,

Janis Villarreal

Appendix

H&P Mobile Geochemistry, Inc. is approved as an Environmental Laboratory in conformance with the Environmental Laboratory Accreditation Program (CA) for the category of Volatile and Semi-Volatile Organic Chemistry of Hazardous Waste for the following methods:

Certificate# 2741, 2743, 2579, 2754 & 2740 approved for EPA 8260 and LUFT GC/MS
Certificate# 2742, 2745, & 2741 approved for LUFT
Certificate# 2745 & 2742 approved for EPA 418.1

H&P Mobile Geochemistry, Inc. is approved as an Environmental Laboratory in conformance with the National Environmental Accreditation Conference Standards for the category Environmental Analysis Air and Emissions for the following analytes and methods:

1,2,4-Trichlorobenzene by EPA TO-15 & TO-14A
Hexachlorobutadiene by EPA TO-15 & TO-14A
1,2,4-Trimethylbenzene by EPA TO -14A
1,2-Dichlorobenzene by EPA TO-15 & TO-14A
1,3,5-Trimethylbenzene by EPA TO -14A
1,4-Dichlorobenzene by EPA TO-15 & TO-14A
Benzene by EPA TO-15 & TO-14A
Chlorobenzene by EPA TO-15 & TO-14A
Ethyl benzene by EPA TO-15 & TO-14A
Styrene by EPA TO-15 & TO-14A
Toluene by EPA TO-15 & TO-14A
Total Xylenes by EPA TO-15 & TO-14A
1,1,1-Trichloroethane by EPA TO-15 & TO-14A
1,1,2,2-Tetrachloroethane by EPA TO-15 & TO-14A
1,1,2-Trichloroethane by EPA TO-15 & TO-14A
1,1-Dichloroethane by EPA TO-15 & TO-14A
1,1-Dichloroethene by EPA TO-15 & TO-14A
1,2-Dichloroethane by EPA TO-15 & TO-14A
1,2-Dichloropropane by EPA TO-15 & TO-14A
Benzyl Chloride by EPA TO-15 & TO-14A
Bromoform by EPA TO-15
Bromomethane by EPA TO-15 & TO-14A
Carbon tetrachloride by EPA TO-15 & TO-14A
Chloroethane by EPA TO-15
Chloroform by EPA TO-15 & TO-14A
Chloromethane by EPA TO-15 & TO-14A
cis-1,2-Dichloroethene by EPA TO-15
cis-1,2-Dichloropropene by EPA TO-15 & TO-14A
Methylene chloride by EPA TO -15 & TO-14A
Tetrachloroethane by EPA TO-15 & TO-14A
trans-1,2-Dichloroethene by EPA TO-15
trans-1,2-Dichloropropene by EPA TO-15 & TO-14A
Trichloroethene by EPA TO-15 & TO-14A
Vinyl chloride by EPA TO -15 & TO-14A
2-Butanone by EPA TO-15
4-Methyl-2-Pentanone by EPA TO-15
Hexane by EPA TO-15
Methyl tert-butyl ether by EPA TO-15
Vinyl acetate by EPA TO-15

Dibromochloromethane by EPA TO-15
Dichlorodifluoromethane by EPA TO-15 & TO-14A
Trichlorofluoromethane by EPA TO-15 & TO-14A
Naphthalene by EPA TO-15 & TO-14A
m&p Xylenes by EPA TO-15
o-Xylene by EPA TO-15
1,3-Butadiene by EPA TO-15
1,1,2-Trichlorotrifluoroethane by EPA TO-15 & TO-14A
Carbon disulfide by EPA TO-15
1,4-Dioxane by EPA TO-15
Cyclohexane by EPA TO-15
tert-Butyl Alcohol by EPA TO-15
1,3-Dichlorobenzene by EPA TO-15 & TO-14A
Heptane by EPA TO-15
Bromodichloromethane by EPA TO-15 & TO-14A

This certification applies to samples analyzed in summa canisters.

2,3,7,8-TCDD (Dioxin)	3×10^{-8}
2,4,5-TP (Silvex)	0.05

*MCL is for either a single isomer or the sum of the isomers.

surveys shall be repeated every five years.

Article 4. Primary Standards--Inorganic Chemicals

§64431. Maximum Contaminant Levels--Inorganic Chemicals.

(a) Public water systems shall comply with the primary MCLs in Table 64431-A as specified in this article.

Table 64431-A
Maximum Contaminant Levels
Inorganic Chemicals

Chemical	*Maximum Contaminant Level, mg/L*
Aluminum	1.
Antimony	0.006
Arsenic	0.010
Asbestos	7 MFL*
Barium	1.
Beryllium	0.004
Cadmium	0.005
Chromium	0.05
Cyanide	0.15
Fluoride	2.0
Mercury	0.002
Nickel	0.1
Nitrate (as NO3)	45.
Nitrate+Nitrite (sum as nitrogen)	10.
Nitrite (as nitrogen)	1.
Perchlorate	0.006
Selenium	0.05
Thallium	0.002

* MFL=million fibers per liter; MCL for fibers exceeding 10 um in length.

§64432. Monitoring and Compliance--Inorganic Chemicals.

(a) All public water systems shall monitor to determine compliance with the nitrate and nitrite MCLs in Table 64431-A, pursuant to subsections (c) through (e) and §64432.1. All community and nontransient-noncommunity water systems shall monitor to determine compliance with the perchlorate MCL, pursuant to subsections[18] (c), (d), (j), and Section 64432.3. All community and nontransient-noncommunity water systems shall also monitor to determine compliance with the other MCLs in Table 64431-A, pursuant to subsections (b) through (n) and, for asbestos, Section 64432.2. Monitoring shall be conducted in the year

[18] "(c), (d), (j)" should be "(d), (e), (l)" and will be corrected as such at a later date.

Table II - List of Inorganic Persistent and Bioaccumulative Toxic Substances and Their Soluble Threshold Limit Concentration:

(STLC) and Total Threshold Limit Concentration (TTLC) Values.

Substance [a,b]	STLC mg/l	TTLC Wet-Weight mg/kg
Antimony and/or antimony compounds	15	500
Arsenic and/or arsenic compounds	5.0	500
Asbestos		1.0 (as percent)
Barium and/or barium compounds (excluding barite)	100	10,000[c]
Beryllium and/or beryllium compounds	0.75	75
Cadmium and/or cadmium compounds	1.0	100
Chromium (VI) compounds	5	500
Chromium and/or chromium (III) compounds	5[d]	2,500
Cobalt and/or cobalt compounds	80	8,000
Copper and/or copper compounds	25	2,500
Fluoride salts	180	18,000
Lead and/or lead compounds	5.0	1,000
Mercury and/or mercury compounds	0.2	20
Molybdenum and/or molybdenum compounds	350	3,500[e]
Nickel and/or nickel compounds	20	2,000
Selenium and/or selenium compounds	1.0	100
Silver and/or silver compounds	5	500
Thallium and/or thallium compounds	7.0	700
Vanadium and/or vanadium compounds	24	2,400
Zinc and/or zinc compounds	250	5,000

[a]STLC and TTLC values are calculated on the concentrations of the elements, not the compounds.

[b]In the case of asbestos and elemental metals, the specified concentration limits apply only if the substances are in a friable, powdered or finely divided state. Asbestos includes chrysotile, amosite, crocidolite, tremolite, anthophyllite, and actinolite.

[c]Excluding barium sulfate.

[d]If the soluble chromium, as determined by the TCLP set forth in Appendix I of chapter 18 of this division, is less than 5 mg/l, and the soluble chromium, as determined by the procedures set forth in Appendix II of chapter 11, equals or exceeds 560 mg/l and the waste is not otherwise identified as a RCRA hazardous waste pursuant to section 66261.100, then the waste is a non-RCRA hazardous waste.

[e]Excluding molybdenum disulfide.

DISCLAIMER

This document, *Screening for Environmental Concerns at Sites with Contaminated Soil and Groundwater* (September 2007), is a technical report prepared by staff of the California Regional Water Quality Board, Bay Area Region (Board staff). This document is not intended to establish policy or regulation. The Environmental Screening Levels presented in this document and the accompanying text are specifically not intended to serve as: 1) a stand-alone decision making tool, 2) guidance for the preparation of baseline environmental assessments, 3) a rule to determine if a waste is hazardous under the state or federal regulations, or 4) a rule to determine when the release of hazardous chemicals must be reported to the overseeing regulatory agency.

The information presented in this document is not final Board action. Board staff reserve the right to change this information at any time without public notice. This document is not intended, nor can it be relied upon, to create any rights enforceable by any party in litigation in the State of California. Staff in overseeing regulatory agencies may decide to follow the information provided herein or act at a variance with the information, based on an analysis of site-specific circumstances.

This document will be periodically updated as needed. Please send comments, edits, etc. in writing to the above contacts. Board staff overseeing work at a specific site should be contacted prior to use of this document in order to ensure that the document is applicable to the site and that the user has the most up-to-date version available. This document is not copyrighted. Copies may be freely made and distributed. Reference to the screening levels presented in this document without adequate review of the accompanying narrative could result in misinterpretation and misuse of the information.

L Target Organs and Chronic Health Effects

Executive Summary

This document presents Environmental Screening Levels (ESLs) for chemicals commonly found in soil and groundwater at sites where releases of hazardous chemicals have occurred. The terminology "environmental" screening levels is intended to better convey the broad scope of the document and clarify that some screening levels are not risk-based in a strict definition of this term.

The ESLs are considered to be conservative. Under most circumstances, and within the limitations described, the presence of a chemical in soil, soil gas or groundwater at concentrations below the corresponding ESL can be assumed to not pose a significant, long-term (chronic) threat to human health and the environment. Additional evaluation will generally be necessary at sites where a chemical is present at concentrations above the corresponding ESL. Active remediation may or may not be required depending on site-specific conditions and considerations. This document may especially be beneficial for use at sites with limited contamination, where the preparation of a more formal environmental assessment may not be warranted or feasible due to time and cost constraints.

The ESLs were developed to address environmental protection goals presented in the *Water Quality Control Plan for the San Francisco Bay Basin* (Basin Plan; San Francisco Bay Area Regional Water Quality Control Board; RWQCBSF 2006). These goals include:

Surface Water and Groundwater:

- Protection of drinking water resources;
- Protection of aquatic habitats;
- Protection against vapor intrusion into buildings;
- Protection against adverse nuisance conditions.

Soil:

- Protection of human health (direct-exposure);
- Protection against vapor intrusion into buildings;

- Protection against leaching and subsequent impacts to groundwater;
- Protection of terrestrial biota;
- Protection against adverse nuisance conditions.

The ESLs are presented in a series of tables. Each table reflects a specific combination of soil, groundwater and land-use characteristics that strongly influence the magnitude of environmental concerns at a given site. This allows the user to select ESLs that are most applicable to a given site.

The ESL document presents a tiered approach to environmental risk assessments. Under Tier 1, sample data are directly compared to ESLs selected for the site and decisions are made regarding the need for additional site investigation, remedial action or a more detailed risk assessment. In a Tier 2 risk assessment, a selected component(s) of the Tier 1 ESL is modified with respect to site-specific considerations. An example may be the adjustment of a screening level for direct exposure with respect to an approved, alternative target risk level. Site data are then compared to the revised screening level as well as the remaining, unmodified components of the Tier 1 ESL. This provides an intermediate but still relatively rapid and cost-effective option for preparing more site-specific risk assessments. Risk assessment models and assumptions that depart significantly depart from those used to develop the Tier 1 ESLs are described in a more traditional, Tier 3 risk assessment. The Tier 1 methodology can still provide a common platform to initiate a Tier 3 risk assessment and help ensure that all potentially significant environmental concerns are considered.

The Tier 1 ESLs presented in the lookup tables are NOT regulatory cleanup standards. Use of the ESLs and this document in general is intended to be entirely optional on the part of the regulated facility and subject to the approval of the case manager in the overseeing regulatory agency. The presence of a chemical at concentrations in excess of an ESL does not necessarily indicate that adverse impacts to human health or the environment are occurring; this simply indicates that a potential for adverse risk may exist and that additional evaluation is warranted. Use of

the ESLs as cleanup levels should be evaluated in view of the overall site investigation results and the cost/benefit of performing a more site-specific risk assessment.

Reliance on only the Tier 1 ESLs to identify potential environmental concerns may not be appropriate for some sites. Examples include sites that require a detailed discussion of potential risks to human health, sites where physical conditions substantially differ from those assumed in development of the ESLs (e.g., mine sites, landfills, etc., with high or low pH) and sites where impacts pose heightened threats to sensitive ecological habitats. The latter could include sites that are adjacent to wetlands, streams, rivers, lakes, ponds, marine shorelines, or sites that otherwise contain or border on areas where protected or endangered species may be present. Potential impacts to sediment are also not addressed. The need for a detailed ecological risk assessment should be evaluated on a site-by-site basis for areas where significant concerns may exist. Notification to the Natural Resource Trustee Agencies (including the state Department of Toxics Substances Control and Department of Fish and Game and the federal Fish and Wildlife Service, Department of the Interior and National Oceanic and Atmospheric Administration) may also be required, particularly if the release of a hazardous substance may impact surface waters.

The ESLs should not be used to determine when impacts at a site should be reported to a regulatory agency. All releases of hazardous substances to the environment should be reported to the appropriate regulatory agency in accordance with governing regulations. The lookup tables will be updated on a regular basis, as needed, in order to reflect changes in the referenced sources as well as lessons gained from site investigations and field observations.

Table A. Environmental Screening Levels (ESLs)
Shallow Soils (≤3m bgs)
Groundwater is Current or Potential Source of Drinking Water

	[1]Shallow Soil		
Chemical	**[2]Residential Land Use (mg/kg)**	**Commercial/ Industrial Land Use Only (mg/kg)**	**[3]Groundwater (ug/L)**

Notes:

1. Shallow soils defined as soils less than or equal to 3 meters (approximately 10 feet) below ground surface.
2. Category "Residential Land Use" generally considered adequate for other sensitive uses.
3. Assumes potential discharge of groundwater into a freshwater, marine or estuary surface water system.

Soil ESLs intended to address direct-exposure, groundwater protection, ecologic (urban areas) and nuisance concerns under noted land-use scenarios. **Soil gas data should be collected for additional evaluation of potential indoor-air impacts at sites with areas of VOC-contaminated soil.**

Groundwater ESLs intended to be address drinking water, surface water, indoor-air and nuisance concerns. **Use in conjunction with soil gas screening levels to more closely evaluate potential impacts to indoor-air if groundwater screening levels for this concern approached or exceeded.**

Aquatic habitat goals for bioaccumulation concerns not considered in selection of groundwater goals.

TPH -Total Petroleum Hydrocarbons. TPH ESLs must be used in conjunction with ESLs for related chemicals (e.g., BTEX, PAHs, oxidizers, etc.).

Calculation for Estimating Dissolved-Phase Mass in Groundwater

$Mass_{w} = (Vol)*(C_{avg})*(Por_{s})*UMC$ (kg)

Vol = Volume of Contaminated Groundwater (ft^3)
C_{avg} = Contaminant Concentration in Groundwater (mg/L)
Por_{s} = Soil Porosity (%)
UMC = Unit Mass Conversion = $(1000L/m^3)*(0.02832\ m^3/ft^3)*(1g/1000mg)*(1kg/1000g)$

Vol = ((Plume Length/2)*(Plume Width/2)*3.1416)*Plume Thickness
Vol = ((100.5)*(58.5)*3.1416)*3.0
Vol = 55,410.76 ft^3

C_{avg} = ((49+26)/2)/1000
C_{avg} = 0.0375 mg/L

Por_{s} = 30% (assumed) = 0.30

$Mass_{w}$ = (55410.76)*(0.0375)*(0.30)*UMC
$Mass_{w}$ = 0.018 kg
$Mass_{w}$ = (0.018*2.205) = 0.04 lbs.

Case Closure Summary
Leaking Underground Fuel Storage Tank Program

I. AGENCY INFORMATION

H06664-001 Date: May 18, 1998

Agency Name: County of San Diego, Environmental Health, SAM	Address: PO Box 85261
City/State/ZIP: San Diego, CA 92186-5261	Phone: (619) 338-2222 Fax: (619) 338-2377
Responsible Staff Person: Fitzmaurice	Title: Environmental Health Specialist

II. CASE INFORMATION

Site Facility Name: Palomar Transit Mix		
Site Facility Address: 849 W. Washington Avenue, Escondido, CA 92025		
RB LUSTIS Case No: N/A	Local Case No: H06664-001	LOP Case No: N/A
URF Filing Date: August 7, 1997	SWEEPS No: N/A	
Responsible Parties	Addresses	Phone Number

* Not associated with the release of chemicals/petroleum from the underground storage tank system.
** Associated with laboratory contamination

Comments: After the removal of the underground storage tank (UST), 40 of an estimated 290 cubic yards of petroleum contaminated soil was removed from within the tank excavation and beneath the fuel dispenser. The 40 cubic yards of soil was later placed back into the excavation and at least 2 feet of clean soil was placed on top of it. The area was then repaved.

A Geoprobe was used to collect soil and groundwater samples from 13 bore holes placed in the immediate area of the UST excavation.

IV. CLOSURE

Does completed corrective action protect existing beneficial uses per the Regional Board Basin Plan? Yes

Does completed corrective action protect potential beneficial uses per the Regional Board Basin Plan? Yes

Does corrective action protect public health for current land use? Yes
Case oversight completed based upon the current site use as a workyard/parking lot.

Site Management Requirements: Any contaminated soil excavated as part of subsurface construction work must be managed in accordance with the legal requirements at that time.

Should corrective action be reviewed if land use changes? Yes

Monitoring Wells Decommissioned: N/A | Number Decommissioned: N/A | Number Retained: N/A

List Enforcement Actions Taken: Notice of Corrective Action and Reimbursement Responsibility

List Enforcement Actions Rescinded: None

V. LOCAL AGENCY REPRESENTATIVE DATA

Name: Chuck Pryatel | Title: Chief Site Assessment and Mitigation

Signature: [signature] | Date: 5-20-98

Hydrogeologist Concurrence: Kevin Heaton KMA | Date: 5/18/98

VI. RWQCB NOTIFICATION

Date Submitted to RB: March 30, 1998 | RB Response: Concurrence

RWQCB Staff Name: John Odermatt | Title: Associate Engineering Geologist | Date: March 30, 1998

GROUNDWATER: The compounds in groundwater exceeding Drinking Water Standards (California & Federal) Maximum Contaminant Levels (MCL) are as follows: PCE (MCL of 5 ppb) and Trichloroethene (MCL of 5 ppb).

On March 30, 1998 the RWQCB was informed of the levels of chlorinated compounds in the groundwater. The Board concluded that the chlorinated contamination was not due to the release of chemicals from the underground storage tank.

This document and the related CASE CLOSURE LETTER shall be retained by the lead agency.

Ms. Julie Procopio, P.E.
Engineering Services Director/City Engineer
City of Escondido
Escondido, CA 92025

Subject: **Uniform Closure Letter for Escondido City Maintenance Yard, 475 North Spruce Street, Escondido, California**

Ms. Procopio:

This letter confirms the completion of a site investigation and corrective action for the underground storage tank(s) formerly located at the above-described location. Thank you for your cooperation throughout this investigation. Your willingness and promptness in responding to our inquiries concerning the former underground storage tank(s) are greatly appreciated.

Based on information in the above-referenced file and with the provision that the information provided to this agency was accurate and representative of site conditions, this agency finds that the site investigation and corrective action carried out at your underground storage tank(s) site is in compliance with the requirements of subdivisions (a) and (b) of section 25296.10 of the Health and Safety Code and with corrective action regulations adopted pursuant to section 25299.3 of the Health and Safety Code and that no further action related to the petroleum release(s) at the site is required.

Claims for reimbursement of corrective action costs submitted to the Underground Storage Tank Cleanup Fund more than 365 days after the date of this letter or issuance or activation of the Fund's Letter of Commitment, whichever occurs later, will not be reimbursed unless one of the following exceptions applies:

- Claims are submitted pursuant to section 25299.57, subdivision (k) (reopened UST case); or
- Submission within the timeframe was beyond the claimant's reasonable control, ongoing work is required for closure that will result in the submission of claims beyond that time period, or that under the circumstances of the case, it would be unreasonable or inequitable to impose the 365-day time period.

This notice is issued pursuant to subdivision (g) of section 25296.10 of the Health and Safety Code.

Please be advised that:

1. Any land use changes for the site may require reevaluation to determine if the changes pose an unacceptable risk to public health; and,

2. Any contaminated soil encountered or excavated as part of future subsurface construction/utility work must be managed in accordance with all applicable legal and regulatory requirements.

In the subject line of any response, please include the reference code – T0607399221:**ccheng**. For questions or comments, please contact Mr. Charles Cheng by phone at (619) 521-3378, or by email at charles.cheng@waterboards.ca.gov.

Respectfully,

DAVID W. GIBSON
Executive Officer

Escondido, CA 92025

Dear Mr. Burruss:

RE: UNAUTHORIZED RELEASE #T1464/H02780-001
HIETT MANUFACTURING COMPANY
1035 W. WASHINGTON AVENUE, ESCONDIDO, CA 92025

The site remediation information submitted to this agency by SOTA Environmental Technology, Inc. summarizing the site characterization and mitigation activities at the above referenced location has been reviewed. With the provision that the information provided to this agency was accurate and representative of existing conditions, it is the position of this office that no further action is required at this time.

This information has also been discussed with staff of the Regional Water Quality Control Board (RWQCB). Based on the information submitted and current requirements, the RWQCB concurs with the determination of this agency that no further action is required at this time.

Please be advised that this letter does not relieve you of any liability under the California Health and Safety Code or Water Code for past, present, or future operations at the site. Nor does it relieve you of the responsibility to clean up existing, additional or previously unidentified conditions at the site which cause or threaten to cause pollution or nuisance or otherwise pose a threat to water quality or public health.

Additionally, be advised that changes in the present or proposed use of the site may require further site characterization and mitigation activity. It is the property owner's responsibility to notify this agency of any changes in report content, future contamination findings, or site usage.

Thank you for your efforts in resolving this matter. Please contact Site Assessment and Mitigation, Carol Spangenberg, at (619) 338-2257, if you require additional assistance.

Sincerely,

CHUCK PRYATEL, Division Manager
Site Assessment and Mitigation Division

A325 BOLT TIGHTENING REQUIREMENTS

IT IS THE RESPONSIBILITY OF THE ERECTOR TO INSURE PROPER BOLT TIGHTNESS IN ACCORDANCE WITH APPROPRIATE REGULATIONS. THE FOLLOWING CRITERIA IS IN COMPLIANCE WITH THE LATEST SPECIFICATIONS, HOWEVER THE ERECTOR IS RESPONSIBLE TO VERIFY LOCAL AUTHORITY REQUIREMENTS.
ALL CONNECTIONS MADE WITH A325 BOLTS MAY BE TIGHTENED TO THE "SNUG TIGHT" CONDITION AS PERMITTED BY THE SPECIFICATION FOR STRUCTURAL JOINTS USING A325 OR A490 BOLTS (2004 ED), UNLESS INDICATED AS "PRE-TENSIONED" ELSEWHERE IN THESE DRAWINGS, OR AS INDICATED BELOW.

PRE-TENSION BOLTS ON PRIMARY FRAMING, BOLTED BRACING, AND STRUT CONNECTIONS IF LOCATED IN IBC SEISMIC PERFORMANCE / DESIGN CATEGORY D, E OR F, UBC ZONE 3 OR 4, NBCC ZONES 3 OR GREATER. SEE CODES AND LOADS NOTES BELOW FOR SEISMIC DESIGN CATEGORY.

PRE-TENSION BOLTS ON PRIMARY FRAMING, BOLTED BRACING, STRUTS AND CRANE RUNWAY CONNECTIONS IF BUILDING SUPPORTS A CRANE WITH A CAPACITY GREATER THAN 5 TONS.

CONNECTIONS THAT SUPPORT RUNNING MACHINERY AND OTHER SOURCES OF IMPACT OR STRESS REVERSAL MUST BE PRE-TENSIONED.

ALL SLIP CRITICAL CONNECTIONS AS INDICATED IN THESE DRAWINGS WITH -SC DESIGNATION MUST BE PRE-TENSIONED. SC TYPE CONNECTIONS MUST BE FREE OF PAINT, OIL OR OTHER MATERIALS THAT REDUCE THE FRICTION AT CONTACT SURFACES.

SECONDARY MEMBERS AND FLANGE BRACE CONNECTIONS ARE ALWAYS "SNUG TIGHTENED", EVEN IF ABOVE CONDITIONS EXIST, UNLESS SPECIFICALLY NOTED OTHERWISE ON DETAILS.
WASHERS ARE NOT REQUIRED FOR "SNUG-TIGHT" CONNECTIONS. PRE-TENSIONED CONNECTIONS TIGHTENED USING THE TURN-OF-THE-NUT METHOD DO NOT REQUIRE WASHERS.

CODES AND LOADS

WHEN MULTIPLE BUILDINGS ARE INVOLVED, SPECIFIC LOAD FACTORS FOR DIFFERING OCCUPANCIES, BUILDING DIMENSIONS, HEIGHTS, FRAMING SYSTEMS, ROOF SLOPES, ETC., MAY RESULT IN DIFFERENT LOAD APPLICATION FACTORS THAN INDICATED BELOW. SEE CALCULATIONS FOR FURTHER DETAILS.

Building Code: 2001 California Building Code
Based on Building Code: 1997 Uniform Building Code
Escondido Fire: Building Use:Standard Occupancies, Collateral Gravity: 5.00 psf (Not including bldg wt)
LIVE LOADS AND RAINFALL
Live Load 20.00 psf (Reducible)
Rainfall: 0.00 inches per hour

SNOW LOAD
Ground Snow: 0.00 psf, Flat Roof Snow: 0.00 psf
Snow Exposure Category (Factor): 1 Fully Exposed (0.60)
Snow Importance: 1.000

WIND LOAD
Wind Speed: 70.00 mph, Wind Exposure: C
Basic Wind Pressure: 13.59 psf
Wind Importance Factor: 1.000,
Wind Enclosure: Enclosed
Note: All windows, doors, skylights and other covered openings must be designed for the specified above wind loads

PROJECT	Escondido Fire	PAGE	1
BUILDERS PO#		VPC VERSION	5.6a
FILENAME	Escondido Fire.VPC		

B06-2484

BUILDER/CONTRACTOR RESPONSIBILITIES

VP Buildings follows the guidelines as outlined in the AISC and MBMA Codes of Standard Practice. VP Buildings standard product specifications, design, fabrication, quality criteria shall govern all work unless stipulated otherwise in the contract documents. In case of discrepancies between VP Buildings structural plans and plans for other trades, VP Building structural plans shall govern.

It is the responsibility of the Builder to obtain approvals and permits from all governing agencies and jurisdictions as required. Approval of VP Building drawings constitutes the builders acceptance of VP interpretation of the contract purchase order. Unless specific design criteria concerning interface design and details are furnished as part of the contract, VP Buildings design assumptions shall govern.

VP engineers are not Project Engineers or Engineer of Record for the overall project. VP engineering supply sealed engineering design data and drawings for VP supplied material as part of the overall project for use by others to obtain permits, approvals, and coordinate with other trades. The Builder or A/E firm are responsible for the overall project coordination, including coordination with appropriate inspection and testing agencies. All interface and/or compatibility of any materials not furnished by VP are to be considered and coordinated by the builder or A/E firm.

CONSTRUCTION & ERECTION RESPONSIBILITY

The Builder is responsible for construction in strict accordance with VP Buildings "FOR CONSTRUCTION" drawings and all applicable product installation guides. VP is not responsible for work done from any other VP drawings that are not marked "FOR CONSTRUCTION", nor any drawings prepared by others.

As erected plumb tolerance of any member shall not exceed 1/300, except in Canada. Erection tolerances for Canadian projects shall be as specified in CSA S16-01 Clause 29.7

The building erector shall be properly licensed and experienced in erecting metal building systems. The Builder is responsible for having knowledge of, and shall comply with, all OSHA requirements and all other governing site safety criteria. The builder is responsible for designing, supplying, locating and installing temporary supports and bracing during erection of the building. VP bracing is designed for code required loads after building completion and shall not be considered as adequate erection bracing. See VP Builder Memo #BM-006.

EXISTING STRUCTURES

VP must be advised of any existing structure that is within 20 ft. of VP's building. Loadings of both buildings may be affected when adjacent buildings are within this distance. VP cannot be responsible for the design or loading of existing buildings.

BRACING

Tension brace rods work in pairs to balance forces caused by initial tensioning. Care must be taken while tightening brace rods so as not to cause accidental or misalignment of components. All rods must be installed loose and then tightened. Rods should not exhibit excessive sag. For long or heavy rods, or angles it may be necessary to support the rod at mid-bay by suspending it from a secondary member.

Bracing for seismic or wind loading of objects or equipment that are not a part of the VP structure must be designed by a qualified professional to deliver lateral loads to primary frames and rod bracing struts. Equipment bracing and suspension connections must not impose torsion or minor axis loads, or cause local distortion in any VP components. VP accepts no responsibility for design or installation of bracing systems not furnished by VP.

FIELD WELDING

All field welding shall be done at the direction of a design professional, and done in accordance with governing requirements (AWS in USA, CWB in Canada) by welders qualified to perform the welding as directed by the applicable welding procedure specification (WPS). A WPS shall be prepared by the contractor for each welding variation specified. Unless otherwise approved, use E70ksi yield, low hydrogen electrodes. The contractor shall provide for any special welding inspection as required by code.

DELIVERIES

It is the responsibility of the builder to have adequate equipment available at the job site to unload trucks in a safe and timely manner. The Builder will be responsible for all retention charges from carriers as a result of job site unloading delays.

Per VP Builder Memo #BM-001, claims for damage or losses MUST be noted on the Bill-of-Lading or delivery receipt and filed against the carrier by the consignee as per VP's Terms of Sales (F.O.B. Plant) under the Uniform Commercial Code. It is critical that damages or loss be noted on the Bill-of-Lading or you have little recourse with the carrier. Immediately upon delivery of material, material quantities are verified by the Builder against quantities billed on the shipping document. Neither the Manufacturer nor the carrier is responsible for material shortages against quantities billed on the shipping document if such shortages are not noted on the shipping documents upon delivery of material and acknowledged by the carriers agent. For materials concealed in bundles, boxes, or crates, shortages must be reported immediately upon unpacking. Should products get wet, bundled and crated materials must be unpacked and unbundled immediately to provide drainage of trapped moisture.

SEALANTS

Sealants shall be applied in strict accordance with VP details or weather tightness will be compromised. Sealant must be applied in temperatures and weather conditions consistent with labeling.

Butyl Sealants - Service Temperature Range (Degrees): Min -40F (-40C), Max 200F (104C)
Tape sealants - Service Temperature Range (Degrees): Min -60F (-50C); Max 212F (100C)

INDEPENDENT MEZZANINES

Independent mezzanines must be designed by a professional engineer. The engineer must ensure that proper isolation from the VP building has been provided to avoid structural damage due to differential movements, or inadvertently apply loads to the VP structure. VP accepts no responsibility for the design of the independent mezzanine.

FIRE CODE COMPLIANCE

It is the responsibility of the project design professional and builder to comply with local fire code regulations including consideration of, but not limited to, building use and occupancy, all building construction materials, separation requirements, egress requirements, fire protection systems, etc. Builder shall advise VP of any special requirements to be furnished by VP.
SSR roof fire tested to ASTM E108-93-Class A rating.
VP steel roof systems are defined by IBC as Fire Class A roof assemblies (Sec 1505.2).
VP SSR steel roof systems are available for FM Class 1 fire rating.
UL 263 approved fire rated assemblies listed as Design No. P265, P268 and P516.

FIELD MODIFICATIONS

Modifications to this building from details and instructions contained on these drawings must be approved in writing by VP Building engineers, or other licensed structural engineer. This includes, but is not limited to, removal of roof or wall cladding, removing or moving any flange braces or rod braces, cutting of openings for doors, windows or RTU's, correction of fabrication errors, etc. The owner shall not impose loads to this structure beyond what is specified for this building in the contract documents. VP Buildings, Inc. accepts no responsibility for the consequences of any unauthorized additions, alterations, or added loads to this structure.

Per VP Builder Memo #BM-001, if the builder intends to invoice VP Buildings for modifications in excess of $1000, the builder must notify VP Buildings immediately, and obtain a Work Authorization from VP Buildings prior to proceeding. All final claims must be submitted to VP Buildings with all supporting documentation within 30 days of the building completion. Claims submitted without work authorizations, or after 30 days will not be accepted. Correction of minor misfits, shimming and plumbing, moderate amount of reaming, drilling, chipping / cutting and minor welding are considered by Code of Standard Practice to be part of erection are not subject to claim reimbursement.

CONCRETE/MASONRY/CONVENTIONAL STUD WALLS

The engineer responsible for the design of the wall system is responsible for coordinating with, or specifying to VP Buildings, any wall to steel compatibility issues such as drift and deflection compatibility, special base details, and wall to VP steel connections. All fasteners, sealant and counter flashing of wall systems are to be provided by contractor. The engineer responsible for the wall shall design the anchorage to VP supporting elements consistent with Code required forces including ASCE7-05 Sec. 12.11

PANELS

Oil canning is an inherent characteristic of cold formed steel panels. It is the result of several factors that include induced stresses in the raw material delivered to VP, fabrication methods, installation procedures, and post installation thermal forces. Thru fastened panels will exhibit some dimpling when installed, especially when insulation is installed between panels and secondary supports. Dimpling can be minimized by careful installation, taking care not to over drive fasteners.

Roof rumble is a phenomenon that is caused by wind gusts lifting up on the roof panels and then springing back into place. All panels experience this action to some degree, especially with concealed clip panels such as SSR and SLR. Roof rumble noise may be minimized by providing a layer of blanket insulation between the panels and any hard support surface such as steel secondary members, substrates such as plywood, steel decking, or rigid board insulation. A minimum of 3 inch thick blanket is recommended over steel secondary members, or 2 inch over substrates.

Oil canning, dimpling, and roof rumble do not affect the structural integrity or weather tightness of the panels and is not grounds for rejection of panels.

The SSR/SLR joint detail is designed with an interlocking feature for ease of installation. However, it is imperative that installed SSR/SLR panels be secured to the secondary structural members and properly seamed prior to departure from the job site each day.

SKYLIGHTS

VP's Tuflites and VP's domed skylight have been tested to support a 300 lb. load over a 1 sq. ft., area, as well as uniform gravity and uplift load test. Local building departments may require added fall restraint due to conditions that may affect the skylight structural integrity. It is the responsibility of the builder to determine and provide any added fall restraint under the skylight as may be required by your building department.

RAIN WATER RUNOFF

Drainage systems must be designed by the project professional to comply with code requirements. VP is not responsible for drainage designs, overflow scuppers, down piping, etc. The project professional and contractor are responsible to ensure that primary drains and overflow devices such as scuppers and auxiliary drains are provided as required for the required rain intensity at the building perimeter and at valley conditions to prevent ponding.

STEEL SHOP COAT

The purpose of VP's shop coat is to provide protection for the steel members during transportation, during temporary job site storage and during erection. Standard shop formulation is not designed to perform as a finish coat when exposed to environmental conditions. Members shall be kept free of the ground and properly drained during job site storage. It is the Builder's responsibility to ensure that if a finish coat is being applied over VP shop coat that the painting contractor verifies compatibility between his finish coat and VP's shop coat. See VP Builder Memo #BM-001 & #BM-002.

FOUNDATION NOTES

1) Foundation design is based upon an allowable soil bearing bearing value of 1000 psf. Design assumes no expansive soils or other adverse soil conditions.

2) All footings to be poured monolithic with slab (one-pour system) U.N.O., contractor to coordinate with architect if two-pour system is used.

3) Contractor to verify all dimensions and conditions prior to starting work, any discrepancies to be brought to the architects attention immediately.

4) Typical slab on grade to be minimum 5" thick, with #3 bars at 18" o.c. each way (locate at slab centerline), over 2" sand over 10-mil visqueen vapor barrier over 2" clean sand base.

5) For trenching near footings, see detail 4.

6) For typical stepped wall footing, see detail 5.

7) For typical reinforcing at corner conditions, see detail 6.

8) For minimum bar bends at reinforcing steel, see detail 7.

9) Footings near cut/ fill slopes shall maintain 8' to daylight from bottom of footing, U.O.N.

10) Contractor to verify all underground existing utilities prior to starting work.

11) All surface water shall drain away from building.

GENERAL STRUCTURAL NOTES

1. The general contractor shall verify all dimensions and conditions at the job site, and shall be responsible for conditions of all work and materials, including those furnished by sub-contractors.

2. Discrepancies and/or variations shall immediately be reported to the architect.

3. Details shown on drawings apply at all like conditions.

4. All materials and workmanship shall be performed in accordance with local standards and to the applicable provisions of the 2001 California Building Code.

5. Where continuous inspection is required by these plans, a registered deputy inspector, approved by, and responsible to the architect and Building Department, shall be employed by the owner.

6. The contract structural drawings and specifications represent the finish structure. Unless otherwise indicated, they do not indicate the method of construction. The contractor shall provide all measures necessary to protect the structure, workmen, and other persons during construction. Such measures shall include, but not be limited to, bracing, shoring for construction equipment, shoring for the building, shoring for the earth banks, forms, scaffolding, planking, safety nets, support and bracing for cranes and gin poles, etc. The contractor shall supervise and direct the work and he shall be solely responsible for all construction means, methods, techniques, sequences and procedures. Observation visits to the site by the architect or the engineer, shall not include inspection of the above items.

7. These drawings show only representative and typical details to assist the contractor. The drawings do not illustrate every condition. All attachments, connections, fastening, etc. to be properly secured in conformance with best practice, and the contractor is responsible for providing and installing them.

8. Do not scale drawings. Use figured dimensions only; report all discrepancies to the architect immediately.

CONCRETE

1. Concrete shall have a minimum ultimate compressive strength at 28 days as follows:
   a. Foundations.....2500 psi 4" max. Slump per ASTM C143
   b. Slabs on grade.....2500 psi 4" max. Slump per ASTM C143

Note: No Special Inspection required
Use Type II/V cement with a water cement ratio not more than .45.

2. Refer to mechanical, electrical, and plumbing drawings for location of all pipes, conduits, etc. No pipes or ducts shall be placed in concrete beams, footings, etc., unless specifically detailed in these plans.

3. Metal Reinforcing:
   a. Bar diameters of #4 and greater.....ASTM A615 Grade 60
   b. Bar diameters of #3 and smaller.....ASTM A615 Grade 40
   c. Welded wire fabric.....ASTM A185
   d. All reinforcing shall be detailed in accordance with the latest ACI standards.
   e. Unless otherwise noted all lap splices shall be:
      30 bar diameters or 18" min. in concrete
      40 bar diameters or 24" min. in masonry
   f. Minimum Cover For Reinforcing:
      1) On earth side when placed against earth.....3"
      2) On earth side when formed.....2"
      3) Exterior wall steel.....1-½"
      4) Welded wire fabric.....Center Line of Slab

4. Welding of reinforcing steel to be.....ASTM A706 Grade 60

5. All inserts into concrete to be tied in place prior to calling for Building Department inspection.

6. At the time concrete is placed, steel reinforcing shall be free from rust, scale, loose mill scale, oil, paint and other coatings which prevent bond between steel and concrete.

7. If contractor intends to make a construction joint other than shown on drawings, he shall submit details to owner or owners representative before starting work.

To: City of Escondido
Building Department

Date: December 18, 2006

Reg: Escondido Fire
905 W. Washington

This letter is in regards to the above referenced project. As requested, by the City of Escondido Building Department, the foundation design for this project is based upon my structural calculations and Varco-Pruden building reaction package and building drawings provided.

If you should have any questions regarding this letter, or need any further clarification, please do not hesitate to call me.

Sincerely,

John J. Schmit

GENERAL STRUCTURAL NOTES

1. The general contractor shall verify all dimensions and conditions at the job site, and shall be responsible for conditions of all work and materials, including those furnished by sub-contractors.

2. Discrepancies and/or variations shall immediately be reported to the architect.

3. Details shown on drawings apply at all like conditions.

4. All materials and workmanship shall be performed in accordance with local standards and to the applicable provisions of the 2001 California Building Code.

5. Where continuous inspection is required by these plans, a registered deputy inspector, approved by, and responsible to the architect and Building Department, shall be employed by the owner.

6. The contract structural drawings and specifications represent the finish structure. Unless otherwise indicated, they do not indicate the method of construction. The contractor shall provide all measures necessary to protect the structure, workmen, and other persons during construction. Such measures shall include, but not be limited to, bracing, shoring for construction equipment, shoring for the building, shoring for the earth banks, forms, scaffolding, planking, safety nets, support and bracing for cranes and gin poles, etc. The contractor shall supervise and direct the work and he shall be solely responsible for all construction means, methods, techniques, sequences and procedures. Observation visits to the site by the architect or the engineer, shall not include inspection of the above items.

7. These drawings show only representative and typical details to assist the contractor. The drawings do not illustrate every condition. All attachments, connections, fastening, etc. to be properly secured in conformance with best practice, and the contractor is responsible for providing and installing them.

8. Do not scale drawings. Use figured dimensions only; report all discrepancies to the architect immediately.

REQUIRED SPECIAL INSPECTIONS

In addition to the regular inspections, the following checked items will also require Special Inspection in accordance with the Uniform Building Code.

Item	Required IF Checked	Remarks
Soils compliance prior to foundation inspection		
Structural concrete over 2500 psi		No Special Inspections required All concrete f'c = 2500 psi
Prestressed steel		
Field welding		
High strength bolts		
Expansion anchors		
Special masonry		
Sprayed on fire proofing		
Piles / Caissons		
Designer - specified		
Other		

FOUNDATION NOTES

1) Foundation design is based upon an allowable soil bearing bearing value of 1000 psf. Design assumes no expansive soils or other adverse soil conditions.

2) All footings to be poured monolithic with slab (one-pour system) U.N.O., contractor to coordinate with architect if two-pour system is used.

3) Contractor to verify all dimensions and conditions prior to starting work, any discrepancies to be brought to the architects attention immediately.

4) Typical slab on grade to be a minimum 5.5" thick, with #3 bars at 18" o.c. each way (locate at slab centerline), over 2" sand over 10-mil visqueen vapor barrier over 2" clean sand base.

5) For trenching near footings, see detail 4.

6) For typical stepped wall footing, see detail 5.

7) For typical reinforcing at corner conditions, see detail 6.

8) For minimum bar bends at reinforcing steel, see detail 7.

9) Footings near cut/ fill slopes shall maintain 8' to daylight from bottom of footing, U.O.N.

10) Contractor to verify all underground existing utilities prior to starting work.

11) All surface water shall drain away from building.

CONCRETE

1. Concrete shall have a minimum ultimate compressive strength at 28 days as follows:
   a. Foundations.....2500 psi 4" max. Slump per ASTM C143
   b. Slabs on grade.....2500 psi 4" max. Slump per ASTM C143
      Note: no special inspections required
   Use Type II/V cement with a water cement ratio not more than .45.

2. Refer to mechanical, electrical, and plumbing drawings for location of all pipes, conduits, etc. No pipes or ducts shall be placed in concrete beams, footings, etc., unless specifically detailed in these plans.

3. Metal Reinforcing:

   a. Bar diameters of #4 and greater.....ASTM A615 Grade 60

   b. Bar diameters of #3 and smaller.....ASTM A615 Grade 40

   c. Welded wire fabric.....ASTM A185

   d. All reinforcing shall be detailed in accordance with the latest ACI standards.

   e. Unless otherwise noted all lap splices shall be:
      30 bar diameters or 18" min. in concrete
      40 bar diameters or 24" min. in masonry

   f. Minimum Cover For Reinforcing:

      1) On earth side when placed against earth.....3"

      2) On earth side when formed.....2"

      3) Exterior wall steel.....1-1/2"

      4) Welded wire fabric.....Center Line of Slab

4. Welding of reinforcing steel to be.....ASTM A706 Grade 60

5. All inserts into concrete to be tied in place prior to calling for Building Department inspection.

6. At the time concrete is placed, steel reinforcing shall be free from rust, scale, loose mill scale, oil, paint and other coatings which prevent bond between steel and concrete.

7. If contractor intends to make a construction joint other than shown on drawings, he shall submit details to owner or owners representative before starting work.

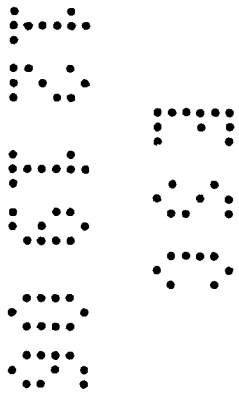
Maximum Frame Deflection Summary for Cross Section: D

Description	Deflection (in.)	Ratio	Member	Joint	Load Case	Load Case Description
Max. Horizontal Deflection	-1.991	(H/88)	4	2	6	W1>
Max. Vertical Deflection for Span 1	-0.005	(L/34232)	2	2	5	<EB

* Negative horizontal deflection is left
* Negative vertical deflection is down

Lateral deflections of primary frames are calculated on a bare frame basis and do not include resistance from systems such as roof and endwall diaphragms. Therefore, these deflections may be considerably overstated.



Secondary - Summary Report

Loads and Codes - Shape: Escondido Fire

City: **County:** **State:** **Country:**

Building Code: 2001 California Building Code
Based on Building Code: 1997 Uniform Building Code
Building Use: Standard Occupancies
Built Up: 89AISC
Cold Form: 04AISI
Rainfall: 0.00 inches per hour

Dead and Collateral Loads
Collateral Gravity:5.00 psf
Collateral Uplift: 0.00 psf

Roof Covering + Second. Dead Load: 1.91 psf
Frame Weight (assumed for seismic):2.50 psf

Live Load
Live Load: 20.00 psf Reducible

Wind Load
Wind Speed: 70.00 mph
Wind Exposure (Factor): C (1.083)
Parts Wind Exposure Factor: 1.083

Wind Enclosure: Enclosed
Wind Importance Factor: 1.000
Base Elevation: 0/0/0
Primary Zone Strip Width: N/A
Parts / Portions Zone Strip Width: 4/0/0
Basic Wind Pressure: 13.59 psf

Snow Load
Ground Snow Load: 0.00 psf
Design Snow (Sloped): 0.00 psf
Snow Exposure Category (Factor): 1 Fully Exposed (1.00)
Snow Importance: 1.000
Ground / Roof Conversion: 1.00
% Snow Used in Seismic: 0.00
Seismic Snow Load: 0.00 psf

Seismic Load
Seismic: Zone 4
Seismic Importance: 1.000
Framing Seismic Period: 0.2800

Bracing Seismic Period: 0.1600
Framing R-Factor: 4.5000
Bracing R-Factor: 4.5000
Source Type: Other than A and C
Source Distance: 10.00 km
Soil Profile Type: Stiff soil (D, 4)
Frame Redundancy Factor:1.0000
Brace Redundancy Factor:1.2330
Frame Seismic Factor (Cs): 0.2444 x W
Brace Seismic Factor (Cs): 0.2444 x W

Per Article 2.9 in the Builder Agreement, VP Buildings assumes that the Builder has called the local Building Official or Project Engineer to obtain all code and loading information for this specific building site.

Framing - Summary Report

Loads and Codes - Shape: Escondido Fire

City: **County:** **State:** **Country:**

Building Code: 2001 California Building Code
Based on Building Code: 1997 Uniform Building Code
Building Use: Standard Occupancies
Built Up: 89AISC
Cold Form: 04AISI
Rainfall: 0.00 inches per hour

Dead and Collateral Loads
Collateral Gravity:5.00 psf
Collateral Uplift: 0.00 psf

Roof Covering + Second. Dead Load: 1.91 psf
Frame Weight (assumed for seismic):2.50 psf

Live Load
Live Load: 20.00 psf Reducible

Wind Load
Wind Speed: 70.00 mph
Wind Exposure (Factor): C (1.083)
Parts Wind Exposure Factor: 1.083

Wind Enclosure: Enclosed
Wind Importance Factor: 1.000
Base Elevation: 0/0/0
Primary Zone Strip Width: N/A
Parts / Portions Zone Strip Width: 4/0/0
Basic Wind Pressure: 13.59 psf

Snow Load
Ground Snow Load: 0.00 psf
Design Snow (Sloped): 0.00 psf
Snow Exposure Category (Factor): 1 Fully Exposed (1.00)
Snow Importance: 1.000
Ground / Roof Conversion: 1.00
% Snow Used in Seismic: 0.00
Seismic Snow Load: 0.00 psf

Seismic Load
Seismic: Zone 4
Seismic Importance: 1.000
Framing Seismic Period: 0.2800

Bracing Seismic Period: 0.1600
Framing R-Factor: 4.5000
Bracing R-Factor: 4.5000
Source Type: Other than A and C
Source Distance: 10.00 km
Soil Profile Type: Stiff soil (D, 4)
Frame Redundancy Factor:1.0000
Brace Redundancy Factor:1.2330
Frame Seismic Factor (Cs): 0.2444 x W
Brace Seismic Factor (Cs): 0.2442 x W

Deflection Conditions
Frames are vertically supporting:Metal Roof Purlins and Panels
Frames are laterally supporting:Metal Wall Girts and Panels
Purlins are supporting:Metal Roof Panels
Girts are supporting:Metal Wall Panels

Per Article 2.9 in the Builder Agreement, VP Buildings assumes that the Builder has called the local Building Official or Project Engineer to obtain all code and loading information for this specific building site.

Maximum Frame Deflection Summary for Cross Section: 1

Description	Deflection (in.)	Ratio	Member	Joint	Load Case	Load Case Description
Max. Horizontal Deflection	-0.020	(H/9084)	8	2	3	<E
Max. Vertical Deflection for Span 1	0.043	(L/2144)	2	2	1	L
Max. Vertical Deflection for Span 2	-0.633	(L/436)	5	1	1	L
Max. Vertical Deflection for Span 3	0.043	(L/2144)	7	1	1	L

* Negative horizontal deflection is left
* Negative vertical deflection is down

Lateral deflections of primary frames are calculated on a bare frame basis and do not include resistance from systems such as roof and endwall diaphragms. Therefore, these deflections may be considerably overstated.

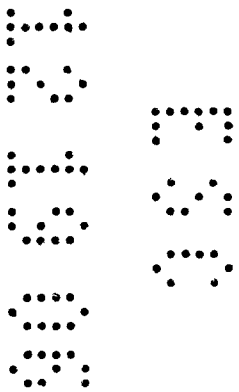
Maximum Frame Deflection Summary for Cross Section: 2

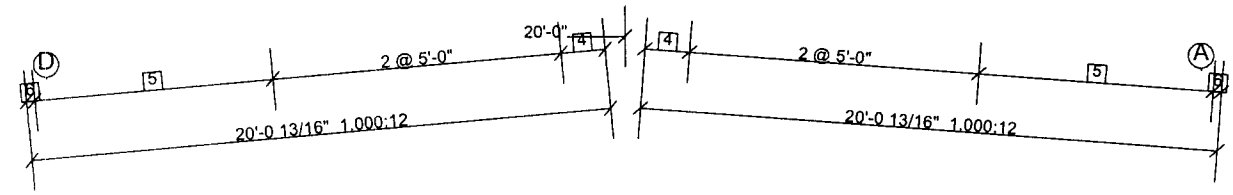
Description	Deflection (in.)	Ratio	Member	Joint	Load Case	Load Case Description
Max. Horizontal Deflection	-1.627	(H/110)	4	2	3	<E
Max. Vertical Deflection for Span 1	-1.365	(L/331)	3	1	1	L

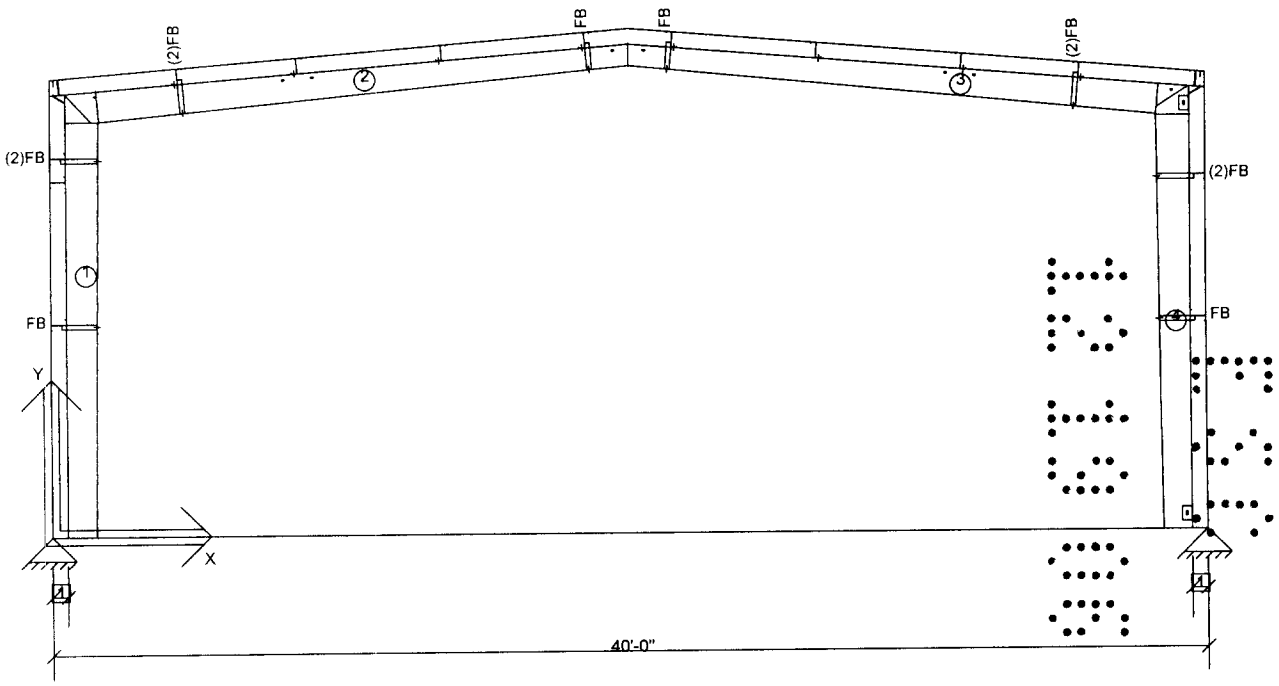
* Negative horizontal deflection is left
* Negative vertical deflection is down

Lateral deflections of primary frames are calculated on a bare frame basis and do not include resistance from systems such as roof and endwall diaphragms. Therefore, these deflections may be considerably overstated.



Wall: 4, Frame at: 34/0/0
Frame Cross Section: 3





Dimension Key
1 6 1/2"
2 9 3/4"
3 2'-9"
4 1'-6 9/16"
5 2 @ 4'-1 3/8"
6 3 1/2"
7 3'-6 3/4"
8 17'-8"

Frame Clearances
Horiz. Clearance between members 1(CX003) and 4(CX004): 36'-7"
Vert. Clearance at member 1(CX003): 14'-6 1/8"
Vert. Clearance at member 4(CX004): 14'-6 1/8"
Finished Floor Elevation = 100'-0" (Unless Noted Otherwise)

Maximum Frame Deflection Summary for Cross Section: 3

Description	Deflection (in.)	Ratio	Member	Joint	Load Case	Load Case Description
Max. Horizontal Deflection	-1.651	(H/109)	4	2	3	<E
Max. Vertical Deflection for Span 1	-1.386	(L/326)	2	2	1	L

* Negative horizontal deflection is left
* Negative vertical deflection is down

Lateral deflections of primary frames are calculated on a bare frame basis and do not include resistance from systems such as roof and endwall diaphragms. Therefore, these deflections may be considerably overstated.

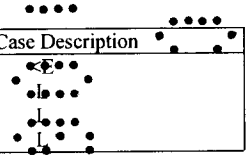
Maximum Frame Deflection Summary for Cross Section: 5

Description	Deflection (in.)	Ratio	Member	Joint	Load Case	Load Case Description
Max. Horizontal Deflection	-0.020	(H/9084)	8	2	3	E>
Max. Vertical Deflection for Span 1	0.043	(L/2144)	2	2	1	L
Max. Vertical Deflection for Span 2	-0.633	(L/436)	5	1	1	L
Max. Vertical Deflection for Span 3	0.043	(L/2144)	7	1	1	L



* Negative horizontal deflection is left
* Negative vertical deflection is down
Lateral deflections of primary frames are calculated on a bare frame basis and do not include resistance from systems such as roof and endwall diaphragms. Therefore, these deflections may be considerably overstated.

Covering - Summary Report
Shape: Escondido Fire

Loads and Codes - Shape: Escondido Fire

City: **County:** **State:** **Country:**
Building Code: 2001 California Building Code
Based on Building Code: 1997 Uniform Building Code
Building Use Standard Occupancies
Built Up: 89AISC
Cold Form: 04AISI
Rainfall: 0.00 inches per hour

Dead and Collateral Loads
Collateral Gravity:5.00 psf
Collateral Uplift: 0.00 psf

Roof Covering + Second. Dead Load: 1.91 psf
Frame Weight (assumed for seismic):2.50 psf

Live Load
Live Load: 20.00 psf Reducible

Wind Load
Wind Speed: 70.00 mph
Wind Exposure (Factor): C (1.083)
Parts Wind Exposure Factor: 1.083

Wind Enclosure: Enclosed
Wind Importance Factor: 1.000
Base Elevation: 0/0/0
Primary Zone Strip Width: N/A
Parts / Portions Zone Strip Width: 4/0/0
Basic Wind Pressure: 13.59 psf

Snow Load
Ground Snow Load: 0.00 psf
Design Snow (Sloped): 0.00 psf
Snow Exposure Category (Factor): 1 Fully Exposed (1.00)
Snow Importance: 1.000
Ground / Roof Conversion: 1.00
% Snow Used in Seismic: 0.00
Seismic Snow Load: 0.00 psf

Seismic Load
Seismic: Zone 4
Seismic Importance: 1.000
Framing Seismic Period: 0.2800
Bracing Seismic Period: 0.1600
Framing R-Factor: 4.5000
Bracing R-Factor: 4.5000
Source Type: Other than A and C
Source Distance: 10.00 km
Soil Profile Type: Stiff soil (D, 4)
Frame Redundancy Factor:1.0000
Brace Redundancy Factor:1.2330
Frame Seismic Factor (Cs): 0.2444 x W
Brace Seismic Factor (Cs): 0.2444 x W

Per Article 2.9 in the Builder Agreement, VP Buildings assumes that the Builder has called the local Building Official or Project Engineer to obtain all code and loading information for this specific building site.

Letter of Certification

Contact:
Name: MW Construction, Inc.
Address: 615 N Citracado Parkway

City, State: Escondido, California 92029
Country: United States

Project: Escondido Fire
Builder PO #:
Jobsite:

City, State:
County, Country:

This is to certify that the above referenced VP BUILDINGS project has been designed for the applicable portions of the following Building Code and in accordance with the order documents which have stipulated the following applied environmental loads and conditions:

Overall Building Description

Shape	Overall Width	Overall Length	Floor Area (sq. ft.)	Wall Area (sq. ft.)	Roof Area (sq. ft.)	Max. Eave Height	Min. Eave Height 2	Max. Roof Pitch	Min. Roof Pitch	Peak Height
Escondido Fire	40/0/0	68/0/0	2720	3523	2729	16/0/0	16/0/0	1.000:12	1.000:12	17/8/0

Loads and Codes - Shape: Escondido Fire

City: **County:** **State:** **Country:**
Building Code: 2001 California Building Code
Based on Building Code: 1997 Uniform Building Code
Building Use: Standard Occupancies
Built Up: 89AISC
Cold Form: 04AISI
Rainfall: 0.00 inches per hour

Dead and Collateral Loads
Collateral Gravity:5.00 psf
Collateral Uplift: 0.00 psf
Roof Covering + Second. Dead Load: 1.91 psf
Frame Weight (assumed for seismic):2.50 psf

Live Load
Live Load: 20.00 psf Reducible

Wind Load
Wind Speed: 70.00 mph
Wind Exposure (Factor): C (1.083)
Parts Wind Exposure Factor: 1.083

Wind Enclosure: Enclosed
Wind Importance Factor: 1.000
Base Elevation: 0/0/0
Primary Zone Strip Width: N/A
Parts / Portions Zone Strip Width: 4/0/0
Basic Wind Pressure: 13.59 psf

Snow Load
Ground Snow Load: 0.00 psf
Design Snow (Sloped): 0.00 psf
Snow Exposure Category (Factor): 1 Fully Exposed (1.00)
Snow Importance: 1.000
Ground / Roof Conversion: 1.00
% Snow Used in Seismic: 0.00
Seismic Snow Load: 0.00 psf

Seismic Load
Seismic: Zone 4
Seismic Importance: 1.000
Framing Seismic Period: 0.2800
Bracing Seismic Period: 0.1600
Framing R-Factor: 4.5000
Bracing R-Factor: 4.5000
Source Type: Other than A and C
Source Distance: 10.00 km
Soil Profile Type: Stiff soil (D, 4)
Frame Redundancy Factor: 1.0000
Brace Redundancy Factor: 1.2330
Frame Seismic Factor (Cs): 0.2444 x W
Brace Seismic Factor (Cs): 0.2444 x W

Per Article 2.9 in the Builder Agreement, VP Buildings assumes that the Builder has called the local Building Official or Project Engineer to obtain all code and loading information for this specific building site.

The steel design is in accordance with VP BUILDINGS standard design practices, which have been established based upon pertinent procedures and recommendations of the following organizations :

American Institute of Steel Construction (AISC)
American Iron and Steel Institute (AISI)
American Welding Society (AWS)
American Society for Testing and Materials (ASTM)
Canadian Standards Association
CSA W59-Welded Steel Construction
Limit State Design of Steel Structures
Metal Building Manufacturers Association (MBMA)
VP Buildings is certified by:
- AISC-MB Certified (Design and Manufacturing)
- CSA A660 Certified (Design and Manufacturing)
- IAS Approved Fabricator
- Canadian Welding Bureau Div. 1 Certified

VP Buildings has designed the structural steel components of this building in accordance with the Building Code, Steel Specifications, and Standards indicated above. Steel components are designed utilizing the following steel grades unless noted otherwise:

3 Plate members fabricated from plate, bar, strip steel or sheets
ASTM A529, A572, A1011 - All Grade 50 ksi
Hot Rolled Shapes (W, S, C, Angles, etc)
ASTM A36, or ASTM A36Mod50, A529, A572, A588, A709, A992-All Grade 50 ksi

Tube and Pipe Sections ASTM A500, Grade B (Fy - 42 ksi pipe, Fy - 46 ksi tube)
Light Gage Sections ASTM A1011 SS Grade 55 ksi, A653 SS Grade 55 ksi
Round Rod Bracing ASTM A572 Grade 65 ksi

This certification DOES NOT apply to the design of the foundation or other on-site structures or components not supplied by VP BUILDINGS, nor does it apply to unauthorized modifications to framing systems provided by VP BUILDINGS.

Furthermore, it is understood that certification is based upon the premise that all components furnished by VP BUILDINGS will be erected or constructed in strict compliance with pertinent documents furnished by VP BUILDINGS.

Sincerely,

_____ P.E. Prepared by: _____ Reviewed by: _____

Subject: Re: Various Agreements

E-MEMO

Liane,
Here's the status, per my files:

State Dept of the Military Right of Entry Indemnification U& License Agreement:Returned, signed, to City March 21, 2001: attached.

NCTD Joint Driveway Easement Maintenance Agreement: Signed Agreement was returned to City in Nov 2001: neither of us have the agreement, but my files shows it to have been recorded as Recorder's Doc. No. 2001-0853936. (pls get copies for us from the Recorder)

NCTD Sewer Easement Agreement: Returned, signed, to City in January, 2002; recorded Jan 15: attached.

Sager Real Property Access: The agreement was recorded in December 2000; because it is an easement deeded to Sager, he receives the original back from the Recorder. A copy is attached.

Ron

>>> Liane Lindgren 05/01/02 10:10AM >>>
Hello Ron. Way back on March 21st Melody sent you an e-mail requesting the return/status of agreements on:

A-2465 Right of Entry Indemnification & License Agreement - Dept. of the Military
A-2526 Joint Driveway Easement maintenance Agreement - North County Transit District
A-2527 Easement Agreement-Sewer - North County Transit District
Real Property Access (APN 187-623-32) Richard N. Sager

Could you please give me an update on these Agreements?

Thank you

Liane

Re: Easement; Easement Maintenance Agreement

Dear Mr. Gerow:

I am enclosing the Easement from North San Diego County Transit Development Board to the City of Escondido, executed by Martin C. Minkoff as Executive Director.

Please send me a copy of the recorded Easement after you receive it back from the Recorder's Office.

Thank you again for your assistance.

Sincerely,

Jim Cunningham

EASEMENT MAINTENANCE AGREEMENT

THIS EASEMENT MAINTENTANCE AGREEMENT ("Agreement") is entered into as of _____, 2001 among THE CITY OF ESCONDIDO ("CITY"), and NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD ("NCTD") with regard to the following:

A. The CITY is the owner of that certain real property located in the City of Escondido, County of San Diego, State of California, more particularly described in Exhibit "A" attached hereto (the "CITY Parcel").

B. NCTD is the owner of that certain real property located in the City of Escondido, County of San Diego, State of California, more particularly described in Exhibit "B" attached hereto (the "NCTD Parcel").

C. The CITY, pursuant to a Joint Driveway Easement dated the same date as this Agreement, granted to NCTD a permanent and perpetual easement over and across that portion of the CITY Parcel more particularly describe in Exhibit "C" attached hereto (the "Easement").

D. The CITY and NCTD each desire to set forth their agreements regarding the maintenance of the Easement.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the CITY and NCTD agree as follows:

1. Maintenance. The CITY shall maintain the Easement in good repair and condition and free of debris. The paved surfaces of the Easement shall be maintained so that the surfaces are level, smooth, and evenly covered with the type of surface material originally installed or a substitute material that is equal in quality, appearance and durability.

2. Reimbursement. Beginning on the first month of NCTD' use of the Easement, NCTD shall reimburse the CITY for forty percent (40%) of the costs of maintaining the Easement,

representing NCTD's proportionate share of the costs of maintaining the Easement. The CITY shall submit an invoice to NCTD on an annual basis for NCTD's proportionate share of the maintenance costs, and NCTD shall reimburse the CITY for such costs within thirty (30) days after receiving the invoice.

3 Maintenance by NCTD. If the CITY fails to maintain the Easement as provided in this Agreement, then NCTD may give written notice ("Correction Notice") to the CITY, setting forth the maintenance items which are not being performed. If the CITY fails to correct the maintenance items within thirty (30) days following the Correction Notice, thenNCTD shall have the right, but not the obligation, to perform the maintenance items set forth in the Correction Notice. If NCTD performs such maintenance items, then the CITY shall reimburse NCTD for sixty percent (60%) of the cost of such maintenance. NCTD shall invoice the CITY for the CITY's proportionate share of the costs of maintenance and the CITY shall reimburse NCTD for such costs within thirty (30) days after receiving the invoice.

4. Fences and Gates. The CITY and NCTD shall each have the right to install fences and gates to secure the entrances to their respective parcels from the Easement. The fences and gates shall not be located in a manner that would prevent the other party to gain access to such party's parcel. The CITY acknowledges that the CITY will need to relocate the CITY's current gate and fence prior to the date that NCTD begins construction of NCTD's planned maintenance facility on the NCTD Parcel in order to allow NCTD to access NCTD's Parcel. The costs of the fences and gates shall be borne by the party who installs the fences and gates.

5. Insurance; Indemnity.

5.1 Liability Insurance. The CITY and NCTD shall each at all times maintain in full force and effect comprehensive public liability insurance written through an insurance company having a Best's rating of B+ or better and licensed to do business in the State of California, meeting the requirements of this section 5 with a policy amount of not less than Two Million Dollars ($2,000,000) (stated on a per occurrence basis). The policy of comprehensive general liability required by this paragraph shall include the following provisions:

(a) The insurance shall not be invalidated by the acts or omissions of other insureds.

(b) The insurance shall not be modifiable or cancelable or non-renewable without 30 days' prior written notice to other party (except in the case of cancellation for non-payment of premium, in which case cancellation shall not take effect until at least 10 days' notice has been given to other party). This provision is hereinafter referred to as "Notice of Modification or Cancellation."

(c) NCTD and its members, employees, and agents shall be named as additional insureds as their interests may appear on the CITY policy, and the CITY and its members,

employees, and agents shall be named as additional insureds as their interests may appear on the NCTD policy.

(d) The insurance shall include comprehensive property and personal liability endorsements.

Notwithstanding any other provision of this Agreement, the CITY or NCTD may self-insurance for any risk set forth in this section 5 in the manner and to the extent that such party self-insures for similar risks with respect to its operations, equipment, and property. The manner in which such self-insurance is provided and the extent of such self-insurance shall be set forth in a Certificate of Self Insurance, delivered to other party and signed by an authorized representative, which fully describes the self-insurance program and how the program covers the risks set forth in this section 5. Insurance provided by a joint powers agency insurance pool shall be considered self-insurance for the purposes of this section. If, at any time during the term of this Agreement, either the CITY or NCTD elects not to self-insure, that party shall comply with all applicable provisions of this section 5 to the extent that that party does not so self-insure.

5.2 Indemnity. Each party ("Indemnifying Party") shall defend, indemnify and hold each other party and their respective officers, employees and directors (collectively, the "Indemnified Parties") harmless from any and all damages, claims, causes of action, costs, expenses or liability arising from, related to, or incurred in connection with the injury to or death of any person or the damage to any property arising from the use of the Easement by the Indemnifying Party's officers, employees, directors, patrons, or invitees unless such liability is caused by the gross negligence or willful acts of an Indemnified Party.

6. Notices. Unless otherwise specifically permitted by this Agreement, all notices and other communications required or permitted under this Agreement shall be in writing, and shall be personally delivered or sent by registered or certified mail, postage prepaid, return receipt requested, and shall be deemed received: (i) if personally delivered, upon the date of delivery to the address of the person to receive such notice, or (ii) if mailed in accordance with the terms of this paragraph, two (2) business days after the date of deposit in the United States mail. Notices shall be given at the following addresses:

if to the CITY: The City of Escondido
201 North Broadway
Escondido, California 92025
Attention: Real Property Agent

if to NCTD: North San Diego County Transit Development Board
801 Mission Avenue
Oceanside California 92054
Attention: Manager of Real Estate

The address for delivery of notices may be changed by either party by giving notice of such change to the other party in accordance with this paragraph.

7. Successors and Assigns. Except as explicitly provided in this Agreement to the contrary, this Agreement shall be binding upon and inure to the benefit of the parties and their respective successors and permitted assigns.

EXECUTED as of the date first written above.

RE: Easement Exchange and Maintenance Agreement

Dear Jim:

Due to an inadvertent clerical error, the signed Maintenance Agreement and signed, notarized Joint Driveway Easement from the City to NCTD was sent to the County Recorder without your acceptance on the easement. The recordation of the easement without the acceptance will not invalidate the easement, but you may want to rerecord it when it is received back from the Recorder.

The recordation numbers for the documents are 2001-0853935 for the easement; 2001-0853936 for the agreement.

As soon as I receive the NCTD-to-City easement from you, I will accept and record it.

Sincerely

Ron Gerow

B. 5. c.

RESOLUTION NO. 2001-271

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ESCONDIDO, CALIFORNIA, AUTHORIZING THE MAYOR AND CITY CLERK TO EXECUTE, ON BEHALF OF THE CITY, AN EASEMENT MAINTENANCE AGREEMENT AND A JOINT DRIVEWAY EASEMENT FOR JOINT USE AND MAINTENANCE OF AN ACCESS SERVING CITY PROPERTY AND NORTH COUNTY TRANSIT DISTRICT PROPERTY, LOCATED AT 901 WEST WASHINGTON AVENUE

(North County Transit District)

WHEREAS, the City-owned real property located at 901 W. Washington Avenue, Escondido, is utilized as a City corporation yard; and

WHEREAS, the adjacent property is owned by the North County Transit District, and will be utilized as a transit maintenance facility; and

WHEREAS, both the City of Escondido and the North County Transit District desire to jointly use an access drive to serve the properties; and

WHEREAS, this City Council desires at this time and deems it to be in the best public interest to grant to the North County Transit District a Joint Driveway Easement, and to approve the Easement Maintenance Agreement providing for such joint use and maintenance;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Escondido, California, as follows:

1. That the above recitations are true.

2. That the Mayor and City Clerk are authorized to execute, on behalf of the City, the Easement Maintenance Agreement and the Joint Driveway Easement. Copies of the Agreement and Easement are attached as Exhibits "1" and "2" and are incorporated by this reference.

Recording requested by
and when recorded return to:

EASEMENT MAINTENANCE AGREEMENT

THIS EASEMENT MAINTENTANCE AGREEMENT ("Agreement") is entered into as of _____, 2001 among THE CITY OF ESCONDIDO ("CITY"), and NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD ("NCTD") with regard to the following:

A. The CITY is the owner of that certain real property located in the City of Escondido, County of San Diego, State of California, more particularly described in Exhibit "A" attached hereto (the "CITY Parcel").

B. NCTD is the owner of that certain real property located in the City of Escondido, County of San Diego, State of California, more particularly described in Exhibit "B" attached hereto (the "NCTD Parcel").

C. The CITY, pursuant to a Joint Driveway Easement dated the same date as this Agreement, granted to NCTD a permanent and perpetual easement over and across that portion of the CITY Parcel more particularly describe in Exhibit "C" attached hereto (the "Easement").

D. The CITY and NCTD each desire to set forth their agreements regarding the maintenance of the Easement.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the CITY and NCTD agree as follows:

1. Maintenance. The CITY shall maintain the Easement in good repair and condition and free of debris. The paved surfaces of the Easement shall be maintained so that the surfaces are level, smooth, and evenly covered with the type of surface material originally installed or a substitute material that is equal in quality, appearance and durability.

2. Reimbursement. Beginning on the first month of NCTD' use of the Easement, NCTD shall reimburse the CITY for forty percent (40%) of the costs of maintaining the Easement,

representing NCTD's proportionate share of the costs of maintaining the Easement. The CITY shall submit an invoice to NCTD on an annual basis for NCTD's proportionate share of the maintenance costs, and NCTD shall reimburse the CITY for such costs within thirty (30) days after receiving the invoice.

3 Maintenance by NCTD. If the CITY fails to maintain the Easement as provided in this Agreement, then NCTD may give written notice ("Correction Notice") to the CITY, setting forth the maintenance items which are not being performed. If the CITY fails to correct the maintenance items within thirty (30) days following the Correction Notice, thenNCTD shall have the right, but not the obligation, to perform the maintenance items set forth in the Correction Notice. If NCTD performs such maintenance items, then the CITY shall reimburse NCTD for sixty percent (60%) of the cost of such maintenance. NCTD shall invoice the CITY for the CITY's proportionate share of the costs of maintenance and the CITY shall reimburse NCTD for such costs within thirty (30) days after receiving the invoice.

4. Fences and Gates. The CITY and NCTD shall each have the right to install fences and gates to secure the entrances to their respective parcels from the Easement. The fences and gates shall not be located in a manner that would prevent the other party to gain access to such party's parcel. The CITY acknowledges that the CITY will need to relocate the CITY's current gate and fence prior to the date that NCTD begins construction of NCTD's planned maintenance facility on the NCTD Parcel in order to allow NCTD to access NCTD's Parcel. The costs of the fences and gates shall be borne by the party who installs the fences and gates.

5. Insurance; Indemnity.

5.1 Liability Insurance. The CITY and NCTD shall each at all times maintain in full force and effect comprehensive public liability insurance written through an insurance company having a Best's rating of B+ or better and licensed to do business in the State of California, meeting the requirements of this section 5 with a policy amount of not less than Two Million Dollars ($2,000,000) (stated on a per occurrence basis). The policy of comprehensive general liability required by this paragraph shall include the following provisions:

(a) The insurance shall not be invalidated by the acts or omissions of other insureds.

(b) The insurance shall not be modifiable or cancelable or non-renewable without 30 days' prior written notice to other party (except in the case of cancellation for non-payment of premium, in which case cancellation shall not take effect until at least 10 days' notice has been given to other party). This provision is hereinafter referred to as "Notice of Modification or Cancellation."

(c) NCTD and its members, employees, and agents shall be named as additional insureds as their interests may appear on the CITY policy, and the CITY and its members,

employees, and agents shall be named as additional insureds as their interests may appear on the NCTD policy.

(d) The insurance shall include comprehensive property and personal liability endorsements.

Notwithstanding any other provision of this Agreement, the CITY or NCTD may self-insurance for any risk set forth in this section 5 in the manner and to the extent that such party self-insures for similar risks with respect to its operations, equipment, and property. The manner in which such self-insurance is provided and the extent of such self-insurance shall be set forth in a Certificate of Self Insurance, delivered to other party and signed by an authorized representative, which fully describes the self-insurance program and how the program covers the risks set forth in this section 5. Insurance provided by a joint powers agency insurance pool shall be considered self-insurance for the purposes of this section. If, at any time during the term of this Agreement, either the CITY or NCTD elects not to self-insure, that party shall comply with all applicable provisions of this section 5 to the extent that that party does not so self-insure.

5.2 Indemnity. Each party ("Indemnifying Party") shall defend, indemnify and hold each other party and their respective officers, employees and directors (collectively, the "Indemnified Parties") harmless from any and all damages, claims, causes of action, costs, expenses or liability arising from, related to, or incurred in connection with the injury to or death of any person or the damage to any property arising from the use of the Easement by the Indemnifying Party's officers, employees, directors, patrons, or invitees unless such liability is caused by the gross negligence or willful acts of an Indemnified Party.

6. Notices. Unless otherwise specifically permitted by this Agreement, all notices and other communications required or permitted under this Agreement shall be in writing, and shall be personally delivered or sent by registered or certified mail, postage prepaid, return receipt requested, and shall be deemed received: (i) if personally delivered, upon the date of delivery to the address of the person to receive such notice, or (ii) if mailed in accordance with the terms of this paragraph, two (2) business days after the date of deposit in the United States mail. Notices shall be given at the following addresses:

if to the CITY: The City of Escondido
201 North Broadway
Escondido, California 92025
Attention: Real Property Agent

if to NCTD: North San Diego County Transit Development Board
801 Mission Avenue
Oceanside California 92054
Attention: Manager of Real Estate

The address for delivery of notices may be changed by either party by giving notice of such change to the other party in accordance with this paragraph.

7. Successors and Assigns. Except as explicitly provided in this Agreement to the contrary, this Agreement shall be binding upon and inure to the benefit of the parties and their respective successors and permitted assigns.

EXECUTED as of the date first written above.

SUBJECT TITLE: JOINT DRIVEWAY EASEMENT AND EASEMENT MAINTENANCE AGREEMENT WITH NORTH COUNTY TRANSIT DISTRICT: 901 W. WASHINGTON AVENUE (CITY CORPORATION YARD)

DESCRIPTION OF REQUEST: Approve.

STAFF RECOMMENDATION: Adopt resolution authorizing the Mayor and City Clerk to sign the easement and agreement..

SOURCE: Department or Division: Engineering

Name of Person Presenting Item: Ron Gerow Ext. #: 4568

AUTHOR: (If different from source)

RESOLUTION: ☒ 2001-271 **ORDINANCE:** ☐

CITY OF ESCONDIDO
City Council

Agenda Item No.:_____
Date: November 14, 2001

TO: Honorable Mayor and City Council

FROM: Patrick Thomas, Director of Public Works

SUBJECT: Joint Driveway Easement and Easement Maintenance Agreement with North County Transit District: 901 W. Washington Avenue (City Corporation Yard)

RECOMMENDATION:

It is recommended that the City Council adopt a resolution authorizing the Mayor and City Clerk to sign the easement and maintenance agreement.

FISCAL ANALYSIS:

The agreement provides that the City will be responsible for 60% of the maintenance costs, with the Transit District covering 40%. This breakdown is based upon the proportionate land area of each agency. Costs of maintenance will be paid out of the Public Works Budget.

GENERAL PLAN ANALYSIS:

In conformance.

PREVIOUS ACTION:

None.

BACKGROUND:

The City-owned real property located at 901 W. Washington Avenue, Escondido is utilized as a City corporation yard and the adjacent property is owned by the North County Transit District, and will be utilized as a transit maintenance facility. Both the City of Escondido and the North County Transit District desire to jointly use an access drive to serve the properties, and the Joint Driveway Easement and Easement Maintenance Agreement recommended herein will provide for that. In return for the granting of this joint use easement, the Transit District has granted to the City a land use easement over adjacent District land adjacent to the City corporation yard drive.

Respectfully submitted,

RON GEROW
Real Property Agent

RESOLUTION NO. 2001-271

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ESCONDIDO, CALIFORNIA, AUTHORIZING THE MAYOR AND CITY CLERK TO EXECUTE, ON BEHALF OF THE CITY, A JOINT DRIVEWAY EASEMENT AND AN EASEMENT MAINTENANCE AGREEMENT FOR JOINT USE AND MAINTENANCE OF AN ACCESS SERVING CITY PROPERTY AND NORTH COUNTY TRANSIT DISTRICT PROPERTY, LOCATED AT 901 WEST WASHINGTON AVENUE

(North County Transit District)

WHEREAS, the City-owned real property located at 901 W. Washington Avenue, Escondido is utilized as a City corporation yard; and

WHEREAS, the adjacent property is owned by the North County Transit District, and will be utilized as a transit maintenance facility; and

WHEREAS, both the City of Escondido and the North County Transit District desire to jointly use an access drive to serve the properties; and

WHEREAS, this City Council desires at this time and deems it to be in the best public interest to grant to the North County Transit District a Joint Driveway Easement, and to approve the Easement Maintenance Agreement providing for such joint use and maintenance;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Escondido, California, as follows:

1. That the above recitations are true.

2. That the Mayor and City Clerk are authorized to execute, on behalf of the City, the Joint Driveway Easement and Easement Maintenance Agreement. Copies of the Easement and Agreement are attached as Exhibit "1" and "2" and are incorporated by this reference.

EASEMENT MAINTENANCE AGREEMENT

THIS EASEMENT MAINTENTANCE AGREEMENT ("Agreement") is entered into as of _____, 2001 among THE CITY OF ESCONDIDO ("CITY"), and NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD ("NCTD") with regard to the following:

A. The CITY is the owner of that certain real property located in the City of Escondido, County of San Diego, State of California, more particularly described in Exhibit "A" attached hereto (the "CITY Parcel").

B. NCTD is the owner of that certain real property located in the City of Escondido, County of San Diego, State of California, more particularly described in Exhibit "B" attached hereto (the "NCTD Parcel").

C. The CITY, pursuant to a Joint Driveway Easement dated the same date as this Agreement, granted to NCTD a permanent and perpetual easement over and across that portion of the CITY Parcel more particularly describe in Exhibit "C" attached hereto (the "Easement").

D. The CITY and NCTD each desire to set forth their agreements regarding the maintenance of the Easement.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the CITY and NCTD agree as follows:

1. Maintenance. The CITY shall maintain the Easement in good repair and condition and free of debris. The paved surfaces of the Easement shall be maintained so that the surfaces are level, smooth, and evenly covered with the type of surface material originally installed or a substitute material that is equal in quality, appearance and durability.

2. Reimbursement. Beginning on the first month of NCTD' use of the Easement, NCTD shall reimburse the CITY for forty percent (40%) of the costs of maintaining the Easement,

representing NCTD's proportionate share of the costs of maintaining the Easement. The CITY shall submit an invoice to NCTD on an annual basis for NCTD's proportionate share of the maintenance costs, and NCTD shall reimburse the CITY for such costs within thirty (30) days after receiving the invoice.

3 Maintenance by NCTD. If the CITY fails to maintain the Easement as provided in this Agreement, then NCTD may give written notice ("Correction Notice") to the CITY, setting forth the maintenance items which are not being performed. If the CITY fails to correct the maintenance items within thirty (30) days following the Correction Notice, thenNCTD shall have the right, but not the obligation, to perform the maintenance items set forth in the Correction Notice. If NCTD performs such maintenance items, then the CITY shall reimburse NCTD for sixty percent (60%) of the cost of such maintenance. NCTD shall invoice the CITY for the CITY's proportionate share of the costs of maintenance and the CITY shall reimburse NCTD for such costs within thirty (30) days after receiving the invoice.

4. Fences and Gates. The CITY and NCTD shall each have the right to install fences and gates to secure the entrances to their respective parcels from the Easement. The fences and gates shall not be located in a manner that would prevent the other party to gain access to such party's parcel. The CITY acknowledges that the CITY will need to relocate the CITY's current gate and fence prior to the date that NCTD begins construction of NCTD's planned maintenance facility on the NCTD Parcel in order to allow NCTD to access NCTD's Parcel. The costs of the fences and gates shall be borne by the party who installs the fences and gates.

5. Insurance; Indemnity.

5.1 Liability Insurance. The CITY and NCTD shall each at all times maintain in full force and effect comprehensive public liability insurance written through an insurance company having a Best's rating of B+ or better and licensed to do business in the State of California, meeting the requirements of this section 5 with a policy amount of not less than Two Million Dollars ($2,000,000) (stated on a per occurrence basis). The policy of comprehensive general liability required by this paragraph shall include the following provisions:

(a) The insurance shall not be invalidated by the acts or omissions of other insureds.

(b) The insurance shall not be modifiable or cancelable or non-renewable without 30 days' prior written notice to other party (except in the case of cancellation for non-payment of premium, in which case cancellation shall not take effect until at least 10 days' notice has been given to other party). This provision is hereinafter referred to as "Notice of Modification or Cancellation."

(c) NCTD and its members, employees, and agents shall be named as additional insureds as their interests may appear on the CITY policy, and the CITY and its members,

employees, and agents shall be named as additional insureds as their interests may appear on the NCTD policy.

(d) The insurance shall include comprehensive property and personal liability endorsements.

Notwithstanding any other provision of this Agreement, the CITY or NCTD may self-insurance for any risk set forth in this section 5 in the manner and to the extent that such party self-insures for similar risks with respect to its operations, equipment, and property. The manner in which such self-insurance is provided and the extent of such self-insurance shall be set forth in a Certificate of Self Insurance, delivered to other party and signed by an authorized representative, which fully describes the self-insurance program and how the program covers the risks set forth in this section 5. Insurance provided by a joint powers agency insurance pool shall be considered self-insurance for the purposes of this section. If, at any time during the term of this Agreement, either the CITY or NCTD elects not to self-insure, that party shall comply with all applicable provisions of this section 5 to the extent that that party does not so self-insure.

5.2 Indemnity. Each party ("Indemnifying Party") shall defend, indemnify and hold each other party and their respective officers, employees and directors (collectively, the "Indemnified Parties") harmless from any and all damages, claims, causes of action, costs, expenses or liability arising from, related to, or incurred in connection with the injury to or death of any person or the damage to any property arising from the use of the Easement by the Indemnifying Party's officers, employees, directors, patrons, or invitees unless such liability is caused by the gross negligence or willful acts of an Indemnified Party.

6. Notices. Unless otherwise specifically permitted by this Agreement, all notices and other communications required or permitted under this Agreement shall be in writing, and shall be personally delivered or sent by registered or certified mail, postage prepaid, return receipt requested, and shall be deemed received: (i) if personally delivered, upon the date of delivery to the address of the person to receive such notice, or (ii) if mailed in accordance with the terms of this paragraph, two (2) business days after the date of deposit in the United States mail. Notices shall be given at the following addresses:

if to the CITY: The City of Escondido
201 North Broadway
Escondido, California 92025
Attention: Real Property Agent

if to NCTD: North San Diego County Transit Development Board
801 Mission Avenue
Oceanside California 92054
Attention: Manager of Real Estate

The address for delivery of notices may be changed by either party by giving notice of such change to the other party in accordance with this paragraph.

7. Successors and Assigns. Except as explicitly provided in this Agreement to the contrary, this Agreement shall be binding upon and inure to the benefit of the parties and their respective successors and permitted assigns.

EXECUTED as of the date first written above.

From: Ron Gerow
To: Thomas, Patrick
Subject: Re: Access Easement to NCTD for PW Yard Driveway

Pat,

Yes, they've given me a deed covering that portion of their property by the bridge drive; it's a 'land use easement', giving us the right to use, but not own, the area. As soon as the maintenance agreement is approved, NCTD & I will record each of our deeds to the other, together with the maintenance agreement.

The 60/40 maintenance cost split is not a fixed amount because neither of us know at this time what maintenance will be required in the future, as we do not know with certainty what equipment we will be using in the future. We were expecting that NCTD would want us to cover virtually all of the maintenance cost because their use will mostly be employee vehicles, while we will have all kinds of heavy loads rolling in & out. Fred & I feel we got a good deal with this.

Ron

>>> Patrick Thomas 10/31/01 12:39PM >>>
Ron,
I saw your agenda item going to Council on 11/14 for the easement to NCTD for PW Yard driveway. Did we get the dedication of their property along the southerly fence line next the the channel?

Also, I noticed you prepared a maintenance agreement that requires NCTD to pay a proportionate share for the cost of maintenance. I'm not sure how we are going to determine the cost of maintenance. Any ideas? It looks like we are suppose to invoice them for this cost. It would be simple for us to determine a fixed amount (it would be a relatively small amount) to invoice them, rather than try to track actual costs. Do you think this would be acceptable?

Re: Easement; Easement Maintenance Agreement

Dear Mr. Gerow:

I am enclosing a copy of the Easement from North San Diego County Transit Development Board to the City of Escondido, executed by Martin C. Minkoff as Executive Director, and the original Easement Maintenance Agreement between the City of Escondido and North San Diego County Transit Development Board, also executed by Mr. Minkoff. Note that the Easemene Maintenance Agreement was approved with the provision that NCTD not incur any maintenance expense for the joint driveway easement until the joint use commences. I hope this will meet with your approval.

Please schedule the approval of the easement from the City of Escondido to North San Diego County Transit Development Board and the Easement Maintenance Agreement with your City Council. Once these documents have been approved and signed, we can arrange to exchange the easements and record the easements and Easement Maintenance Agreement.

Please let me know if you have any questions or comments. Thank you again for your assistance.

Sincerely,

Jim Cunningham
Manager of Real Estate

From: Ron Gerow
To: Adams, Mike; Calarco, Ross; Luedtke, Fred; Thomas, Patrick
Date: 7/12/01 10:16AM
Subject: Corp Yard / NCTD Access from W Washington

In negotiating a Maintenance Agreement for the joint access drive to our Corp Yard Expansion & the NCTD Yard, I've anticipated that NCTD would point out the expectation that we would have a high usage of heavy equipment on the drive, while they would have, essentially, their employees & delivery trucks. My concern was that, because of this, NCTD would expect us to carry about 90% of the maintenance cost of the drive.

NCTD has proposed a 60% City and 40% NCTD maintenance cost sharing, basing that on the relative size of each of our properties.

I say let's accept their proposal; what do you say?

Ron

Re: Easement Maintenance Agreement

Dear Mr. Gerow:

I am enclosing a draft of the Easement Maintenance Agreement between the City of Escondido and North San Diego County Transit Development Board for your review and approval. I am proposing that the City perform the maintenance, subject to reimbursement of 40% of the costs by NCTD. I used 60%/40% based upon the approximate pro-rata acreage of the properties served by the Easement (the City parcel being approxiately 10.3 acres, the NCTD parcel approximately 6.0 acres).

Please review this agreement and let me know if you have any questions or comments. Thank you again for your assistance with this project.

Sincerely,

Jim Cunningham
Manager of Real Estate

EASEMENT MAINTENANCE AGREEMENT

THIS EASEMENT MAINTENTANCE AGREEMENT ("Agreement") is entered into as of _____, 2001 among THE CITY OF ESCONDIDO ("CITY"), and NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD ("NCTD") with regard to the following:

A. The CITY is the owner of that certain real property located in the City of Escondido, County of San Diego, State of California, more particularly described in Exhibit "A" attached hereto (the "CITY Parcel").

B. NCTD is the owner of that certain real property located in the City of Escondido, County of San Diego, State of California, more particularly described in Exhibit "B" attached hereto (the "NCTD Parcel").

C. The CITY, pursuant to a Joint Driveway Easement dated the same date as this Agreement, granted to NCTD a permanent and perpetual easement over and across that portion of the CITY Parcel more particularly describe in Exhibit "C" attached hereto (the "Easement").

D. The CITY and NCTD each desire to set forth their agreements regarding the maintenance of the Easement.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the CITY and NCTD agree as follows:

1. Maintenance. The CITY shall maintain the Easement in good repair and condition and free of debris. The paved surfaces of the Easement shall be maintained so that the surfaces are level, smooth, and evenly covered with the type of surface material originally installed or a substitute material that is equal in quality, appearance and durability.

2. Reimbursement. NCTD shall reimburse the CITY for forty percent (40%) of the costs of maintaining the Easement, representing NCTD's proportionate share of the costs of

maintaining the Easement. The CITY shall submit an invoice to NCTD on an annual basis for NCTD's proportionate share of the maintenance costs, and NCTD shall reimburse the CITY for such costs within thirty (30) days after receiving the invoice.

3 Maintenance by NCTD. If the CITY fails to maintain the Easement as provided in this Agreement, then NCTD may give written notice ("Correction Notice") to the CITY, setting forth the maintenance items which are not being performed. If the CITY fails to correct the maintenance items within thirty (30) days following the Correction Notice, thenNCTD shall have the right, but not the obligation, to perform the maintenance items set forth in the Correction Notice. If NCTD performs such maintenance items, then the CITY shall reimburse NCTD for sixty percent (60%) of the cost of such maintenance. NCTD shall invoice the CITY for the CITY's proportionate share of the costs of maintenance and the CITY shall reimburse NCTD for such costs within thirty (30) days after receiving the invoice.

4. Fences and Gates. The CITY and NCTD shall each have the right to install fences and gates to secure the entrances to their respective parcels from the Easement. The fences and gates shall not be located in a manner that would prevent the other party to gain access to such party's parcel. The CITY acknowledges that the CITY will need to relocate the CITY's current gate and fence prior to the date that NCTD begins construction of NCTD's planned maintenance facility on the NCTD Parcel in order to allow NCTD to access NCTD's Parcel. The costs of the fences and gates shall be borne by the party who installs the fences and gates.

5. Insurance; Indemnity.

5.1 Liability Insurance. The CITY and NCTD shall each at all times maintain in full force and effect comprehensive public liability insurance written through an insurance company having a Best's rating of B+ or better and licensed to do business in the State of California, meeting the requirements of this section 5 with a policy amount of not less than Two Million Dollars ($2,000,000) (stated on a per occurrence basis). The policy of comprehensive general liability required by this paragraph shall include the following provisions:

(a) The insurance shall not be invalidated by the acts or omissions of other insureds.

(b) The insurance shall not be modifiable or cancelable or non-renewable without 30 days' prior written notice to other party (except in the case of cancellation for non-payment of premium, in which case cancellation shall not take effect until at least 10 days' notice has been given to other party). This provision is hereinafter referred to as "Notice of Modification or Cancellation."

(c) NCTD and its members, employees, and agents shall be named as additional insureds as their interests may appear on the CITY policy, and the CITY and its members,

employees, and agents shall be named as additional insureds as their interests may appear on the NCTD policy.

(d) The insurance shall include comprehensive property and personal liability endorsements.

Notwithstanding any other provision of this Agreement, the CITY or NCTD may self-insurance for any risk set forth in this section 5 in the manner and to the extent that such party self-insures for similar risks with respect to its operations, equipment, and property. The manner in which such self-insurance is provided and the extent of such self-insurance shall be set forth in a Certificate of Self Insurance, delivered to other party and signed by an authorized representative, which fully describes the self-insurance program and how the program covers the risks set forth in this section 5. Insurance provided by a joint powers agency insurance pool shall be considered self-insurance for the purposes of this section. If, at any time during the term of this Agreement, either the CITY or NCTD elects not to self-insure, that party shall comply with all applicable provisions of this section 5 to the extent that that party does not so self-insure.

5.2 ~~12~~ Indemnity. Each party ("Indemnifying Party") shall defend, indemnify and hold each other party and their respective officers, employees and directors (collectively, the "Indemnified Parties") harmless from any and all damages, claims, causes of action, costs, expenses or liability arising from, related to, or incurred in connection with the injury to or death of any person or the damage to any property arising from the use of the Easement by the Indemnifying Party's officers, employees, directors, patrons, or invitees unless such liability is caused by the gross negligence or willful acts of an Indemnified Party.

6. Notices. Unless otherwise specifically permitted by this Agreement, all notices and other communications required or permitted under this Agreement shall be in writing, and shall be personally delivered or sent by registered or certified mail, postage prepaid, return receipt requested, and shall be deemed received: (i) if personally delivered, upon the date of delivery to the address of the person to receive such notice, or (ii) if mailed in accordance with the terms of this paragraph, two (2) business days after the date of deposit in the United States mail. Notices shall be given at the following addresses:

if to the CITY: The City of Escondido
201 North Broadway
Escondido, California 92025
Attention: ~~City Clerk~~ Real Property Agent

if to NCTD: North San Diego County Transit Development Board
801 Mission Avenue
Oceanside California 92054
Attention: Manager of Real Estate

The address for delivery of notices may be changed by either party by giving notice of such change to the other party in accordance with this paragraph.

7. Successors and Assigns. Except as explicitly provided in this Agreement to the contrary, this Agreement shall be binding upon and inure to the benefit of the parties and their respective successors and permitted assigns.

EXECUTED as of the date first written above.

RE: NCTD / City Easement Exchange

Dear Jim:

Please find enclosed the revised easement deed, per your request.

Concerning maintenance of the parcels, the City will bear maintenance responsibilities for the easement parcel received from NCTD. The other parcel, being in the form of a joint use driveway to be used by both agencies, could be jointly maintained by both agencies. If you would like to propose a Joint Maintenance Agreement, I would be happy to review it for City acceptance.

Sincerely

Ron

Re: Easements

Dear Mr. Gerow:

The revised description for the easement parcel from the North San Diego County Transit Development Board (NCTD) to the City of Escondido is acceptable. Please revise the easement to read "a permanent and perpetual easement for ingress and egress over and across the following described property . . . ." We should also discuss the maintenance provisions for both easements. I presume that the City will maintain its road on the easement that NCTD is granting to the City, but we may want to specify how maintenance will be handled on road on the easement that the City is granting to NCTD, since that road will be used jointly by NCTD, the City, and the City's tenants (or successors). Please give me your thoughts.

Also, please give me an update on the vacation of Railroad Street.

Sincerely,

Jim Cunningham

RE: NCTD / City Easement Exchange

Dear Jim:

Thank you for your review and input regarding the legal description I previously prepared. I have enclosed a revised easement document for the easement from the District to the City. Please let me know if this is satisfactory to you; upon your acceptance, we can each agendize the respective easement deed for approval and signature by your Board and my City Council.

Sincerely

Ron Gerow

From: Ron Gerow
To: Luedtke, Fred
Subject: NCTD Access

Fred,

NCTD has proposed the access easement they'd like, at the entry to our E. Washington Corp Yard (attached).

I see that they propose a 45'-wide easement adjacent to their 25'-wide strip of ownership.. I thought that they were going to use their 25'-wide strip together with a 25'-wide strip of our property, for a joint use 50'-wide drive for both of us. Before I respond telling them of my understanding, do you have any recollection of the specifics previously discussed?

Re: Vacation of Streets

Dear Mr. Gerow:

I am enclosing the description prepared by our surveyor for the easement parcel from the City of Escondido to the North San Diego County Transit Development Board (NCTD) for access to the NCTD Maintenance Facility site. Please send a draft of the two easements (City to NCTD and NCTD to City) for my review.

Also, can you let me know where we are on the proposed abandonment of Railroad Street?

I appreciate your help.

Sincerely,

Jim Cunningham

RESOLUTION NO. 2001-143

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ESCONDIDO, CALIFORNIA, TO VACATE AND ABANDON A PORTION OF A PUBLIC STREET, AS HEREIN SPECIFICALLY DESCRIBED

(Santa Fe and Railroad Avenues),

(June 13, 2001 hearing date)

WHEREAS, the City Council of the City of Escondido, California, on May 9, 2001, passed its Resolution No. 2001-100 declaring its intention to order the vacation, abandonment and closing to public use a portion of a public street identified as Santa Fe and Railroad Avenues, as hereinafter described, located within the City of Escondido; and

WHEREAS, on Wednesday June 13, 2001, the City Council duly heard all evidence offered by all persons interested in or objecting to the proposed vacation, abandonment and closing; and

WHEREAS, the abandoned rights-of-way or parts thereof are not useful as bikeways; and

WHEREAS, all other acts and things required by law particularly Sec. 8320 et. seq. of the Streets & Highways Code of the State of California, to confer jurisdiction upon the City Council to order said street vacation have been done; and

WHEREAS, pursuant to the provisions of Sec. 8340 of the Streets & Highways Code of the State of California, existing or proposed utilities do not require the reservation of utility easements over a portion of the area to be vacated;

NOW, THEREFORE, IT IS HEREBY RESOLVED, by the City Council of the City of Escondido, California, as follows:

1. That the above recitations are true.

2. That this City Council makes the following findings of fact:

   (a) That the portion of Santa Fe and Railroad Avenues proposed for vacation is not being utilized.

(b) That the vacated section is unnecessary for present or prospective public street purposes.

(c) That the Director of Public Works supports the street vacation as proposed and recommends approval of the street vacation.

(d) That the proposed vacation is recommended because this land is not needed for the ultimate design of any street.

(e) That the vacated portion of right-of-way is not useful as bike-ways.

(f) That the vacation area is needed for public utility purposes, and a public utility easement is therefore reserved from the vacation.

3. That in view of the above findings and the applicable law, this City Council finds, from all evidence submitted, that the portion of a public street identified as Santa Fe and Railroad Avenues, as described and delineated on Exhibit 1, which is attached and incorporated, meets the requirements for vacation as set forth in Sec. 8320, et. seq., of the Streets & Highway Code of the State of California.

4. That the City Council does hereby order the portion of public street described and delineated in Exhibit 1, within the City of Escondido closed and vacated.

5. That this order shall take effect immediately.

PASSED, ADOPTED AND APPROVED by the City Council of the City of Escondido, California at a regular meeting thereof this 13th day of June 15, 2001 by the following vote to wit:

AYES : Councilmembers: D'AGOSTA, GALLO, PFEILER, RADY, WALDRON

RE: Santa Fe Avenue Street Vacation

Dear ~~Mr Cunningham~~ Jim:

I have indicated in red on the enclosed Assessor's Map Page No. 232-090 the remaining portion of Santa Fe Avenue, and the portion of Railroad Avenue, which will be vacated, per your letter of request dated March 20, 2001.

Concerning your second March 20, 2001 letter regarding the City of Escondido's request that NCTD deed to the City the trapezoidal parcel at the east corner of your property (in blue on the enclosed map), it is the City's request that the parcel be deeded in fee to the City. This seems to be a reasonable request, as that deeding would be in response to the City's agreeing to allow NCTD to use City property (in green on the enclosed map) to provide the Washington Avenue access to your maintenance facility.

Sincerely

Ron Gerow
Real Property Agent

RE: Request Letter to North County Transit, Attached

NCTD is scheduled to review this request at its April 5 Board meeting. Any support you could provide would be greatly appreciated.

NCTD staff may seek to lease the parcel to the City, rather than deeding it in fee. This would produce a less than desirable result, as we need permanent ownership for our development plans for the Corporation Yard. Overall, this proposal would greatly benefit both NCTD and the City, but we need the parcel from NCTD to be deeded in fee.

Re: Vacation of Streets

Dear Mr. Gerow:

The North San Diego County Transit Development Board owns the real property in the City of Escondido identified in the attached Record of Survey 15913. This Record of Survey shows Santa Fe Avenue having been vacated to the easterly extension of Railroad Street. I am also enclosing a copy of the first page of the Agreement for Exchange of Real Property dated July 7, 1995 between NCTD and the City which, at paragraph 3, indicates that the City agreed to initiate street vacation proceedings with respect to Santa Fe Avenue between Washington Avenue and Railroad Street.

In our meeting on March 13, the City's records indicated that Santa Fe Avenue had been vacated for only a portion of this area. If this is the case, we ask that the City initiate the vacation and abandonment of the remainder of Santa Fe Avenue through Railroad Street. We also ask that the City initiate the vacation and abandonment of that portion of Railroad Street that lies on the NCTD right-of-way, Assessor's Parcel Number 232-090-26-00, shown as A.T. & S. F. Railroad on the enclosed Record of Survey No. 15913.

Please let me know if you have any questions or comments.

Sincerely,

Jim Cunningham
Manager of Real Estate

Re: Proposed Sale or Lease of Property

Dear Mr. Gerow:

I will seek approval from the North San Diego County Transit Development Board to negotiate a sale or long-term lease of the property identified in your March 6, 2001 letter to the City of Escondido at the Board's April 5 meeting. Under the Board's real estate policy, the Board has a preference for leasing, rather than selling, real property; however, they have approved long-term leases (for example, 55 year leases). Generally, the terms authorized by the Board provide for market rents with periodic inflation and market rate adjustments. I will need to obtain an appraisal to determine the market value or market rental.

We would like to address the access issues to our maintenance facility site at the same time. Since our meeting, we met with a representative of EDCO and learned more about their access needs. It may be worth exploring a shared access road using NCTD's 25 foot strip and adjacent City property to provide access to all three sites.

Please let me know if you have any questions or comments.

Sincerely,

Jim Cunningham
Manager of Real Estate

AGREEMENT FOR EXCHANGE OF REAL PROPERTY

THIS AGREEMENT is entered into this 7th day of July, 1995 by and between the **CITY OF ESCONDIDO,** a municipal corporation (hereinafter called "City"), and the undersigned owner **NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD** (hereinafter called "Board"), for the mutual exchange of certain real property as hereinafter set forth.

IT IS HEREBY MUTUALLY AGREED BETWEEN THE PARTIES AS FOLLOWS:

1. **AGREEMENT TO EXCHANGE.** City agrees to deed to Board all that certain real property described in Exhibit "A" attached hereto and made a part hereof, and Board agrees to deed to City all that certain real property described in Exhibit "B" attached hereto and made a part hereof. City agrees to obtain consent of Board before constructing utility facilities in Parcels 1 or 2 of said Exhibit "B".

2. **CONVEYANCE OF TITLE.** The parties hereto agree to convey by Grant Deed marketable fee title to the Property, free and clear of all recorded and unrecorded liens, encumbrances, assessments, easements, leases, covenants, conditions, restrictions, and taxes.

3. **STREET VACATION.** City agrees to initiate, at no cost to Board, the vacation and abandonment of the portion of Santa Fe Avenue located between Washington Avenue and Railroad Street in Escondido; said vacation will reserve to the City a Public Utilities Easement, but shall require Board approval of construction of any new (not pre-existing) utilities to be installed therein.

4. **ESCROW.** City agrees to open an escrow in accordance with the provisions of this Agreement.

   This Agreement constitutes the joint escrow instructions of City and Board. The Escrow Agent, to whom these

RESOLUTION NO. 97-09

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ESCONDIDO, CALIFORNIA, TO VACATE AND ABANDON A PORTION OF A PUBLIC STREET IDENTIFIED AS SANTA FE AVENUE EAST OF HALE AVENUE, AS HEREIN SPECIFICALLY DESCRIBED

WHEREAS, the City Council of the City of Escondido, California, on December 18, 1996, passed its Resolution No. 96-353 declaring its intention to order the vacation, abandonment and closing to public use a portion of a public street identified as Santa Fe Avenue east of Hale Avenue, as hereinafter described, located within the City of Escondido; and

WHEREAS, on Wednesday, January 22, 1997, the City Council duly heard all evidence offered by all persons interested in or objecting to the proposed vacation, abandonment and closing; and

WHEREAS, the abandoned rights-of-way or parts thereof are not useful as bikeways; and

WHEREAS, all other acts and things required by law particularly Sec. 8320 et seq. of the Streets & Highways Code of the State of California, to confer jurisdiction upon the City Council to order said street vacation have been done; and

WHEREAS, pursuant to the provisions of Sec. 8340 of the Streets & Highways Code of the State of California, existing or proposed utilities require the reservation of utility easements over a portion of the area to be vacated;

NOW, THEREFORE, IT IS HEREBY RESOLVED, by the City Council of the City of Escondido, Califomia, as follows:

1. That the above recitations are true.

2. That this City Council makes the following findings of fact:

(a) That the portion of Santa Fe Avenue east of Hale Avenue proposed for vacation is not being utilized.

(b) That the vacated section is unnecessary for present or prospective public street purposes.

(c) That the Director of Public Works supports the street vacation as proposed and recommends approval of the street vacation.

(d) That the proposed vacation is recommended because this land is not needed for the ultimate design of any street.

(e) That the vacated portion of right-of-way is not useful as bike-ways.

3. That in view of the above findings and the applicable law, this City Council finds, from all evidence submitted, that the portion of a public street identified as Santa Fe Avenue east of Hale Avenue, as described on Exhibit "A", which is attached and incorporated, meets the requirements for vacation as set forth in Sec. 8320 et Seq. of the Streets & Highway Code of the State of Califomia.

4. That the City Council does hereby order the portion of a public street described in Exhibit "A", within the City of Escondido, closed and vacated with a reservation for public utilities.

5. That this order shall take effect immediately.

PASSED, ADOPTED AND APPROVED by the City Council of the City of Escondido at a regular meeting thereof this 22nd day of January, 1997, by the following vote to wit:

AYES : Councilmembers: BEIER, HARMON, HOLLINS, PFEILER, RADY

NOES : Councilmembers: NONE

ABSENT : Councilmembers: NONE

APPROVED:

SID HOLLINS, Mayor of the
City of Escondido, California

ATTEST:

JEANNE BUNCH, City Clerk of the
City of Escondido, California

LEGAL DESCRIPTION

All those portions of real property within the Rancho Rincon Del Diablo, Map 527 located in the City of Escondido, County of San Diego, State of California and more particularly described as follows:

That portion of an unnamed road, 66 feet wide, (now known as Santa Fe Avenue) delineated on said Map 527 and located along the southeasterly line of Lot 3 of Block 316 of said Map 527 described as follows:

All that portion of said unnamed road lying east of the following described real property:

Beginning at the most westerly corner of said Lot 3; thence South 65°54'00" East 26.73 feet along the northeasterly line of said unnamed road and the southeasterly line of said Lot 3 to a point on a 598 foot radius curve concave southerly; thence southwesterly along said curve through a central angle of 07°13'05" a distance of 75.33 feet to a point on the southerly line of said unnamed 66 foot wide road; thence North 65°54'00" West 46.71 feet along the southerly line of said unnamed 66 foot wide road to the southerly line of Hale Avenue, thence North 26°28'26" East 12.03 feet; thence North 69°59'45" East 77.57 feet along the southwesterly prolongation of the northerly line of said Lot 3 to the most westerly corner of said Lot 3 and the Point of Beginning.

Reserving and excepting therefrom a PUBLIC UTILITIES EASEMENT together with the right to construct, maintain, operate, remove, replace and enlarge sewer and water pipelines and drainage works and appurtenances thereto and pursuant to any existent Franchise, the right to construct, maintain, operate, remove, replace and enlarge pipes, conduits, cables, wires, poles and other appurtenant structures and equipment for the operation of gas pipelines, telegraphic, telephone and electrical distribution lines including the right of ingress to and egress from said land to keep the property free from flammable materials and otherwise protect same from all hazards in, upon and over the above described property.

EXCEPT, that no new utility facility may be installed (but existing utility facilities may be maintained, expanded, renovated and improved) without the prior permission and authorization of the North County Transit Development Board.

R. Gerow

CITY OF ESCONDIDO
City Council

Agenda Item No.:_____
Date: January 22, 1997

TO: Honorable Mayor and City Council

FROM: Mike Adams, Deputy City Manager/Director of Public Works

SUBJECT: Vacation of Public Street: Santa Fe Avenue East of Hale Avenue

RECOMMENDATION:

It is recommended that the City Council conduct a public hearing and adopt a resolution approving this street vacation.

FISCAL ANALYSIS:

No cost will result from the vacation of this street.

GENERAL PLAN ANALYSIS:

In conformance.

PREVIOUS ACTION:

On December 18, 1996, City Council set this hearing date. On July 19, 1995 City Council approved a Real Property Exchange Agreement between the City of Escondido and the North County Transit District, which contained the obligation of the City to process a vacation of Santa Fe Avenue.

BACKGROUND:

When the City entered into a Real Property Exchange Agreement with the North County Transit District, one of the provisions was that the City would initiate a vacation of this public street. Santa Fe Avenue east of Hale Avenue is a 'paper street', having never being paved and utilized for street purposes. A public utility easement will be reserved, preserving the continued use of the area for an existing trunk sewer line and an overhead electrical transmission line.

Respectfully submitted,

RON GEROW
Real Property Agent

RONALD W. ANDERSON

RESOLUTION NO. 97-09

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ESCONDIDO, CALIFORNIA, TO VACATE AND ABANDON A PORTION OF A PUBLIC STREET IDENTIFIED AS SANTA FE AVENUE EAST OF HALE AVENUE, AS HEREIN SPECIFICALLY DESCRIBED

WHEREAS, the City Council of the City of Escondido, California, on December 18, 1996, passed its Resolution No. 96-353 declaring its intention to order the vacation, abandonment and closing to public use a portion of a public street identified as Santa Fe Avenue east of Hale Avenue, as hereinafter described, located within the City of Escondido; and

WHEREAS, on Wednesday, January 22, 1997, the City Council duly heard all evidence offered by all persons interested in or objecting to the proposed vacation, abandonment and closing; and

WHEREAS, the abandoned rights-of-way or parts thereof are not useful as bikeways; and

WHEREAS, all other acts and things required by law particularly Sec. 8320 et seq. of the Streets & Highways Code of the State of California, to confer jurisdiction upon the City Council to order said street vacation have been done; and

WHEREAS, pursuant to the provisions of Sec. 8340 of the Streets & Highways Code of the State of California, existing or proposed utilities require the reservation of utility easements over a portion of the area to be vacated;

NOW, THEREFORE, IT IS HEREBY RESOLVED, by the City Council of the City of Escondido, California, as follows:

1. That the above recitations are true.

2. That this City Council makes the following findings of fact:

(a) That the portion of Santa Fe Avenue east of Hale Avenue proposed for vacation is not being utilized.

(b) That the vacated section is unnecessary for present or prospective public street purposes.

(c) That the Director of Public Works supports the street vacation as proposed and recommends approval of the street vacation.

(d) That the proposed vacation is recommended because this land is not needed for the ultimate design of any street.

(e) That the vacated portion of right-of-way is not useful as bike-ways.

3. That in view of the above findings and the applicable law, this City Council finds, from all evidence submitted, that the portion of a public street identified as Santa Fe Avenue east of Hale Avenue, as described on Exhibit "A", which is attached and incorporated, meets the requirements for vacation as set forth in Sec. 8320 et Seq. of the Streets & Highway Code of the State of California.

4. That the City Council does hereby order the portion of a public street described in Exhibit "A", within the City of Escondido, closed and vacated with a reservation for public utilities.

5. That this order shall take effect immediately.

LEGAL DESCRIPTION

All those portions of real property within the Rancho Rincon Del Diablo, Map 527 located in the City of Escondido, County of San Diego, State of California and more particularly described as follows:

That portion of an unnamed road, 66 feet wide, (now known as Santa Fe Avenue) delineated on said Map 527 and located along the southeasterly line of Lot 3 of Block 316 of said Map 527 described as follows:

All that portion of said unnamed road lying east of the following described real property:

Beginning at the most westerly corner of said Lot 3; thence South 65°54'00" East 26.73 feet along the northeasterly line of said unnamed road and the southeasterly line of said Lot 3 to a point on a 598 foot radius curve concave southerly; thence southwesterly along said curve through a central angle of 07°13'05" a distance of 75.33 feet to a point on the southerly line of said unnamed 66 foot wide road; thence North 65°54'00" West 46.71 feet along the southerly line of said unnamed 66 foot wide road to the southerly line of Hale Avenue, thence North 26°28'26" East 12.03 feet; thence North 69°59'45" East 77.57 feet along the southwesterly prolongation of the northerly line of said Lot 3 to the most westerly corner of said Lot 3 and the Point of Beginning.

Reserving and excepting therefrom a PUBLIC UTILITIES EASEMENT together with the right to construct, maintain, operate, remove, replace and enlarge sewer and water pipelines and drainage works and appurtenances thereto and pursuant to any existent Franchise, the right to construct, maintain, operate, remove, replace and enlarge pipes, conduits, cables, wires, poles and other appurtenant structures and equipment for the operation of gas pipelines, telegraphic, telephone and electrical distribution lines including the right of ingress to and egress from said land to keep the property free from flammable materials and otherwise protect same from all hazards in, upon and over the above described property.

EXCEPT, that no new utility facility may be installed (but existing utility facilities may be maintained, expanded, renovated and improved) without the prior permission and authorization of the North County Transit Development Board.

EASEMENT

FROM

THE ATCHISON, TOPEKA AND SANTA FE RAILWAY COMPANY

TO

CITY OF ESCONDIDO

Covering certain real property situate in the City of Escondido, County of San Diego, State of California.

DATED March 10, 1960.

THIS IS TO CERTIFY that the interest in real property conveyed by the deed or grant, dated as shown thereon and from the persons shown named to the City of Escondido, a municipal corporation, is hereby accepted by order of the City Manager on MAY 17, 1960, pursuant to Resolution No. 7112 of the City Council of the City of Escondido dated December 18, 1957, and the grantee consents to recordation thereof by said City Manager as its duly authorized officer.

CITY OF ESCONDIDO

Lloyd Mitchell

OFFICIAL RECORDS - ... OF SAN DIEGO - RECORDS ...

1588

EASEMENT, Made this 10th day of March, 19 40,

from THE ATCHISON, TOPEKA AND SANTA FE RAILWAY COMPANY, a Kansas corporation, hereinafter called "Santa Fe," first party, to CITY OF ESCONDIDO, a California municipal corporation, hereinafter called "City," second party.

IN CONSIDERATION of the sum of Ten Dollars ($10), lawful money of the United States of America, and of other good and valuable consideration, the receipt whereof is hereby acknowledged, Santa Fe hereby grants to the City an easement for the location and maintenance of a reinforced concrete and asbestos sanitary sewer upon and across those certain three parcels of land in the City of Escondido, County of San Diego, State of California, being all those portions of The Atchison, Topeka and Santa Fe Railway Company's right of way in the Rancho Rincon del Diablo and in Lots 4 and 5, Block 316, Subdivision of a portion of Rancho Rincon del Diablo, according to Map No. 527 thereof filed in the office of the County Recorder of said County, described as follows:

PARCEL 1:

An irregular shaped parcel of land being all that portion of said Railway Company's right of way in said Rancho Rincon del Diablo, more particularly described as follows:

Beginning at the intersection of the southeasterly line of Hale Avenue (66 feet in width) with the southerly line of said Railway Company's right of way; thence North 26°29'01" East (bearings assumed for purpose of this description) along said southeasterly line of Hale Avenue 16.01 feet to a point in a line that is parallel with and distant northerly 16 feet at right angles from the southerly line of said right of way; thence South 65°54' East along said parallel line 459.68 feet; thence North 24°06' East 84.00 feet to a point in the northerly line of said right of way; thence South 65°54' East along said northerly right of way line 10.00 feet; thence South 24°06' West 100.00 feet to a point in the southerly line of said right of way; thence North 65°54' West along last said southerly right of way line 470.34 feet to the point of beginning. Said parcel contains an area of 0.1919 of an acre of land, more or less.

OFFICIAL RECORDS - ... OF SAN DIEGO - ROCE...

PARCEL 2:

A strip of land 10 feet in width by approximately 198 feet in average length being all that portion of said Railway Company's right of way in said Lot 4, which lies between lines that are parallel with and distant 5 feet, at right angles, from and on each side of the following described center line:

Beginning at a point in the southeasterly line of Railroad Street (66 feet in width) distant South 26°28' West (bearings assumed for purpose of this description) along said southeasterly line 27 feet from the northeasterly line of Santa Fe Avenue (66 feet in width); thence South 65°54' East 198 feet to the point of ending in the northeasterly line of said Railway Company's 40 foot wide right of way as described in deed dated January 7, 1896, recorded January 10, 1896 in Book 246, page 322 of Deeds, Records of said County.

The side lines of said strip to be lengthened or shortened so as to originate in the southeasterly line of Railroad Street and to terminate in the northeasterly line of said Railway Company's 40 foot wide right of way.

Said strip contains an area of 0.0455 of an acre of land, more or less.

PARCEL 3:

A strip of land 10 feet in width by approximately 181 feet in average length being all that portion of said Railway Company's right of way in said Lots 4 and 5, which lies between lines that are parallel with and distant 5 feet at right angles, from and on each side of the following described center line:

Commencing at a point in the southeasterly line of Railroad Street (66 feet in width) distant South 26°28' West (bearings assumed for purpose of this description) along said southeasterly line 27 feet from the northeasterly line of Santa Fe Avenue (66 feet in width); thence South 65°54' East 554.2 feet; thence North 83°19'12" East 36 feet to a point in the northwesterly line of said Railway Company's right of way said last point being the TRUE POINT OF BEGINNING for this description; thence North 83°19'12" East continuing along last said line 181 feet to point of ending in the northeasterly line of said Railway Company's right of way.

The side lines of said strip being lengthened or shortened so as to originate in said northwesterly line and to terminate in said northeasterly line of said Railway Company's right of way.

Said strip contains an area of 0.0416 of an acre of land, more or less.

OFFICIAL RECORDS OF SAN DIEGO COUNTY, CALIFORNIA

EXCEPTING AND RESERVING the right, to be exercised by Santa Fe and by any others who have obtained or may obtain permission or authority from Santa Fe so to do, (a) to operate, maintain, renew and/or relocate any and all existing railroad track or tracks, bridges, wires, pipes and other facilities of like character upon, over or under the surface of said premises; and (b) from time to time to construct, operate, maintain, renew and/or relocate upon said premises additional facilities of the character described in Clause (a) of this paragraph, in such manner as may be consistent with the enjoyment of the easement herein granted to City.

TO HAVE AND TO HOLD said easement unto the City solely for the aforesaid purposes so long as the premises hereinabove described shall be so used, subject, however, to all valid and existing contracts, leases, licenses, easements and encumbrances which may in anywise affect the said premises, and subject also to the express conditions subsequent following:

1. That City will restore and replace the surface of and improvements on the aforesaid premises in area adjoining said sanitary sewer and will repair any and all damage to the property of Santa Fe, its lessees, licensees, successors and assigns, upon or adjoining said premises which is injured or damaged in the construction, maintenance or performance of other work on said sanitary sewer or by reason of the presence or use thereof.

2. That said sanitary sewer shall be constructed of reinforced concrete and asbestos pipe to be not less than six feet below the surface of

OFFICIAL RECORDS ... OF SAN DIEGO ...

the ground and, where it passes under Santa Fe's track to be not less than eleven feet below the base of the rail, and shall be constructed and thereafter maintained in a manner which will not interfere with the operation of Santa Fe's trains, locomotives, motors or cars.

3. That City will at all times keep said sanitary sewer in good condition and repair.

4. That City shall assume and at all times indemnify and save harmless Santa Fe against and pay in full all loss, damage or expense that Santa Fe may sustain, incur or become liable for, resulting in any manner from the construction, maintenance, use, state of repair, or presence of the sanitary sewer, including any such loss, damage or expense arising out of (a) loss of or damage to property, including without limitation property of Santa Fe, (b) injury to or death of persons, and (c) mechanics' or other liens of any character.

Each of the foregoing conditions shall also be deemed to be covenants which City by its acceptance hereof agrees to perform, and shall be binding upon and shall inure to the benefit of the parties hereto.

This instrument is given without warranty of title of any kind, express or implied, and no covenant of warranty of title shall be implied from the use of any word or words herein contained.

OFFICIAL RECORDS - RECORDER'S OFFICE OF SAN DIEGO

In case of the eviction of City by anyone owning or claiming title to or any interest in the premises hereinabove described, Santa Fe shall not be liable to City for any damage of any nature whatsoever.

IN WITNESS WHEREOF, Santa Fe has duly executed this Easement the day and year first above written.

THE ESCONDIDO LAND AND TOWN CO.
to
Eli Hockett

Recorded by T. CILLEN, County Recorder

This Indenture, Made the 15th day of April in the year of our Lord, One Thousand Eight Hundred and Eighty Ninety five between THE ESCONDIDO LAND AND TOWN COMPANY, a Corporation duly organized under the laws of the State of California, party of the first part, and Eli Hockett of Alpine California party of the second part; **Witnesseth**, that the said party of the first part, for and in consideration of the sum of Four hundred and ten and 00/100 ($410.00) DOLLARS, Gold Money of the United States of America, to them in hand paid by the said party of the second part, the receipt whereof is hereby acknowledged, and in consideration of the full performance of the covenants hereinafter contained, do by these presents, grant, bargain and sell, convey and confirm unto the said party of the second part, and to his heirs and assigns forever, all the certain lot and parcel of land situate, lying and being in the town of

ESCONDIDO, SAN DIEGO COUNTY, STATE OF CALIFORNIA,

and bounded and particularly described as follows, to wit:

Lots Numbered Seven (7) and Four (4) in Block Numbered Three Hundred and Sixty Five (365) all containing Thirteen and 67/100 (13.67) acres of land according to the official Map of said town now on file in the office of the Recorder of San Diego County California. This deed conveys any rights the grantor may have against the Southern California Rail Road Company for occupation of any part of said land. Said rights to be enforced at the will of the grantee or his assigns

being part of the Rancho Rincon Del Diablo.

It is provided and covenanted, with a covenant running with the land, that if at any time said Second Party his heirs, assigns or successors in interest, or those holding or claiming thereunder, shall, with the knowledge or consent of the owner of said premises, whether said vending shall be directly or indirectly, said premises, or any part thereof, to be used for the purpose of vending intoxicating liquors for drinking purposes, then any such sale or use shall Corporation, its successors and assigns, and it, or said successors or assigns, shall be entitled to the immediate possession thereof, provided that any such sale or use of said premises, in case the foregoing covenant be broken, shall have the effect to, and it is hereby declared to be the intention so as aforesaid, to create a base and qualified fee in the grantee and his heirs and assigns, subject, however, to the conditions of the grantor and his successors and assigns, and that the grantor, its successors and assigns, shall have the right by legal or equitable action to enter upon said premises and to oust the grantee and his heirs and assigns therefrom, and to repossess and enjoy the same as if said grant had never been made, and that the dedication of the streets and alleys in said town to public use, shall be forever void and of no effect, if said provision was ever broken, and that said streets and alleys shall forever remain the private property of said grantor, its successors and assigns, notwithstanding such dedication, and notwithstanding the sale of lots bounded thereon, and the use thereof by the purchasers of such lots, unless the same be used for the purpose of vending intoxicating liquors for drinking purposes, and in that event said streets are and forever shall remain the private property of said grantor, its successors and assigns.

That Whereas [illegible]

Photographed By T. FADER, Deputy Recorder

County of San Diego made on the matter of the Resolution of said Escondido Irrigation District, in case No. 12,793, then pending in said Court, its decree and order of sale authorizing the Board of Directors of the party of the first part to sell at public auction and outcry, as an entirety, all of the assets, real, personal and mixed, of the said Escondido Irrigation District in said County of San Diego, State of California;

And Whereas, under and pursuant to said decree and order of sale, and after due and legal notice of the time and place of sale, said Board of Directors, party of the first part, did at the time and place fixed in said notice of sale, offer for sale at public auction and outcry, as an entirety, all of the assets and property of said Escondido Irrigation District, including the real estate hereinafter described to the highest bidder, subject to confirmation by the Court;

And Whereas, at said sale H. A. Jackson, as Trustee for said Escondido Mutual Water Company, bid for all of said assets, as an entirety, the sum of Two Hundred and Twenty-Eight Thousand Five Hundred and Eighty-Four Dollars and sixty cents ($228,584.60), and was the highest and best bidder at said sale;

And Whereas, said Board of Directors struck off and sold to him for said price and sum of Two Hundred and Twenty-Eight Thousand Five Hundred and Eighty-Four Dollars and sixty cents ($228,584.60) all of the said assets, subject only to the approval and confirmation of said sale by the Court;

And Whereas, the said sale having been duly reported to the Court by said Board of Directors of said Escondido Irrigation District the Court did, on the 31 day of May, 1905, duly give and make its order and decree confirming said sale and authorizing the conveyance and transfer of the property so sold to be made and delivered to said Escondido Mutual Water Company upon the payment of the amount of said bid, in the manner provided in the order and decree authorizing such sale;

And Whereas, the Board of Directors of said Escondido Irrigation District, has by resolution duly adopted and entered upon its minutes, authorized the President and Secretary in the name of said Escondido Irrigation District to execute and deliver conveyance and transfer of the property so sold and ordered to be conveyed;

Now, Therefore, in consideration of the premises and of the payment by and on behalf of the said party of the second part of the sum bid at said sale in the manner provided in the decree of the Court ordering such sale, the receipt of which by the party of the first part is hereby acknowledged, the said Escondido Irrigation District, party of the first part, hereby grants, sells and conveys unto the said Escondido Mutual Water Company, a corporation, the following described real property, situated in the County of San Diego, State of California, to-wit: The irrigation system of said Escondido Irrigation District, including its dams, reservoirs, canals, conduits, franchises, water rights and all rights and appurtenances to said system, and any and all property connected therewith to which said District has a legal irrequitable claim, including the following, to-wit: The water right of Seventy Thousand (70,000) miners inches under a four (4) inch pressure now flowing or hereafter to flow in the San Luis Rey river appropriated pursuant to certain notices of appropriation dated for the Escondido Irrigation District on the 12th day of June, 1893, and recorded [illegible] in the office of the County recorder of San Diego County in Book [illegible] of Deeds, at page [illegible], which water right is the Von Leggren canon [illegible] Escondido creek and the river in Rock Town

CONVEYANCE AND ASSIGNMENT
BY
ESCONDIDO MUTUAL WATER COMPANY
TO
CITY OF ESCONDIDO

1. Grant, Conveyance, Assignment, and Transfer

Pursuant to the plan of distribution in complete liquidation adopted December 2, 1987, as amended December 16, 1987, the undersigned, Escondido Mutual Water Company, a California corporation (the "Corporation"), hereby grants, conveys, assigns, and transfers over to the City of Escondido, a municipal corporation, all the Corporation's interest in the following properties:

(a) All its bank accounts, cash, and currency, except for the amount of cash required to be distributed to the remaining non-City of Escondido shareholders pursuant to the plan of distribution in complete liquidation;

(b) All its accounts receivable, promissory notes, mortgages, pledges, other encumbrances, other evidences of indebtedness, and all other obligations of others owing to the Corporation;

(c) All its causes of action, licenses, and choses in action;

(d) All its stock, bonds, and other securities;

No. 712928 87

(e) All miscellaneous property of any and all kinds owned by the Corporation.

(f) All real property, interests in real property, improvements to real property, fixtures, easements in gross, easements appurtenant to real property, rights-of-way, and water rights owned by the Corporation;

(g) All water impounding, storage and conveyance facilities, including, but not limited to, diversion dams, canals, tunnels, penstocks, disinfection facilities, meters, reservoirs, telemetering equipment, pipelines, valves, and miscellaneous appurtenances;

(h) All electric power generation facilities, including, but not limited to, penstocks, control valves, turbines, generators, electrical equipment, telemetering and telephone equipment, buildings and miscellaneous appurtenances;

(i) All water distribution facilities located within the "Service Area" of the Corporation as set forth in the map as approved by the Corporation's Board of Directors by resolution adopted August 14, 1967, and described in Section 11 of Article II of the Operating Agreement dated April 29, 1971, between the Corporation and the City of Escondido, including, but not limited to, pipelines, valves, hydrants, pressure regulating devices, telemetering equipment, and miscellaneous appurtenances; and

(j) Any and all other property of whatever kind or nature and wherever located, and any and all right, title, and interest of the Corporation to that property.

2. Nonexclusive Enumeration

The specific enumeration or description of properties in this Conveyance and Assignment is not intended to limit the assets and properties covered here, but it is intended that by this instrument the Corporation is conveying to the City of Escondido all assets and properties of the Corporation of any and all kinds or character.

3. Plan of Distribution in Complete Liquidation

This Conveyance and Assignment is made under the plan of distribution in complete liquidation adopted and approved by written consent of the shareholders of the Corporation on December 16, 1987, in complete liquidation of the Corporation and

87 712928

in complete cancellation of all the outstanding shares of stock of the Corporation.

4. Conveyance of Title

Title to properties specified as being conveyed and transferred shall become fully and completely conveyed and transferred to the City of Escondido by the making of this instrument and delivery of it to the City of Escondido, but the Corporation agrees, at the City of Escondido's request, to make, execute, and deliver to the City of Escondido such other and further deeds, bills of sale, checks, conveyances, and assignments as may be desirable or convenient to further evidence the conveyance, assignment, and transfer effected by this Conveyance and Assignment. The City Council of the City of Escondido, in Resolution No. 87-426, passed and adopted December 23, 1987, a certified copy of which is attached to this Conveyance and Assignment as Exhibit A and incorporated here by this reference, authorized and directed the City Manager of the City of Escondido to accept this Conveyance and Assignment and to evidence the acceptance by the City of Escondido of all the Corporation's assets and properties of any and all kinds or character by causing a certified copy of Resolution No. 87-426 to be attached to this Conveyance and Assignment and recorded.

IN WITNESS WHEREOF, the Corporation has caused this Conveyance and Assignment to be executed and its corporate seal to be affixed by its duly authorized officers on December ___, 1987.

RESOLUTION NO. 87- 426

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ESCONDIDO, COUNTY OF SAN DIEGO, CALIFORNIA, AUTHORIZING AND APPROVING THE ACCEPTANCE BY THE CITY MANAGER OF A CONVEYANCE AND ASSIGNMENT BY ESCONDIDO MUTUAL WATER COMPANY TO CITY OF ESCONDIDO AND OF SEVERAL GRANT DEEDS OF ESCONDIDO MUTUAL WATER COMPANY, A CALIFORNIA CORPORATION, EXECUTED IN FAVOR OF THE CITY; AND MAKING CERTAIN OTHER FINDINGS AND DETERMINATIONS IN CONNECTION THEREWITH.

WHEREAS, pursuant to Resolution No. 4688 of the City Council of the City of Escondido, passed and adopted June 19, 1970, the City made a Cash Tender Offer to Purchase All Outstanding Shares of Class A and Class B Common Stock of Escondido Mutual Water Company (the "Tender Offer") to the shareholders of Escondido Mutual Water Company ("Mutual"), which Tender Offer was to expire at 5:00 p.m. on August 14, 1970, unless extended; and

WHEREAS, pursuant to Resolution No. 4745 of the City Council of the City of Escondido, passed and adopted on September 8, 1970, the Tender Offer was extended to Monday, November 16, 1970, and supplemented by a Supplement To Cash Tender Offer To Purchase All Outstanding Shares of Class A and Class B Common Stock of Mutual dated September 16, 1970; and

WHEREAS, the City, by action of the City Council on November 18, 1970, accepted the Tender Offer and, pursuant to its terms, fixed the "Effective Date" as November 30, 1970; and

WHEREAS, pursuant to Resolution No. 87-401 of the City Council of the City of Escondido, passed and adopted December 2, 1987, the City (a) reaffirmed the Tender Offer; (b) waived certain provisions of the Tender Offer; (c) authorized the payment for the shares which have been tendered and provided for the establishment of the price to be paid for such shares; and (d) authorized and directed the City Manager, City Attorney, City Treasurer, City Clerk and Finance Director, their deputies and assistants, to take all necessary and appropriate actions to cause Mutual to be dissolved and liquidated in accordance with the plan of distribution of assets in complete liquidation of Mutual as contemplated in the Tender Offer, upon the City's acquisition of all tendered shares, the liquidation to be completed no later than December 31, 1987; and

EXHIBIT A

87 526117

WHEREAS, Mutual's Board of Directors by resolution adopted December 2, 1987, and amended December 16, 1987, adopted a plan of distribution of the assets of Mutual by which the City will receive all of the assets of Mutual in complete liquidation, and authorized its officers to execute, in the name and under the seal of Mutual, any instrument or instruments required to vest in the City all property and assets of Mutual of every kind or nature, wherever situated, including, but not limited to, real property, water rights, tangible and intangible personal property, licenses, easements, rights of way, and choses in action; and

WHEREAS, Mutual plans to grant, convey, assign, and transfer to the City all property and assets of Mutual by executing and delivering (a) a Conveyance and Assignment by Escondido Mutual Water Company to City of Escondido; (b) separate grant deeds for Mutual's real properties owned in fee; and (c) such other instrument or instruments as are necessary or appropriate;

NOW, THEREFORE, the City Council of the City of Escondido, County of San Diego, California, DOES HEREBY FIND, RESOLVE, DETERMINE AND ORDER as follows:

Section 1. That the recitals set forth hereinabove are true and correct in all respects.

Section 2. That the City Manager, his deputies, and assistants, are authorized and directed to accept (a) a Conveyance and Assignment by Escondido Mutual Water Company to City of Escondido to evidence the grant, conveyance, assignment and transfer to the City of all property and assets of Mutual of every kind or nature, or wherever situated, including, but not limited to, real property, water rights, tangible and intangible personal property, licensees, easements, rights of way and choses in action; (b) separate conveyances by grant deed of Mutual's real properties owned in fee; and (c) conveyances, assignments, and transfers by such other instrument or instruments as are or may be necessary or appropriate in the circumstances.

Section 3. That the City Manager is authorized and directed to evidence the acceptance of assets and property from Mutual by causing the City Clerk to certify a true and correct copy of this Resolution and by causing Mutual to affix the copy of this Resolution so certified to the Conveyance and Assignment by Escondido Mutual Water Company to City of Escondido, which shall be recorded in the official records of the County Recorder of San Diego County, California.

JEANNE BUNCH, City Clerk,
City of Escondido, California

EXHIBIT A

322

Beneficiary. (the singular in each instance including the plural, if there be more than one):

WITNESSETH: That, in consideration of the indebtedness hereinafter specified, and in order to secure the same, the said Trustor does hereby GRANT and CONVEY unto said Trustee, IN TRUST, WITH POWER OF SALE, that certain property situated in the City of San Diego, County of San Diego, State of California, described as follows:

#4

The North Sixty-five (65) feet of Lots Thirty-three (33) and Thirty-four (34) in Treat Addition, in the City of and County of San Diego, State of California, according to Map thereof No. 1454, filed in the office of the County Recorder of said San Diego County, June 25, 1912.

including all buildings, fixtures and improvements thereon or that may hereafter be erected thereon, water rights, pipes, easements, ways, rights, appurtenances, and privileges thereunto belonging or in anywise appertaining, and the reversion and reversions, remainder and remainders, rents, issues and profits thereof.

This Deed of Trust is made for the purpose of securing the performance of the promises and obligations, and compliance with the covenants hereinafter set forth, as follows:

FIRST: The payment of the indebtedness evidenced by one certain promissory note (and any renewals or extensions thereof), the same being substantially in words and figures following, to-wit:

$450.00 San Diego, California, October 30, 1933.

On or before One Year after date, for value received, I, we or either of us promise to pay to THE FIRST NATIONAL TRUST AND SAVINGS BANK OF SAN DIEGO, a corporation, or order at its TRUST DEPARTMENT, in San Diego, California, the sum of Four Hundred Fifty and No/100 Dollars, with interest from October 18, 1933, at the rate of Seven per cent. per annum, payable quarterly and should the interest not be so paid, it shall thereafter bear like interest as the principal. Should default be made in the payment of any installment of interest then due, then the whole sum of principal and interest shall become immediately due and payable at the option of the holder of this note. Should suit be commenced, or an attorney employed to enforce the payment of this Note, I, we or either of us, agree to pay the further sum of Ten (10) per cent. on principal and accrued interest, as attorney's fees. Principal and interest payable in gold coin of the United States of the present standard. This note is secured by a certain Deed of Trust to THE FIRST NATIONAL TRUST AND SAVINGS BANK OF SAN DIEGO, a corporation.

LYNN S. WHITMOYER

MAY C. WHITMOYER.

SECOND: The payment of attorney's fees, in a reasonable sum to be fixed by the Court in any action, suit or proceeding affecting the rights of the Trustee or Beneficiary hereunder, whether resulting in judgment or not, but in no event less than $100. for appearance by each or either; also payment of all costs and expenses of such suit.

THIRD: The payment of all sums which may be expended or advanced by the Trustee or Beneficiary in discharge of superior liens, removal or settlement of encumbrances or adverse claims, care or protection of the Trust property, or for any other purpose whether provided for by the terms hereof or not, which the Trustee or Beneficiary may, in its or their absolute discretion, deem necessary expenditures for the preservation of the security, or the protection of the lien or effect hereof.

FOURTH: The payment of such additional sums, with interest thereon, as may be hereafter borrowed or received by the original Trustor (or either or any of them if there be more than one) from the original Beneficiary, or agreed to be paid by the original Trustor to the original Beneficiary, same to be evidenced by a promissory note or notes executed and delivered therefor by such Trustor to the original Beneficiary, or any renewal or renewals or extension thereof.

The Trustee shall hold and dispose of said title on the following express trusts, to-wit:

PHOTOGRAPHED BY D. A. JOHNSON DEPUTY RECORDER

PHOTOGRAPHED BY D. A. JOHNSON DEPUTY RECORDER

4. As additional security for said obligations, the Trustor agrees, promises and covenants during the continuance of these Trusts, as follows:

1. For the purpose of protecting and preserving the security of this Deed of Trust: (a) to properly care for and keep said property in good condition and repair; (b) not to remove or demolish any building thereon; (c) to complete in a good and workmanlike manner any building which may be constructed thereon, and to pay when due all claims for labor performed, and materials furnished therefor; (d) to comply with all laws, ordinances and regulations requiring any alterations or improvements to be made thereon;(e) not to commit or permit any waste or deterioration thereof; (f) to promptly pay and settle (or cause to be removed by suit or otherwise) all adverse claims against said property; (g) not to commit, suffer or permit any act to be done in or upon said property in violation of any law or ordinance; (h) to cultivate, irrigate, fertilize, fumigate, prune and/or do any other act or acts, all in a timely and proper manner, which, from the character or use of said property, may be reasonably necessary to protect and preserve said security, the specific enumerations herein not excluding the general.

2. To provide, maintain, pay for and deliver to Beneficiary insurance against fire and other casualties in companies, forms and amounts designated by, satisfactory to, and with loss payable to Beneficiary, all policies to be held by Beneficiary. The amount collected under any fire insurance policy shall be credited first, to accrued interest; next, to expenditures hereunder any any remainder upon the principal, and interest shall thereupon cease upon the amount so credited upon principal; provided, however, that at option of Beneficiary, the entire amount so collected or any part thereof, may be released to Trustor, without liability upon Trustee for such release.

3. To appear in and defend any action or proceeding purporting to affect the security of this Deed of Trust, the interests of Beneficiary or the rights, powers and duties of Trustee hereunder; and to pay all costs and expenses, including cost of evidence of title and attorney's fees in a reasonable sum, in any such action or proceeding in which Beneficiary,and/or Trustee may appear.

4. To obtain and deliver to the Trustee, the consent in writing of the holder or holders of all indebtedness secured hereby before commencing, participating in or maintaining any proceeding to register the title to the land herein described or any part thereof, under the provisions of the Land Title Law, which became effective in this State on December 19, 1914; failing which the Trustee or Beneficiary, may, in its discretion, although not obligated so to do, have power to compel the abandonment of any such proceedings, this remedy to be cumulative of others herein provided for such breach.

5. To pay: (a) as soon as due, all taxes, and assessments affecting said property, (including assessments on appurtenant water stock, if any) and any costs or penalty thereon; the Trustor waiving the right to treat such payments as a credit on the debts secured hereby; (b) when due, all incumbrances (including any debt secured by Deed of Trust) and/or interest thereon, which appear to be liens or charges upon said property or any part thereof prior to this Deed of Trust; (c) all costs, fees, and expenses of these Trusts, including cost of evidence of title and Trustee's fees in connection with sale, whether completed or not, which amounts shall become due upon delivery to Trustee of Declaration of Default and Demand for sale, as hereinafter provided.

6. To pay in United States gold coin, without demand, all sums expended by Trustee or Beneficiary under the terms hereof with interest from date of expenditure at the rate of ten per cent. per annum.

B. Should Trustor fail or refuse to make any payment or do any act, which he is obligated hereunder to make or do, at the time and in the manner herein provided, then Trustee and/or Beneficiary, each in its sole discretion, may, without notice to or demand upon Trustor and without releasing Trustor from any obligation hereof:

1. Make or do the same in such manner and to such extent as may be deemed by them or either of them in its sole discretion, necessary to protect or preserve the security of this Deed of Trust, either Trustee or Beneficiary being authorized to enter upon and take possession of said property for such purposes, and to collect and retain the rents, issues and profits thereof.

2. Commence, appear in or defend any action or proceeding affecting or purporting to affect the security of this Deed of Trust, the interests of Beneficiary or the rights, powers and duties, of Trustee hereunder, whether brought by or against Trustor, Trustee or Beneficiary: or.

3. Pay, purchase, contest or compromise any prior claim, debt, lien, charge or incumbrance which in the judgment of either may affect or appear to affect the security of this Deed of Trust, the interests of Beneficiary or the rights, powers and duties of Trustee hereunder.

Provided, that neither Trustee nor Beneficiary shall be under any obligation to make any of the payments or do any of the acts above mentioned, but, upon election of either or both so to do, employment of an attorney is authorized and payment of the fees of such attorney in a reasonable sum, and also all costs and expenses are hereby secured.

C. Trustee shall be under no obligation to notify any party hereto of any action or proceeding of any kind in which Trustor, Beneficiary and/or Trustee shall be named as defendant , unless brought by Trustee.

D. Acceptance by Beneficiary of any sum in payment of any indebtedness secured hereby, after the date when the same is due, shall not constitute a waiver of the right either to require prompt payment, when due, of all other sums so secured or to declare default as herein provided for failure so to pay.

E. That the granting of any extension of time of payment of any indebtedness secured hereby, whether to the, or any successor in interest of the, original Trustor, or the taking of other or additional security for the payment thereof, or the waiver of or failure to exercise any right to mature any obligation herein mentioned under any covenant or stipulation herein contained, shall not operate as a release of any personal liability of the Trustor or any other person for payment of any indebtedness secured hereby, or affect any right or remedy of the Trustee or Beneficiary herein or hereunder.

F. Trustee may, at any time, or from time to time, without liability therefor and without notice, upon written request of Beneficiary and with or without presentation of this Deed of Trust, and the note secured hereby for endorsement, and without affecting the personal liability of any person for payment of the indebtedness secured hereby or the effect of this Deed of Trust upon the remainder of said property:

1. Reconvey any part of said property;
2. Consent in writing to the making of any map or plat thereof; or
3. Join in granting any easement thereon.

G. Upon payment of all sums secured hereby and surrender to Trustee, for cancelation, of this Deed of Trust and the note secured hereby, Trustee, upon receipt from Beneficiary of a written request reciting the fact of such payment and surrender, shall reconvey, without warranty, the estate then held by Trustee, and the Grantee in such reconveyance may be described in general terms as "the person or persons legally entitled thereto", and Trustee is authorized to retain this Deed of Trust and such note. The recitals in such reconveyance of any matters or facts shall be conclusive proof against all persons of the truthfulness thereof.

H. Should breach or default be made by Trustor in payment of any indebtedness secured hereby and/or in performance of any obligation, covenant, promise or agreement herein, or in said note contained, then , or at any time thereafter, while such default or breach continues, Beneficiary may, without demand or notice, declare all sums secured hereby immediately due by the execution and delivery to Trustee of a written declaration

PHOTOGRAPHED BY D. A. JOHNSON DEPUTY RECORDER

of Default and Demand for Sale, whereupon all sums secured hereby shall become and be immediately due and payable, and shall surrender to Trustee this Deed of Trust, the note and receipts or other documents evidencing any expenditure secured thereby.

Beneficiary shall also execute and deliver to Trustee a written notice of such breach or default and of his election to cause to be sold the herein described property to satisfy the obligations hereof, and thereafter Trustee shall cause such notice to be recorded in the office of the recorder of the County or Counties wherein said real property or some part thereof is situated.

Beneficiary, from time to time before Trustee's sale, may rescind any such notice of breach or default and of election to cause to be sold said property by executing and delivering to Trustee a written notice of such rescission, which notice, when recorded in the office of the recorder of the aforesaid County or Counties, shall also constitute a cancelation of any prior Declaration of Default and Demand for Sale. The exercise by Beneficiary of such right of rescission shall not constitute a waiver of any breach or default, then existing or subsequently occurring, or impairing the right of Beneficiary to execute and deliver to Trustee, as above provided, other Declarations of Default and Demand for Sale, and notices of breach or default and of election to cause to be sold said property to satisfy the obligations hereof, nor otherwise affect any provision, covenant or condition of said note and of this Deed of Trust or any of the rights, obligations or remedies of the parties thereunder.

2. After three months shall have elapsed following recordation of any such notice of breach or default and of election to cause to be sold said property, as to which no notice of rescission has been recorded, Trustee, without demand on Trustor, shall sell said property, as herein provided, at such time and at such place in the State of California, as the Trustee, in its sole discretion, shall deem best to accomplish the objects of these Trusts, having first given notice of the time and place of such sale in the manner and for a time not less than that required by the laws of the State of California, for sales of real property under Deeds of Trust.

3. Trustee may postpone sale of all, or any portion, of said property, either by the publication, prior to the date of sale so advertised, of a notice of postponement in the same newspaper or newspapers in which the original notice shall have been published, or by public announcement at the time fixed by said notice of sale, and may thereafter postpone said sale from time to time by either of said methods; and without further notice it may make such sale at the time to which the same shall be so postponed, provided, however, that the sale or any postponement thereof must be made at the place fixed by the original notice of sale.

4. At the time of sale so fixed, Trustee may sell the property so advertised, or any part thereof, either as a whole or in separate parcels, at its sole discretion, at public auction, to the highest bidder for cash in United States gold coin, all payable at time of sale, and after any such sale and due payment made, shall execute and deliver to such purchaser a deed or deeds conveying the property so sold, but without covenant or warranty, express or implied, regarding title, possession or incumbrances. Trustor hereby agrees to surrender immediately and without demand possession of said property to such purchaser. The recitals in such deed or deeds of any matters or facts affecting the regularity or validity of said sale shall be conclusive proof of the truthfulness thereof and such deed or deeds shall be conclusive against all persons as to all matters or facts therein recited. Trustee, Beneficiary, any person on behalf of either, or any other person, may purchase at such sale.

I. Trustee shall apply the proceeds of any such sale to payment of:

1. (a) Expenses of sale; (b) all costs, fees, charges and expenses of Trustee

PHOTOGRAPHED BY D. A. JOHNSON DEPUTY RECORDER

and of these Trusts, including cost of evidence of title and Trustee's fee in connection with sale according to its established schedule of fees;

2. All sums expended under the terms hereof, not then repaid, with accrued interest at the rate of ten per cent. per annum.

3. Accrued interest on said note or notes and other obligations secured hereby, original and subsequent;

4. Unpaid principal on said note; or if more than, the unpaid principal thereof pro rata and without preference or priority; or the renewals thereof, and other obligations secured hereby; and

5. The remainder, if any, to the person or persons legally entitled thereto, upon proof of such right.

J. In this Deed of Trust, whenever the context so requires, the masculine gender includes the feminine and/or neuter, and the singular number includes the plural.

K. If there be more than one person executing this instrument as Trustor, then all the covenents, promises and obligations herein mentioned and secured hereby shall be deemed and held to be the joint and several covenants, promises and obligations of each of the parties so executing this instrument; in all other respects, except as may be herein otherwise provided, every covenant, provision and agreement herein contained shall bind and inure to the benefit of the parties hereto, their heirs, legal representatives, successors and assigns. Should the Trustee hereunder subsequently acquire any other interest in said property no merger of title shall be presumed, unless expressly agreed to in writing by the Trustee.

L. This Deed of Trust shall not be effective unless prior to its recordation, the trust is accepted by said Trustee under its corporate name and seal, by a duly authorized official thereof, and shall, after recordation, remain in the possession of the Trustee for the benefit of all parties hereto.

Witness the hand and seal of the Trustor the day and year first above written.

---000---

THIS INDENTURE, Made the 17th day of May, in the year of our Lord one thousand nine hundred and twelve, between the Escondido Land and Town Company, a corporation duly organized under the laws of the State of California, party of the first part, and Melville L. Howell, the party of the second part, WITNESSETH, that the said party of the first part, for and in consideration of the sum of Ninety-six Hundred and Fifty-five and 80/100 Dollars, lawful money of the United States of America, to it in hand paid by the said party of the second part, the receipt whereof is hereby acknowledged and in consideration of the full performance of the covenants hereinafter contained, does by these presents grant to the said party of the second part, and to his heirs and assigns forever, all the certain lots and parcels of land situate, lying and being in San Diego County, State of California, and bounded and particularly described as follows, to wit:

Lots numbered five (5), six (6), eighteen (18), twenty-one (21), twenty-two (22), twenty-five (25), twenty-six (26), twenty-seven (27) and twenty-eight (28) in block numbered three hundred and six (306), Lots numbered one (1), two (2) and three (3) in block numbered one hundred and forty-six (146), Lots numbered one (1) and two (2) in block numbered one hundred and fifty-nine (159) all in the Subdivision of the Rancho Rincon del Diablo, according to the plat showing the resurvey thereof made by J. M. Grahmm, C.E., filed in the office of the County Recorder of said county, August 13, 1892, and Lots numbered one (1) and two (2) in block numbered three hundred fourteen (314) and lot numbered three (3) in block three hundred sixteen (316) in the subdivision of Rancho Rincon del Diablo in the City of Escondido County of San Diego, State of California, according to map thereof made by E. L. Dorn, No. 527 filed in the office of the County Recorder of said San Diego County April 10th, 1888; all of said premises hereby conveyed containing one hundred and four and 93/100 (104.93) acres more or less, and being conveyed subject to a right of way heretofore granted to the Central California Railroad Company for a "Y" on said lot 3 block 316, and subject to a right of way for pipe lines and ditches heretofore granted to the Escondido Irrigation District.

It is hereby covenanted and agreed (and this covenant shall run with the land) that if at any time said second party, his heirs, assigns or successors in interest, or those holding or claiming under them, shall, with the knowledge or consent of the owner of said premises, use, or cause to be used, or shall allow or authorize in any manner, directly or indirectly, said premises, or any part thereof, to be used for the purpose of vending intoxicating liquors for drinking purposes, whether said vending shall be direct or under some evasive guise, thereupon the title hereby granted shall revert to and be vested in the Escondido Land and Town Company, a corporation, its successors and assigns, and it, or said successors or assigns, shall be entitled to the immediate possession thereof, provided that any bona fide mortgagee or said premises, in case the foregoing covenant be broken, shall have the option to at once claim and enforce the foregoing reversion for himself and for his own use and benefit, subject, however, to the foregoing covenant, running against any further violation thereof, otherwise the foregoing covenant shall have the same force and effect as if said proviso was not herein inserted. In the dedication of the streets and alleys to public use, there is hereby reserved from such use the right to vend or otherwise dispose of intoxicating liquors for drinking purposes and to that extent said streets are and hereby and forever shall remain the private property of said grantor or its assigns.

[redacted]

Photographed By T. FAHER, Deputy Recorder

All city, state or county taxes of whatsoever nature that may become due subsequent to March 1st, 1910 are to be paid by the party of the second part.

TO HAVE AND TO HOLD, the above granted premises unto the said party of the second part, his heirs and assigns forever.

IN WITNESS WHEREOF, the said party of the first part has hereunto caused its corporate name to be signed by the hand of its President and its corporate seal to be affixed, and attested by its Secretary, the day and year first above written.

ESCONDIDO CITY COUNCIL

ORDINANCE NO. 84-85

1984 DEC 27 PM 3 53

RECORDING REQUESTED BY AND MAIL TO:
City of Escondido
City Clerks office
100 Valley BLVD
Escondido
Ca 92024

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ESCONDIDO APPROVING AND ADOPTING THE ESCONDIDO REDEVELOPMENT PLAN AND PROJECT AREA

THE CITY OF ESCONDIDO DOES HEREBY ORDAIN AS FOLLOWS:

NO FEE

Section 1. On July 11, 1984 the Escondido City Council adopted Ordinance No. 84-46 creating the Escondido Redevelopment Agency for the purpose of pursuing redevelopment activities in the community.

Section 2. On July 18, 1984 the City Council further adopted Resolution No. 84-186 captioned:

> "A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ESCONDIDO DESIGNATING CERTAIN REAL PROPERTIES AS BEING INCLUDED WITHIN A SURVEY AREA FOR REDEVELOPMENT CONSIDERATIONS; AND DIRECTING STAFF, THE PLANNING COMMISSION, AND REDEVELOPMENT AGENCY TO PREPARE THE NECESSARY PUBLIC HEARINGS AND PREPARE THE NECESSARY REPORTS FOR CONSIDERATION AND ADOPTION OF ESCONDIDO REDEVELOPMENT PROJECT AREA(S) AND PLAN(S)"

Section 3. The Planning Commission of the City of Escondido, in conjunction with the Escondido Redevelopment Agency has, by Resolution No. 3918 designated the Escondido Redevelopment Project Area.

Section 4. The Escondido Redevelopment Agency by Resolution No. 84-12 approved on September 19, 1984, and the Planning Commission of the City of Escondido by Resolution No. 3950 approved on October 23, 1984 have prepared and approved a Preliminary Redevelopment Plan for the Escondido Redevelopment Project Area.

Section 5. The Escondido City Council has received from the Escondido Redevelopment Agency the proposed Redevelopment Plan for the Redevelopment Project, as approved by the Agency, a copy of which is on file at the office of the Agency at 100 Valley Boulevard, Escondido, California, and at the office of the City Clerk, City Hall, 100 Valley Boulevard, Escondido, California, together with the Report of the Agency including the reasons for the selection of the Project Area, a description of the physical, social, and economic conditions existing in the Project Area, the proposed method of financing the redevelopment

No. 481265

of the Project Area, a plan for the relocation of business owners and tenants who may be temporarily or permanently displaced from the Project Area, an analysis of the Preliminary Plan, the report and recommendations of the Planning Commission and the Project Area Committee of the City of Escondido, an Environmental Impact Report on the Redevelopment Plan, the report of the County Fiscal Officer and the Agency's analysis thereof, and a neighborhood impact report.

Section 6. The Planning Commission has submitted to the City Council its report and recommendations for approval of the Redevelopment Plan, and its certification that the Redevelopment Plan conforms to the General Plan for the City of Escondido, and the Citizens Advisory Committee (Project Area Committee) has submitted to the City Council its report and recommendations for approval of the Redevelopment Plan.

Section 7. The Escondido Redevelopment Agency has found and determined that the Escondido Redevelopment Project Area is characterized by the conditions of blight which are hereinafter set forth. These conditions represent physical, social, and economic liabilities which require a redevelopment plan in order to properly provide for the revitalization, redevelopment, and development of these properties in a manner which is consistent with, and in the interest of, general welfare. In addition, the Redevelopment Plan shall be a guideline for implementing the objectives set forth hereinafter so as to insure that the policies, goals, and objectives of the Escondido Redevelopment Agency, the Escondido City Council, and the laws of the State of California are complied with and implemented in a manner which is most in keeping with the general welfare.

The blight characterized in the Escondido Redevelopment Project Area constitutes a physical, social, or economic liability in the community requiring redevelopment in the interest of the health, safety, and general welfare of the people of the community, and further that this blight is causing a reduction of, or lack of, proper utilization of the area to such an extent that it constitutes a serious physical, social, or economic burden on the community which cannot reasonably be expected to be reversed or alleviated by private enterprise acting alone.

No. 481265

Section 8. The conditions of blight which exist in the Escondido Redevelopment Project Area include, but are not limited to:

a) Inadequate street system to serve potential parking, circulation, and loading demand of the Central Business District and the Civic Center/Cultural Facility;

b) Inadequate street lighting, lack of curbs and gutters, and poor public improvements and facilities.

c) The need for additional public and private utilities in order to accommodate the development of properties within the Project Area boundaries, including the need for additional storm drain facilities.

d) The lack of proper utilization of many properties within the Project Area boundaries resulting in development constraints on a number of these properties, thus producing a stagnate and unproductive condition of land which is otherwise potentially useful and valuable.

e) The unimproved, defective, and/or inadequate construction of street improvements and public/private utilities within the Project Area which has resulted from the uncoordinated development pattern of certain of the properties within the Project Area.

f) The lack of adequate public facilities, including open space and other places of recreational and cultural activity which are necessary to serve the property within the Project Area boundaries.

g) The lack of development or redevelopment within the Project Area which has resulted because of the inadequacy of the required public facilities and services necessary to accommodate the redevelopment of the area in cooperation with the private sector.

h) The presence of vacant and viable residential, industrial and commercial property whose development has been impeded due to an infrastructure community system which is not fully designed and developed to a standard acceptable for development.

i) A street pattern which is inadequate to provide for safe and efficient vehicular, pedestrian, and bicycle circulation, including the lack or unacceptability of street bridges.

j) The inadequate and/or inefficient use of flood control canals and public utility easements which traverse the Project Area boundaries and which increasingly become physical barriers and barren parcels of property which physically blight the immediately adjacent properties and the remainder of the properties within the Project Area.

k) Inadequate planning of the freeways and major highways which traverse the Project Area with the corresponding failure to provide for the physical and social needs of those persons and properties which are adjacent to, and in close proximity with, the freeways and major highways. In this regard, it is obvious that the noise, debris, and other pollutants which are generated by the freeways and major highways are blighting conditions which negatively impact the property within the Project Area. Provision must be made to minimize or eliminate those conditions and to insure compatibility between the properties adjacent to, and in close proximity with, the freeways and major highways.

l) The inability of the City and/or County to wholly finance and construct a regional governmental and cultural center for the North San Diego County area. Without such a facility, the governmental, cultural, and social needs of the City of Escondido and the North County area will not be met, and the Central Business District of the City will decline due to the outflow of commercial activity.

No. 481265 84-28

m) The existence of vacant retail structures (i.e. automobile dealership and general retail merchandise) due to a relocation trend that has resulted from the need to have larger, more modern and/or accessible facilities.

Section 9. The Escondido City Council does determine and declare that the City Council's purpose and intent with respect to adopting the Escondido Redevelopment Plan and Project Area is:

a) The elimination of existing blighted conditions, be they properties or structures, and the prevention of recurring blight in and about the Project Area.

b) The development of property within a coordinated land use pattern of residential, commercial, industrial, recreational, and public facilities in the Project Area consistent with the goals, policies, objectives, standards, guidelines, and requirements as set forth in the City's adopted General Plan and Zoning Ordinance.

c) The development of public services and facilities including, but not limited to, recreational, maintenance, and operational services and facilities as are necessary and required for the development of the Project Area.

d) The elimination of environmental deficiencies including inadequate street improvements, inadequate utility systems, and inadequate public services; and mitigation of freeway or highway impacts, including its circulation, movement and its potential social, physical, and environmental characteristics of blight.

e) The development of a more efficient and effective circulation corridor system free from hazardous vehicular, pedestrian, and bicycle interfaces and designed to their ultimate circulation flow.

f) The implementation of techniques to mitigate blight characteristics resulting from exposure to freeway, highway, and public right-of-way corridor activity and affecting adjacent properties within the Project Area.

g) Beautification activities to eliminate all forms of blight including, but not limited to, visual blight, in order to encourage community identity.

h) The encouragement, promotion, and assistance in the development and expansion of local commerce and needed commercial and industrial facilities, increasing local employment prosperity, and improving the economic climate within the Project Area, and the various other isolated vacant and/or underdeveloped properties within the Project Area.

i) The acquisition, assemblage, and/or disposition of sites of usable and marketable sizes and shapes for commercial, industrial, recreational, and public facility development within the Project Area.

j) The creation of a more cohesive and unified community by strengthening the physical, social, and economic ties between residential, commerical, industrial, and recreational land uses within and about the Project Area.

k) The acquisition and disposition of property for the purpose of providing relocation housing, as may be required, to implement the objectives of this Plan.

l) To provide for very low-, low- and moderate-income housing availability as required by County, Region, or State law and requirements, as

No. 451265 84

necessary and desirable, consistent with the goals and objectives of the community.

m) To encourage the coordination, cooperation, and assistance of other local agencies, as may deemed necessary, to ensure that projects undertaken by this Agency are implemented to their fuliest and practical extent.

m) The achievement of a physical environment reflecting a high level of concern of architectural and urban design principles deemed important by the community.

o) To encourage community involvement and citizen participation in the adoption of policies, programs, and projects so as to ensure that the Redevelopment Plan is implemented in accordance with the objectives and goals of the General Plan.

p) To provide a procedural and financial mechanism by which the Agency can assist, complement, and coordinate public and private development, redevelopment, revitalization, and enhancement of the community.

q) To assist and supplement the financing and construction of the Escondido Civic Center and Cultural facilities, and to enhance the economic climate of the City's Central Business District.

Section 10. In conjunction with the City Council's overall redevelopment intent and purpose, the City Council does declare the following general land utilization objectives:

a) To encourage the development of well-planned and quality designed residential, commercial, and industrial development which meets the adopted high standards of this community.

b) To provide for sufficient land area within the Project Area for appropriate types of commercial and industrial development, properly located to provide services and goods to meet the commercial and industrial needs of the area, the community, and the region.

c) To provide for required community facilities and open space including parks and recreational facilities.

d) To provide an adequate traffic circulation and control system within the Project Area so as to provide for efficient and safe movement of people, goods, and services in conformance with the General Plan.

e) To provide for the installation and improvement of streets, public utilities, sewer, and water services necessary to the ultimate development of the Project Area.

f) To provide the direction, purpose, and climate for combined public and private investment which will result in benefits to the community as a whole.

g) To provide for site location, ultimate development, and/or expansion of civic and public buildings, facilities, and services.

h) To provide for the beautification and revitalization of the Project Area enabling the community to further establish an identity and a quality of life which is desired by its citizens and businessmen.

i) To provide assistance, enticements, and encouragement to ensure that the Project Area is developed to its fullest and ultimate usage, ensuring that the standards and requirements of the Municipal Code and the policies, goals, and objectives of the General Plan are met.

No 481265 84

j) To provide a smooth plan that implements the transitional character of neighborhoods from lower to high intensity uses as a result of recycling of properties.

Section 11. The Council and the Agency held a joint public hearing on December 19, 1984 on the adoption of the Redevelopment Plan, and the certification of the Final Environmental Impact Report on the Redevelopment Plan, in the Gymnasium of the Escondido High School, 1535 North Broadway, Escondido, California.

Section 12. A notice of said hearings was duly and regularly published in the Times Advocate, a newspaper of general circulation in the City of Escondido, and once a week for four successive weeks prior to the date of said hearing, and a copy of said notice and affidavit of publication are on file with the City Clerk and the Agency; copies of the notice of joint public hearing were mailed by certified mail with return receipt requested to the last known address of each assessee, as shown on the last equalized assessment roll of the County of San Diego, of each parcel of land in the proposed Project Area; each assessee in the Project Area was sent a separate statement, attached to the notice of joint public hearing, that no property in the Project Area is subject to acquisition by eminent domain or condemnation under the provisions of the Redevelopment Plan; and copies of the notice of joint public hearing were mailed by certified mail with return receipt requested to the governing body of each taxing agency which receives taxes from property in the Project Area.

Section 13. The Agency has prepared and submitted a program for the relocation of persons and businesses who may be displaced as a result of carrying out the Project in accordance with the Redevelopment Plan; and the Council has general knowledge of the conditions existing in the Project Area and of the availability of suitable housing in the City for the relocation of families and persons who may be displaced by the Project, and in the light of such knowledge of local housing conditions, has carefullly considered and reviewed such program for relocation.

Section 14. The Council has considered the report and recommendations of the Planning Commission and the Project Area Committee, the report of the Agency,

No. 481265 84-8

the Redevelopment Plan, and its economic feasibility, the feasibility of the relocation program, and the Environmental Impact Report, has provided an opportunity for all persons to be heard and has received and considered all evidence and testimony presented for or against any and all aspects of the Redevelopment Plan.

Section 15. The Agency and Council have reviewed and considered the Final Environmental Impact Report for the Redevelopment Plan, prepared and submitted pursuant to Public Resources Code Section 21151 and Health and Safety Code Section 33352, and certified the completion of said Environmental Impact Report on December 19, 1984, by Redevelopment Agency Resolution No. RDA 84-17 and City Council Resolution No. 84-363.

Section 16. The proposed Escondido Redevelopment Plan and Project Area, after public hearing and as recommended by the Escondido Redevelopment Agency, the Escondido Planning Commission, and the Project Area Committee is hereby approved, adopted, and designated as the official Escondido Redevelopment Plan and Project Area for the City of Escondido.

Section 17. The City Council acknowledges receipt of and files:

a. Resolution 8035 of the Board of Directors of the Metropolitan Water District of Southern California.

electing to be allocated certain revenues attributable to any increase in these District's tax rates which may occur after the tax year in which this Ordinance becomes effective pursuant to Section 33676 of the California Health and Safety Code and has provided for such allocation in accordance with Section 700.70 of the Escondido Redevelopment Plan. Further, the Escondido Redevelopment Agency and the City Council of the City of Escondido approved agreements with the following affected taxing jurisdictions in order to mitigate or alleviate those fiscal impacts which may affect these taxing jurisdictions as a result of the adoption or implementation of the Redevelopment Plan.

a. County of San Diego
b. Escondido Union School District
c) Escondido Union High School District
d) San Marcos Unified School District
e) Palomar/Pomerado Hospital District
f) County of San Diego Department of Education
g) North County Cemetery District

No. 481265 84

h) Rincon del Diablo Municipal Water District
i) Palomar Community College District

Section 18. All other written and oral objections to the Escondido Redevelopment Plan and Project Area are hereby overruled.

Section 19. The Redevelopment Plan shall hereinafter be referred to as the "Escondido Redevelopment Plan," and the Project Area shall hereinafter be referred to as the "Escondido Redevelopment Project Area."

Section 20. The Escondido City Council hereby finds and determines that:

a) It is necessary and/or desirable to adopt the Escondido Redevelopment Plan and Project Area to encompass the property referred to in the Escondido Redevelopment Plan and to authorize the development and/or construction of such facilities and/or improvements as are set forth in the same Escondido Redevelopment Plan.

b) The Escondido Project Area is a blighted area, the redevelopment of which is necessary to effectuate the public purpose declared in the California Community Redevelopment Law (Health and Safety Code Section 33000 et. seq.). The finding is based upon the following conditions which characterize the Project Area:

(1) The existence of unfit or unsafe buildings and structures due to age, obsolescence, faulty exterior spacing and mixed character, and shifting of uses.

(2) The existence of properties which suffer from deterioration and disuse because of: inadequate public improvements, facilities, and utilities, including inadequate and insufficient traffic circulation, drainage, water distribution, sewers, and lots (parcels) of irregular form, shape, and size, which cannot be remedied with private or governmental action without redevelopment.

(3) The existence of properties which suffer from economic dislocation, deterioration, and disuse resulting from faulty planning.

(4) A lack of proper utilization of property, resulting in a stagnant and unproductive condition of land potentially useful and valuable.

It is further found and determined that such conditions are causing, and will increasingly cause, a reduction and lack of proper utilization of the area to such an extent that it constitutes a serious physical, social, and economic burden on the City which cannot reasonably be expected to be reversed or alleviated by private enterprise acting alone, requiring redevelopment in the interest of the health, safety, and general welfare of the people of the City and the State. This finding is based on the fact that governmental action available to the City without redevelopment would be insufficient to cause any significant correction of the blighting conditions, and that the nature and costs of the public improvements and facilities required to correct the blighting conditions are beyond the capacity of the City and cannot be undertaken or borne by private enterprise acting alone or in concert with available governmental action.

c) The Escondido Redevelopment Plan will provide for redevelopment of properties within the Escondido Project Area boundaries in a manner conforming with the California Community Redevelopment Law and in the interests of the public peace, health, safety, and general welfare. This finding is based upon the fact that redevelopment of the Project

No. 481265 84-8

Area will implement the objectives of the Community Redevelopment Law by aiding in the elimination and correction of the conditions of blight, providing for planning, development, redesign, clearance, reconstruction or rehabilitation of properties which need improvement and providing for higher economic utilization of potentially useful land.

d) The adoption and carrying out of the Escondido Redevelopment Plan is economically sound and feasible since it is based upon the Escondido Preliminary Redevelopment Plan which has been shown to be both economically sound and feasible as a financing mechanism for the Escondido Redevelopment Agency. This finding is based on the fact that under the Redevelopment Plan no public redevelopment activity will be undertaken unless the Agency can demonstrate that it has adequate revenue to finance the activity.

e) The Escondido Redevelopment Plan conforms to the General plan of the City of Escondido. This finding is based on the findings of the Planning Commission that the Redevelopment Plan conforms to the General Plan for the City of Escondido.

f) The carrying out of the Escondido Redevelopment Plan will promote the public peace, health, safety, and general welfare of the community and will effectuate the purposes and policy of the California Community Redevelopment Law. This finding is based on the fact that redevelopment will benefit the Project Area by correcting conditions of blight and by coordinating public and private actions to stimulate development and improve the economic, social, and physical conditions of the Project Area.

g) The condemnation of real property is not authorized to be used by the Escondido Redevelopment Agency Redevelopment Plan. This finding is based upon the provisions of Section 600.31 of the Redevelopment Plan

h) The relocation of persons or businesses is not anticipated or at best would be minimal. However, the Redevelopment Agency has a feasible method or plan for the relocation of families and persons who might be temporarily or permanently displaced from the Project Area through the implementation of the Escondido Redevelopment Plan. This finding is based upon the fact that the Redevelopment Plan provides for relocation assistance according to law.

i) There are or are being provided in the Project Area or in other areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of the families and persons displaced from the Project Area, decent, safe, and sanitary dwellings equal in number to the number of, and available to, such displaced families and persons and reasonably accessible to their places of employment. This finding is based upon the fact that no person or family will be required to move from any dwelling unit until suitable replacement housing is available.

j) Inclusion of any lands, buildings, or improvements which are not detrimental to the public health, safety, or general welfare is necessary for the effective redevelopment of the Project Area of which they are a part; and that such areas included are necessary for effective redevelopment in the community and are not included for the purpose of obtaining the allocation of tax increment revenues from such areas pursuant to Section 33670 of the California Health and Safety Code without other substantial justification for the inclusion. This finding is based upon the fact that the boundaries of the Project Area, were chosen as a unified and consistent whole to include lands that were underutilized because of blighting influences, or affected by the existence of blighting influences, and land uses significantly contributing to the conditions of blight, whose inclusion is necessary to accomplish the objectives and benefits of the Redevelopment Plan.

k) The elimination of blight and the redevelopment of the Project Area could not be reasonably expected to be accomplished private enterprise

No. 48126 84

acting alone without the aid and assistance of the Redevelopment Agency. This finding is based upon the existence of blighting influences, including the lack of adequate public improvements and facilities, and the inability of individual developers to economically remove these blighting influences without substantial public assistance in providing adequate public improvements and facilities, the inability of low- and moderate-income persons to finance needed improvements, and the inadequacy of other governmental programs and financing mechanisms to eliminate the blight, including the provision of necessary public improvements and facilities.

l) The Redevelopment Plan for the Project Area will afford the maximum opportunity, consistent with the sound needs of the City as a whole, for the redevelopment of such area by private enterprise.

m) The Redevelopment Plan contains adequate safeguards so that the work of redevelopment will be carried out pursuant to the Redevelopment Plan, and it provides for the retention of controls and the establishment of restrictions and covenants running with the land sold or leased for private use for periods of time and under conditions specified in the Redevelopment Plan, which this City Council deems necessary to effectuate the purposes of the Community Redevelopment Law.

Section 21. The City Council, although it does not contemplate the relocation of residents, is satisfied that within the Project Area boundaries or within the greater community, permanent housing facilities either exist or will be available within three years of the time occupants of the Project Area are displaced, and pending the development of such facilities, there will be adequate housing available to such displaced occupants at rents comparable to those in the community at the time of their displacement. No persons or families of low- or moderate-income shall be displaced from from residences unless and until there is a suitable housing unit available and ready for occupancy by such displaced persons or families at rents comparable to those at the time of their displacement. Such housing units shall be suitable to the needs of such displaced persons or families and must be decent, safe, sanitary, and otherwise standard dwellings. The Agency shall not displace any such persons or families until such housing units are available and ready for occupancy.

Section 22. The City Council acknowledges that not less than twenty percent (20%) of the revenue derived from the allocation of taxes, pursuant to Section 33670 of the California Health and Safety Code, from the Project Area shall be used by the Redevelopment Agency for the purpose of increasing and improving the community's supply of housing for persons and families of low or moderate income, and very low-income households unless, through the implementation of the Redevelopment Plan, one of the following findings are made:

No. 48126 84

a) That no need exists in the community, the provision of which would benefit the Project Area to improve or increase the supply of housing for persons and families of low or moderate income or very low-income households; or

b) That some stated percentage less than twenty percent (20%) of the taxes which are allocated to the Redevelopment Agency is sufficient to meet such housing need; or

c) That a substantial effort to meet low- and moderate-income housing needs in the community is being made and that this effort, including the obligation of funds currently available for the benefit of the community from state, local, and federal sources for low- and moderate-income housing alone, or in combination with these revenue allocations, is equivalent in impact to the funds otherwise required to be set aside pursuant to this Section. The City Council shall consider the need of low- or moderate-income or very low-income households from within or adjacent to the Project Area because of increased employment opportunities or because of any other direct or indirect result of implementation of the Redevelopment Plan.

Section 23. The City Council is convinced that the revenues derived from the allocation of taxes pursuant to Section 33670 of the California Health and Safety Code are in whole necessary for the effective implementation of the Redevelopment Plan and that the effect of tax increment financing will not cause a severe financial burden or detriment on any taxing agency deriving tax increment revenues from the Project Area.

Section 24. In order to implement and facilitate the effectuation of the Escondido Redevelopment Plan which is hereby approved and adopted, it is found and determined that certain official actions all of which are regularly authorized to occur by the City must be undertaken by the City of Escondido with reference to, among other things, the following:

a) Institution and completion of proceedings for opening, closing, vacating, widening, or changing the grades of streets, alleys, and other public rights-of-way, and for other necessary modifications of the streets, the street layout, and other public rights-of-way in the Project Area. Such action by the City shall include the requirement of abandonment and relocation by the public utility companies of their operations in public rights-of-way as appropriate to carry out the Plan.

b) Institution and completion of proceedings necessary for changes and improvements in publicly-owned public utilities within or affecting the Project Area.

c) Revision of zoning within the Project Area to permit the land uses and development authorized by this Plan, provided that such action is consistent with Section 500.10 of the Plan.

d) Imposition wherever necessary (by Conditional Use Permits or other means) of appropriate controls, within the limits of this Plan upon parcels in the Project Area to ensure their proper development and use.

No. 48265

e) Provision for administrative enforcement of the Plan by the City after development. The City and the Agency shall develop and provide for enforcement of a program for continued maintenance by owners of all real property, both public and private, within the Project Area throughout the duration of the Plan.

f) Performance of the above (and of all other functions and services relating to public health, safety, and physical development normally rendered in accordance with a schedule which will permit the development of the Project Area) shall be commenced and carried to completion without unnecessary delays.

g) The undertaking and completing of any other proceedings necessary to carry out this project.

Section 25. The City Council of the City of Escondido agrees and does hereby:

a) Pledge its cooperation in helping to carry out the Escondido Redevelopment Plan and requests the various officials, departments, boards, and agencies of the City of Escondido having administrative responsibilities in the premises, likewise to cooperate to such extent and to exercise their respective functions and powers in a manner which is consistent with the Escondido Redevelopment Plan.

b) Stand ready to consider the taking of appropriate action upon proposals and measures which are designed to effectuate the Escondido Redevelopment Plan.

Section 26. That certain document entitled "Redevelopment Plan for the Escondido Redevelopment Project," the maps contained therein and such other reports as are incorporated therein by reference, a copy of which is on file in the office of the City Clerk, having been duly reviewed and considered, is hereby incorporated in this Ordinance by reference and made a part hereof, and as so incorporated is hereby designated, approved, and adopted as the official "Redevelopment Plan for the Escondido Redevelopment Project."

Section 27. The City Clerk is directed to send a certified copy of this Ordinance to the Escondido Redevelopment Agency and the Escondido Redevelopment Agency is vested with the responsibility of carrying out the Escondido Redevelopment Plan.

Section 28. The City Clerk is hereby directed to record with the County Recorder of the County of San Diego, a description of the land within the Escondido Project Area and a statement that proceedings for the redevelopment of the Project Area have been instituted under the California Community Redevelopment Law. The Escondido Redevelopment Agency is hereby directed to effectuate recordation of documents in accordance with the provisions of

No. 151265

Section 27295 of the Government code to the extent they are applicable.

Section 29. The Building Department of the City of Escondido is hereby directed, for a period of two years, to advise all applicants for building permits in the Project Area boundaries that the site for which a building permit is being sought for the construction of buildings or for other improvements is within the Escondido Redevelopment Project Area.

Section 30. The City Clerk is directed to transmit a copy of the description and statement recorded by the City Clerk pursuant to Section 28 of this Ordinance, a copy of this Ordinance adopting the Escondido Redevelopment Plan and a map or plate indicating the boundaries of the Project Area to the auditor and tax assessor of the County of San Diego, to the governing body of each of the taxing agencies which levies taxes upon any property in the Project Area, and to the State Board of Equalization, within thirty (30) days following the adoption of this Ordinance.

Section 31. Severability. If any clause, paragraph, section, subsection, sentence, or portion of this Ordinance or the Escondido Redevelopment Plan or any project provided for therein, is challenged in a court of competent jurisdiction and is therefter declared to be unconstitutional, illegal, inoperative, or otherwise ineffective, such decision shall not affect the validity of the remaining portion thereof. The City Council of the City of Escondido hereby declares that it would have adopted this Ordinance and each clause, paragraph, section, subsection, sentence, or portion thereof, or the Escondido Redevelopment Plan or any project provided for therein, irrespective of the fact that any one or more sections, subsections, clauses, phrases, or portions be declared invalid or unconstitutional.

Section 32. This Ordinance shall become effective thirty (30) days after its final passage and adoption and the Escondido Redevelopment Agency shall be vested with the responsibility of implementing and carrying out the Escondido Redevelopment Plan and is directed to undertake all activities and/or projects as is provided, authorized, or contemplated in the said Escondido Redevelopment Plan in order to provide for the redevelopment of the Project Area.

No. 48126

Section 33. The City Clerk shall certify to the passage this Ordinance and cause the same to be published in the Times Advocate, a newspaper of general circulation, published and circulated in the City of Escondido, California and posted in the manner provided by the City of Escondido or appropriate provisions of State law.

Section 34. The Plan as approved by this Ordinance shall hereinafter include the recommended amendments, revisions and/or modifications as are set forth in the Escondido Planning Commission's Report to the City Council of the City of Escondido and the Escondido Redevelopment Agency, and further contained in the Redevelopment Agency's Report to the City Council dated November, 1984.

1227-8/3

No. 481265 84 2-8

PASSED, ADOPTED AND APPROVED by the City Council of the City of Escondido at a regular meeting thereof this 26th day of December, 1984 by the following vote to-wit:

Subject: Recordation of Statement that the Proceedings for Redevelopment of the Escondido Project Area Have Been Initiated

Dear Sir:

On December 26, 1984, the City Council of the City of Escondido adopted Ordinance No. 84-85 approving and adopting the Escondido Redevelopment Plan and Project Area. Pursuant to Section 33373 of the California Health and Safety Code, the City Council does hereby state that the proceedings for redevelopment of the Escondido Project Area have been instituted under the California Redevelopment Law, California Health and Safety Code, Division 24, Part 1, Section 33000 et. seq.

Sincerely,

Jeanne Bunch

Enclosures

PURPOSE OF APPRAISAL:

This appraisal is made for the purpose of arriving at an opinion of the Fair Market Value of the subject property in order to make an offer to purchase said property based on market conditions prevailing on April 24, 1990, and is based on a physical inspection of the parcel, analysis of sales of comparable properties and consideration of all factors which affect value including amenities, depreciating influences, zoning, utility, location, topography, present and potential uses.

LOCATION OF LAND:

This is in the City of Escondido, located at the intersection of West Washington Avenue, Santa Fe Avenue, Railroad Avenue and Tulip Avenue, in Northeast San Diego County, approximately 8 miles from the administrative offices of the City of Escondido.

DESCRIPTION OF PROPERTY:

The subject property has 670.0 lineal feet of frontage on Washington Avenue and 1099.6 lineal feet on Santa Fe Avenue. Railroad Avenue and Tulip Avenue terminate at the Santa Fe Avenue boundary of the subject property. This is a triangular parcel of land. The East boundary of the subject property is within close proximity to the A.T.S.F. Railroad Right of Way, commonly called the Escondido Right of Way. The subject consists of 17 acres. The frontage on both West Washington Avenue and Santa Fe Avenue are at street level. The land's topography is level.

The legal description is as follows:

> Real property in the County of San Diego, State of California, described as follows:
>
> Tract 527, Lot 3P, Escondido Land and Town Co. Sub of P, Por Blk 316.
>
> Subject to conditions, restrictions, reservations, rights, rights of way and easements of record

TOPOGRAPHY:

The subject parcel is a triangular parcel which is at street level at all boundaries.

ZONED:

City of Escondido zoning ordinance is for M-2 or general industrial with heavy traffic.

AREA AND NEIGHBORHOOD:

The subject property is surrounded by commercial and industrial businesses and service facilities.

HIGHEST AND BEST USE:

The property's highest and best use is for general industrial purposes as set forth in the City of Escondido's zoning ordinances and master plan. A copy of the City of Escondido's M-2 Zoning is attached.

EASEMENTS AND ENCUMBRANCES:

All easements, encumbrances and matters of public record as recorded in the Recorder's Office in the County of San Diego, State of California.

IMPROVEMENTS:

There were no improvements revealed upon site inspection. Land site consists of 452,501 square feet.

METHOD OF APPRAISAL:

The Market Data approach to value was the only appraisal method used to estimate the value of the land.

INTEREST APPRAISED: FEE SIMPLE

It is my opinion that the Fair Market Value of the subject property on April 24, 1990 based on the current prevailing economic conditions, the physical conditions of the property and assumptions set forth:

17 Acres x 43560 square feet x $7.25 PSF = $5,368,000.00

Five Million Three Hundred Sixty-eight Thousand Dollars

($5,368,000.00)

Respectfully submitted,

Vincent J. Rossini

RE: City of Escondido Contract #27207 (Transfer from Santa Fe Railway Company)

Gentlemen:

I am in receipt of the enclosed letter from the Santa Fe Railway Company, which makes reference to "Contract #27207." When I notified Santa Fe that we had no contract of that number, they replied that all contracts have been transferred to you as a result of your acquisition of the railway company's Escondido subdivision corridor.

Could you please send me a copy of Contract #27207 so that I might understand what it refers to.

Thank you for your help with this.

Sincerely,

Ron Gerow
Real Property Agent

Contract No. 27207

Gentlemen:

This is to advise you that The Atchison, Topeka and Santa Fe Railway Company (Santa Fe) has sold its line of railroad known as the Escondido Subdivision corridor within San Diego County to the North San Diego County Transit Development Board (NCTD).

The various contracts, leases and licenses with individuals, corporations, organizations, political bodies, companies and public utilities authorizing their use or occupancy of Santa Fe property will be assigned to the NCTD effective February 19, 1993.

Since Santa Fe no longer has any interest in the line of railroad at this location, any future matters pertaining to your agreements(s) should be directed to the NCTD. Currently the NCTD has indicated that correspondence and telephone inquiries should be directed as follows:

Dear Mr. Gerow:

This has reference to your letter of February 16, 1993 requesting a copy of Contract No. 27207.

All contracts on our line of railroad known as the Escondido Subdivision corridor within San Diego County were assigned to the North San Diego County Transit Development Board (NCTD) effective the date of closing which was February 19, 1993. All contracts have been shipped to the NCTD.

Please contact Mr. Paul Price, Director Service Development, NCTD, for a copy of the contract in question. His address is 311 South Tremont Street, Oceanside, CA 92054, and telephone number is (619) 967-2818.

ESCONDIDO CITY COUNCIL AGENDA

ITEM NO. _____

DATE December 12, 1990

Reso 90-498

TO: Honorable Mayor and City Council

FROM: Ron Gerow, Real Property Agent

SUBJECT: Acquisition of Real Property from North County Transit District; Expansion of City Corporation Yard, Washington Avenue West of Spruce Street

RECOMMENDATION:

It is recommended that the City Council adopt a resolution authorizing the Mayor and City Clerk to sign the purchase agreement.

GENERAL PLAN ANALYSIS:

Not applicable.

FISCAL ANALYSIS:

The $3,480,000 acquisition price, plus approximately $10,000 for estimated escrow costs, will be funded as follows:

Available funding for corporation yard upgrade:

Utilities	$2,000,000
General Fund	$ 100,000
Funds borrowed from Sewer Enterprise Fund	$1,390,000
Total	$3,490,000

PREVIOUS ACTION:

The City Council discussed this proposed purchase in closed session on December 5, 1990.

DISCUSSION:

City staff and North County Transit District staff have met with representatives of Santa Fe Pacific Realty (Catellus Development), and have negotiated an

acquisition of the entire 15.93 acre Catellus ownership fronting on Washington Avenue west of Spruce Street.

The negotiated settlement is based upon the following calculations:

15.93 acres @ $7.50/square foot	$5,204,331
Sewer and water connection rights	$ 55,254
Development costs	$ 159,415
Total acquisition price	$5,419,000

The North County Transit District will utilize 5.77 acres (36.22 percent) of the property acquired. Their portion of the cost is therefore 36.22 percent of the total acquisition price, except water and sewer connection rights -- $1,942,656. The City will utilize the remaining 10.16 acres, and the City's portion of the project and cost is 63.78 percent -- $3,456,344, plus the water and sewer connection rights.. North County Transit District will enter into an escrow to acquire the total 15.93 acres from Catellus Development. The North County Transit District Board is scheduled to approve this transaction on December 13, 1990. The recommendation contained herein will provide for the City of Escondido acquiring its portion of the property from North County Transit District, contingent upon North County Transit District's close of escrow and resultant acquisition of the property from Catellus Development. North County Transit has agreed to acquire the property in its totality, and subsequently enter into an escrow with the City of Escondido for the City's acquisition of its portion.

PURCHASE AGREEMENT BETWEEN NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD AND THE CITY OF ESCONDIDO

THIS AGREEMENT dated as of 9/12, 1991, is made by and between **NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD** (herein "NCTD" or "Seller"), and the CITY OF ESCONDIDO (herein "City" or "Buyer"), and constitutes a contract of purchase and sale between the parties. This Agreement is entered into by both parties in light of the following facts:

1. **PROPERTY DESCRIPTION:**

a) NCTD is the owner of certain real property located in Escondido, California (hereafter "NCTD Property"), which real property consists of 693,980 square feet or approximately 15.93 acres and is more particularly described as follows:

Exhibit "A" - Lot A and Lot B Property Site Plan
Exhibit "B" - Lot A and Lot B Property Legal Description

b) City desires to purchase that portion of the above described NCTD Property currently identified as Lot A and currently consisting of 442,634 square feet or approximately 10.16 acres (hereafter the "Property"), being more particularly described with legal description as follows:

Lot A on attached site plan has boundaries defined by Record of Survey Map No. 12935 recorded October 18, 1990, San Diego County File No. 90-567013.

2. **TERMS OF SALE:**

a) **Price** - In consideration of the covenants herein contained, NCTD hereby agrees to sell, and City hereby agrees to purchase the Property for a total purchase price of Three Million, Four Hundred and Seventy-Six Thousand, Three Hundred and Fifty-six dollars ($3,476,356.00) (hereafter the "Purchase Price").

b) **Payment of Purchase Price** - The Purchase Price shall be paid by the City as follows:

(i) Deposit of $50,000, payable to Chicago Title Company, to be placed in escrow upon the opening of escrow.

(ii) Balance of Purchase Price ($3,426,356.00) is to be deposited into escrow on or before the close of escrow.

(iii) All costs of sale are to be paid by Buyer.

(continued)

3. **MINERAL RIGHTS:**

Buyer acknowledges and agrees that purchase of the Property is subject to the retention of subsurface mineral rights by Santa Fe Pacific Properties, Inc., a Delaware Corporation. Santa Fe Pacific Properties, Inc. shall retain subsurface mineral rights in the Property as described in Exhibit "C".

4. **ESCROW:**

Buyer and Seller shall open a 30 day escrow with Escrow Agent and, at that time, shall deposit with Escrow Agent fully executed counterparts of this Agreement for use as escrow instruction. Said escrow instructions shall be for the purpose of implementing this Agreement and such instructions shall incorporate this Agreement by reference and shall not have the affect of modifying this Agreement unless it is so expressly stated and initialed on behalf of Buyer and Seller.

5. **TITLE:**

a) **Clear Title** - Title is to be free of liens, encumbrances, easements, restrictions, rights and conditions of record or known to Seller, other than the following:

(i) Current Property taxes;

(ii) Covenants, conditions, restrictions, encumbrances and easements of record, if any, unless reasonably disapproved by Buyer in writing within 14 calendar days from receipt of a current preliminary title report furnished at Buyer's expense.

(iii) Evidence that property is a legal lot per the subdivision map act will be provided by Buyer at Buyers expense.

b) **Delivery of Title** - Title shall transfer to Buyer by Grant Deed. Seller shall furnish Buyer at Buyer's expense with a CLTA Title Policy issued by Title Company showing Title vested in Buyer subject only to those matters described in 5 (a) above. If Seller fails to deliver Title, Buyer may terminate this Agreement and the deposit described in 2 (b), above, shall be returned to Buyer.

6. **POSSESSION:**

Possession of the Property shall be delivered to Buyer on close of escrow.

(continued)

7. **VESTING:**

Title to the Property shall vest in Buyer as follows; City of Escondido.

8. **CONDITIONS TO BUYER'S OBLIGATION TO PURCHASE:**

a) **Performance by Seller** - Timely performance of each obligation and covenant of, and delivery required of, Seller hereunder.

b) **Delivery of Title and Possession** - Delivery by Seller on the closing of escrow (i) of title by Grant Deed, and issuance of the Title Policy showing such title in Buyer, per the conditions described in paragraph 5, above, and (ii) possession as provided in paragraph 6, above.

9. **CONDITIONS TO SELLER'S OBLIGATION TO SELL:**

Seller's obligation to sell is expressly conditioned upon each of the following:

a) **Performance by Buyer** - Timely performance of each obligation and covenant of, and delivery required of, Buyer hereunder.

b) **Payment of Purchase Price** - Payment of the Purchase Price in the manner described in Paragraph 2, above.

10. **INSPECTION:**

a) **Investigation** - Buyer shall have the right, after opening of escrow, at Buyer's expense, to select licensed contractor(s) and other qualified professional(s), to make **"INSPECTIONS"** (including tests, surveys, other studies, inspections, and investigations) of the Property during the first 15 days after opening escrow. These inspections shall include but not be limited to sewer/septic system, well, soils, percolation, geologic conditions and environmental hazards, such as but not limited to, any past or current generation, storage, release, threatened release, disposal, presence and locations of asbestos, PCB transformers, petroleum products, flammable explosives, underground storage tanks and other hazardous, toxic or contaminated substance or condition, on or about the Property. Buyer shall keep the Property free and clear of any liens, indemnify, defend, and hold Seller harmless from all liability, claims, demands, damages or costs, and repair all damages to the Property arising from the **"INSPECTIONS."** Buyer hereby acknowledges and agrees that Seller makes no representations regarding the condition of the Property, and that Buyer is relying exclusively on its own investigation of the Property to determine its condition.

(continued)

b) **Notice of Defect(s)** - All claimed defects concerning the condition of the Property that adversely affect Buyer's proposed use of the Property shall be in writing, supported by written reports, if any, and delivered to Seller within fifteen (15) calendar days after opening of escrow (the "Investigation Period"). Buyer shall furnish Seller copies, at no cost, of all reports concerning the Property obtained by Buyer. If Buyer fails to give such notice of disapproval prior to the expiration of the Investigation Period, such failure shall be conclusively deemed to be full and complete approval of such matters and the satisfaction of this condition.

c) **Cooperation Clause** - Both Buyer and Seller agree to cooperate with each other in good faith and each to use its best efforts to correct or otherwise resolve the claimed defects to the reasonable satisfaction of Buyer.

d) Seller has, with Buyer's knowledge, conducted toxic waste investigations. The only finding requiring remedial action was surface contamination (petroleum hydrocarbons) in a drainage ditch running from NE to SW and originating from a neighboring property occupied by Palomar Transit Mix. The flow into the ditch has been stopped and the surface contaminated soil in the ditch has been removed in a manner required by applicable regulations. Buyer has copies of reports, has been kept appraised of progress and will pay a prorata share of the testing and investigative expenses. Buyer acknowledges that Seller has processed a Site Remediation Plan through the County of San Diego Department of Health Services, and after completion has obtained a "sign-off", no further action required letter from the County.

11. **SELLER'S REPRESENTATIONS:**

Seller warrants that Seller has no knowledge of any notice of violations of City, County, State, Federal, Building, Zoning, Fire, Health codes, or ordinances, or other government regulations filed or issued against the Property. If Seller receives notice of any such violations prior to close of escrow, Seller shall immediately notify Buyer. Buyer is allowed fourteen (14) days after receipt of notification to give Seller written notice of disapproval.

12. **BUYER DISAPPROVAL:**

Whenever Buyer gives written notice of disapproval pursuant to Paragraphs 5, 10, or 11, above, Seller shall have seven (7) calendar days from receipt of such notice to respond in writing to Buyer's disapproval. Both Buyer and Seller each agree to cooperate with each other in good faith and each to use its best efforts to correct or resolve any such problems. If Seller is unwilling or unable to correct the condition(s) disapproved by Buyer to Buyer's reasonable satisfaction, or if Seller does not respond by the time set forth herein, then Buyer may cancel this Agreement by providing written notice of cancellation to Seller within

(continued)

seven (7) calendar days from receipt of Seller's response or from expiration of the time set for Seller's response. **BUYER'S FAILURE TO GIVE WRITTEN NOTICE OF DISAPPROVAL OR CANCELLATION SHALL CONCLUSIVELY BE DEEMED APPROVAL.**

13. **CONDITION OF PROPERTY:**

Sellar warrants, through the date possession is made available to Buyer, that Property and improvements, if any, shall be maintained in the same condition as upon the date of acceptance.

14. **CHANGES DURING ESCROW:**

Prior to close of escrow, Seller agrees not to: (i) Rent or lease any part of the premises, (ii) alter, modify or extend any existing rental or lease agreement, or (iii) enter into, alter, modify or extend any service contract(s), without first having obtained Buyer's written approval, which shall not be unreasonably withheld.

15. **RENTAL AND SERVICE AGREEMENTS:**

Seller represents that there are no written leases, rental agreements, or service contracts pertaining to the Property.

16. **TIME OF ESSENCE:**

Time is strictly of the essence with respect to each and every term, condition, obligation and provision herein, and the failure to timely and fully perform or satisfy any of the terms, conditions, obligations, or provisions of this Agreement, shall constitute a non-curable default hereunder.

17. **ENTIRE AGREEMENT:**

This Agreement contains the entire Agreement between the parties relating to the transactions contemplated hereby and all prior or contemporaneous agreements, understandings, representations and statements, oral or written, are merged herein. The parties further intend that this Agreement constitutes the complete and exclusive statement of its terms and that no extrinsic evidence whatsoever may be introduced in any judicial or arbitration proceeding, if any, involving this Agreement.

18. **MODIFICATION:**

No modification, waiver, amendment, discharge, or change of this Agreement shall be valid unless the same is in writing and signed by the party against which the enforcement of such modification, waiver, amendment, discharge or change is or may be sought.

(continued)

19. **ATTORNEYS' FEES:**

Should any party hereto employ an attorney for the purpose of enforcing or construing this Agreement, or any judgment based on this Agreement, in any legal proceeding whatsoever, the prevailing party shall be entitle to receive from the other party, or parties thereto, reimbursement for all attorneys' fees and all costs, including, but not limited to, service of process, filing fees, court and court reporter costs, investigative costs, expert witness fees and the cost of any bonds, whether taxable or not. Should any judgment or final order be issued in that proceeding, said reimbursement shall be specified therein. The "prevailing party" means the party determined by the court to most nearly prevail and not necessarily the one in whose favor a judgment is rendered.

20. **SEVERABILITY:**

In the event any term, covenant, condition, provision or agreement herein contained is held to be invalid, void or otherwise unenforceable by any court of competent jurisdiction, the fact that such term, covenant, condition, provision or agreement is invalid, void or otherwise unenforceable, shall in no way affect the validity or enforceability of any other term, covenant, condition, provision or agreement herein contained.

21. **SUCCESSORS AND ASSIGNS:**

Subject to any provisions concerning assignment hereinabove set forth, all terms of this Agreement shall be binding upon, enure to the benefit of, and be enforceable by, the parties hereto and their respective legal representatives, successors and assigns.

22. **COUNTERPARTS:**

This Agreement may be executed in any number of counterparts, each of which so executed shall be deemed an original; such counterparts shall together constitute but one Agreement.

23. **SURVIVAL OF WARRANTIES:**

All obligations referred to herein to be performed at the time or times after the closing and all warranties and representations contained herein, shall survive the closing and the delivery of Seller's Grant Deed.

24. **GOVERNING LAW:**

This Agreement shall be construed and enforced in accordance with the laws of the State of California.

IN WITNESS WHEREOF the undersigned Buyer and Seller agree to the terms and conditions herein, this Agreement having been executed as of the date set forth above.

PROPERTY LEGAL DESCRIPTION

LEGAL DESCRIPTION

That portion of Lots 2, 3, and 4, Block 316, of the subdivision of Rancho Rincon Del Diablo, in the City of Escondido, according to Map thereof made by E.L. Horn, recorded: April 10, 1888 as Map No. 527, in the Office of the County Recorder of San Diego County, being more particularly described as follows:

Beginning at the westerly most corner of said Lot 3; thence northeasterly along the northerly line of said Lots 3 and 2, North 69°43'22" East, 1300.57 feet, to the northeasterly corner of said Lot 2; thence southeasterly along the easterly line of said Lot 2, South 20°17'56" East, 889.01 feet to an intersection with the westerly sideline of the "Escondido Creek Water Shed - Unit No. 1" right-of-way as shown on City of Escondido Drawing No. FCR-1000; said intersection also being along an 840.00 foot radius curve, concave northwesterly, having a radial bearing to said point of South 77°45'56" East (South 77°19'33" East, FCR-1000); thence southwesterly along the arc of said curve, through a central angle of 22°51'57" (22°51'31", FDR-1000), a distance of 335.23 feet (335.12, FDR-1000), to an intersection with the northeasterly right-of-way line of the A.T. & S.F. Railroad, as shown on Record of Survey No. 2753, recorded December 4, 1951, in the Office of the County Recorder of San Diego County; thence northwesterly along said right-of-way line, North 66°10'23" West, (North 65°54' West, Record of Survey 2753), 1194.63 feet; thence perpendicular to said right-of-way, North 23°49'37" East, 66.00 feet, to the southwesterly most corner of land described in deed to William R. Cramer, recorded: October 4, 1972, as File Page No. 265728 of Official Records, also being a point along the northeasterly right-of-way of Santa Fe Avenue, as shown on said Map No. 527; thence northwesterly along said line, North 66°10'23" West, 359.16 feet to the Point of Beginning.

Excepting that portion of land as described in deed to William R. Cramer, recorded: October 4, 1972, as File Page No. 265728 of Official Records.

Also excepting all that portion of land known as "Santa Fe Avenue", as shown on Escondido Land and Town Company Resurvey, Map 527, as filed in the Office of the County Recorder of San Diego County.

Subject: RE: 901 W. Washington Property Lease Inquiry

Debbie
Sorry for the delay.
This location currently is used by the Wastewater Collection Division and our Pretreatment section. Due to the number of vehicle trips and the types of maintenance vehicles going to and from this site it would not be an appropriate site to store new privately owned vehicles. The liability exposure to the city would be huge and there would not be 40-60 paved spaces available with our continued use.

Subject: 901 W. Washington Property Lease Inquiry

Good morning Craig:

We have a tracking item from Infinity car dealership requesting to lease City-owned property for vehicular storage (month to month or long term). I understand that our wastewater staff utilizes 901 W. Washington and that staff uses the parking lot there for employee parking. Additionally, I am informed that we also park City vehicles in the parking lot there. However, I thought I'd run it by you to explore whether or not there is any potential for leasing 40-60 parking spaces (needs to be paved) to Infinity at this location. They would like to begin the lease in Feb/March 2012 time frame for as long as possible, preferably long term but would consider month to month, and would pay a fair market rent for any such use.

Please let me know if you and/or one of your team members can provide feedback on behalf of the Water Dept. as to the feasibility at this location. Thanks Craig!

Broadway & Lincoln property purchased 3/90 for $5,700,000 borrowed from the Sewer Fund.

Corp Yard Expansion property purchased 12/90 for $3,480,000; price funded by $2,000,000 Utilities Corp Yard Upgrade Funds, $100,000 General Fund Corp Yard Upgrade, and $1,390,000 borrowed from Sewer Enterprise Fund.

Thanks for the money! Can I have more?

City of Escondido

Memorandum

DATE: February 13, 1997

TO: Mike Adams, Deputy City Manager/Public Works Director

FROM: Ron Gerow, Real Property Agent

RE: Broadway/Lincoln, Corporation Yard Expansion
Property Acquisition Costs and Allocations

The acquisition costs and fund sources for these two properties were:

	Utilities Corp Yard Fund	General Fund Corp Yard Fund	Sewer Fund	total
Corp Yard Expansion	$2,000,000	$100,000	$1,390,000	$3,480,000
Broadway/Lincoln			$5,700,000	$5,700,000

Sewer Funds borrowed for the Corporation Yard Expansion costs could be divided in proportion to staff employees at the Corporation Yard:

division	staff	staff	% of $1,390,000
Streets:	47	33%	$ 458,700
Motive	15	11%	$ 152,900
Water	28	20%	$ 278,000
Collections	17	12%	$ 166,800
Parks	26	18%	$ 250,200
Bldg Mntc	9	5%	$ 69,500
Warehouse	2	1%	$ 13,900
	144	100%	$1,390,000

August 8, 1991

Mr. George Johnson
North County Transit District
311 South Tremont
Oceanside, Ca. 92054

RE: vacant lot located at 901 West Washington Ave. Escondido, Ca.
Assessors Parcel Number 232-090-03.

Dear Mr. Johnson:

Pursuant to our conversation of August 5, 1991 there is an accumulation of abandon furniture, scrap materials and trash deposited on this property. The abandon furniture is be used by transients to sleep upon. The presence of this rubbish is unsightly and unhealthy and is prohibited pursuant to the Escondido Municipal Code section 6-484 (a)(1) and (a)(2).

I am aware there is some controversy regarding the future ownership of this property and history behind how it came to be owned by the transit district but, the problem at hand can only be corrected by the present owner and needs to be addressed as soon as possible.

The City Of Escondido is therefor making a formal request to the North County Transit District to remedy the situation and bring the property into conformance with the requirements of the Escondido Municipal Code.

If you have any question with regards to this letter please feel free to contact me at 741-4650. Thanks in advance for your assistance in this matter.

Sincerely,

Sean Donovan
Code Enforcement Officer

E-3

RESOLUTION NO. 90-498

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ESCONDIDO, CALIFORNIA, AUTHORIZING THE MAYOR AND CITY CLERK TO EXECUTE ON BEHALF OF THE CITY AN AGREEMENT FOR ACQUISITION OF REAL PROPERTY, FOR EXPANSION OF CITY CORPORATION YARD LOCATED AT WASHINGTON AVENUE WEST OF SPRUCE STREET

North County Transit District

WHEREAS, certain property located at Washington Avenue west of Spruce Street is required for City Corporation Yard; and

WHEREAS, City staff and North County Transit District staff have met with representatives of Santa Fe Pacific Realty (Catellus Development), and have negotiated an acquisition by North County Transit District of the entire 15.93 acre Catellus ownership fronting on Washington Avenue west of Spruce Street; and

WHEREAS, this agreement will provide for the City of Escondido to acquire a portion of the property from North County Transit District, contingent upon North County Transit District's close of escrow and resultant acquisition of the property from Catellus Development; and

WHEREAS, this City Council desires at this time and deems it to be in the best public interest to approve this property acquisition for a price not to exceed $3,480,000 plus escrow costs;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Escondido, California, as follows:

1. That the above recitations are true.

2. That the City Council accepts the staff recommendation.

3. The Mayor and City Clerk are authorized to execute, on behalf of the City, the necessary documents to acquire the Real Property from North County Transit District, contingent upon North County Transit District's close of escrow and resultant acquisition of the property from Catellus Development.

PASSED, ADOPTED AND APPROVED by the City Council of the City of Escondido at a regular meeting thereof this 12th day of December, 1990, by the following vote to wit:

AYES	:	Councilmembers:	DE DOMINICIS, FOSTER, HARMON, HOLLINS, MURPHY
NOES	:	Councilmembers:	NONE

Fred:
RE: Future PW Yard

I understand that the
information which Tim provided
you regarding setbacks in the
M-2 zone mentioned a 25'
setback from Washington for
parking. This is not quite
accurate. A 25' setback is
required for a building if
parking is provided between
the building and the street.
In this situation a 5' wide
landscaped setback is required
between the front propety line
and the parking area.
When no parking is involved, a
10' front yard setback is
required.

Escondido, CA

Escrow No. 1031494P
Date: September 30, 1991
Escrow Officer:
Pat Walker

To: **FIRST AMERICAN TITLE INSURANCE COMPANY,** hereinafter known as "Escrow Holder" whose address is : 411 Ivy Street San Diego, CA 92101

Escrow Holder is instructed to complete the above referenced escrow pursuant to instructions in that certain Purchase Agreement dated September 12, 1991 between the parties hereto, a copy of which is attached hereto for reference, with the following additions and/or clarifications. Escrow Holder shall only be concerned with those items which are to be complied with through escrow, the remainder of said Agreement being between the parties with which Escrow Holder shall not be concerned or liable. Prior agreement notwithstanding, in the event of a conflict between said Agreement and First American Title Insurance Company Escrow Instructions and General Provisions, the Agreement shall prevail as between the parties, however, First American Title Insurance Company Escrow Instructions and General Provisions shall prevail as between the parties and Escrow Holder.

A. Section 2.b).(i) and (ii) of the referenced Agreement notwithstanding Buyer has deposited $3,501356.00 into escrow with First American Title Insurance Company.

Escrow Holder is instructed to place the Buyer's deposit of $3,501,356.00 into a liquid interest bearing account with San Diego Trust and Savings Bank during the course of this escrow, with interest accruing thereto to be credited to the Buyer herein. The undersigned acknowledges that the designation of said depository is contrary to the General Provisions of the Escrow Instructions and that Escrow Holder has no liability for loss of funds, if any, caused by the deposit being so placed, nor shall First American Title Insurance Company and/or Escrow Holder be held liable for any business failure of the depository. The undersigned also acknowledges that the placement of the funds is being directly based upon independent advice and not from any recommendation of First American Title Insurance Company or its employees. The undersigned further acknowledges that any loss caused by the deposit being placed is the Buyer's responsibilty and if additional funds are required to complete this escrow by reason of loss of funds, the Buyer assumes all responsibility therefore. The undersigned hereto agrees to hold First American Title Insurance Company and Escrow Holder harmless from any costs, expenses, attorney fees and other loss which may arise by reason of this instruction. The $50.00 fee incurred for the processing hereof shall be charged to the Buyer.

The undersigned hereto acknowledges that Escrow Holder cannot authorize the close of escrow until the invested funds have been withdrawn and deposited into the Escrow Trust Account. It is agreed that the Buyer will notify Escrow Holder at least three (3) working days prior to their intended close of escrow to allow sufficient time for the withdrawal and the re-deposit of the funds. The Buyer hereby agrees to hold First American Title Insurance Company and Escrow Holder harmless from the loss of interest or delay in the close of escrow, if any, caused in meeting these requirements.

(Continued)

B. The close of escrow shall be on or before October 25, 1991.

C. The Buyers vesting shall be: CITY OF ESCONDIDO, A MUNICIPAL CORPORATION.

D. Prior agreement, if any, notwithstanding, in the event either party has the right of cancellation, the parties agree to sign such instructions as may be necessary to effect the cancellation of this escrow.

E. **THE UNDERSIGNED PARTIES INSTRUCT ESCROW HOLDER AND AGREE THAT FIRST AMERICAN TITLE INSURANCE COMPANY MAY, DURING THE COURSE OF THIS ESCROW, RECEIVE "FAX" TRANSMITTALS FROM OR ON BEHALF OF THE PARTIES HEREIN FOR INFORMATIONAL PURPOSES ONLY. THE PARTIES FURTHER AGREE AND ACKNOWLEDGE THAT PRIOR TO ESCROW HOLDER'S CLOSE OR CANCELLATION OF THIS FILE OR RELEASE OF ANY FUNDS HELD HEREIN THAT ESCROW HOLDER WILL REQUIRE THE ORIGINAL HARD COPY OF ANY SUCH "FAX" MATERIAL.**

F. Buyer and Seller herein acknowledge that there may be supplemental and/or additional taxes which may be assessed by reason of a change in ownership or completion of construction pursuant to Chapter 498 Statutes of 1983 of the State of California. This will be reflected in the policy of title insurance issued at the close of escrow. Escrow Holder shall not be concerned with any adjustment(s) of supplemental taxes between the parties for bills received by the parties after the close of escrow. In the event Seller has received Supplemental Tax Bills(s), Seller will provide same to Escrow Holder with an explanation of time periods covered by said tax bill(s) for proration purposes.

G. Buyer will furnish you with a completed Preliminary Change in Ownership Report pursuant to Section 480.3 of the Revenue and Taxation Code which you are instructed to submit with the Grant Deed. In the event this escrow is otherwise ready to close and Buyer has not provided the above report, you are instructed to close this escrow and collect from Buyer for the County Recorder an additional $20.00 fee for recordation of deed that is without Preliminary Change in Ownership Report. Buyer is aware that if the above report is not submitted with the Grant Deed, a Change in Ownership Statement must be filed by the Buyer with the County Assessor not later than 45 days after recordation of the Grant Deed and failure to do so will result in additional penalties. Buyer acknowledges that Escrow Holder shall have no responsibility and/or liability for the County Recorder's acceptance or rejection of said Preliminary Change in Ownership Report.

H. **TAX REPORTING AND WITHHOLDING OBLIGATIONS OF THE PARTIES:**

STATE LAW:

California Revenue and Taxation Code Sections 18805, 18815 and 26131 place special requirements for tax reporting and withholding on Buyers when (i) the selling price is greater than 100,000.00 (one hundred thousand dollars) and (ii) the Seller has not received a California Homeowners Property Tax Exemption during the year of sale, and (iii) the funds to the transaction are to be disbursed to either (a) a Seller with a last known address outside of California, or (b) a financial intermediary of the Seller. The withholding rate is three and one-third percent (3 1/3%) of the selling price as defined in the statute.
The Seller may request a waiver by contacting: FRANCHISE TAX BOARD, Withhold at Source Unit, P.O. Box 651, Sacramento, Ca. 95812-0651, (916) 369-4900.

FEDERAL LAW:

Internal Revenue Code Section 1445 places special requirements for tax reporting and withholding on the parties to a real estate transaction where the Seller is a non-resident alien, a non-domestic corporation or partnership, a domestic corporation or partnership controlled by non-residents or non-resident corporations or partnerships.

With respect to both the State Law and Federal Law referred to above, the parties to this transaction are seeking an attorney's, accountant's or other tax specialist's opinion concerning the effect of these laws on this transaction or are relying on their own knowledge of these laws. The parties to this transaction are NOT acting on or relying on any statements made or omitted by the Escrow Officer, Title Officer, or other closing officer with respect to tax reporting or withholding requirements.

(Continued)

EACH PARTY SIGNING THESE INSTRUCTIONS HAS READ THE ADDITIONAL ESCROW CONDITIONS, AND INSTRUCTIONS OF THE GENERAL PROVISIONS HEREOF AND APPROVES, ACCEPTS AND WILL BE BOUND BY SAME AS THOUGH THE GENERAL PROVISIONS APPEARED OVER THEIR SIGNATURES.

GENERAL PROVISIONS

1. **Deposit of Funds & Disbursements**
All funds received in this escrow shall be deposited in one or more of your general escrow accounts with any bank doing busir in the State of California and may be transferred to any other general escrow account or accounts. All disbursements shall be m by your check. You are authorized not to close or disburse until good funds have been confirmed in escrow.

2. **Prorations and Adjustments**
The expression "close of escrow" used in this escrow means the date of which instruments referred to herein are recorded relates only to prorations and/or adjustments unless otherwise specified.
All prorations and/or adjustments are to be made on the basis of a 30-day month unless otherwise instructed in writing.

3. **Recordation of Instruments**
You are authorized to record any documents delivered through this escrow, the recording of which is necessary or proper in issuance of the requested policy of title insurance.

4. **Authorization to Execute Assignment of Insurance Policies**
You are to execute on behalf of the parties hereto form assignments of interest in any insurance policies (other than title insura called for in this escrow; forward assignments and policies upon close of escrow to the agent with the request, first, that insurer sent to such transfer and/or attach a loss-payable clause and/or make such other additions or corrections as may have been spe cally required herein, and second, that the agent thereafter forward such policies to the parties entitled to them.
In all acts in this escrow relating to insurance, including adjustments, if any, you shall be fully protected in assuming that e policy is in force and that the necessary premium therefor has been paid.

5. **Authorization to Furnish Copies**
You are to furnish a copy of these instructions, amendments thereto, closing statements and/or any other documents depos in this escrow to the lender or lenders, the real estate broker or brokers and/or the attorney or attorneys involved in this transact upon request of the lenders, brokers or attorneys.

6. **Personal Property Taxes**
No examination or insurance as to the amount or payment of personal property taxes is required unless specifically request

7. **Right of Cancellation**
Any party instructing you to cancel this escrow shall file notice of cancellation in your office, in writing. You shall within a reasons time thereafter mail, by certified mail, one copy of the notice to each of the other parties at the addresses stated in this escrow. Uni written objection to cancellation is filed in your office by a party within ten (10) days after date of mailing, you are authorized at y option to comply with the notice and demand payment of your cancellation charges as provided in this agreement. If written object is filed, you are authorized at your option to hold all money and instruments in this escrow and take no further action until otherw directed, either by the parties' mutual written instructions, or final order of a court of competent jurisdiction.

8. **Action in Interpleader**
The parties hereto expressly agree that you, as escrow holder, have the absolute right at your election to file an action in interplea requiring the parties to answer and litigate their several claims and rights among themselves and you are authorized to deposit w the clerk of the court all documents and funds held in this escrow. In the event such action is filed, the parties jointly and severa agree to pay your cancellation charges and costs, expenses and reasonable attorney's fees which you are required to expend or in in the interpleader action, the amount thereof to be fixed and judgment therefor to be rendered by the court. Upon the filing of action, you shall thereupon be fully released and discharged from all obligations to further perform any duties or obligations otherw imposed by the terms of this escrow.

9. **Termination of Agency Obligations**
If there is no action taken on this escrow within six (6) months after the "time limit date" as set forth in the escrow instructio or written extension thereof, your agency obligation shall terminate at your option and all documents, monies or other items held you shall be returned to the parties depositing same.
In the event of cancellation of this escrow, whether it be at the request of any of the parties or otherwise, the fees and charg due First American Title Insurance Company, including expenditures incurred and/or authorized shall be borne equally by the part hereto (unless otherwise agreed to specifically).

10. **Conflicting Instructions**
Should you before or after close of escrow receive or become aware of any conflicting demands or claims with respect to t escrow or the rights of any of the parties hereto, or any money or property deposited herein or affected hereby, you shall have t right to discontinue any or all further acts on your part until the conflict is resolved to your satisfaction, and you shall have the furth right to commence or defend any action or proceedings for the determination of the conflict as provided in paragraphs 7 and 8 of the General Provisions.

11. **Funds Retained in Escrow**
If for any reason funds are retained in escrow, you may deduct therefrom $20.00 as a monthly charge as custodian thereof.

12. **Usury**
You are not to be concerned with any question of usury in any loan or encumbrances involved in the processing of this escro and you are hereby released of any responsibility or liability therefor.

13. **Indemnify for Attorneys Fees and Costs**
In the event suit is brought by any party to this escrow, including the title company or any other party, as against each oth or others, including the title company, claiming any right they may have as against each other or against the title company, then in that event, the parties hereto agree to indemnify and hold harmless the title company against any attorney's fees and costs incurred by

14. **Amendments to Escrow Instructions**
Any Amendments or supplement to these escrow instructions must be in writing. These escrow instructions constitute the enti escrow between the escrow holder and the parties hereto.

15. **Deposit of Funds**
Escrow holder shall deposit all funds received in this escrow in any bank doing business in the State of California, including the affiliated bank, First American Trust Company, in one or more of their General Escrow Demand Accounts. These funds may be tran ferred to any other general escrow demand account or accounts.

16. **The Foreign Investment in Real Property Tax Act**
Internal Revenue Code Section 1445, and California Revenue and Taxation Code Sections 18805(a)(2) and 26131(a)(2), plac special requirements for tax reporting and withholding on the parties to a real estate transaction where the transferor (Seller) a non-resident alien or non-domestic corporation or partnership or is a domestic corporation or partnership controlled by non-residen or non-resident corporations or partnerships. The parties to this transaction are seeking an attorney's, accountant's or other t specialist's opinions concerning the effect of this Act on this transaction and are not acting on any statement made or omitte by Escrow Holder.

TIME IS OF THE ESSENCE OF THESE INSTRUCTIONS. If this escrow is not in condition to close by closing date referred on page 1 hereof, and demand for cancellation is received by you from any party to this escrow after said date, you shall a in accordance with the cancellation instructions contained in the general provisions. If no demand for cancellation is mad you will proceed to close this escrow when the principals have complied with the escrow instructions.

PURCHASE AGREEMENT BETWEEN NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD AND THE CITY OF ESCONDIDO

THIS AGREEMENT dated as of 9/12, 1991, is made by and between **NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD** (herein "NCTD" or "Seller"), and the CITY OF ESCONDIDO (herein "City" or "Buyer"), and constitutes a contract of purchase and sale between the parties. This Agreement is entered into by both parties in light of the following facts:

1. **PROPERTY DESCRIPTION:**

a) NCTD is the owner of certain real property located in Escondido, California (hereafter "NCTD Property"), which real property consists of 693,980 square feet or approximately 15.93 acres and is more particularly described as follows:

Exhibit "A" - Lot A and Lot B Property Site Plan
Exhibit "B" - Lot A and Lot B Property Legal Description

b) City desires to purchase that portion of the above described NCTD Property currently identified as Lot A and currently consisting of 442,634 square feet or approximately 10.16 acres (hereafter the "Property"), being more particularly described with legal description as follows:

Lot A on attached site plan has boundaries defined by Record of Survey Map No. 12935 recorded October 18, 1990, San Diego County File No. 90-567013.

2. **TERMS OF SALE:**

a) Price - In consideration of the covenants herein contained, NCTD hereby agrees to sell, and City hereby agrees to purchase the Property for a total purchase price of Three Million, Four Hundred and Seventy-Six Thousand, Three Hundred and Fifty-six dollars ($3,476,356.00) (hereafter the "Purchase Price").

b) Payment of Purchase Price - The Purchase Price shall be paid by the City as follows:

(i) Deposit of $50,000, payable to Chicago Title Company, to be placed in escrow upon the opening of escrow.

(ii) Balance of Purchase Price ($3,426,356.00) is to be deposited into escrow on or before the close of escrow.

(iii) All costs of sale are to be paid by Buyer.

(continued)

3. **MINERAL RIGHTS:**

Buyer acknowledges and agrees that purchase of the Property is subject to the retention of subsurface mineral rights by Santa Fe Pacific Properties, Inc., a Delaware Corporation. Santa Fe Pacific Properties, Inc. shall retain subsurface mineral rights in the Property as described in Exhibit "C".

4. **ESCROW:**

Buyer and Seller shall open a 30 day escrow with Escrow Agent and, at that time, shall deposit with Escrow Agent fully executed counterparts of this Agreement for use as escrow instruction. Said escrow instructions shall be for the purpose of implementing this Agreement and such instructions shall incorporate this Agreement by reference and shall not have the affect of modifying this Agreement unless it is so expressly stated and initialed on behalf of Buyer and Seller.

5. **TITLE:**

a) **Clear Title** - Title is to be free of liens, encumbrances, easements, restrictions, rights and conditions of record or known to Seller, other than the following:

(i) Current Property taxes;

(ii) Covenants, conditions, restrictions, encumbrances and easements of record, if any, unless reasonably disapproved by Buyer in writing within 14 calendar days from receipt of a current preliminary title report furnished at Buyer's expense.

(iii) Evidence that property is a legal lot per the subdivision map act will be provided by Buyer at Buyers expense.

b) **Delivery of Title** - Title shall transfer to Buyer by Grant Deed. Seller shall furnish Buyer at Buyer's expense with a CLTA Title Policy issued by Title Company showing Title vested in Buyer subject only to those matters described in 5 (a) above. If Seller fails to deliver Title, Buyer may terminate this Agreement and the deposit described in 2 (b), above, shall be returned to Buyer.

6. **POSSESSION:**

Possession of the Property shall be delivered to Buyer on close of escrow.

(continued)

7. **VESTING:**

Title to the Property shall vest in Buyer as follows; City of Escondido.

8. **CONDITIONS TO BUYER'S OBLIGATION TO PURCHASE:**

a) Performance by Seller - Timely performance of each obligation and covenant of, and delivery required of, Seller hereunder.

b) Delivery of Title and Possession - Delivery by Seller on the closing of escrow (i) of title by Grant Deed, and issuance of the Title Policy showing such title in Buyer, per the conditions described in paragraph 5, above, and (ii) possession as provided in paragraph 6, above.

9. **CONDITIONS TO SELLER'S OBLIGATION TO SELL:**

Seller's obligation to sell is expressly conditioned upon each of the following:

a) Performance by Buyer - Timely performance of each obligation and covenant of, and delivery required of, Buyer hereunder.

b) Payment of Purchase Price - Payment of the Purchase Price in the manner described in Paragraph 2, above.

10. **INSPECTION:**

a) Investigation - Buyer shall have the right, after opening of escrow, at Buyer's expense, to select licensed contractor(s) and other qualified professional(s), to make **"INSPECTIONS"** (including tests, surveys, other studies, inspections, and investigations) of the Property during the first 15 days after opening escrow. These inspections shall include but not be limited to sewer/septic system, well, soils, percolation, geologic conditions and environmental hazards, such as but not limited to, any past or current generation, storage, release, threatened release, disposal, presence and locations of asbestos, PCB transformers, petroleum products, flammable explosives, underground storage tanks and other hazardous, toxic or contaminated substance or condition, on or about the Property. Buyer shall keep the Property free and clear of any liens, indemnify, defend, and hold Seller harmless from all liability, claims, demands, damages or costs, and repair all damages to the Property arising from the **"INSPECTIONS."** Buyer hereby acknowledges and agrees that Seller makes no representations regarding the condition of the Property, and that Buyer is relying exclusively on its own investigation of the Property to determine its condition.

(continued)

b) **Notice of Defect(s)** - All claimed defects concerning the condition of the Property that adversely affect Buyer's proposed use of the Property shall be in writing, supported by written reports, if any, and delivered to Seller within fifteen (15) calendar days after opening of escrow (the "Investigation Period"). Buyer shall furnish Seller copies, at no cost, of all reports concerning the Property obtained by Buyer. If Buyer fails to give such notice of disapproval prior to the expiration of the Investigation Period, such failure shall be conclusively deemed to be full and complete approval of such matters and the satisfaction of this condition.

c) **Cooperation Clause** - Both Buyer and Seller agree to cooperate with each other in good faith and each to use its best efforts to correct or otherwise resolve the claimed defects to the reasonable satisfaction of Buyer.

d) Seller has, with Buyer's knowledge, conducted toxic waste investigations. The only finding requiring remedial action was surface contamination (petroleum hydrocarbons) in a drainage ditch running from NE to SW and originating from a neighboring property occupied by Palomar Transit Mix. The flow into the ditch has been stopped and the surface contaminated soil in the ditch has been removed in a manner required by applicable regulations. Buyer has copies of reports, has been kept appraised of progress and will pay a prorata share of the testing and investigative expenses. Buyer acknowledges that Seller has processed a Site Remediation Plan through the County of San Diego Department of Health Services, and after completion has obtained a "sign-off", no further action required letter from the County.

11. **SELLER'S REPRESENTATIONS:**

Seller warrants that Seller has no knowledge of any notice of violations of City, County, State, Federal, Building, Zoning, Fire, Health codes, or ordinances, or other government regulations filed or issued against the Property. If Seller receives notice of any such violations prior to close of escrow, Seller shall immediately notify Buyer. Buyer is allowed fourteen (14) days after receipt of notification to give Seller written notice of disapproval.

12. **BUYER DISAPPROVAL:**

Whenever Buyer gives written notice of disapproval pursuant to Paragraphs 5, 10, or 11, above, Seller shall have seven (7) calendar days from receipt of such notice to respond in writing to Buyer's disapproval. Both Buyer and Seller each agree to cooperate with each other in good faith and each to use its best efforts to correct or resolve any such problems. If Seller is unwilling or unable to correct the condition(s) disapproved by Buyer to Buyer's reasonable satisfaction, or if Seller does not respond by the time set forth herein, then Buyer may cancel this Agreement by providing written notice of cancellation to Seller within

(continued)

seven (7) calendar days from receipt of Seller's response or from expiration of the time set for Seller's response. **BUYER'S FAILURE TO GIVE WRITTEN NOTICE OF DISAPPROVAL OR CANCELLATION SHALL CONCLUSIVELY BE DEEMED APPROVAL.**

13. **CONDITION OF PROPERTY:**

Sellar warrants, through the date possession is made available to Buyer, that Property and improvements, if any, shall be maintained in the same condition as upon the date of acceptance.

14. **CHANGES DURING ESCROW:**

Prior to close of escrow, Seller agrees not to: (i) Rent or lease any part of the premises, (ii) alter, modify or extend any existing rental or lease agreement, or (iii) enter into, alter, modify or extend any service contract(s), without first having obtained Buyer's written approval, which shall not be unreasonably withheld.

15. **RENTAL AND SERVICE AGREEMENTS:**

Seller represents that there are no written leases, rental agreements, or service contracts pertaining to the Property.

16. **TIME OF ESSENCE:**

Time is strictly of the essence with respect to each and every term, condition, obligation and provision herein, and the failure to timely and fully perform or satisfy any of the terms, conditions, obligations, or provisions of this Agreement, shall constitute a non-curable default hereunder.

17. **ENTIRE AGREEMENT:**

This Agreement contains the entire Agreement between the parties relating to the transactions contemplated hereby and all prior or contemporaneous agreements, understandings, representations and statements, oral or written, are merged herein. The parties further intend that this Agreement constitutes the complete and exclusive statement of its terms and that no extrinsic evidence whatsoever may be introduced in any judicial or arbitration proceeding, if any, involving this Agreement.

18. **MODIFICATION:**

No modification, waiver, amendment, discharge, or change of this Agreement shall be valid unless the same is in writing and signed by the party against which the enforcement of such modification, waiver, amendment, discharge or change is or may be sought.

(continued)

19. **ATTORNEYS' FEES:**

Should any party hereto employ an attorney for the purpose of enforcing or construing this Agreement, or any judgment based on this Agreement, in any legal proceeding whatsoever, the prevailing party shall be entitle to receive from the other party, or parties thereto, reimbursement for all attorneys' fees and all costs, including, but not limited to, service of process, filing fees, court and court reporter costs, investigative costs, expert witness fees and the cost of any bonds, whether taxable or not. Should any judgment or final order be issued in that proceeding, said reimbursement shall be specified therein. The "prevailing party" means the party determined by the court to most nearly prevail and not necessarily the one in whose favor a judgment is rendered.

20. **SEVERABILITY:**

In the event any term, covenant, condition, provision or agreement herein contained is held to be invalid, void or otherwise unenforceable by any court of competent jurisdiction, the fact that such term, covenant, condition, provision or agreement is invalid, void or otherwise unenforceable, shall in no way affect the validity or enforceability of any other term, covenant, condition, provision or agreement herein contained.

21. **SUCCESSORS AND ASSIGNS:**

Subject to any provisions concerning assignment hereinabove set forth, all terms of this Agreement shall be binding upon, enure to the benefit of, and be enforceable by, the parties hereto and their respective legal representatives, successors and assigns.

22. **COUNTERPARTS:**

This Agreement may be executed in any number of counterparts, each of which so executed shall be deemed an original; such counterparts shall together constitute but one Agreement.

23. **SURVIVAL OF WARRANTIES:**

All obligations referred to herein to be performed at the time or times after the closing and all warranties and representations contained herein, shall survive the closing and the delivery of Seller's Grant Deed.

24. **GOVERNING LAW:**

This Agreement shall be construed and enforced in accordance with the laws of the State of California.

IN WITNESS WHEREOF the undersigned Buyer and Seller agree to the terms and conditions herein, this Agreement having been executed as of the date set forth above.

Mr. Paul W. Price
Director of Service Development
North County Transit District
311 South Tremont Street
Oceanside, CA 92054

Dear Mr. Price:

Thank you for your letter of September 13, 1991, in which you reviewed with me your holding and environmental cleanup costs for the property which the City of Escondido is purchasing from you.

You requested that we meet to discuss how those costs might be shared between our agencies. I am of the mind that such a meeting would serve no purpose due to the following considerations:

1. The Purchase Agreement, which sets forth the total purchase price, has already been approved and signed by both the Transit Development Board and the Escondido City Council. For this reason, the price to be paid by the City has already been determined.

2. The carrying costs you have incurred by holding the property for the past nine months are the result of your agency's having acquired the property prior to requiring Santa Fe Realty to perform the environmental cleanup dictated by your consultant, who made recommendations to you prior to your close of escrow with the seller.

3. The funding, which the City of Escondido has budgeted for this acquisition, would not allow the City of Escondido to participate in a sharing of your holding and environmental cleanup costs.

The Purchase Agreement our agencies have entered into does, however, provide for the City's sharing in the costs of soils testing and investigative expenses. For this reason, the City will participate in fifty percent of the $20,994 Nachant environmental testing and investigative expenses which you have incurred. We will share in these expenses through our escrow.

The purchase agreements and City funding are now in the process of being deposited into an escrow at First American Title Insurance Company. I anticipate a rapid escrow to handle this transaction, closing well before the end of October 1991.

Sincerely,

MICHAEL L. ADAMS
Director Of Public Works

Ron Gerow, Real Property Agent
Public Works Dept., Eng. Div.
City of Escondido
201 N. Broadway
Escondido, CA 92025

Dear Ron:

Enclosed is the District's invoice for the City of Escondido prorata share of the site assessment (testing and investigative) expenses for the new corporation yard expansion purchase.

Attached for information is the Nachant Environmental, Inc. final invoice with the assessment and remediation figures. The total assessment amount is $20,993.51. The City of Escondido prorata share is $13,390.

On page 4 in paragraph 10 d) of the Purchase Agreement (approved by City and District), there is the agreement that Buyer "will pay a prorata share of the testing and investigative expenses". (see attached)

A prorata share is each partys' fractional part of the total and is proportional according to a calculable factor. The City's prorata basis for the assessment cost sharing is the City's square feet of area relative to the total square feet of area. This is also the method used in determining the City's purchase price. (See attached March 14, 1991 Board Agenda Item)

The City's prorata share of the testing and investigative expenses is:

$$\$20{,}994 \times \frac{442{,}634 \text{ Sq. Ft.}}{693{,}980 \text{ Sq. Ft.}} = \$13{,}390$$

Sincerely,

FAX: (619) 589-9087

b) Notice of Defect(s) - All claimed defects concerning the condition of the Property that adversely affect Buyer's proposed use of the Property shall be in writing, supported by written reports, if any, and delivered to Seller within fifteen (15) calendar days after opening of escrow (the "Investigation Period"). Buyer shall furnish Seller copies, at no cost, of all reports concerning the Property obtained by Buyer. If Buyer fails to give such notice of disapproval prior to the expiration of the Investigation Period, such failure shall be conclusively deemed to be full and complete approval of such matters and the satisfaction of this condition.

c) Cooperation Clause - Both Buyer and Seller agree to cooperate with each other in good faith and each to use its best efforts to correct or otherwise resolve the claimed defects to the reasonable satisfaction of Buyer.

d) Seller has, with Buyer's knowledge, conducted toxic waste investigations. The only finding requiring remedial action was surface contamination (petroleum hydrocarbons) in a drainage ditch running from NE to SW and originating from a neighboring property occupied by Palomar Transit Mix. The flow into the ditch has been stopped and the surface contaminated soil in the ditch has been removed in a manner required by applicable regulations. Buyer has copies of reports, has been kept appraised of progress and will pay a prorata share of the testing and investigative expenses. Buyer acknowledges that Seller has processed a Site Remediation Plan through the County of San Diego Department of Health Services, and after completion has obtained a "sign-off", no further action required letter from the County.

11. **SELLER'S REPRESENTATIONS:**

Seller warrants that Seller has no knowledge of any notice of violations of City, County, State, Federal, Building, Zoning, Fire, Health codes, or ordinances, or other government regulations filed or issued against the Property. If Seller receives notice of any such violations prior to close of escrow, Seller shall immediately notify Buyer. Buyer is allowed fourteen (14) days after receipt of notification to give Seller written notice of disapproval.

12. **BUYER DISAPPROVAL:**

Whenever Buyer gives written notice of disapproval pursuant to Paragraphs 5, 10, or 11, above, Seller shall have seven (7) calendar days from receipt of such notice to respond in writing to Buyer's disapproval. Both Buyer and Seller each agree to cooperate with each other in good faith and each to use its best efforts to correct or resolve any such problems. If Seller is unwilling or unable to correct the condition(s) disapproved by Buyer to Buyer's reasonable satisfaction, or if Seller does not respond by the time set forth herein, then Buyer may cancel this Agreement by providing written notice of cancellation to Seller within

(continued)

NORTH COUNTY TRANSIT DISTRICT
NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD

CONSENT CALENDAR
AGENDA ITEM A-6

March 14, 1991

TO: North San Diego County Transit Development Board Members

FROM: Executive Director

SUBJECT: PURCHASE AGREEMENT FOR THE SALE OF DISTRICT PROPERTY IN ESCONDIDO TO THE CITY OF ESCONDIDO

STAFF'S RECOMMENDED ACTION: That the Board approve a Purchase Agreement for the sale of 10.16 acres of District land in Escondido to the City of Escondido and that the Executive Director be authorized to execute this agreement.

BACKGROUND DATA:

On December 13, 1990, the Board approved a District purchase of 15.93 acres of vacant land in Escondido. The purchase was made for the dual purpose of providing a rail service maintenance yard for the District and a site for the expansion of the City of Escondido Corporation Yard.

The City of Escondido had previously approved of the acquisition of the Lot A property (see Exhibit A) from the District and the Board has approved the sale of Lot A to the City by Resolution 91-05 on February 14, 1991.

Details of the lot sizes are as follows:

	Lot	Sq.Ft.	Acres	%
City of Escondido	A	442,634	10.16	63.78
NCTD	B	251,346	5.77	36.22
Total	A+B	693,980	15.93	100.00

Negotiated Purchase Price Paid to Santa Fe Pacific Properties, Inc. (SFPP)

- Land Value
  693,980 sq. ft. x $7.50 per sq. ft. = $5,204,850
- Development Costs Incurred by SFPP = $ 158,958
- Water & Sewer Connection Fees Paid to City of Escondido by SFPP = $ 55,254

  $5,419,062
- Total Purchase Price Paid by NCTD $5,419,000

Selling Price to City of Escondido

- Original Purchase Price Less Water & Sewer Connection Fees

  $5,419,000 - $55,254 = $5,363,746
- City of Escondido Pro Rata Price Share

  $5,363,746 x $\frac{\$442,634 \text{ Sq. ft.}}{693,980 \text{ Sq. ft.}}$ = $3,421,102

  $55,254 x 100% = $ 55,254

  $3,476,356
- Selling Price

Once these funds are received they will be returned to the Transnet program which they were advanced from per prior approval of SANDAG.

Michael Adams, Director of Public Works
CITY OF ESCONDIDO
201 No. Broadway
Escondido, CA 92025

Dear Mr. Adams:

I am glad we were finally able to resolve environmental concerns of the Escondido property which was purchased for our joint use. It is my understanding that the City should be in position to consummate the deal by October of 1991.

However, there is an issue that I am obliged to bring up in the hopes that we can come to some mutual resolution. Attached is a memo outlining the cost we will have incurred by the end of October, 1991 which includes the holding cost of the land and the environmental clean-up itself.

I would like to set up a meeting with you, as soon as possible, to discuss how these costs might be shared.

I would appreciate hearing from you and if you have any questions, please feel free to contact me.

Sincerely,

Paul W. Price
Director of Service Development

Ron Gerow (City of Escondido)

MEMO

cc. Mike Adams

DATE: September 12, 1991

TO: Paul Price, Director of Service Development

FROM: George Johnson, Contracts Supervisor

SUBJECT: EXPENSES INCURRED IN THE HOLDING OF LAND PURCHASED FOR THE CITY OF ESCONDIDO

1. The original intent of the District's purchase of an additional 10 acres of land beyond that planned for the Rail Maintenance Yard in Escondido was to satisfy the CITY'S request that we do this and then CITY would purchase this 10 acres from the District within about one month after the District's close of escrow.

2. The District closed escrow on December 27, 1990. It now appears that City may conclude the purchase of the 10 acres in early October 1991. The nine month delay was caused by City's concern for certain surface contamination (petroleum products) which had originated from a neighbor's property (Palomar Transit Mix) and passed on to City's future property. Because of this surface spillage from a neighbor, extensive soil and ground water sampling, testing, and analysis with a final acceptance by the County of San Diego and the Regional Water Quality Control Board became a pre-condition required by the City before proceeding with the purchase.

3. All of that is now behind us and the above condition has been satisfied. Certain costs have been incurred during this nine month holding period. These items are summarized as follows:

	ITEM		COST
A.	Cost of Funds		$202,063
	$3,476,356.00 for 9 months at 7.75%		
B.	Nachant Environmental		$ 28,352
	- Assessment	$20,994	
	- Remediation	7,358	
	Total	$28,352	
C.	Legal Expenses for CEQA Compliance - Sale of Public Property		$ 2,730
D.	County of San Diego Charges - County Services		$ 2,400
E.	Trash Clean-Up Charges - Required by City of Escondido to remove a dump site		336
	TOTAL		$235,881

ESCONDIDO CITY COUNCIL AGENDA

ITEM NO. _____

DATE December 12, 1990

TO: Honorable Mayor and City Council

FROM: Ron Gerow, Real Property Agent

SUBJECT: Acquisition of Real Property from North County Transit District; Expansion of City Corporation Yard, Washington Avenue West of Spruce Street

RECOMMENDATION:

It is recommended that the City Council adopt a resolution authorizing the Mayor and City Clerk to sign the purchase agreement.

GENERAL PLAN ANALYSIS:

Not applicable.

FISCAL ANALYSIS:

The $3,480,000 acquisition price, plus approximately $10,000 for estimated escrow costs, will be funded as follows:

Available funding for corporation yard upgrade:

Utilities	$2,000,000
General Fund	$ 100,000
Funds borrowed from Sewer Enterprise Fund	$1,390,000
Total	$3,490,000

PREVIOUS ACTION:

The City Council discussed this proposed purchase in closed session on December 5, 1990.

DISCUSSION:

City staff and North County Transit District staff have met with representatives of Santa Fe Pacific Realty (Catellus Development), and have negotiated an

acquisition of the entire 15.93 acre Catellus ownership fronting on Washington Avenue west of Spruce Street.

The negotiated settlement is based upon the following calculations:

15.93 acres @ $7.50/square foot	$5,204,331
Sewer and water connection rights	$ 55,254
Development costs	$ 159,415
Total acquisition price	$5,419,000

The North County Transit District will utilize 5.77 acres (36.22 percent) of the property acquired. Their portion of the cost is therefore 36.22 percent of the total acquisition price, except water and sewer connection rights -- $1,942,656. The City will utilize the remaining 10.16 acres, and the City's portion of the project and cost is 63.78 percent -- $3,456,344, plus the water and sewer connection rights.. North County Transit District will enter into an escrow to acquire the total 15.93 acres from Catellus Development. The North County Transit District Board is scheduled to approve this transaction on December 13, 1990. The recommendation contained herein will provide for the City of Escondido acquiring its portion of the property from North County Transit District, contingent upon North County Transit District's close of escrow and resultant acquisition of the property from Catellus Development. North County Transit has agreed to acquire the property in its totality, and subsequently enter into an escrow with the City of Escondido for the City's acquisition of its portion.

RON GEROW
Real Property Agent

RONALD W. ANDERSON
Assistant. Director of Public Works

EN\W1130-25

PURCHASE AGREEMENT BETWEEN NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD AND THE CITY OF ESCONDIDO

THIS AGREEMENT dated as of 9/12, 1991, is made by and between **NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD** (herein "NCTD" or "Seller"), and the CITY OF ESCONDIDO (herein "City" or "Buyer"), and constitutes a contract of purchase and sale between the parties. This Agreement is entered into by both parties in light of the following facts:

1. **PROPERTY DESCRIPTION:**

a) NCTD is the owner of certain real property located in Escondido, California (hereafter "NCTD Property"), which real property consists of 693,980 square feet or approximately 15.93 acres and is more particularly described as follows:

Exhibit "A" - Lot A and Lot B Property Site Plan
Exhibit "B" - Lot A and Lot B Property Legal Description

b) City desires to purchase that portion of the above described NCTD Property currently identified as Lot A and currently consisting of 442,634 square feet or approximately 10.16 acres (hereafter the "Property"), being more particularly described with legal description as follows:

Lot A on attached site plan has boundaries defined by Record of Survey Map No. 12935 recorded October 18, 1990, San Diego County File No. 90-567013.

2. **TERMS OF SALE:**

a) **Price** - In consideration of the covenants herein contained, NCTD hereby agrees to sell, and City hereby agrees to purchase the Property for a total purchase price of Three Million, Four Hundred and Seventy-Six Thousand, Three Hundred and Fifty-six dollars ($3,476,356.00) (hereafter the "Purchase Price"). $7.85/#

b) **Payment of Purchase Price** - The Purchase Price shall be paid by the City as follows:

(i) Deposit of $50,000, payable to Chicago Title Company, to be placed in escrow upon the opening of escrow.

(ii) Balance of Purchase Price ($3,426,356.00) is to be deposited into escrow on or before the close of escrow.

(iii) All costs of sale are to be paid by Buyer.

(continued)

3. **MINERAL RIGHTS:**

Buyer acknowledges and agrees that purchase of the Property is subject to the retention of subsurface mineral rights by Santa Fe Pacific Properties, Inc., a Delaware Corporation. Santa Fe Pacific Properties, Inc. shall retain subsurface mineral rights in the Property as described in Exhibit "C".

4. **ESCROW:**

Buyer and Seller shall open a 30 day escrow with Escrow Agent and, at that time, shall deposit with Escrow Agent fully executed counterparts of this Agreement for use as escrow instruction. Said escrow instructions shall be for the purpose of implementing this Agreement and such instructions shall incorporate this Agreement by reference and shall not have the affect of modifying this Agreement unless it is so expressly stated and initialed on behalf of Buyer and Seller.

5. **TITLE:**

a) **Clear Title** - Title is to be free of liens, encumbrances, easements, restrictions, rights and conditions of record or known to Seller, other than the following:

(i) Current Property taxes;

(ii) Covenants, conditions, restrictions, encumbrances and easements of record, if any, unless reasonably disapproved by Buyer in writing within 14 calendar days from receipt of a current preliminary title report furnished at Buyer's expense.

(iii) Evidence that property is a legal lot per the subdivision map act will be provided by Buyer at Buyers expense.

b) **Delivery of Title** - Title shall transfer to Buyer by Grant Deed. Seller shall furnish Buyer at Buyer's expense with a CLTA Title Policy issued by Title Company showing Title vested in Buyer subject only to those matters described in 5 (a) above. If Seller fails to deliver Title, Buyer may terminate this Agreement and the deposit described in 2 (b), above, shall be returned to Buyer.

6. **POSSESSION:**

Possession of the Property shall be delivered to Buyer on close of escrow.

(continued)

7. **VESTING:**

Title to the Property shall vest in Buyer as follows; City of Escondido.

8. **CONDITIONS TO BUYER'S OBLIGATION TO PURCHASE:**

a) Performance by Seller - Timely performance of each obligation and covenant of, and delivery required of, Seller hereunder.

b) Delivery of Title and Possession - Delivery by Seller on the closing of escrow (i) of title by Grant Deed, and issuance of the Title Policy showing such title in Buyer, per the conditions described in paragraph 5, above, and (ii) possession as provided in paragraph 6, above.

9. **CONDITIONS TO SELLER'S OBLIGATION TO SELL:**

Seller's obligation to sell is expressly conditioned upon each of the following:

a) Performance by Buyer - Timely performance of each obligation and covenant of, and delivery required of, Buyer hereunder.

b) Payment of Purchase Price - Payment of the Purchase Price in the manner described in Paragraph 2, above.

10. **INSPECTION:**

a) Investigation - Buyer shall have the right, after opening of escrow, at Buyer's expense, to select licensed contractor(s) and other qualified professional(s), to make **"INSPECTIONS"** (including tests, surveys, other studies, inspections, and investigations) of the Property during the first 15 days after opening escrow. These inspections shall include but not be limited to sewer/septic system, well, soils, percolation, geologic conditions and environmental hazards, such as but not limited to, any past or current generation, storage, release, threatened release, disposal, presence and locations of asbestos, PCB transformers, petroleum products, flammable explosives, underground storage tanks and other hazardous, toxic or contaminated substance or condition, on or about the Property. Buyer shall keep the Property free and clear of any liens, indemnify, defend, and hold Seller harmless from all liability, claims, demands, damages or costs, and repair all damages to the Property arising from the **"INSPECTIONS."** Buyer hereby acknowledges and agrees that Seller makes no representations regarding the condition of the Property, and that Buyer is relying exclusively on its own investigation of the Property to determine its condition.

(continued)

b) **Notice of Defect(s)** - All claimed defects concerning the condition of the Property that adversely affect Buyer's proposed use of the Property shall be in writing, supported by written reports, if any, and delivered to Seller within fifteen (15) calendar days after opening of escrow (the "Investigation Period"). Buyer shall furnish Seller copies, at no cost, of all reports concerning the Property obtained by Buyer. If Buyer fails to give such notice of disapproval prior to the expiration of the Investigation Period, such failure shall be conclusively deemed to be full and complete approval of such matters and the satisfaction of this condition.

c) **Cooperation Clause** - Both Buyer and Seller agree to cooperate with each other in good faith and each to use its best efforts to correct or otherwise resolve the claimed defects to the reasonable satisfaction of Buyer.

d) Seller has, with Buyer's knowledge, conducted toxic waste investigations. The only finding requiring remedial action was surface contamination (petroleum hydrocarbons) in a drainage ditch running from NE to SW and originating from a neighboring property occupied by Palomar Transit Mix. The flow into the ditch has been stopped and the surface contaminated soil in the ditch has been removed in a manner required by applicable regulations. Buyer has copies of reports, has been kept appraised of progress and will pay a prorata share of the testing and investigative expenses. Buyer acknowledges that Seller has processed a Site Remediation Plan through the County of San Diego Department of Health Services, and after completion has obtained a "sign-off", no further action required letter from the County.

11. **SELLER'S REPRESENTATIONS:**

Seller warrants that Seller has no knowledge of any notice of violations of City, County, State, Federal, Building, Zoning, Fire, Health codes, or ordinances, or other government regulations filed or issued against the Property. If Seller receives notice of any such violations prior to close of escrow, Seller shall immediately notify Buyer. Buyer is allowed fourteen (14) days after receipt of notification to give Seller written notice of disapproval.

12. **BUYER DISAPPROVAL:**

Whenever Buyer gives written notice of disapproval pursuant to Paragraphs 5, 10, or 11, above, Seller shall have seven (7) calendar days from receipt of such notice to respond in writing to Buyer's disapproval. Both Buyer and Seller each agree to cooperate with each other in good faith and each to use its best efforts to correct or resolve any such problems. If Seller is unwilling or unable to correct the condition(s) disapproved by Buyer to Buyer's reasonable satisfaction, or if Seller does not respond by the time set forth herein, then Buyer may cancel this Agreement by providing written notice of cancellation to Seller within

(continued)

seven (7) calendar days from receipt of Seller's response or from expiration of the time set for Seller's response. **BUYER'S FAILURE TO GIVE WRITTEN NOTICE OF DISAPPROVAL OR CANCELLATION SHALL CONCLUSIVELY BE DEEMED APPROVAL.**

13. **CONDITION OF PROPERTY:**

Sellar warrants, through the date possession is made available to Buyer, that Property and improvements, if any, shall be maintained in the same condition as upon the date of acceptance.

14. **CHANGES DURING ESCROW:**

Prior to close of escrow, Seller agrees not to: (i) Rent or lease any part of the premises, (ii) alter, modify or extend any existing rental or lease agreement, or (iii) enter into, alter, modify or extend any service contract(s), without first having obtained Buyer's written approval, which shall not be unreasonably withheld.

15. **RENTAL AND SERVICE AGREEMENTS:**

Seller represents that there are no written leases, rental agreements, or service contracts pertaining to the Property.

16. **TIME OF ESSENCE:**

Time is strictly of the essence with respect to each and every term, condition, obligation and provision herein, and the failure to timely and fully perform or satisfy any of the terms, conditions, obligations, or provisions of this Agreement, shall constitute a non-curable default hereunder.

17. **ENTIRE AGREEMENT:**

This Agreement contains the entire Agreement between the parties relating to the transactions contemplated hereby and all prior or contemporaneous agreements, understandings, representations and statements, oral or written, are merged herein. The parties further intend that this Agreement constitutes the complete and exclusive statement of its terms and that no extrinsic evidence whatsoever may be introduced in any judicial or arbitration proceeding, if any, involving this Agreement.

18. **MODIFICATION:**

No modification, waiver, amendment, discharge, or change of this Agreement shall be valid unless the same is in writing and signed by the party against which the enforcement of such modification, waiver, amendment, discharge or change is or may be sought.

(continued)

19. **ATTORNEYS' FEES:**

Should any party hereto employ an attorney for the purpose of enforcing or construing this Agreement, or any judgment based on this Agreement, in any legal proceeding whatsoever, the prevailing party shall be entitle to receive from the other party, or parties thereto, reimbursement for all attorneys' fees and all costs, including, but not limited to, service of process, filing fees, court and court reporter costs, investigative costs, expert witness fees and the cost of any bonds, whether taxable or not. Should any judgment or final order be issued in that proceeding, said reimbursement shall be specified therein. The "prevailing party" means the party determined by the court to most nearly prevail and not necessarily the one in whose favor a judgment is rendered.

20. **SEVERABILITY:**

In the event any term, covenant, condition, provision or agreement herein contained is held to be invalid, void or otherwise unenforceable by any court of competent jurisdiction, the fact that such term, covenant, condition, provision or agreement is invalid, void or otherwise unenforceable, shall in no way affect the validity or enforceability of any other term, covenant, condition, provision or agreement herein contained.

21. **SUCCESSORS AND ASSIGNS:**

Subject to any provisions concerning assignment hereinabove set forth, all terms of this Agreement shall be binding upon, enure to the benefit of, and be enforceable by, the parties hereto and their respective legal representatives, successors and assigns.

22. **COUNTERPARTS:**

This Agreement may be executed in any number of counterparts, each of which so executed shall be deemed an original; such counterparts shall together constitute but one Agreement.

23. **SURVIVAL OF WARRANTIES:**

All obligations referred to herein to be performed at the time or times after the closing and all warranties and representations contained herein, shall survive the closing and the delivery of Seller's Grant Deed.

24. **GOVERNING LAW:**

This Agreement shall be construed and enforced in accordance with the laws of the State of California.

IN WITNESS WHEREOF the undersigned Buyer and Seller agree to the terms and conditions herein, this Agreement having been executed as of the date set forth above.

PROPERTY LEGAL DESCRIPTION

LEGAL DESCRIPTION

That portion of Lots 2, 3, and 4, Block 316, of the subdivision of Rancho Rincon Del Diablo, in the City of Escondido, according to Map thereof made by E.L. Horn, recorded: April 10, 1888 as Map No. 527, in the Office of the County Recorder of San Diego County, being more particularly described as follows:

Beginning at the westerly most corner of said Lot 3; thence northeasterly along the northerly line of said Lots 3 and 2, North 69°43'22" East, 1300.57 feet, to the northeasterly corner of said Lot 2; thence southeasterly along the easterly line of said Lot 2, South 20°17'56" East, 889.01 feet to an intersection with the westerly sideline of the "Escondido Creek Water Shed - Unit No. 1" right-of-way as shown on City of Escondido Drawing No. FCR-1000; said intersection also being along an 840.00 foot radius curve, concave northwesterly, having a radial bearing to said point of South 77°45'56" East (South 77°19'33" East, FCR-1000); thence southwesterly along the arc of said curve, through a central angle of 22°51'57" (22°51'31", FDR-1000), a distance of 335.23 feet (335.12, FDR-1000), to an intersection with the northeasterly right-of-way line of the A.T. & S.F. Railroad, as shown on Record of Survey No. 2753, recorded December 4, 1951, in the Office of the County Recorder of San Diego County; thence northwesterly along said right-of-way line, North 66°10'23" West, (North 65°54' West, Record of Survey 2753), 1194.63 feet; thence perpendicular to said right-of-way, North 23°49'37" East, 66.00 feet, to the southwesterly most corner of land described in deed to William R. Cramer, recorded: October 4, 1972, as File Page No. 265728 of Official Records, also being a point along the northeasterly right-of-way of Santa Fe Avenue, as shown on said Map No. 527; thence northwesterly along said line, North 66°10'23" West, 359.16 feet to the Point of Beginning.

Excepting that portion of land as described in deed to William R. Cramer, recorded: October 4, 1972, as File Page No. 265728 of Official Records.

Also excepting all that portion of land known as "Santa Fe Avenue", as shown on Escondido Land and Town Company Resurvey, Map 527, as filed in the Office of the County Recorder of San Diego County.

Re: City of Escondido Purchase of NCTD Property; Washington Avenue, Escondido

Dear George:

Now that the County of San Diego Environmental Health Services Office has given you a "sign-off" letter regarding the referenced property, the City of Escondido is ready to proceed to City Council approval of our purchase, and deposit of documents and funds into escrow.

I enclose the two copies of the purchase agreement which you previously submitted to me; now that you have obtained the "sign-off" letter from the County, it will be necessary to change paragraph 10d to read, "Buyer acknowledges that seller has processed a Site Remediation Plan through the County of San Diego Department of Health Services, and has obtained a "sign-off" letter from the County."

Please transmit the revised purchase agreement to me as soon as possible; I have already scheduled this item for City Council approval at its September 18, 1991 City Council meeting.

Sincerely,

RON GEROW
Real Property Agent

HMMD H75 CASE H20272-003, APN 232-090-02, 03, 40, 44, 64, 65

The site remediation information submitted to this agency by Nachant Environmental Incorporated, summarizing the site characterization and mitigation activities at the above referenced location has been reviewed. With the provision that the information provided to this agency was accurate and representative of existing conditions, it is the position of this office that no further action is required at this time.

This information has also been discussed with staff of the Regional Water Quality Control Board (RWQCB). Based on the information submitted and current requirements, the RWQCB concurs with the determination of this agency that no further action is required at this time.

Please be advised that this letter does not relieve you of any liability under the California Health and Safety Code or Water Code for past, present, or future operations at the site. Nor does it relieve you of the responsibility to clean up existing, additional or previously unidentified conditions at the site which cause or threaten to cause pollution or nuisance or otherwise pose a threat to water quality or public health.

Additionally, be advised that changes in the present or proposed use of the site may require further site characterization and mitigation activity. It is the property owner's responsibility to notify this agency of any changes in report content, future contamination findings, or site usage.

Thank you for your efforts in resolving this matter. Please contact Fred Allee of the Hazardous Materials Management Division at (619) 338-2470, if you require additional assistance.

Sincerely,

GARY R. STEPHANY, Deputy Director
Environmental Health Services

Subject: Concurrence Letter
Santa Fe Property
West Washington Avenue
APN 232-090-02, 03, 40, 44, 64, and 65
Escondido, CA

Dear Mr Bodenhamer:

North County Transit District (NCTD) requested the services of Nachant Environmental Inc. (NEI) to complete a Preliminary Site Assessment (PSA) of the subject site prior to their purchase of the property. The PSA included a Site Records Review phase and a Limited Soil Sampling phase as requested by NCTD. A limited quantity of hydrocarbon-impacted soil was observed at the subject site.

The PSA was completed in December 1990 and NCTD obtained the 16 acre property in approximately January 1991. Prior to the purchase, the City of Escondido verbally agreed to purchase a portion of the property. Because of the discovery of hydrocarbon-impacted soils on-site in a drainage ditch the City of Escondido has requested a concurrence letter from the County of San Diego, Hazardous Material Management Division (HMMD) regarding activities pertaining to the disposition of these hydrocarbon-impacted soils.

Background
The subject site is located in Escondido on West Washington Avenue midway between Spruce and Metcalf Streets, approximately one-half mile southeast of the interchange of Interstate 15 and State Highway 78. The location of the site is shown on Figure 1 of the enclosed PSA summary. The subject site is located in an area designated by the California Regional Water Quality Control Board as having existing beneficial uses of ground water.

During the PSA, a drainage ditch on-site was observed by NEI personnel to contain water. The wet soil in the ditch had a hydrocarbon odor. Laboratory analysis results for a collected ditch bottom sample indicated a Total Petroleum Hydrocarbon (TPH) concentration of 211 mg/kg was present.

OFFICE ADDRESS

In January and February, 1991, additional assessment of the drainage ditch was performed to estimate the lateral and vertical extent of hydrocarbon-impacted soils. These activities are described in the enclosed NEI Update Report dated March 2, 1991.

In April, 1991, hydrocarbon-impacted soils were excavated from the drainage ditch and stockpiled on visqueen at the subject site. Verification soil samples were collected along the drainage ditch bottom and sidewalls for laboratory analysis. A mobile laboratory was present on-site for analysis during the excavation. Approximately 70 cubic yards of soils were excavated. Excavation activities and laboratory results are described in the enclosed NEI Update Report dated May 6, 1991.

In May, 1991, four soil samples were collected from the stockpiled soils for laboratory analysis. The sample locations and laboratory results are described in the enclosed NEI Stockpile Characterization Report dated June 6, 1991. Only 30 cubic yards of soil were present on-site for sampling. Apparently one-half of the stockpile was removed by one or more unauthorized parties, its location is unknown.

Recommendations

Based on field observations and laboratory results obtained during sampling and excavating activities, NEI believes no further assessment is necessary in the drainage ditch area. NEI is requesting for NCTD and the City of Escondido a concurrence letter for the subject site addressing the drainage ditch assessment.

Based on the laboratory results and statistical evaluation for soils collected from the stockpile, NEI recommends and formally requests the remaining 30 cubic yards of hydrocarbon-impacted soils be allowed for disposal at San Marcos Landfill or the equivalent. The stockpile is currently on the portion of land to be purchased by the City of Escondido.

If you have any questions regarding the enclosed reports please contact our office.

Respectfully,

Marci J. Richards

Attn: George Johnson

Subject: Stockpile Characterization Report
West Washington Avenue
Escondido, California

Dear Mr. Johnson:

The Nachant Environmental Inc. (NEI) Update Report (May 6, 1991) for the subject site stated approximately 70 cubic yards of hydrocarbon-impacted soil was excavated from the drainage ditch and stockpiled on-site. Laboratory analysis results for samples collected from the former surface of the drainage ditch indicated a decrease in TRPH concentration from east to west. Analysis of samples collected from the former subsurface in the drainage ditch were below the regulatory limit (100 ppm) set for areas of beneficial water use (NEI Update Report, May 6, 1991). Based on the laboratory results, NEI recommends no further action be taken regarding the excavation of soils from the drainage ditch.

On May 23, 1991, the subject site was visited by NEI personnel to measure the stockpile for sampling locations. Measurements indicated stockpiled soils had been reduced to approximately 30 cubic yards.

The appropriate number of samples were determined following guidelines in the County of San Diego, Department of Health Services (DOHS) Site Assessment and Mitigation Manual, dated January 1991 for stockpile characterization. Sampling locations were randomly selected utilizing a statistical computer program (SYSTAT). The approximate 30 cubic yards of stockpiled soil was divided into quadrants and a 3-dimensionsal 1' X 1' sampling grid was constructed (Figure 1).

On May 30, 1991, stockpiled soils were sampled at the subject site. Four samples (Q1 through Q4) were collected from the stockpile for laboratory analysis. Samples were accessed by shovel, collected by a gloved hand, and tightly packed into 8-ounce glass jars sealed with Teflon-lined lids. Samples were placed on ice in a cooler and delivered to a state-certified mobile laboratory the same day, utilizing standard chain-of-custody procedures.

The four samples were analyzed for Total Recoverable Petroleum Hydrocarbons (TRPH, EPA Method 418.1). TRPH concentrations for samples Q1, Q2, Q3, and Q4 were reported as 25 ppm, 100 ppm, 320 ppm, and 470 ppm, respectively. Laboratory data and chain-of-custody documentation are attached.

Statistical calculations were performed on the TRPH concentrations of samples Q1 through Q4,

following SW-846 guidelines. The following is a summary of statistical calculations on the four samples:

Mean	228.750
Variance	41539.583
Standard Deviation	203.813
Standard Error	101.906
Confidence Interval	62 or 396
Number of Samples Required	4

The mean TRPH concentration for the stockpile is approximately 229 ppm; this concentration exceeds the probable regulatory allowed site limit. However, this concentration is not considered hazardous based on the 1,000 ppm Title 22 limit. Laboratory analysis results of ditch collected samples (other than TRPH) reported in the NEI March 2, 1991, Update Report indicated concentration levels below regulatory limits for the following analysis: Benzene, Toulene, Xylene, and Ethylbenzene (EPA Method 8020); Organic Lead (DHS Method); Polychlorinated Biphenals (EPA Method 8080); Halogenated Volatile Organics (EPA Method 8010); and Metals (Title 22). Based on the laboratory results, the hydrocarbon impacted soils do not appear to be a public health hazard or an environmental hazard.

Based on the laboratory analysis, Nachant Environmental Inc. (NEI) recommends the approximate 30 cubic yards of hydrocarbon-impacted soil either be transported to a recycling facility or bioremediated on-site to an average concentration below 100 ppm. Natural bioremediation will occur with time. The bioremediation process can be enhanced by adding nutrients and oxygen to the soil; this expedites the time required to lower TRPH concentration levels.

Respectfully,

Marci J. Richards
Environmental Geologist

Craig A. Smith

RE: Escondido Property; Washington Avenue

Dear George:

I am in receipt of the "TELEPHONE CONFERENCE CALL MEMO, MAY 22, 1991 - 3:30 p.m.", and I wish to correct two mis-statements in it:

1. Our concern is not just with the removal of the contaminated soil from the site, but in the obtaining of a Site Remediation Plan approved by the County, and, ultimately, a written 'final' from the County regarding the remediation work accomplished.

2. Contrary to paragraph 4 in your memo, there was no discussion of a sharing of costs between our agencies for the remediation work; it is highly improper for your memo to assert that we agreed to any cost sharing, when, in fact, that topic was not discussed.

At this time, the City stands ready to enter into a Purchase Agreement setting forth the requirements of a County-approved Site Remediation Plan, and ultimate County 'final' of the work accomplished. All other provisions in the proposed Agreement you prepared would remain unchanged. As soon as I recieve that revised Agreement from you, I will agendize it for City Council approval, and will thereafter deposit the funds into escrow.

JERRY C. HARMON, MAYOR CARLA DeDOMINICIS, MAYOR PRO TEM CHRIS MURPHY SID HOLLINS RICHARD A. FOSTER

Sincerely,

Ron Gerow,
Real Property Agent

RE: Escondido Property; Washington Avenue

Dear George:

Thank you for your and Paul's input during our telecon yesterday; I feel we are working together as rapidly as possible to cure the contaminated soils condition on the property so that the City of Escondido can carry out the purchase of its portion.

As we discussed, the several things you are now following through on include:

-Instructing your consultant Nachant Environmental to contact the County Health Department to report their findings and activities to date, and to discuss with the County the preparation of a satisfactory Site Remediation Plan

-Authorizing Nachant to complete the necessary historical Preliminary Survey regarding the railroad's occupancy and use of the site

-Determining through Nachand the extent of the additional remediation work required.

JERRY C. HARMON, MAYOR CARLA DeDOMINICIS, MAYOR PRO TEM KRIS MURPHY SID HOLLINS RICHARD A. FOSTER

If the required remediation work should involve a lengthy period of time to complete, we will agree to consider closure of our escrow with the escrow company's holding a portion of the funding to cover the continuing expenses of the remediation work.

Sincerely,

Ron Gerow,
Real Property Agent

TELEPHONE CONFERENCE CALL MEMO
May 22, 1991 - 3:30 p.m.

SUBJECT: Telephone Conference between NCTD (Paul Price & George Johnson) and the City of Escondido (Mike Adams & Ron Gerow), concerning City Purchase of Property from NCTD.

1) On May 22, 1991, the subject telephone conference was held to clarify the status of the purchase of the 10 acres by the City of Escondido from NCTD, for the planned expansion of the City's Corporation Yard.

2) Concern was expressed by the City of Escondido staff members that all contamination be removed from the site, prior to purchasing.

3) Concern was expressed by NCTD staff members that 6 months has passed without any discernible progress towards a return of the $3.5 million advanced to the City to acquire land, which was requested by the City. In addition, although the extensive testing, analysis, and assessment performed on the whole 16 acres has resulted in the isolation of a relatively minor and manageable remediation task, the matter is being generally viewed by the City as an unexamined site with unknown major contamination problems.

4) After discussion of all the concerns noted above, it was agreed that a specific remediation plan, developed by the environmental consultant, would be followed and completed. Concurrently, and in order not to delay the property transfer, the City would proceed with the purchase process (Council approval, signing of Purchase Agreement and opening of Escrow). In the event the remediation procedure was not completed to the mutual satisfaction of both parties, by the end of escrow, a sufficient amount of funding would be placed in, and remain in, an extended escrow to defray any final remediation costs. All remediation costs will be shared between the City and NCTD on a 2/3 and 1/3 basis, respectively, proportional to relative land areas. All other purchase funds would be made available and advanced to the Seller (NCTD).

M E M O R A N D U M

DATE: MAY 21, 1991

TO: PAUL PRICE, DIRECTOR OF SERVICE DEVELOPMENT

FROM: GEORGE JOHNSON, REAL ESTATE PROPERTY ADMINISTRATOR

RE: SALE OF DISTRICT PROPERTY TO CITY OF ESCONDIDO

==========

1) In September and October of 1990, NCTD was negotiating with Santa Fe Properties, Inc. for 6 acres of land in Escondido, California, for use as an NCTD Rail Vehicle Maintenance Yard. At that time, Mr. Ron Gerow, Real Property Agent, City of Escondido, advised that the City desired to acquire the adjacent 10 acres of land to the north of the above-noted 6 acres of land that NCTD was in the process of acquiring.

2) Mr. Gerow requested that NCTD enlarge its acquisition from 6 acres to 16 acres, since it was all owned by Santa Fe, and 30 to 60 days after achieving ownership, sell the extra 10 acres to the City of Escondido for the same unit price (per square foot), which was just paid to Santa Fe. Furthermore, the City of Escondido (Ron Gerow) would, and did, participate fully with NCTD in final negotiations with Santa Fe for price, terms and conditions and the City (Ron Gerow) would, and did, receive copies of all letters, memos, reports, etc., pertaining to the property acquisition.

3) Mr. Gerow was also informed about, and given consultant reports on, the Property Site Assessment for the presence of any toxic or hazardous waste, prior to NCTD's purchase of the 16 acres. The only finding requiring remedial action was some surface contamination (petroleum hydrocarbons) in a drainage ditch running from NE to SW on the City of Escondido "future property" and originating from a neighboring property occupied by Palomar Transit Mix. The flow into the ditch has been stopped and physically blocked and the surface-contaminated soil has been excavated, isolated and stockpiled nearby.

Additional testing and analyses and assessments were made to assure that there were no remaining hazardous or toxic wastes in the soil or in the ground water, over the whole 16 acre area. To date, $30,000 has been spent for testing and assessment. The only remaining item to be addressed, as confirmed by the consultant, is the 70 cubic yards of stockpiled surface contamination scooped out of the ditch. Common, accepted practice for small quantities of contaminated soil is to ventilate it, on-site, and test it periodically until it is within acceptable limits.

4) It has now been 6 months since the purchase of this 16 acres by NCTD. The additional 10 acres purchased for the City of Escondido, by NCTD, cost $3.5 million.

5) The Board of Directors of the North San Diego County Transit Development Board (NSDCTDB) acknowledged and approved the sale of this "additional 10 acres' to the City of Escondido on December 13, 1990, on February 14, 1991 and on March 14, 1991.

The Chairman of the NSDCTDB signed the Purchase Agreement for this sale of the 'additional 10 acres' to the City of Escondido on March 14, 1991.

6) As of 5/21/91, the Purchase Agreement has not been signed by the City, nor is there any information as to when it will be scheduled for City Council action.

7) The position of Mr. Gerow is that no property purchase action will be brought before the Council that is not certified to be totally free of any contamination and all stockpiles removed. Mr. Gerow requires the stockpile (70 cubic yards) removal to an appropriate site for this purpose or to the NCTD portion of the 16 acres.

8) I recommend that the City commence, to take a more active part in the acquisition of the 10 acres desired and perform the following:

a) City should, complete the remainder of the last stages of soil remediation (no action necessary except periodic checking).

b) City should, approve the purchase of the 10 acres; sign the Purchase Agreement; open escrow and close within 30 days with $3,476,356 sale price paid in full to NCTD.

c) NCTD has had, and continues to have, the disproportionate share of administration and financial burden for this special service and action requested by the City of Escondido. This should cease.

d) If the purchase of the 10 acres by the City of Escondido does not transpire soon, there may need to be a price increase and the City should be given right-of-first-refusal, before we consummate a sale to a responsive Buyer.

M E M O

DATE: May 22, 1991

TO: Mike Adams

FROM: Ron Gerow

SUBJECT: Corp Yard/NCTD property

The proposed Purchase Agreement (NCTD selling to City) states that they know of no code violations against the property, and if we discover any, then we notify them. In the current situation, it is the soils report commissioned by NCTD that called our attention to the hazardous soils problem. Our review of their soils reports, and my conversations with NCTD, is our notification to them of the problem.

The soils contamination initially came to my attention on December 27, 1990 when, at 10:00 a. m. the Preliminary Site Assessment by Nachant Enviornmental was delivered to me from George Johnson at NCTD. I reviewed the report immediately, and discovered that it said there was an undefined area of contamination. I immediately called George Johnson, and recommended that he not close escrow for the NCTD purchase of the property from Santa Fe until the soils contamination was removed; George told me they were satisfied with the condition of the property, and he had just closed the escrow.

I am now trying to have NCTD comply with the our proposed Purchase Agreement (which NCTD prepared) by their clearing the site of hazardous material so we can make our purchase from them. They contend that it is OK to simply leave the piles of 70 cubic yards of contaminated soil onsite, to ventilate it clean naturally, over time; Steve Hughes reports that this would not be approved by County HazMat, and the proposal is therefore not acceptable to us.

Solutions to this situation include:

1. They truck the soils to an acceptable dumpsite (Bakersfield), then get Nachant's verification that the site is clean. Then they get verification from County HazMat that all is well, and we buy.

2. We agree to purchase the property as is, but they agree to leave a sufficient amount of funds in escrow to cover our cost to truck the contamination to Bakersfield, etc.

3. They obtain County HazMat authorization to an on-site cleaning, and leave sufficient funds in escrow to cover the costs, and we buy.

DOUG;
RE OUR PURCHASE OF THE NCTD PROPERTY FOR EXPANSION OF THE CORP YARD, I'VE BEEN HOLDING OFF FROM PRESENTING THE PURCHASE ITEM TO CITY COUNCIL UNTIL AFTER NCTD HAS REMOVED THE CONTAMINATED SOIL FROM THE PROPERTY. NOW MY COUNTERPART AT NCTD IS PRESSING ME TO PROCESS THE TRANSACTION ASAP, CLAIMING THE SOILS CONTAMINATION TO BE 'NO BIG DEAL'. HE'S WRONG.

I WANTED YOU TO KNOW THAT THERE MAY BE SOME ATTEMPTS BY NCTD TO PRESSURE US INTO PURCHASING THE PROPERTY BEFORE THE SOILS PROBLEM IS CORRECTED.

RON

DIRECTOR OF PUBLIC WORKS

May 9, 1991

Mr. George L. Johnson
Real Estate Property Administrator
North County Transit District
311 South Tremont Street
Oceanside, CA 92054

Dear George:

Our Engineering personnel have completed their review of the Preliminary Site Assessment prepared for you by Nachant Environmental Inc., relative to the Washington Avenue property the City of Escondido intends to purchase from NCTD.

In the March 2, 1991, letter from Nachant to you, they recommended several items, including an analysis of 16 soil samples on-site for Total Recoverable Petroleum Hydrocarbons and an analysis of seven soil samples to be labeled, chilled and delivered to a state certified environmental laboratory. Also, that letter recommended that Nachant provide disposal options for the contaminated soil. Additionally, the Nachant assessment did not review a major waste handler historically utilizing the site—the Santa Fe Railroad. This is a significant omission from their assessment and should be required.

My direction is to be able to certify that the hazardous material cleanup has been completed prior to the City's acquiring the property; it may be that, by this time, you have already accomplished that through the continued activities of Nachant Environmental.

Would you please write to me, giving me the current status of the soil contamination on the property which the City wishes to acquire from you, the analysis of soils samples, and Nachant's review of past Santa Fe activities on-site regarding waste handling.

Sincerely,

Ron

memorandum

Date: May 2, 1991

To: Ron Gerow

From: Steve Hughes SH

Subject: Review of Preliminary Site Assessment Prepared by Nachant Environmental, December 20,1990 for North County Transit Development

Site: West Washington, APN 232-090-0200,0300,4000,4400,6400 and 6500.

The referenced Preliminary Site Assessment was basically organized into three parts: 1) Historical review and use, 2) Identifying hazardous waste handlers in the vicinity of the site, and 3) On-site surface and sub-surface investigations.

The historical review was lengthy but not complete. Conclusions and descriptions of historical use of this property were based on viewing of aerial photographs of the area. Aerial photos were not available for the years 1928 to 1964. Although this report attempts to date site usage back to 1928, it only manages to really document usage from 1964 to present. For example, it failed to identify an airport that once existed in this area.

The identities of hazardous waste handlers and generators in the vicinity were generated from library research and no field reconnaisance was conducted. It is difficult to develop a complete historical list of hazardous waste handlers because, until fairly recently, proactive permitting and monitoring did not exist. However, the report did fail to identify one major hazardous waste handler - The Santa Fe Railroad. The railroad has a recorded presence on the site beyond 1928 and should have been included.

The best indicator of the health of the site results from on-site surface and sub-surface investigations. Our surface investigation revealed two potential areas of concentrated in-site contamination. The first is the drainage ditch that

generally runs east to west on the northerly half of the site. This does contain contaminates exceeding DOHS minimums and **will** require mitigation. The second area of concern is the railroad track bed. The track bed was not identified or adequately investigated by the Consultant. The only real testing conducted by the consultant revealed some good news. Sub-surface investigations discovered no hazardous waste impact to the groundwater. Although a limited number of deep borings were drilled, it appears that the site has not been subjected to extensive hazardous waste abuse.

It is my understanding that the City intends to occupy or utilize the northerly 10 acres (plus or minus) of the site. This area is the unhealthiest and most severely impacted of the entire site. The drainage ditch is contaminated and cleanup will be required. Hazardous waste cleanup can be, and usually is, expensive. Some form of covenant should be considered to deal with this issue. The railroad's impact on the property was not identified or addressed.

Should you have any questions, please call extension 4664 or 3812.

NORTH COUNTY TRANSIT DISTRICT
NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD

CONSENT CALENDAR
AGENDA ITEM A-6

March 14, 1991

TO: North San Diego County Transit Development Board Members

FROM: Executive Director

SUBJECT: PURCHASE AGREEMENT FOR THE SALE OF DISTRICT PROPERTY IN ESCONDIDO TO THE CITY OF ESCONDIDO

STAFF'S RECOMMENDED ACTION: That the Board approve a Purchase Agreement for the sale of 10.16 acres of District land in Escondido to the City of Escondido and that the Executive Director be authorized to execute this agreement.

BACKGROUND DATA:

On December 13, 1990, the Board approved a District purchase of 15.93 acres of vacant land in Escondido. The purchase was made for the dual purpose of providing a rail service maintenance yard for the District and a site for the expansion of the City of Escondido Corporation Yard.

The City of Escondido had previously approved of the acquisition of the Lot A property (see Exhibit A) from the District and the Board has approved the sale of Lot A to the City by Resolution 91-05 on February 14, 1991.

Details of the lot sizes are as follows:

	Lot	Sq.Ft.	Acres	%
City of Escondido	A	442,634	10.16	63.78
NCTD	B	251,346	5.77	36.22
Total	A+B	693,980	15.93	100.00

A-6

Negotiated Purchase Price Paid to Santa Fe Pacific Properties, Inc. (SFPP)

o Land Value 693,980 sq. ft. x $7.50 per sq. ft.	= $5,204,850
o Development Costs Incurred by SFPP	= $ 158,958
o Water & Sewer Connection Fees Paid to City of Escondido by SFPP	= $ 55,254
	$5,419,062
o Total Purchase Price Paid by NCTD	$5,419,000

Selling Price to City of Escondido

o Original Purchase Price Less Water & Sewer Connection Fees

$5,419,000 - $55,254 = $5,363,746

o City of Escondido Pro Rata Price Share

$5,363,746 x $\frac{\$442,634 \text{ Sq. ft.}}{693,980 \text{ Sq. ft.}}$ = $3,421,102

$55,254 x 100% = $ 55,254

o Selling Price $3,476,356

Once these funds are received they will be returned to the Transnet program which they were advanced from per prior approval of SANDAG.

NORTH COUNTY TRANSIT DISTRICT
NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD

AGENDA ITEM B

February 14, 1991

TO: North San Diego County Transit Development Board Members

FROM: Executive Director

SUBJECT: RESOLUTION FOR APPROVAL OF SALE OF DISTRICT PROPERTY TO CITY OF ESCONDIDO

STAFF'S RECOMMENDED ACTION: That the Board adopt Resolution No. 91-05 to sell 10.16 acres of vacant land in Escondido, CA to the City of Escondido.

BACKGROUND DATA:

On December 13, 1990, the Board approved the purchase by the District of certain vacant property in Escondido. This property included acreage for the City of Escondido (Lot A) for an expansion of the City of Escondido Corporation Yard, and acreage for the North County Transit District for a Rail Service Maintenance Yard (Lot B).

The negotiated price for combined Lots A & B was $5,419,000, which purchased 15.93 acres or 693,980 square feet in total land area. The portion (Lot A) to be sold to the City of Escondido is 10.16 acres c 442,634 square feet for $3,476,356. Staff will come back to the Board at a future Board meeting for authorization to sign a Sales Agreeme with the City of Escondido for the sale of Lot A; and at that time, sta ll present more detailed information about the negotiated price.

Prior to the above purchase of Lots A and B by the District, there was approval by the City Council of Escondido for the purchase of Lot A from the District after the close of escrow on the Lots A & B combination. Escrow closed on December 27, 1990. In view of the above planned sale of Lot A to the City of Escondido, compliance with the Surplus Land Act would not be necessary according to Government Code Section 54221.

In addition, the sale of Lot A is categorically exempt from the provisions and requirements of the California Environmental Quality Act (CEQA) (which requires preparation of environmental documents) according to Title 14, Section 15312 of the California Administrative Code. As an exempt project, a Notice of Exemption is required to be filed after the project is approved by the Board. The adoption of Resolution No. 91-05 will authorize Staff to file the required Notice of Exemption.

B-1

RESOLUTION NO. 91 - 05

OF THE NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD TO SELL 10.16 ACRES OF RECENTLY PURCHASED PROPERTY IN ESCONDIDO, CA TO THE CITY OF ESCONDIDO FOR EXPANSION OF THE CITY OF ESCONDIDO CORPORATION YARD.

WHEREAS, the North San Diego County Transit Development Board (NSDCTDB) was created to provide rail and bus transit operations and associated maintenance support facilities, and

WHEREAS, NSDCTDB recently completed the purchase of property in Escondido for a future (1995) rail maintenance yard, and

WHEREAS, this property purchase by NSDCTDB included additional area for a site for the expansion of the City of Escondido Corporation Yard, and

WHEREAS, the City of Escondido City Council, at their December 12, 1990 meeting, approved the purchase of 10.16 acres from NSDCTDB, and

WHEREAS, this sale is categorically exempt from CEQA. requirements pursuant to Section 15312 Title 14 of Cal Admin Code. A Notice of Exemption will be filed after this Resolution is passed. (Attachment A).

THEREFORE, BE IT RESOLVED, that NSDCTDB will sell 10.16 acres of recently acquired property in Escondido, CA to the City of Escondido for $3,476,356.

PASSED AND ADOPTED by the NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD this 14th day of February, 1991 by the following vote:

CONSENT CALENDAR
AGENDA ITEM

December 13, 1990

TO: North San Diego County Transit Development Board Members

FROM: Executive Director

SUBJECT: PURCHASE AGREEMENT FOR RAIL PROPERTY FOR A RAIL MAINTENANCE YARD

STAFF'S RECOMMENDED ACTION: That the Board approve a purchase agreement to acquire specified property in Oceanside, CA for a rail maintenance yard, and that the Executive Director be authorized to execute this Agreement.

BACKGROUND DATA:

Pursuant to the Board's direction to proceed with the development of the Oceanside - Escondido rail service line, staff has identified station locations along the corridor. This purchase provides a site for maintenance support of the rail service system.

This purchase serves the dual purpose of providing a rail service maintenance yard for NCTD and a site for the expansion of the City of Escondido Corporation Yard. The District has taken the lead in the acquisition process and maintained close coordination with the City of Escondido. Within thirty days after escrow closing, the City of Escondido will purchase the area labeled as Lot A from the District. The City Council of Escondido, at their December 12, 1990 meeting, is scheduled for approval action on the acquisition of the Lot A property described as follows:

The details of the respective lots price and size are as noted below:

	Lot	Price	Sq. Ft.	Acres	%
City of Escondido	A	~~$3,456,344~~ 3,476,344	442,634	10.16	63.78
NCTD	B	~~1,962,656~~ 1,942,656	251,346	5.77	36.22
Total	A+B *	$5,419,000	693,980	15.93	100

The negotiation consisted primarily of using the mid-point between the District's appraisal of land value ($7.25 per sq. ft.) and the Seller's appraisal of land value (7.75 per sq. ft.) plus compensation to Seller for expended pre-development costs and fees for the cancelled development project planned for the site. The purchase agreement is attached hereto for review and approval.

This property was included in the Environmental Impact Report for the Oceanside - Escondido Rail Project and has received final certification by the Board. The District's funding for the property purchase has been programmed in the budget and will be available when required.

PURCHASE AGREEMENT

Date: _____ at Oceanside, California Received from North San Diego County Transit Development Board (NCTD) ("Buyer") the sum of fifty thousand dollars ($50,000.00) by Public Agency Check payable to Chicago Title Company which represents a deposit to be applied toward the purchase price of five million, four hundred and nineteen thousand dollars (5,419,000.00) for purchase of property situated in the City of Escondido, County of San Diego, state of California, described as follows;

Exhibit A - Property Site Plan

Exhibit B - Property Legal Description

1. TERMS OF SALE
Total purchase price to be $5,419,000.00 payable as follows;

A. Deposit of $50,000 is to be placed in escrow and held in an interest bearing account in favor of Buyer.

B. Balance of cash downpayment $5,369,000.00 is to be deposited into escrow on or before close of escrow.

2. ASSUMPTION OR "SUBJECT TO": In the event Buyer assumes or takes title subject to existing bond(s), assessment(s) or agreement(s), Seller shall provide Buyer with copies of applicable bond schedules, assessment documents or agreements. Buyer shall be allowed 7 calendar days after receipt of such copies to notify Seller in writing of disapproval. Buyer's approval shall not be unreasonably withheld. Paragraph 15 is incorporated herein.

3. ESCROW: Buyer and Seller shall deliver signed instructions to Chicago Title Company, the escrow holder, within 5 calendar days from opening of escrow which shall provide for closing within 5 business days of Sellers ability to deliver clear title to the property, however in no event later than December 27, 1990.

4. TITLE: Title is to be free of liens, encumbrances, easements, restrictions, rights and conditions of record or known to Seller, other than the following: (a) current property taxes, (b) covenants, conditions, restrictions, and public utility easements of record, if any, provided the same do not adversely affect the use of the property for the station site/parking lot being proposed by Buyer, unless reasonably disapproved by Buyer in writing within 14 calendar days from receipt of a current preliminary report furnished at Buyer's expense. Seller shall furnish Buyer at Buyer's expense a CLTA title policy issued by Chicago Title Company, showing title vested in Buyer subject only to the above. If Seller is unwilling

(see page 2)

Date _____

or unable to eliminate any title matter disapproved by Buyer as above, Buyer may terminate this agreement. If Seller fails to deliver title as above, Buyer may terminate this agreement; in either case, the deposit shall be returned to Buyer. Paragraph 15 is incorporated herein.

5. VESTING: Title shall vest as follows; North San Diego County Transit Development Board, a Public Agency

6. PRORATIONS: Property taxes, payments on bonds and assessments assumed by Buyer, interest, rents and premiums on insurance acceptable to Buyer shall be paid current and prorated as of the day of close of escrow. Bonds or assessments shall be paid current by Seller, payments not yet due shall be paid by Buyer. TAX BILLS ISSUED AFTER CLOSE OF ESCROW SHALL BE HANDLED DIRECTLY BETWEEN BUYER AND SELLER. PARTIES RECOGNIZE THAT BUYER IS A TAX-EXEMPT GOVERNMENTAL AGENCY.

7. POSSESSION: Possession shall be delivered to Buyer on close of escrow.

8. TAX WITHHOLDING: Under the Foreign Investment in Real Property Tax Act (FIRPTA), IRC 1445, every Buyer of U.S. real property must, unless an exemption applies, deduct and withhold from Seller's proceeds 10% of the gross sales price. Under California Revenue and Taxation Code 18805 and 26131, the Buyer must deduct and withhold an additional one-third of the amount required to be withheld under federal law. Buyer and Seller agree to execute and deliver as directed any instrument, affidavit, or statement reasonably necessary to carry out those statutes and regulations promulgated thereunder. (NOTE: Seller(s) affidavit of U.S. Citizenship is all that is required to meet Seller(s) obligations and avoid withholding).

9. PHYSICAL AND GEOLOGICAL INSPECTION: Buyer shall have the right, after opening of escrow, at Buyer's expense, to select licensed contractor(s) and other qualified professional(s), to make "INSPECTIONS" (including tests, surveys, other studies, inspections, and investigations) of the subject property including but not limited to sewer/septic system, well, soils, percolation, geologic conditions and environmental hazards, such as but not limited to, any past or current generation, storage, release, threatened release, disposal, and presence and locations of asbestos, PCB transformers, petroleum products, flammable explosives, underground storage tanks and other hazardous, toxic or contaminated substance or condition, on or about the Property. Buyer shall keep the subject property free and clear of any liens, indemnify, defend, and hold Seller harmless from all liability, claims, demands, damages or costs, and repair all damages to the property arising from the "INSPECTIONS". All claimed defects concerning the condition of the property that adversely affect Buyer's proposed use of the property shall be in writing, supported by written reports, if any, and

(see page 3)

Date _____

delivered to Seller within 15 calendar days after opening of escrow. Buyer shall furnish Seller copies, at no cost, of all reports concerning the property obtained by Buyer. Paragraph 15 is incorporated herein.

10. SELLER REPRESENTATION: Seller warrants that Seller has no knowledge of any notice of violations of City, County, State, Federal, building, Zoning, Fire, Health Codes or ordinances, or other governmental regulation filed or issued against the property. If Seller receives notice of any such violations prior to close of escrow, Seller shall immediately notify Buyer. Buyer is allowed 14 days after receipt of notification to give Seller written notice of disapproval. Paragraph 15 is incorporated herein.

11. CONDITION OF PROPERTY: Seller warrants, through the date possession is made available to Buyer, that property and improvements, if any, shall be maintained in the same condition as upon the date of acceptance.

12. CHANGES DURING ESCROW: Prior to close of escrow, Seller agrees not to (1) rent or lease any part of the premises, (2) alter, modify or extend any existing rental or lease agreement or (3) enter into, alter, modify or extend any service contract(s), without first having obtained Buyer's written approval, which shall not be unreasonably withheld.

13. RENTAL AND SERVICE AGREEMENTS: Seller represents that there are no written leases, rental agreements or service contracts pertaining to the property.

14. BUYER DISAPPROVAL: Whenever Buyer gives written notice of disapproval pursuant to Paragraph(s) 2, 4, 9, or 10 above, Seller shall have 7 calendar days from receipt of such notice to respond in writing to Buyer's disapproval. If Seller is unwilling or unable to correct the condition(s) disapproved of by Buyer to Buyer's satisfaction, or if Seller does not respond by the time set forth herein, then Buyer may cancel this agreement by providing written notice of cancellation to Seller within 7 calendar days from receipt of Seller's response or from expiration of the time set for Seller's response. BUYER'S FAILURE TO GIVE WRITTEN NOTICE OF DISAPPROVAL OR CANCELLATION SHALL CONCLUSIVELY BE DEEMED APPROVAL.

15. ENTIRE CONTRACT: Time is of the essence. All prior agreements between the parties are incorporated in this agreement which constitutes the entire contract. Its terms are intended by the parties as a final expression of their agreement with respect to such terms as are included herein and may not be contradicted by evidence of any prior agreement or contemporaneous oral agreement. The parties further intend that this agreement constitutes the complete and exclusive statement of its terms and that no extrinsic evidence whatsoever may be introduced in any judicial or arbitration proceeding, if any, involving this agreement.

Buyer and Seller acknowledge receipt of copy of this page, which constitutes page 3 of 5 pages.

Buyer's Initials ____ Seller's Initials (X) (____)

16. The parties agree that Buyer is empowered to acquire property for public use and that the parties have entered into this Agreement based upon a threat of condemnation by Buyer.

17. AMENDMENTS: This agreement may not be amended, modified, altered or changed in any respect whatsoever except by a further agreement in writing executed by Buyer and Seller.

18. In the event that litigation or arbitration is commenced to interpret or enforce any provision of this agreement, the prevailing party in such proceeding shall be entitled to recover its reasonable attorneys fees, in addition to costs.

19. Seller is advised to seek legal counsel regarding this sale and its tax consequences. Sellers signature on the escrow instructions shall be deemed satisfaction of the terms and conditions of this agreement.

20. Before close of escrow, Buyer will furnish a letter to Seller, with mutually acceptable language, concerning the threat of condemnation of the property through eminent domain proceedings.

21. During the escrow period Seller shall assign to Buyer all rights in the existing license agreement with the local electrical utility company.

22. In addition to the Grant Deed for this property, Seller shall furnish to Buyer a recorded Quitclaim deed for the Sellers interest in the planned Santa Fe Avenue section on the Southern border of the property purchased.

23. Seller shall retain subsurface mineral rights as described in Exhibit C.

PROPERTY LEGAL DESCRIPTION

LEGAL DESCRIPTION

That portion of Lots 2, 3, and 4, Block 316, of the subdivision of Rancho Rincon Del Diablo, in the City of Escondido, according to Map thereof made by E.L. Horn, recorded: April 10, 1888 as Map No. 527, in the Office of the County Recorder of San Diego County, being more particularly described as follows:

Beginning at the westerly most corner of said Lot 3; thence northeasterly along the northerly line of said Lots 3 and 2, North 69°43'22" East, 1300.57 feet, to the northeasterly corner of said Lot 2; thence southeasterly along the easterly line of said Lot 2, South 20°17'56" East, 889.01 feet to an intersection with the westerly sideline of the "Escondido Creek Water Shed - Unit No. 1" right-of-way as shown on City of Escondido Drawing No. FCR-1000; said intersection also being along an 840.00 foot radius curve, concave northwesterly, having a radial bearing to said point of South 77°45'56" East (South 77°19'33" East, FCR-1000); thence southwesterly along the arc of said curve, through a central angle of 22°51'57" (22°51'31", FDR-1000), a distance of 335.23 feet (335.12, FDR-1000), to an intersection with the northeasterly right-of-way line of the A.T. & S.F. Railroad, as shown on Record of Survey No. 2753, recorded December 4, 1951, in the Office of the County Recorder of San Diego County; thence northwesterly along said right-of-way line, North 66°10'23" West, (North 65°54' West, Record of Survey 2753), 1194.63 feet; thence perpendicular to said right-of-way, North 23°49'37" East, 66.00 feet, to the southwesterly most corner of land described in deed to William R. Cramer, recorded: October 4, 1972, as File Page No. 265728 of Official Records, also being a point along the northeasterly right-of-way of Santa Fe Avenue, as shown on said Map No. 527; thence northwesterly along said line, North 66°10'23" West, 359.16 feet to the Point of Beginning.

Excepting that portion of land as described in deed to William R. Cramer, recorded: October 4, 1972, as File Page No. 265728 of Official Records.

Also excepting all that portion of land known as "Santa Fe Avenue", as shown on Escondido Land and Town Company Resurvey, Map 527, as filed in the Office of the County Recorder of San Diego County.

SUBSURFACE MINERAL RIGHTS

SUBSURFACE MINERAL RIGHTS

Seller excepts and reserves unto itself, its successors and assigns, from the property hereby conveyed all minerals and mineral rights, interest, and royalties, including without limiting the generality thereof, all oil, gas, and other hydrocarbon substances, geothermal energy, coal, all fissionable materials, all metallic minerals, non-metallic minerals, and other solid minerals, in and under said property; however, Seller or its successors and assigns, shall not have the right for any purpose whatsoever to enter upon the surface or the first 500 feet of the subsurface of said property in connection therewith.

ORAL COMMUNICATIONS

Patti Ward, 2739 Prairiestone Way, Escondido, spoke regarding CUP 90-52, recently approved by the Planning Commission. The residents of the area request that the CUP be sent back to the Planning Commission for further review and that the appeal fee be waived. Ms. Ward indicated that the neighbors feel there are discrepancies in the staff report, along with other issues, that will affect the CUP.

In response to Council, David Chapman, City Attorney, explained that Council may appeal the CUP without the requirement of paying the appeal fee. However, Council is not in a position to take action on this item this evening. Mr. Chapman expressed concern for the time deadline of this appeal and Ms. Ward indicated that David Drake, Chairman of the Planning Commission, signed the resolution yesterday. Therefore, Mr. Chapman indicated that Council could consider the appeal on the December 12th agenda.

Mayor Harmon requested that the discussion of appealing Planning Commission concerning CUP 90-52 be placed on the Council agenda for December 12th.

CLOSED SESSION

Moved by Mayor Harmon that Council recess into Closed Session at 9:23 p.m. pursuant to the following:

1. GOVERNMENT CODE SECTION 54956.9(c) - Pending Litigation

2. GOVERNMENT CODE SECTION 54956.9(b)(1) - Pending Litigation

3. GOVERNMENT CODE SECTION 54957.6 - Labor Relations

4. GOVERNMENT CODE SECTION 54956.9(a)

   a. Eller and Wagner, et al., v. City of Escondido, et al., Case No. N35492

5. GOVERNMENT CODE SECTION 54956.8

   a. Instructions to City's negotiator(s) with respect to negotiations with Chris Montana for the purchase/sale/exchange/lease of property located on the south side of Washington Avenue, west of Spruce

Motion carried unanimously.

approved transaction (but, City pay all water + sewer rights)

ORDINANCE NO. 90-70

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ESCONDIDO, CALIFORNIA, AMENDING VARIOUS SECTIONS OF THE ESCONDIDO MUNICIPAL CODE, PERTAINING TO PURCHASING AUTHORITY AND DUTIES OF THE FINANCE DIRECTOR

Moved by Councilmember Murphy that further reading of Ordinance No. 90-70 be waived and adopted. Motion carried unanimously.

Ordinance No. 90-70 is on file in the City Clerk's office.

ANNUAL ADJUSTMENT TO THE PARKS AND RECREATION FACILITY USER FEES - Changes to the facility user fees for facility and lake user fees

RESOLUTION NO. 90-476 was presented and the title read by Mr. Chapman.

RESOLUTION NO. 90-476

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ESCONDIDO, CALIFORNIA, APPROVING THE ANNUAL ADJUSTMENT TO THE PARKS AND RECREATION DEPARTMENT FEES

Moved by Councilmember Murphy that further reading of Resolution No. 90-476 be waived and adopted. Motion carried unanimously.

Resolution No. 90-476 is on file in the City Clerk's office.

CLOSED SESSION ACTION TAKEN ON NOVEMBER 28, 1990

Mayor Harmon announced that action was taken in Closed Session on November 28, 1990 and Council approved a settlement agreement between the City and School Districts and authorized the Mayor and City Clerk to execute the agreement. The High School announced action last Friday morning indicating their acceptance of the agreement and Council is now waiting for the final action to be taken by the Elementary School District and the County School Districts.

CITY COUNCIL

Councilmember Hollins expressed appreciation to staff for decorating the trees around the fountain.

Councilmember Hollins also complimented the *Times Advocate* for its insightful assessment of the effectiveness of Mayor Harmon's first six month term.

PURCHASE AGREEMENT BETWEEN NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD AND THE CITY OF ESCONDIDO

THIS AGREEMENT dated as of January , 1991, is made by and between **NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD** (herein "NCTD" or "Seller"), and the CITY OF ESCONDIDO (herein "City" or "Buyer"), and constitutes a contract of purchase and sale between the parties. This Agreement is entered into by both parties in light of the following facts:

1. **PROPERTY DESCRIPTION:**

a) NCTD is the owner of certain real property located in Escondido, California (hereafter "NCTD Property"), which real property consists of 693,980 square feet or approximately 15.93 acres and is more particularly described as follows:

Exhibit "A" - Lot A and Lot B Property Site Plan
Exhibit "B" - Lot A and Lot B Property Legal Description

b) City desires to purchase that portion of the above described NCTD Property currently identified as Lot A and currently consisting of 442,634 square feet or approximately 10.16 acres (hereafter the "Property"), being more particularly described with legal description as follows:

Lot A on attached site plan has boundaries defined by Record of Survey Map No. 12935 recorded October 18, 1990, San Diego County File No. 90-567013.

2. **TERMS OF SALE:**

a) Price - In consideration of the covenants herein contained, NCTD hereby agrees to sell, and City hereby agrees to purchase the Property for a total purchase price of Three Million, Four Hundred and Seventy-Six Thousand, Three Hundred and Fifty-six dollars ($3,476,356.00) (hereafter the "Purchase Price").

b) Payment of Purchase Price - The Purchase Price shall be paid by the City as follows:

(i) Deposit of $50,000, payable to Chicago Title Company, to be placed in escrow upon the opening of escrow.

(ii) Balance of Purchase Price ($3,426,356.00) is to be deposited into escrow on or before the close of escrow.

(iii) All costs of sale are to be paid by Buyer.

(continued)

7. **VESTING:**

Title to the Property shall vest in Buyer as follows; City of Escondido.

8. **CONDITIONS TO BUYER'S OBLIGATION TO PURCHASE:**

a) Performance by Seller - Timely performance of each obligation and covenant of, and delivery required of, Seller hereunder.

b) Delivery of Title and Possession - Delivery by Seller on the closing of escrow (i) of title by Grant Deed, and issuance of the Title Policy showing such title in Buyer, per the conditions described in paragraph 5, above, and (ii) possession as provided in paragraph 6, above.

9. **CONDITIONS TO SELLER'S OBLIGATION TO SELL:**

Seller's obligation to sell is expressly conditioned upon each of the following:

a) Performance by Buyer - Timely performance of each obligation and covenant of, and delivery required of, Buyer hereunder.

b) Payment of Purchase Price - Payment of the Purchase Price in the manner described in Paragraph 2, above.

10. **INSPECTION:**

a) Investigation - Buyer shall have the right, after opening of escrow, at Buyer's expense, to select licensed contractor(s) and other qualified professional(s), to make **"INSPECTIONS"** (including tests, surveys, other studies, inspections, and investigations) of the Property during the first 15 days after opening escrow. These inspections shall include but not be limited to sewer/septic system, well, soils, percolation, geologic conditions and environmental hazards, such as but not limited to, any past or current generation, storage, release, threatened release, disposal, presence and locations of asbestos, PCB transformers, petroleum products, flammable explosives, underground storage tanks and other hazardous, toxic or contaminated substance or condition, on or about the Property. Buyer shall keep the Property free and clear of any liens, indemnify, defend, and hold Seller harmless from all liability, claims, demands, damages or costs, and repair all damages to the Property arising from the **"INSPECTIONS."** Buyer hereby acknowledges and agrees that Seller makes no representations regarding the condition of the Property, and that Buyer is relying exclusively on its own investigation of the Property to determine its condition.

(continued)

b) Notice of Defect(s) - All claimed defects concerning the condition of the Property that adversely affect Buyer's proposed use of the Property shall be in writing, supported by written reports, if any, and delivered to Seller within fifteen (15) calendar days after opening of escrow (the "Investigation Period"). Buyer shall furnish Seller copies, at no cost, of all reports concerning the Property obtained by Buyer. If Buyer fails to give such notice of disapproval prior to the expiration of the Investigation Period, such failure shall be conclusively deemed to be full and complete approval of such matters and the satisfaction of this condition.

c) Cooperation Clause - Both Buyer and Seller agree to cooperate with each other in good faith and each to use its best efforts to correct or otherwise resolve the claimed defects to the reasonable satisfaction of Buyer.

d) Seller has, with Buyer's knowledge, been conducting toxic waste investigations and studies as part of a recent site assessment. The only finding requiring remedial action was surface contamination (petroleum hydrocarbons) in a drainage ditch running from NE to SW and originating from a neighboring property occuppied by Palomar Transit Mix. The flow into the ditch has been stopped and the surface contaminated soil in the ditch is being removed in a manner required by applicable regulations. Buyer has copies of reports, has been kept appraised of progress and will pay a prorata share of the related expenses.

11. **SELLER'S REPRESENTATIONS:**

Seller warrants that Seller has no knowledge of any notice of violations of City, County, State, Federal, Building, Zoning, Fire, Health codes, or ordinances, or other government regulations filed or issued against the Property. If Seller receives notice of any such violations prior to close of escrow, Seller shall immediately notify Buyer. Buyer is allowed fourteen (14) days after receipt of notification to give Seller written notice of disapproval.

12. **BUYER DISAPPROVAL:**

Whenever Buyer gives written notice of disapproval pursuant to Paragraphs 5, 10, or 11, above, Seller shall have seven (7) calendar days from receipt of such notice to respond in writing to Buyer's disapproval. Both Buyer and Seller each agree to cooperate with each other in good faith and each to use its best efforts to correct or resolve any such problems. If Seller is unwilling or unable to correct the condition(s) disapproved by Buyer to Buyer's reasonable satisfaction, or if Seller does not respond by the time set forth herein, then Buyer may cancel this Agreement by providing written notice of cancellation to Seller within seven (7) calendar days from receipt of Seller's response or from expiration of the time set for Seller's response. **BUYER'S FAILURE TO GIVE WRITTEN NOTICE OF DISAPPROVAL OR CANCELLATION SHALL CONCLUSIVELY BE DEEMED APPROVAL.**

(continued)

13. **CONDITION OF PROPERTY:**

Sellar warrants, through the date possession is made available to Buyer, that Property and improvements, if any, shall be maintained in the same condition as upon the date of acceptance.

14. **CHANGES DURING ESCROW:**

Prior to close of escrow, Seller agrees not to: (i) Rent or lease any part of the premises, (ii) alter, modify or extend any existing rental or lease agreement, or (iii) enter into, alter, modify or extend any service contract(s), without first having obtained Buyer's written approval, which shall not be unreasonably withheld.

15. **RENTAL AND SERVICE AGREEMENTS:**

Seller represents that there are no written leases, rental agreements, or service contracts pertaining to the Property.

16. **TIME OF ESSENCE:**

Time is strictly of the essence with respect to each and every term, condition, obligation and provision herein, and the failure to timely and fully perform or satisfy any of the terms, conditions, obligations, or provisions of this Agreement, shall constitute a non-curable default hereunder.

17. **ENTIRE AGREEMENT:**

This Agreement contains the entire Agreement between the parties relating to the transactions contemplated hereby and all prior or contemporaneous agreements, understandings, representations and statements, oral or written, are merged herein. The parties further intend that this Agreement constitutes the complete and exclusive statement of its terms and that no extrinsic evidence whatsoever may be introduced in any judicial or arbitration proceeding, if any, involving this Agreement.

18. **MODIFICATION:**

No modification, waiver, amendment, discharge, or change of this Agreement shall be valid unless the same is in writing and signed by the party against which the enforcement of such modification, waiver, amendment, discharge or change is or may be sought.

19. **ATTORNEYS' FEES:**

Should any party hereto employ an attorney for the purpose of enforcing or construing this Agreement, or any judgment based on this Agreement, in any legal proceeding whatsoever, the prevailing party shall be entitle to receive from the other party, or parties thereto,

(continued)

reimbursement for all attorneys' fees and all costs, including, but not limited to, service of process, filing fees, court and court reporter costs, investigative costs, expert witness fees and the cost of any bonds, whether taxable or not. Should any judgment or final order be issued in that proceeding, said reimbursement shall be specified therein. The "prevailing party" means the party determined by the court to most nearly prevail and not necessarily the one in whose favor a judgment is rendered.

20. **SEVERABILITY:**

In the event any term, covenant, condition, provision or agreement herein contained is held to be invalid, void or otherwise unenforceable by any court of competent jurisdiction, the fact that such term, covenant, condition, provision or agreement is invalid, void or otherwise unenforceable, shall in no way affect the validity or enforceability of any other term, covenant, condition, provision or agreement herein contained.

21. **SUCCESSORS AND ASSIGNS:**

Subject to any provisions concerning assignment hereinabove set forth, all terms of this Agreement shall be binding upon, enure to the benefit of, and be enforceable by, the parties hereto and their respective legal representatives, successors and assigns.

22. **COUNTERPARTS:**

This Agreement may be executed in any number of counterparts, each of which so executed shall be deemed an original; such counterparts shall together constitute but one Agreement.

23. **SURVIVAL OF WARRANTIES:**

All obligations referred to herein to be performed at the time or times after the closing and all warranties and representations contained herein, shall survive the closing and the delivery of Seller's Grant Deed.

24. **GOVERNING LAW:**

This Agreement shall be construed and enforced in accordance with the laws of the State of California.

IN WITNESS WHEREOF the undersigned Buyer and Seller agree to the terms and conditions herein, this Agreement having been executed as of the date set forth above.

AGENDA ITEM for BOARD of DIRECTORS AT NEXT MTG (2/14),

COMMENTS >>

George

NORTH COUNTY TRANSIT DISTRICT
NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD

AGENDA ITEM

February 13, 1991

TO: North San Diego County Transit Development Board Meeting

FROM: Executive Director

SUBJECT: RESOLUTION FOR APPROVAL OF SALE OF DISTRICT PROPERTY TO CITY OF ESCONDIDO

STAFF'S RECOMMENDED ACTION: That the Board approve a Resolution to sell 10.16 acres of vacant land in Escondido, CA to the City of Escondido.

BACKGROUND:

On December 13, 1990, the Board approved the purchase by the District of certain vacant property in Escondido. This property included acreage for the City of Escondido (Lot A) for an expansion of the City of Escondido Corporation Yard, and acreage for the North County Transit District for a rail service maintenance yard (Lot B).

Prior to the above purchase of Lots A and B by the District, there was approval by the City Council of Escondido for the purchase of Lot A from the District after the close of escrow on the Lots A & B combination. Escrow closed on December 27, 1990.

In view of the above planned sale of Lot A to the City of Escondido, compliance with the Surplus Land Act would not be necessary according to Government Code section 54221.

In addition, the sale of Lot A is categorically exempt from the provisions and requirements of the California Environmental Quality Act (CEQA) (which requires preparation of environmental documents) according to Title 14 Section 15312 of the California Administrative Code. As an exempt project, a Notice of Exemption is required to be filed after the project is approved by the Board.

RESOLUTION NO. 91 -

OF THE NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD TO SELL 10.16 ACRES OF RECENTLY PURCHASED PROPERTY IN ESCONDIDO, CA TO THE CITY OF ESCONDIDO FOR EXPANSION OF THE CITY OF ESCONDIDO CORPORATION YARD.

WHEREAS, the North San Diego County Transit Development Board (NSDCTDB) was created to provide rail and bus transit operations and associated maintenance support facilities, and

WHEREAS, NSDCTDB recently completed the purchase of property in Escondido for a future (1995) rail maintenance yard, and

WHEREAS, this property purchase by NSDCTDB included additional area for a site for the expansion of the City of Escondido Corporation Yard, and

WHEREAS, the City of Escondido City Council, at their December 12, 1990 meeting, approved the purchase of 10.16 acres from NSDCTDB, and

WHEREAS, this sale is categorically exempt from CEQA requirements pursuant to Section 15312 Title 14 of Cal Admin Code. A Notice of Exemption will be filed after this Resolution is passed. (Attachment A).

THEREFORE, BE IT RESOLVED, that NSDCTDB will sell 10.16 acres of recently acquired property in Escondido, CA to the City of Escondido for $3,476,356.

PASSED AND ADOPTED by the NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD this 14th day of February, 1991 by the following vote:

Chairman, North San Diego County Transit Development Board (Date)

ATTEST:

Secretary, North San Diego County Transit Development Board (Date)

PROJECT LOCATION - CITY

City of Escondido

PROJECT LOCATION - COUNTY

County of San Diego

PURCHASE AGREEMENT

Date: DECEMBER 14, 1990 at Oceanside, California Received from North San Diego County Transit Development Board (NCTD) ("Buyer") the sum of fifty thousand dollars ($50,000.00) by Public Agency Check payable to Chicago Title Company which represents a deposit to be applied toward the purchase price of five million, four hundred and nineteen thousand dollars (5,419,000.00) for purchase of property situated in the City of Escondido, County of San Diego, state of California, described as follows;

Exhibit A - Property Site Plan

Exhibit B - Property Legal Description

1. TERMS OF SALE
Total purchase price to be $5,419,000.00 payable as follows;

A. Deposit of $50,000 is to be placed in escrow and held in an interest bearing account in favor of Buyer.

B. Balance of cash downpayment $5,369,000.00 is to be deposited into escrow on or before close of escrow.

2. ASSUMPTION OR "SUBJECT TO": In the event Buyer assumes or takes title subject to existing bond(s), assessment(s) or agreement(s), Seller shall provide Buyer with copies of applicable bond schedules, assessment documents or agreements. Buyer shall be allowed 7 calendar days after receipt of such copies to notify Seller in writing of disapproval. Buyer's approval shall not be unreasonably withheld. Paragraph 15 is incorporated herein.

3. ESCROW: Buyer and Seller shall deliver signed instructions to Chicago Title Company, the escrow holder, within 5 calendar days from opening of escrow which shall provide for closing within 5 business days of Sellers ability to deliver clear title to the property, however in no event later than December 27, 1990.

INITIAL HERE

4. TITLE: Title is to be free of liens, encumbrances, easements, restrictions, rights and conditions of record or known to Seller, other than the following: (a) current property taxes, (b) covenants, conditions, restrictions, and public utility easements of record, if any, provided the same do not adversely affect the use of the property for the station site/parking lot being proposed by Buyer, unless reasonably disapproved by Buyer in writing within 14 calendar days from receipt of a current preliminary report furnished at Buyer's expense. Seller shall furnish Buyer at Buyer's expense a CLTA title policy issued by Chicago Title Company, showing title vested in Buyer subject only to the above. If Seller is unwilling

(see page 2)

Date 12-14-90

or unable to eliminate any title matter disapproved by Buyer as above, Buyer may terminate this agreement. If Seller fails to deliver title as above, Buyer may terminate this agreement; in either case, the deposit shall be returned to Buyer. Paragraph 15 is incorporated herein.

5. VESTING: Title shall vest as follows; North San Diego County Transit Development Board, a Public Agency

6. PRORATIONS: Property taxes, payments on bonds and assessments assumed by Buyer, interest, rents and premiums on insurance acceptable to Buyer shall be paid current and prorated as of the day of close of escrow. Bonds or assessments shall be paid current by Seller, payments not yet due shall be paid by Buyer. TAX BILLS ISSUED AFTER CLOSE OF ESCROW SHALL BE HANDLED DIRECTLY BETWEEN BUYER AND SELLER. PARTIES RECOGNIZE THAT BUYER IS A TAX-EXEMPT GOVERNMENTAL AGENCY.

7. POSSESSION: Possession shall be delivered to Buyer on close of escrow.

8. TAX WITHHOLDING: Under the Foreign Investment in Real Property Tax Act (FIRPTA), IRC 1445, every Buyer of U.S. real property must, unless an exemption applies, deduct and withhold from Seller's proceeds 10% of the gross sales price. Under California Revenue and Taxation Code 18805 and 26131, the Buyer must deduct and withhold an additional one-third of the amount required to be withheld under federal law. Buyer and Seller agree to execute and deliver as directed any instrument, affidavit, or statement reasonably necessary to carry out those statutes and regulations promulgated thereunder. (NOTE: Seller(s) affidavit of U.S. Citizenship is all that is required to meet Seller(s) obligations and avoid withholding).

9. PHYSICAL AND GEOLOGICAL INSPECTION: Buyer shall have the right, after opening of escrow, at Buyer's expense, to select licensed contractor(s) and other qualified professional(s), to make "INSPECTIONS" (including tests, surveys, other studies, inspections, and investigations) of the subject property including but not limited to sewer/septic system, well, soils, percolation, geologic conditions and environmental hazards, such as but not limited to, any past or current generation, storage, release, threatened release, disposal, and presence and locations of asbestos, PCB transformers, petroleum products, flammable explosives, underground storage tanks and other hazardous, toxic or contaminated substance or condition, on or about the Property. Buyer shall keep the subject property free and clear of any liens, indemnify, defend, and hold Seller harmless from all liability, claims, demands, damages or costs, and repair all damages to the property arising from the "INSPECTIONS". All claimed defects concerning the condition of the property that adversely affect Buyer's proposed use of the property shall be in writing, supported by written reports, if any, and

(see page 3)

Date 12-14-90

delivered to Seller within 15 calendar days after opening of escrow. Buyer shall furnish Seller copies, at no cost, of all reports concerning the property obtained by Buyer. Paragraph 15 is incorporated herein.

10. SELLER REPRESENTATION: Seller warrants that Seller has no knowledge of any notice of violations of City, County, State, Federal, building, Zoning, Fire, Health Codes or ordinances, or other governmental regulation filed or issued against the property. If Seller receives notice of any such violations prior to close of escrow, Seller shall immediately notify Buyer. Buyer is allowed 14 days after receipt of notification to give Seller written notice of disapproval. Paragraph 15 is incorporated herein.

11. CONDITION OF PROPERTY: Seller warrants, through the date possession is made available to Buyer, that property and improvements, if any, shall be maintained in the same condition as upon the date of acceptance.

12. CHANGES DURING ESCROW: Prior to close of escrow, Seller agrees not to (1) rent or lease any part of the premises, (2) alter, modify or extend any existing rental or lease agreement or (3) enter into, alter, modify or extend any service contract(s), without first having obtained Buyer's written approval, which shall not be unreasonably withheld.

13. RENTAL AND SERVICE AGREEMENTS: Seller represents that there are no written leases, rental agreements or service contracts pertaining to the property.

14. BUYER DISAPPROVAL: Whenever Buyer gives written notice of disapproval pursuant to Paragraph(s) 2, 4, 9, or 10 above, Seller shall have 7 calendar days from receipt of such notice to respond in writing to Buyer's disapproval. If Seller is unwilling or unable to correct the condition(s) disapproved of by Buyer to Buyer's satisfaction, or if Seller does not respond by the time set forth herein, then Buyer may cancel this agreement by providing written notice of cancellation to Seller within 7 calendar days from receipt of Seller's response or from expiration of the time set for Seller's response. BUYER'S FAILURE TO GIVE WRITTEN NOTICE OF DISAPPROVAL OR CANCELLATION SHALL CONCLUSIVELY BE DEEMED APPROVAL.

15. ENTIRE CONTRACT: Time is of the essence. All prior agreements between the parties are incorporated in this agreement which constitutes the entire contract. Its terms are intended by the parties as a final expression of their agreement with respect to such terms as are included herein and may not be contradicted by evidence of any prior agreement or contemporaneous oral agreement. The parties further intend that this agreement constitutes the complete and exclusive statement of its terms and that no extrinsic evidence whatsoever may be introduced in any judicial or arbitration proceeding, if any, involving this agreement.

Buyer and Seller acknowledge receipt of copy of this page, which constitutes page 3 of 5 pages.

Buyer's Initials [illegible] Seller's Initials (X) (___)

Date 12-14-90

16. The parties agree that Buyer is empowered to acquire property for public use and that the parties have entered into this Agreement based upon a threat of condemnation by Buyer.

17. AMENDMENTS: This agreement may not be amended, modified, altered or changed in any respect whatsoever except by a further agreement in writing executed by Buyer and Seller.

18. In the event that litigation or arbitration is commenced to interpret or enforce any provision of this agreement, the prevailing party in such proceeding shall be entitled to recover its reasonable attorneys fees, in addition to costs.

19. Seller is advised to seek legal counsel regarding this sale and its tax consequences. Sellers signature on the escrow instructions shall be deemed satisfaction of the terms and conditions of this agreement.

20. Before close of escrow, Buyer will furnish a letter to Seller, with mutually acceptable language, concerning the threat of condemnation of the property through eminent domain proceedings.

21. During the escrow period Seller shall assign to Buyer all rights in the existing license agreement with the local electrical utility company.

22. In addition to the Grant Deed for this property, Seller shall furnish to Buyer a recorded Quitclaim deed for the Sellers interest in the planned Santa Fe Avenue section on the Southern border of the property purchased.

23. Seller shall retain subsurface mineral rights as described in Exhibit C.

PROPERTY LEGAL DESCRIPTION

LEGAL DESCRIPTION

That portion of Lots 2, 3, and 4, Block 316, of the subdivision of Rancho Rincon Del Diablo, in the City of Escondido, according to Map thereof made by E.L. Horn, recorded: April 10, 1888 as Map No. 527, in the Office of the County Recorder of San Diego County, being more particularly described as follows:

Beginning at the westerly most corner of said Lot 3; thence northeasterly along the northerly line of said Lots 3 and 2, North 69°43'22" East, 1300.57 feet, to the northeasterly corner of said Lot 2; thence southeasterly along the easterly line of said Lot 2, South 20°17'56" East, 889.01 feet to an intersection with the westerly sideline of the "Escondido Creek Water Shed - Unit No. 1" right-of-way as shown on City of Escondido Drawing No. FCR-1000; said intersection also being along an 840.00 foot radius curve, concave northwesterly, having a radial bearing to said point of South 77°45'56" East (South 77°19'33" East, FCR-1000); thence southwesterly along the arc of said curve, through a central angle of 22°51'57" (22°51'31", FDR-1000), a distance of 335.23 feet (335.12, FDR-1000), to an intersection with the northeasterly right-of-way line of the A.T. & S.F. Railroad, as shown on Record of Survey No. 2753, recorded December 4, 1951, in the Office of the County Recorder of San Diego County; thence northwesterly along said right-of-way line, North 66°10'23" West, (North 65°54' West, Record of Survey 2753), 1194.63 feet; thence perpendicular to said right-of-way, North 23°49'37" East, 66.00 feet, to the southwesterly most corner of land described in deed to William R. Cramer, recorded: October 4, 1972, as File Page No. 265728 of Official Records, also being a point along the northeasterly right-of-way of Santa Fe Avenue, as shown on said Map No. 527; thence northwesterly along said line, North 66°10'23" West, 359.16 feet to the Point of Beginning.

Excepting that portion of land as described in deed to William R. Cramer, recorded: October 4, 1972, as File Page No. 265728 of Official Records.

Also excepting all that portion of land known as "Santa Fe Avenue", as shown on Escondido Land and Town Company Resurvey, Map 527, as filed in the Office of the County Recorder of San Diego County.

SUBJECT: AT&SFRR/NCTD PROPERTY
CITY CORPORATION YARD EXPANSION

The attached Preliminary Site Assessment was just recieved from North County Transit Dist, who is purchasing the property from Santa Fe. We, in turn, will buy the northerly 10 acres from NCTD. I've indicated our area in yellow on Figure 2.

Please give me your opinion/review of this Site Assessment. Should we be satisfied that there are no hazardous material concerns? Should we require NCTD to do further testing before we purchase our portion from them? I am particularly concerned with paragraph 8.0, page 22 in the report.

SUBJECT: Corp Yard Expansion

The property we're acquiring from NCTD is zoned M-2, which permits motive, operations & storage uses . There is also, however, an Planned Industrial overlay on the property (as well as our current yard), which means we can plan on having to do some extensive landscaping and 'buffering' when we develop the site. per Jon Brindle & Charlie Grim.

PURCHASE AGREEMENT

Date: _____ at Oceanside, California Received from North San Diego County Transit Development Board (NCTD) ("Buyer") the sum of fifty thousand dollars ($50,000.00) by Public Agency Check payable to Chicago Title Company which represents a deposit to be applied toward the purchase price of five million, four hundred and nineteen thousand dollars (5,419,000.00) for purchase of property situated in the City of Escondido, County of San Diego, state of California, described as follows;

Exhibit A - Property Site Plan

Exhibit B - Property Legal Description

1. TERMS OF SALE
Total purchase price to be $5,419,000.00 payable as follows;

A. Deposit of $50,000 is to be placed in escrow and held in an interest bearing account in favor of Buyer.

B. Balance of cash downpayment $5,369,000.00 is to be deposited into escrow on or before close of escrow.

2. ASSUMPTION OR "SUBJECT TO": In the event Buyer assumes or takes title subject to existing bond(s), assessment(s) or agreement(s), Seller shall provide Buyer with copies of applicable bond schedules, assessment documents or agreements. Buyer shall be allowed 7 calendar days after receipt of such copies to notify Seller in writing of disapproval. Buyer's approval shall not be unreasonably withheld. Paragraph 15 is incorporated herein.

3. ESCROW: Buyer and Seller shall deliver signed instructions to Chicago Title Company, the escrow holder, within 5 calendar days from opening of escrow which shall provide for closing within 5 business days of Sellers ability to deliver clear title to the property, however in no event later than December 27, 1990.

INITIAL HERE

4. TITLE: Title is to be free of liens, encumbrances, easements, restrictions, rights and conditions of record or known to Seller, other than the following: (a) current property taxes, (b) covenants, conditions, restrictions, and public utility easements of record, if any, provided the same do not adversely affect the use of the property for the station site/parking lot being proposed by Buyer, unless reasonably disapproved by Buyer in writing within 14 calendar days from receipt of a current preliminary report furnished at Buyer's expense. Seller shall furnish Buyer at Buyer's expense a CLTA title policy issued by Chicago Title Company, showing title vested in Buyer subject only to the above. If Seller is unwilling

(see page 2)

Buyer and Seller acknowledge receipt of copy of this page, which constitutes page 1 of 5 pages.

Buyer's Initials ____ Seller's Initials (__) (____)

Date _____

or unable to eliminate any title matter disapproved by Buyer as above, Buyer may terminate this agreement. If Seller fails to deliver title as above, Buyer may terminate this agreement; in either case, the deposit shall be returned to Buyer. Paragraph 15 is incorporated herein.

5. VESTING: Title shall vest as follows; North San Diego County Transit Development Board, a Public Agency

6. PRORATIONS: Property taxes, payments on bonds and assessments assumed by Buyer, interest, rents and premiums on insurance acceptable to Buyer shall be paid current and prorated as of the day of close of escrow. Bonds or assessments shall be paid current by Seller, payments not yet due shall be paid by Buyer. TAX BILLS ISSUED AFTER CLOSE OF ESCROW SHALL BE HANDLED DIRECTLY BETWEEN BUYER AND SELLER. PARTIES RECOGNIZE THAT BUYER IS A TAX-EXEMPT GOVERNMENTAL AGENCY.

7. POSSESSION: Possession shall be delivered to Buyer on close of escrow.

8. TAX WITHHOLDING: Under the Foreign Investment in Real Property Tax Act (FIRPTA), IRC 1445, every Buyer of U.S. real property must, unless an exemption applies, deduct and withhold from Seller's proceeds 10% of the gross sales price. Under California Revenue and Taxation Code 18805 and 26131, the Buyer must deduct and withhold an additional one-third of the amount required to be withheld under federal law. Buyer and Seller agree to execute and deliver as directed any instrument, affidavit, or statement reasonably necessary to carry out those statutes and regulations promulgated thereunder. (NOTE: Seller(s) affidavit of U.S. Citizenship is all that is required to meet Seller(s) obligations and avoid withholding).

9. PHYSICAL AND GEOLOGICAL INSPECTION: Buyer shall have the right, after opening of escrow, at Buyer's expense, to select licensed contractor(s) and other qualified professional(s), to make "INSPECTIONS" (including tests, surveys, other studies, inspections, and investigations) of the subject property including but not limited to sewer/septic system, well, soils, percolation, geologic conditions and environmental hazards, such as but not limited to, any past or current generation, storage, release, threatened release, disposal, and presence and locations of asbestos, PCB transformers, petroleum products, flammable explosives, underground storage tanks and other hazardous, toxic or contaminated substance or condition, on or about the Property. Buyer shall keep the subject property free and clear of any liens, indemnify, defend, and hold Seller harmless from all liability, claims, demands, damages or costs, and repair all damages to the property arising from the "INSPECTIONS". All claimed defects concerning the condition of the property that adversely affect Buyer's proposed use of the property shall be in writing, supported by written reports, if any, and

(see page 3)

Date _____

delivered to Seller within 15 calendar days after opening of escrow. Buyer shall furnish Seller copies, at no cost, of all reports concerning the property obtained by Buyer. Paragraph 15 is incorporated herein.

10. SELLER REPRESENTATION: Seller warrants that Seller has no knowledge of any notice of violations of City, County, State, Federal, building, Zoning, Fire, Health Codes or ordinances, or other governmental regulation filed or issued against the property. If Seller receives notice of any such violations prior to close of escrow, Seller shall immediately notify Buyer. Buyer is allowed 14 days after receipt of notification to give Seller written notice of disapproval. Paragraph 15 is incorporated herein.

11. CONDITION OF PROPERTY: Seller warrants, through the date possession is made available to Buyer, that property and improvements, if any, shall be maintained in the same condition as upon the date of acceptance.

12. CHANGES DURING ESCROW: Prior to close of escrow, Seller agrees not to (1) rent or lease any part of the premises, (2) alter, modify or extend any existing rental or lease agreement or (3) enter into, alter, modify or extend any service contract(s), without first having obtained Buyer's written approval, which shall not be unreasonably withheld.

13. RENTAL AND SERVICE AGREEMENTS: Seller represents that there are no written leases, rental agreements or service contracts pertaining to the property.

14. BUYER DISAPPROVAL: Whenever Buyer gives written notice of disapproval pursuant to Paragraph(s) 2, 4, 9, or 10 above, Seller shall have 7 calendar days from receipt of such notice to respond in writing to Buyer's disapproval. If Seller is unwilling or unable to correct the condition(s) disapproved of by Buyer to Buyer's satisfaction, or if Seller does not respond by the time set forth herein, then Buyer may cancel this agreement by providing written notice of cancellation to Seller within 7 calendar days from receipt of Seller's response or from expiration of the time set for Seller's response. BUYER'S FAILURE TO GIVE WRITTEN NOTICE OF DISAPPROVAL OR CANCELLATION SHALL CONCLUSIVELY BE DEEMED APPROVAL.

15. ENTIRE CONTRACT: Time is of the essence. All prior agreements between the parties are incorporated in this agreement which constitutes the entire contract. Its terms are intended by the parties as a final expression of their agreement with respect to such terms as are included herein and may not be contradicted by evidence of any prior agreement or contemporaneous oral agreement. The parties further intend that this agreement constitutes the complete and exclusive statement of its terms and that no extrinsic evidence whatsoever may be introduced in any judicial or arbitration proceeding, if any, involving this agreement.

Buyer and Seller acknowledge receipt of copy of this page, which constitutes page 3 of 5 pages.

Buyer's Initials ____ Seller's Initials (____) (____)

Date _____

16. The parties agree that Buyer is empowered to acquire property for public use and that the parties have entered into this Agreement based upon a threat of condemnation by Buyer.

17. AMENDMENTS: This agreement may not be amended, modified, altered or changed in any respect whatsoever except by a further agreement in writing executed by Buyer and Seller.

18. In the event that litigation or arbitration is commenced to interpret or enforce any provision of this agreement, the prevailing party in such proceeding shall be entitled to recover its reasonable attorneys fees, in addition to costs.

19. Seller is advised to seek legal counsel regarding this sale and its tax consequences. Sellers signature on the escrow instructions shall be deemed satisfaction of the terms and conditions of this agreement.

20. Before close of escrow, Buyer will furnish a letter to Seller, with mutually acceptable language, concerning the threat of condemnation of the property through eminent domain proceedings.

21. During the escrow period Seller shall assign to Buyer all rights in the existing license agreement with the local electrical utility company.

22. In addition to the Grant Deed for this property, Seller shall furnish to Buyer a recorded Quitclaim deed for the Sellers interest in the planned Santa Fe Avenue section on the Southern border of the property purchased.

23. Seller shall retain subsurface mineral rights as described in Exhibit C.

PROPERTY LEGAL DESCRIPTION

LEGAL DESCRIPTION

That portion of Lots 2, 3, and 4, Block 316, of the subdivision of Rancho Rincon Del Diablo, in the City of Escondido, according to Map thereof made by E.L. Horn, recorded: April 10, 1888 as Map No. 527, in the Office of the County Recorder of San Diego County, being more particularly described as follows:

Beginning at the westerly most corner of said Lot 3; thence northeasterly along the northerly line of said Lots 3 and 2, North 69°43'22" East, 1300.57 feet, to the northeasterly corner of said Lot 2; thence southeasterly along the easterly line of said Lot 2, South 20°17'56" East, 889.01 feet to an intersection with the westerly sideline of the "Escondido Creek Water Shed - Unit No. 1" right-of-way as shown on City of Escondido Drawing No. FCR-1000; said intersection also being along an 840.00 foot radius curve, concave northwesterly, having a radial bearing to said point of South 77°45'56" East (South 77°19'33" East, FCR-1000); thence southwesterly along the arc of said curve, through a central angle of 22°51'57" (22°51'31", FDR-1000), a distance of 335.23 feet (335.12, FDR-1000), to an intersection with the northeasterly right-of-way line of the A.T. & S.F. Railroad, as shown on Record of Survey No. 2753, recorded December 4, 1951, in the Office of the County Recorder of San Diego County; thence northwesterly along said right-of-way line, North 66°10'23" West, (North 65°54' West, Record of Survey 2753), 1194.63 feet; thence perpendicular to said right-of-way, North 23°49'37" East, 66.00 feet, to the southwesterly most corner of land described in deed to William R. Cramer, recorded: October 4, 1972, as File Page No. 265728 of Official Records, also being a point along the northeasterly right-of-way of Santa Fe Avenue, as shown on said Map No. 527; thence northwesterly along said line, North 66°10'23" West, 359.16 feet to the Point of Beginning.

Excepting that portion of land as described in deed to William R. Cramer, recorded: October 4, 1972, as File Page No. 265728 of Official Records.

Also excepting all that portion of land known as "Santa Fe Avenue", as shown on Escondido Land and Town Company Resurvey, Map 527, as filed in the Office of the County Recorder of San Diego County.

...territory withdrawn therefrom, and it shall be the duty of the successors or assigns to provide for the payment of the bonded and other indebtedness and liabilities.

Except as may be otherwise provided in the proceedings for the authorization, issuance, and sale of any revenue bonds, bonds secured by a pledge of revenues, or bonds for improvement districts secured by a pledge of revenues, revenues of any kind or nature derived from any revenue-producing improvements, works, facilities, or property owned, operated, or controlled by the board shall be pledged, charged, assigned, and have a lien thereon for the payment of the bonds as long as they are outstanding, regardless of any change in ownership, operation, or control of the revenue-producing improvements, works, facilities, or property and it shall, in any later event or events, be the duty of the successors or assigns to continue to maintain and operate the revenue-producing improvements, works, facilities, or property as long as bonds are outstanding.

Added Stats 1983 ch 599 § 2.

DIVISION 11.5

North San Diego County Transit Development Board

[Added by Stats 1975 ch 1188 § 4.]

Chapter 1. General Provisions and Definitions. §§ 125000–125002
2. Creation of Board. §§ 125050–125052
3. Administration. §§ 125100–125107
4. Powers and Functions. §§ 125200–125400
5. Personnel. §§ 125500–125561

CHAPTER 1

General Provisions and Definitions

125000. Citation of part
125001. "Board"
125002. Legislative intent

125000. Citation of part

...part shall be known and may be cited as the "North San Diego County Transit Development Board

...d Stats 1975 ch 1188 § 4.

...sions applicable to contracts by transit board: Pub Con C § 20350.

...001. "Board"

...ed in this division, "board" means the North San Diego County Transit Development Board.

...l Stats 1975 ch 1188 § 4.

...002. Legislative intent

...the intent of the Legislature to improve existing public transportation services and encourage ...al public transportation services and encourage regional public transportation coordination. The ...atur... ...ognizes that in order to achieve a unified, coordinated public transportation system within ...n D... region, it may be necessary to form a regionwide transit district at some future time. It is ...ent of the Legislature that the North San Diego County Transit Development Board shall reserve ...ht to join and merge with such a district at such time as it is deemed mutually beneficial by the ...and the region as a whole.

...Stats 1975 ch 1188 § 4.

CHAPTER 2

Creation of Board

...0. Creation of board: Members
...1. Alternate members
...2. Areas included

...1. Creation of board: Members

...hereby created, in that portion of the County of San Diego as described in Section 125051, the ...n Diego County Transit Development Board. The board shall consist of members selected as the respective city council.

Added Stats 1975 ch 1188 § 4; Amended Stats 1979 ch 379 § 2; Stats 1986 ch 864 § 4.

Amendments:

1979 Amendment: (1) Substituted "seven members" for "six members" in the introductory clause; (2) added "Del Mar," in subd (b); and (3) deleted the former last paragraph which read: "Any unincorporated area under the jurisdiction of the transit development board which incorporates as another city after January 1, 1975, shall be entitled to appoint a member of its city council to the board."

1986 Amendment: (1) Deleted "seven" after "consist of" in the introductory clause; and (2) added "and each new city that incorporates within the board boundaries," in subd (b).

§ 125051. Alternate members

Each of the governing bodies appointing a member of the board pursuant to Section 125050 shall also appoint one alternate to serve on the board when the member is not available. The alternate shall be subject to the same restrictions and shall have the same powers, when serving on the board, as the member.

Added Stats 1975 ch 1188 § 4.

§ 125052. Areas included

The area of jurisdiction of the board shall consist of the following areas:

(a) The Cities of Carlsbad, Del Mar, Escondido, Oceanside, San Marcos, and Vista and each new city that incorporates within the board boundaries.

(b) Camp Joseph H. Pendleton.

(c) The unincorporated areas of San Diego County lying within census tracts: 170.04 (but excluding that portion lying east of the eastern boundary of the City of San Digeo), 171.00, 173.00, 174.01, 174.02, 175.00, 176.00, 177.00, 178.02, 185.02, 185.03, 186.01, 186.02, 188.00, 189.01, 189.02, 190.00, 191.01, 191.02, 192.01, 192.02, 193.00, 194.00, 196.00, 197.00, 198.00, 199.00, 200.01, 200.02, 200.03, 201.01, 201.02, 202.03, 202.05, 203.00, 204.00, 206.02, 207.01, 207.02, and 208.00, as set forth in the 1970 decennial census maps for the State of California on file with the Bureau of the Census, Department of Commerce, Washington, D.C.

Added Stats 1975 ch 1188 § 4; Amended Stats 1976 ch 16 § 1, effective February 20, 1976; Stats 1979 ch 379 § 3; Stats 1986 ch 864 § 5.

Amendments:

ARTICLE 2

Contracts

Authority to make contracts and enter into stipulations

Construction subject to competitive bidding: Pub Con C § 20391.

§ 125220. Authority to make contracts and enter into stipulations

The board may make contracts and enter into stipulations of any nature whatsoever, either in connection with eminent domain proceedings or otherwise, including, without limiting the generality of the foregoing, contracts and stipulations to indemnify and save harmless, to employ labor, and to do all acts necessary and convenient for the full exercise of the powers granted in this division.

Added Stats 1975 ch 1188 § 4.

§ 125221. Acquisition of capital transit equipment and facilities of municipal transit operators

Immediately upon holding its first meeting, the board shall proceed to negotiate with the existing municipal transit operators within its area of jurisdiction to acquire the capital transit equipment and facilities of the municipal transit operators.

Added Stats 1975 ch 1188 § 4.

§ 125222. Authority to contract with United States, public agencies, or any other persons

The board may contract with any department or agency of the United States of America, with any public agency, or with any person upon such terms and conditions as the board finds is in its best interest.

Added Stats 1975 ch 1188 § 4.

§ 125223. Competitive bidding: Contracts for purchase of supplies, equipment, or materials

Contracts for the purchase of supplies, equipment, and materials in excess of five thousand dollars ($5,000) shall be awarded to the lowest responsible bidder after competitive bidding, except in emergency declared by the vote of two-thirds of the membership of the board.

Added Stats 1975 ch 1188 § 4.

§ 125224. Authority to purchase supplies, equipment, or materials on open market

If, after rejecting bids received under Section 125223, the board determines and declares by a two-thirds vote of all of its members that, in its opinion, the supplies, equipment, or materials may be purchased at a lower price in the open market, the board may proceed to purchase these supplies, equipment, or materials in the open market without further observance of the provisions regarding contracts, bids, or advertisements.

Added Stats 1975 ch 1188 § 4.

§ 125225. [Added by Stats 1975 ch 1188 § 4 and repealed by Stats 1982 ch 465 § 31.]

See Pub Con C § 20351.

§ 125226. Insurance

The board may insure against any accident or destruction of the system or any part thereof. The board may also provide insurance as provided in Part 6 (commencing with Section 989), Division 3.6, Title 1 of the Government Code.

Added Stats 1975 ch 1188 § 4.

§ 125227. Services of independent contractors

The board may contract for the services of independent contractors.

Added Stats 1975 ch 1188 § 4.

ARTICLE 3

Property

§ 125240. Authority to acquire, hold, and dispose of property
§ 125241. Reservation or grant to construct or maintain roads, highways, or other crossings

§ 125240. Authority to acquire, hold, and dispose of property

The board may take by grant, purchase, devise, or lease, or condemn in proceedings under eminent domain, or otherwise acquire, and hold and enjoy, real and personal property of every kind within or without its area of jurisdiction necessary to the full or convenient exercise of its powers. The board may lease, mortgage, sell, or otherwise dispose of any real or personal property within or without its area of jurisdiction necessary to the full or convenient exercise of its powers.

Added Stats 1975 ch 1188 § 4.

§ 125241. Reservation or grant to construct or maintain roads, highways, or other crossings

The board is entitled to the benefit of any reservation or grant, in all cases, where any right has been reserved or granted to any public agency to consruct or maintain roads, highways, or other crossings over any public or private lands.

VIA FEDERAL EXPRESS

Mr. George L. Johnson
North County Transit District
311 South Tremont Street
Oceanside, CA 92054

Dear Mr. Johnson:

Please refer to our recent meeting between representatives of Catellus Development Corporation ("Catellus"), you, and Mr. Ron Gerow of the City of Escondido relative to the possible acquisition under threat of condemnation of 17± acres of our property in the City of Escondido. Since our meeting and after receiving your statement of just compensation in the amount of $5,368,000, we have had the property appraised and are prepared to recommend to the management of Catellus sale of the subject property for consideration in the amount of $5,700,000. This compensation would be contingent upon closing escrow no later than December 20, 1990. $7.70#

Should this sale price be acceptable to North County Transit District and the City of Escondido, please advise no later than November 16, 1990.

Please be advised that it is intended that all legal rights and obligations between the respective parties will come into existence when a definitive agreement is signed and delivered.

Should you care to discuss this matter further or desire to arrange for a meeting to discuss any issues involved, please contact Mr. Chris Montana at (714) 961-7359.

CATELLUS DEVELOPMENT CORPORATION

3230 EAST IMPERIAL HIGHWAY, SUITE 100 · BREA, CALIFORNIA 92621 · TEL 714 993-9000 FAX 714 961-7304

For the purpose of time limitation this offer to recommend for approval to Catellus' management will remain in effect until November 16, 1990.

Sincerely,

Jeffrey D. Reynolds
Regional Sales Manager

STATEMENT OF JUST COMPENSATION

The North County Transit District and City of Escondido are now in the process of acquiring private property necessary for the transit yard and corporation yard project. It may be necessary to acquire your property, since it is within the project area.

We are prepared to commence negotiations with you for the purchase of your property. Any purchase of property or offer to purchase property, is contingent upon approval by the Escondido City Council and the North County Transit Development Board.

In compliance with the Eminent Domain Laws of the State of California, an estimate of Just Compensation in the amount of $5,368,000.00 has been made for the interest to be acquired in your property (see "Legal Description"). This amount is based upon an approved appraisal and is not less than the appraiser's opinion of Fair Market Value which he determined after a personal inspection of your property.

The appraisal takes into consideration the location of your property, its highest and best use, current land sales of property similar to your property, and other indicators of value.

Just compensation includes amounts for the land, improvements, damages, if any, and other elements as follows:

LAND	$5,368,000.00
IMPROVEMENTS	-0-
OTHER	-0-
TOTAL	$5,368,000.00

Any increase or decrease in the market valuation caused by the public improvement or project for which the property is to be acquired, or by the likelihood that the property would be acquired for such improvement or projects, other than that due to physical deterioration within the reasonable control of the owner, has been disregarded in making the determination of just compensation.

STATEMENT OF OWNER

1. I have read and understand the Statement of Just Compensation (initials) ____

2. There are persons living on the property Yes ____ No ____

3. There are businesses being conducted on the property by others. Yes ____ No ____

The following are living or are conducting business on the property (Include owner if in occupancy; give name and address):

Dear George:

Re: Our Acquisition of Property from Santa Fe Realty (Catellus)

As we discussed in our meeting of October 8, 1990, I am enclosing the Statement of Just Compensation, upon which I have scratched some suggestions for changes to fit the current situation. Please feel free to make your own changes and have it typed in final form; you and I can each sign it for presentation at our initial purchase offer meeting.

I look forward to working with you on this acquisition.

Sincerely,

RON GEROW
Real Property Agent

RE: Appraisal proposal
North County Transit District land
S. side Washington Avenue, Escondido, California
Ptn. APN 232-090-2, 3, 40

Dear Mr. Gerow:

I submit, herewith, a proposal to perform appraisal services for the City of Escondido regarding the possible acquisition of a portion of the above noted property by the North County Transit District. I understand the property consists of approximately 10 acres and the appraisal will conclude with an appraised value per square foot, so that a final survey could determine the total value of the portion to be acquired.

The appraisal would be delivered within 60 days after the date of approval of this proposal. I agree to submit an original and two (2) copies of the appraisal for the total fee of $2,600.

Thank you for this opportunity to provide a proposal for professional appraisal services.

Sincerely,

Don W. Blackstone, MAI SRPA

Re: APPRAISAL OF
Santa Fe Realty Company Property

Dear Mr. Gerow:

Thank you for your request for a proposal to appraise the approximately ten-acre parcel to be acquired from Santa Fe. We understand that you require a value on a per square foot basis rather than a total value, which will be established by survey. We also understand that the part to be acquired is also to be consdiered the larger parcel with no consideration of the remainder to the rear. As there is no engineering information available regarding costs, etc. to develop the site, our appraisal will be based on our best estimates, which will rely heavily on Marshall Valuation Service.

Three copies of a brief narrative appraisal report will be provided to the City. The fee for appraisal services will be $2,800. Current timing estimates work could begin as early as the second week in October with delivery about three weeks thereafter. Please contact me for current timing when you are ready to proceed. In the event the assignment should be terminated prior to completion, the work accomplished to date will be charged at $100 per hour.

The report and appraised values will conform to the Standards of Professional Practice of the American Institute of Real Estate Appraisers and standard Assumptions and Limiting Conditions, a copy of which are enclosed.

Sincerely,

Jean V. G. Catling, MAI

San Diego, CA 92123-1813

Gentlemen:

The City of Escondido invites your firm to submit a proposal to prepare an appraisal report of a portion of the property owned by the Santa Fe Realty Company as illustrated on the enclosed map. The portion to be appraised consists of approximately 10 acres; the rear portion of the ownership is presently being acquired by the North County Transit District. The appraisal will conclude with an appraised value per square foot, so that a final survey will determine the total value of the portion to be acquired by the City.

Your proposal should include both the cost and time required to complete the assignment.

Sincerely,

RON GEROW
Real Property Agent

Escondido, CA 92025

SUBJECT: Street Vacation of a Portion of Santa Fe Avenue, Escondido

Dear Ron:

This letter is to initiate the street vacation process for that portion of Santa Fe Avenue described in the enclosed legal description, and shown on the enclosed plat map. As discussed earlier, Santa Fe Pacific Realty is the underlying fee owner of the described area.

In March of 1989, Santa Fe had initiated the vacation process for generally the same right of way. The vacation request was denied due to a lack of development plans for the adjacent property.

In recent months the property has undergone an extensive planning process, resulting in the proposed site plan attached. The plan has been reviewed by City Planning Staff and is in conformance with the existing zoning. That portion of Santa Fe Avenue proposed for vacation does not limit the adjacent properties proposed development to public right-of-way access to Railroad Avenue or to the remaining portion of Santa Fe Avenue.

Also enclosed with the legal description, plat map, and site plan of the adjacent property is a check from Santa Fe Pacific Realty in the amount of $1,030.00.

Thank you for your consideration of this request.

Very truly yours,

Richard Sutherland, C.E.
Civil Engineer

March 27, 1989

Santa Fe Pacific Realty Corporation
3230 East Imperial Highway, Suite 100
Brea, California 92621

Attn: Christopher Montana, Sales Representative

Gentlemen:

This is to notify you that the City of Escondido has determined that it would not be in the best interests of the City to vacate the Santa Fe Avenue right-of-way between Railroad Avenue and Washington Avenue in Escondido. This situation arises because of the unknown development plans for the adjacent property, which could necessitate a public street in order to serve any such land use.

I am initiating the return of the $1,030.00 payment to you, which you previously made to the City of Escondido for the processing of a street vacation.

Sincerely,

RON GEROW
Real Property Agent

DORIS THURSTON, MAYOR JERRY C. HARMON, MAYOR PRO TEM ERNIE COWAN CARLA DE DOMINICIS KRIS MURPHY

CITY OF ESCONDIDO

memorandum

February 21, 1989

TO: Rod Wood, Assistant City Manager

FROM: Ron Gerow, Real Property Agent

SUBJECT: Santa Fe Railroad Property

The attached correspondence gives even greater evidence of Santa Fe Pacific Realty Corporation's intentions to market (or develop) their property, rather than to have a need to continue utilizing it as operating railroad property. It may very well be that my conversation with Mr. Montana (my February 13 memo to you), together with the attached letter, will give sufficient supporting data to Dave Chapman for us to acquire the property by eminent domain.

Do you want me to proceed with processing the street vacation of Santa Fe Avenue as they have requested, or do you want me to "hold up" on this item until we have resolved our next step?

Ron Gerow

CITY OF ESCONDIDO

memorandum

February 13, 1989

TO: Rod Wood, Assistant City Manager

FROM: Ron Gerow, Real Property Agent Ron Gerow

SUBJECT: Railroad Property By Public Works Yard; Washington Avenue and Spruce Street

I spoke today to my contact, Chris Montana, at the Santa Fe Land Improvement Company. Chris mistakenly divulged to me that Santa Fe is "in negotiations, directly with an interested party", relative to a "transfer of title" for the Santa Fe property at Washington Avenue by Spruce. After making these statements to me, Chris suddenly discovered (apparently while going through his file) that he was not supposed to be giving this information to me. He had nothing further to say about the supposed transaction.

If you wish, you and I could meet with Dave Chapman in order to discuss the possibilities of filing an Eminent Domain action on this property.

Re: Street Vacation - Santa Fe Avenue

Gentlemen:

In response to your letter dated January 20, 1989, regarding the vacation of the Santa Fe Avenue, please find enclosed the requested items required to initiate the street-vacation process:

1. A company check (check no. 28263) in the amount of $1,030.00, payable to the City of Escondido;

2. A legal description of the area proposed to be vacated; and

3. A plat map illustrating the street vacation area.

Our company feels that the vacation of Santa Fe Avenue will provide us with more land to market or develop.

I understand that this process takes approximately 90 days due to legal requirements set forth by statute in the government code.

Please feel free to contact me if I can provide any additional information concerning this matter.

Sincerely,

Christopher Montana
Sales Representative

January 20, 1989

Mr. Chris Montana
Santa Fe Land Improvement Co.
3230 East Imperial Highway, Suite 100
Brea, CA 92621

RE: Street Vacation: Santa Fe Avenue

Dear Chris:

You recently inquired regarding the processing time and fees relative to a public-street vacation.

The street-vacation process, which is set forth by statute in the government code, is a 90-day process due to the legal requirement of advertising and posting of the property prior to a public hearing. The actual vacation is finally accomplished by recordation of the resolution adopted by City Council.

You can initiate the street-vacation process by letter to me, including a legal description of the area proposed to be vacated, a plat map illustrating the street vacation, and a check payable to the City of Escondido in the amount of $1,030. The check covers the processing fee required by the city for all street vacation.

Feel free to contact me if you have any further questions regarding this matter.

Sincerely,

Ron Gerow

Escondido, CA 92025

RE: Initial Study, Case ER 89-13 - 901 West Washington

Dear Mr. Daugherty:

As we discussed last week, the Initial Study will continue being processed, to evaluate potential impacts associated with the proposed reinforced concrete manufacturing plant. Consistent with your earlier discussions with the Manager's Office, the site will be assessed separately in a Feasibility Study the City will conduct, as a potential location for expansion of the City's maintenance facility. You are also aware that the site is being considered for acquisition by North County Transit District, to establish a service/maintenance facility, as described in the Notice of Preparation prepared by NCTD for the light rail commuter system.

To proceed with processing the Initial Study application, additional materials (described below) are necessary to expand and clarify the request, and complete the application. The assessment of potential environmental impacts will resume upon submittal of additional details necessary to evaluate the proposal. Please submit details to address the following items:

1. Landscape Plan (Existing/Proposed): Detail trees which would be removed.

2. Proposal for screening materials stored outside and those elements of the building and equipment which will be highly visible.

3. Photographs of the site from all directions.

4. Mechanical equipment details - identify all mechanical equipment and indicate how such equipment will be screened from public view.

DORIS THURSTON, MAYOR JERRY C. HARMON, MAYOR PRO TEM ERNIE COWAN CARLA DE DOMINICIS KRIS MURPHY

5. Confirm the maximum height of material and equipment which will be stored in the yard, outside the building.

6. Expand the project description by describing the proposed manufacturing process in detail, including the operating characteristics, schedule, anticipated noise levels, and the type of ventilation system and mechanical equipment to comply with air emission standards, and secure necessary permits from Air Pollution Control District, prior to operation of the plant.

7. Site Plan - the proposed Parking area should be refined to provide a connection at the easterly end, so vehicles can circulate, or a designated turnaround space should be displayed at the end of the parking bay.

8. The project description should indicate the type and number of trucks which are proposed in conjunction with the manufacturing plant.

9. The project description should indicate the number of employees which will work at the facility.

10. The application must include a parking calculation to verify the minimum number of parking spaces is met (or exceeded), per Article 1077, based on the square footage of areas (open or enclosed) devoted to the primary use, and an additional space for each vehicle used in conjunction with the business.

11. Expanded description of architectural materials, colors, etc.

12. The site plan must be expanded to display locations of all driveways across the street. Proposed driveway locations must be plotted to avoid interlocking left turn movements.

Upon receipt of the items outlined above, the proposal will be scheduled for a PRELIMINARY review by the Design Review Committee. Although colored renderings are not necessary at this time, the Committee will evaluate the proposed landscape plan, screening program, and the elevations. Although potential visual impacts are not anticipated to be identified as a significant environmental issue, we wish to inform you at this early stage in the process, that aesthetic concerns will be an issue in evaluating the Conditional Use Permit. We encourage the applicant to consider alternative materials, such as a tilt-up concrete building or a masonry material with decorative features on elevations which will be visible from public streets, surrounding properties, and other areas within the viewshed of this site.

Please submit materials to respond to the above items as a comprehensive submittal. Site plan revisions should include six prints, in addition to six prints of the landscape plans. Please resubmit at your earliest opportunity, or within 30 days (by July 13, 1989) to maintain this case in an active status.

If you have any questions, please contact me.

Sincerely,

Patricia Borchmann

Dear Mr. Gerow:

This will acknowledge receipt of your letter dated February 6, 1987, inquiring as to the availability of Railway Company property at Washington Avenue in Escondido.

Unfortunately, I must advise that the Railway Company-owned portion of the property outlined on your attached map is not available for sale.

It is unfortunate I cannot give you a more favorable reply; however, we appreciate your interest in the property. If you have any questions, or need further assistance involving this subject matter, please contact Mrs. Kathleen Sanchez at the above telephone number, citing the file number indicated above.

Very truly yours,

Attn: Rudy San Miguel

Dear Mr. Renne:

I am writing to inquire concerning the availability of the Santa Fe property on Washington Avenue, in Escondido; this property is illustrated on the enclosed map.

The City of Escondido may have a future use for this property, in conjunction with the City Corporation yard across Escondido Creek on the east.

Are you able to confirm to me that this property is available for purchase by the City? I look forward to your reply.

Yours truly,

Ron Gerow

GRADING PLAN

CORPORATION YARD EXPANSION

GENERAL NOTES

1. FOLLOWING THE APPROVAL OF THE GRADING PLAN BUT NO LATER THAN 48 HOURS BEFORE STARTING GRADING, THE CONTRACTOR SHALL OBTAIN A GRADING PERMIT FROM THE ENGINEERING FIELD OFFICE, 201 N. BROADWAY, (619) 741-4664.

2. GRADE AREAS SHOWN ON THESE PLANS IN ACCORDANCE WITH ARTICAL 55, *EXCAVATION AND GRADING OF, THE ESCONDIDO ZONING CODE.*

3. THE SOILS REPORT PREPARED BY DATED AND ALL ALL SUPPLEMENTS THEREOF ARE INCORPORATED AND MADE A PART OF THIS PLAN.

4. ONLY GRADING AND PRIVATE DRAINAGE FACILITIES ARE APPROVED ON THIS GRADING PLAN. ALL OTHER FEATURES ARE SHOWN FOR ILLUSTRATION PURPOSES ONLY.

5. ALL FILLS SHALL BE COMPACTED TO A MINIMUM OF 90% OF MAXIMUM DENSITY. A COMPACTION REPORT SHALL BE SUBMITTED TO THE FIELD ENGINEER PRIOR TO ROUGH GRADING INSPECTION FOR ALL FILLS EXCEEDING ONE FOOT IN DEPTH. THE COMPACTION REPORT SHALL BE REVIEWED AND APPROVED BY THE FIELD ENGINEER PRIOR TO ROUGH GRADING APPROVAL.

6. ALL SLOPES SHALL BE CONTOUR-GRADED SO AS TO ROUND CORNERS AND TO BLEND MANUFACTURED SLOPES INTO ADJACENT NATURAL SLOPE. SEE *APPENDIX A* OF THE GRADING ORDINANCE FOR SPECIFIC REQUIREMENTS.

7. ALL SLOPES OVER THREE FEET IN HEIGHT SHALL BE LANDSCAPED AND IRRIGATED AS DETAILED ON THE LANDSCAPE AND IRRIGATION PLANS.

EARTHWORK QUANTITIES

CUT = 11,000 CUBIC YARDS

FILL = 11,000 CUBIC YARDS

RE: City of Escondido-owned property: 901 W. Washington Ave.

Dear Mr. Erwin:

Thank you for your Purchase Proposal faxed to me October 17, 2002.

I have discussed this property with our City Council, and we have determined that, after concluding the current sale of a 4-acre portion of the site, the City will retain ownership of the balance.

For this reason, this property is not available for sale.

Sincerely

City Council of The City of Escondido
Attn: Mr. Ron Gerow
201 N. Broadway
Escondido, CA 92025

Re: **Purchase Proposal for the approximate 4 (or 10) acres of land at 901 W. Washington Avenue, Escondido, CA (APN# 232-090-72).**

Dear Ron:

This letter sets forth the terms and conditions under which **Pacific Coast Properties, Inc.** and/or its Nominee ("Buyer") would purchase from **The City of Escondido** ("Seller") the aforementioned property.

1. **PURCHASE PRICE:**
The purchase price for the Property shall be **Eleven Dollars and 00/100 ($11.00)** per square foot square foot (verified by survey and adjusted accordingly) **or $1,916,640** payable all cash at the close of escrow. **If available, Buyer is interested in purchasing the entire 10 acres.**

CONTINGENCY PERIOD:
Buyer shall have the right to approve, in its sole and absolute discretion, the feasibility of the transaction contemplated herein and to make and obtain such inspections and studies of the Property as it may elect.

The "Contingency Period" shall mean the period ending (i) **forty-five (45) days** after the opening of Escrow for approval of all items. If on or before the end of the Contingency Period the Buyer has not approved (in Buyer's sole and absolute discretion) the documents and information listed above, or any other aspect of the Property, the Buyer shall have the right to terminate the Escrow, and any deposits made by Buyer will be returned to Buyer.

2. **DEPOSITS:**
Upon execution of the Purchase and Sale Agreement, Buyer and Seller shall open an escrow (the "Escrow") with Lawyers Title Company ("Escrow Agent" and Title Insurer") and Buyer will deposit in said Escrow the earnest money deposit (the "Deposit") in the amount of **Thirty Thousand Dollars and no/100 ($30,000.00)**. All monies shall be deposited into an interest-bearing account by the Escrow Holder, and all interest income shall be credited to the benefit of Buyer. Upon removal of Contingencies, Buyer shall deposit an additional **Thirty Thousand Dollars and no/100 ($30,000.00), total of $60,000 into Escrow. All deposits shall become non-refundable to Buyer after waiving of contingencies** unless escrow fails to close where such failure is caused by Seller.

3. **CLOSE OF ESCROW:**
The escrow shall close within **thirty (30)** days following the waiver of contingencies.

4. **SELLER REPRESENTATIONS AND WARRANTIES:**
The Purchase and Sale Agreement will contain standard representations and warranties from Seller concerning the Property.

5. **PROPERTY DELIVERY:**
Seller shall deliver to Buyer one or more legal parcels in an "As Is" condition.

6. **BUYER'S RIGHT TO TERMINATE:**
The Purchase and Sale agreement shall provide that if Buyer disapproves the condition of the Property during the Contingency Period, the Buyer shall have the right to terminate the Purchase and Sale Agreement and Escrow and to receive a refund of the Deposit, less Buyer's share of the Escrow Agent's and Title Insurer's cancellation fees and charges, if any.

7. **EXTENSIONS:**
Two (2) one-month extensions at Ten thousand dollars and no/100 ($10,000.00) per month, applicable to purchase price.

8. **BROKER:**
A real estate commission equal to four percent (4%) of the total consideration to be paid to Business Real Estate Brokerage Co.

9. **CONFIDENTIALITY:**
Buyer shall keep all information and reports obtained from Seller or relating to the property or the proposed transaction confidential and shall not disclose any such confidential information to any other person or entity (other than Buyer's attorneys, inspectors, lenders and investors) without obtaining the prior written consent of Seller. Seller will respect the confidentiality of the proposed purchase and its terms.

10. **BUYER'S RIGHT TO ASSIGN:**
The Purchase and Sale Agreement shall provide that the Buyer has the right to assign the Buyer's rights and delegate the Buyer's obligations thereunder to any assignee, provided the Buyer gives written notice of such assignment to Seller at least three (3) business days before the close of Escrow.

11. **EXPIRATION DATE:**
This letter proposal shall remain valid until **Tuesday, October 29, 2002**, at 5:00 p.m.,

BUYER AND SELLER ACKNOWLEDGE THAT THIS LETTER PROPOSAL IS NOT A BINDING AGREEMENT AND THAT IT IS INTENDED AS THE BASIS FOR PREPARATION OF A PURCHASE AND SALE AGREEMENT. THE PURCHASE AND SALE AGREEMENT SHALL BE SUBJECT TO BUYER'S AND SELLER'S

APPROVAL. EXCEPT FOR THE REQUIREMENT TO NEGOTIATE IN GOOD FAITH TOWARDS THE CREATION OF A CONTRACT AND EMBODIES THE TERMS OF THIS LETTER, ONLY A FULLY EXECUTED AGREEMENT OF PURCHASE AND SALE SHALL SERVE TO BIND THE PARTIES. BROKER MAKES NO REPRESENTATION TO BUYER OR SELLER THAT ACCEPTANCE OF THIS LETTER WILL GUARANTEE THE EXECUTION OF A PURCHASE AND SALE AGREEMENT.

Ron, please inform the Seller that the Buyer is available to meet and discuss this proposal. We look forward to working with you.

Sincerely,
BRE COMMERCIAL / NAI

RE: Easement Exchange and Maintenance Agreement

Dear Jim:

Due to an inadvertent clerical error, the signed Maintenance Agreement and signed, notarized Joint Driveway Easement from the City to NCTD was sent to the County Recorder without your acceptance on the easement. The recordation of the easement without the acceptance will not invalidate the easement, but you may want to rerecord it when it is received back from the Recorder

The recordation numbers for the documents are 2001-0853935 for the easement; 2001-0853936 for the agreement.

As soon as I receive the NCTD-to-City easement from you, I will accept and record it.

Sincerely

Ron Gerow

EASEMENT MAINTENANCE AGREEMENT

THIS EASEMENT MAINTENTANCE AGREEMENT ("Agreement") is entered into as of _____, 2001 among THE CITY OF ESCONDIDO ("CITY"), and NORTH SAN DIEGO COUNTY TRANSIT DEVELOPMENT BOARD ("NCTD") with regard to the following:

A. The CITY is the owner of that certain real property located in the City of Escondido, County of San Diego, State of California, more particularly described in Exhibit "A" attached hereto (the "CITY Parcel").

B. NCTD is the owner of that certain real property located in the City of Escondido, County of San Diego, State of California, more particularly described in Exhibit "B" attached hereto (the "NCTD Parcel").

C. The CITY, pursuant to a Joint Driveway Easement dated the same date as this Agreement, granted to NCTD a permanent and perpetual easement over and across that portion of the CITY Parcel more particularly describe in Exhibit "C" attached hereto (the "Easement").

D. The CITY and NCTD each desire to set forth their agreements regarding the maintenance of the Easement.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the CITY and NCTD agree as follows:

1. Maintenance. The CITY shall maintain the Easement in good repair and condition and free of debris. The paved surfaces of the Easement shall be maintained so that the surfaces are level, smooth, and evenly covered with the type of surface material originally installed or a substitute material that is equal in quality, appearance and durability.

2. Reimbursement. Beginning on the first month of NCTD' use of the Easement, NCTD shall reimburse the CITY for forty percent (40%) of the costs of maintaining the Easement,

representing NCTD's proportionate share of the costs of maintaining the Easement. The CITY shall submit an invoice to NCTD on an annual basis for NCTD's proportionate share of the maintenance costs, and NCTD shall reimburse the CITY for such costs within thirty (30) days after receiving the invoice.

3 Maintenance by NCTD. If the CITY fails to maintain the Easement as provided in this Agreement, then NCTD may give written notice ("Correction Notice") to the CITY, setting forth the maintenance items which are not being performed. If the CITY fails to correct the maintenance items within thirty (30) days following the Correction Notice, thenNCTD shall have the right, but not the obligation, to perform the maintenance items set forth in the Correction Notice. If NCTD performs such maintenance items, then the CITY shall reimburse NCTD for sixty percent (60%) of the cost of such maintenance. NCTD shall invoice the CITY for the CITY's proportionate share of the costs of maintenance and the CITY shall reimburse NCTD for such costs within thirty (30) days after receiving the invoice.

4. Fences and Gates. The CITY and NCTD shall each have the right to install fences and gates to secure the entrances to their respective parcels from the Easement. The fences and gates shall not be located in a manner that would prevent the other party to gain access to such party's parcel. The CITY acknowledges that the CITY will need to relocate the CITY's current gate and fence prior to the date that NCTD begins construction of NCTD's planned maintenance facility on the NCTD Parcel in order to allow NCTD to access NCTD's Parcel. The costs of the fences and gates shall be borne by the party who installs the fences and gates.

5. Insurance; Indemnity.

5.1 Liability Insurance. The CITY and NCTD shall each at all times maintain in full force and effect comprehensive public liability insurance written through an insurance company having a Best's rating of B+ or better and licensed to do business in the State of California, meeting the requirements of this section 5 with a policy amount of not less than Two Million Dollars ($2,000,000) (stated on a per occurrence basis). The policy of comprehensive general liability required by this paragraph shall include the following provisions:

(a) The insurance shall not be invalidated by the acts or omissions of other insureds.

(b) The insurance shall not be modifiable or cancelable or non-renewable without 30 days' prior written notice to other party (except in the case of cancellation for non-payment of premium, in which case cancellation shall not take effect until at least 10 days' notice has been given to other party). This provision is hereinafter referred to as "Notice of Modification or Cancellation."

(c) NCTD and its members, employees, and agents shall be named as additional insureds as their interests may appear on the CITY policy, and the CITY and its members,

employees, and agents shall be named as additional insureds as their interests may appear on the NCTD policy.

(d) The insurance shall include comprehensive property and personal liability endorsements.

Notwithstanding any other provision of this Agreement, the CITY or NCTD may self-insurance for any risk set forth in this section 5 in the manner and to the extent that such party self-insures for similar risks with respect to its operations, equipment, and property. The manner in which such self-insurance is provided and the extent of such self-insurance shall be set forth in a Certificate of Self Insurance, delivered to other party and signed by an authorized representative, which fully describes the self-insurance program and how the program covers the risks set forth in this section 5. Insurance provided by a joint powers agency insurance pool shall be considered self-insurance for the purposes of this section. If, at any time during the term of this Agreement, either the CITY or NCTD elects not to self-insure, that party shall comply with all applicable provisions of this section 5 to the extent that that party does not so self-insure.

5.2 Indemnity. Each party ("Indemnifying Party") shall defend, indemnify and hold each other party and their respective officers, employees and directors (collectively, the "Indemnified Parties") harmless from any and all damages, claims, causes of action, costs, expenses or liability arising from, related to, or incurred in connection with the injury to or death of any person or the damage to any property arising from the use of the Easement by the Indemnifying Party's officers, employees, directors, patrons, or invitees unless such liability is caused by the gross negligence or willful acts of an Indemnified Party.

6. Notices. Unless otherwise specifically permitted by this Agreement, all notices and other communications required or permitted under this Agreement shall be in writing, and shall be personally delivered or sent by registered or certified mail, postage prepaid, return receipt requested, and shall be deemed received: (i) if personally delivered, upon the date of delivery to the address of the person to receive such notice, or (ii) if mailed in accordance with the terms of this paragraph, two (2) business days after the date of deposit in the United States mail. Notices shall be given at the following addresses:

if to the CITY:
The City of Escondido
201 North Broadway
Escondido, California 92025
Attention: Real Property Agent

if to NCTD:
North San Diego County Transit Development Board
801 Mission Avenue
Oceanside California 92054
Attention: Manager of Real Estate

The address for delivery of notices may be changed by either party by giving notice of such change to the other party in accordance with this paragraph.

7. Successors and Assigns. Except as explicitly provided in this Agreement to the contrary, this Agreement shall be binding upon and inure to the benefit of the parties and their respective successors and permitted assigns.

EXECUTED as of the date first written above.

RESOLUTION NO. 2001-271

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ESCONDIDO, CALIFORNIA, AUTHORIZING THE MAYOR AND CITY CLERK TO EXECUTE, ON BEHALF OF THE CITY, AN EASEMENT MAINTENANCE AGREEMENT AND A JOINT DRIVEWAY EASEMENT FOR JOINT USE AND MAINTENANCE OF AN ACCESS SERVING CITY PROPERTY AND NORTH COUNTY TRANSIT DISTRICT PROPERTY, LOCATED AT 901 WEST WASHINGTON AVENUE

(North County Transit District)

WHEREAS, the City-owned real property located at 901 W. Washington Avenue, Escondido, is utilized as a City corporation yard; and

WHEREAS, the adjacent property is owned by the North County Transit District, and will be utilized as a transit maintenance facility; and

WHEREAS, both the City of Escondido and the North County Transit District desire to jointly use an access drive to serve the properties; and

WHEREAS, this City Council desires at this time and deems it to be in the best public interest to grant to the North County Transit District a Joint Driveway Easement, and to approve the Easement Maintenance Agreement providing for such joint use and maintenance;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Escondido, California, as follows:

1. That the above recitations are true.

2. That the Mayor and City Clerk are authorized to execute, on behalf of the City, the Easement Maintenance Agreement and the Joint Driveway Easement. Copies of the Agreement and Easement are attached as Exhibits "1" and "2" and are incorporated by this reference.

PASSED, ADOPTED AND APPROVED by the City Council of the City of Escondido at a regular meeting thereof this 14th day of November 2001, by the following vote to wit:

AYES : Councilmembers: D'AGOSTA, GALLO, PFEILER, RADY, WALDRON

NOES : Councilmembers: NONE

ABSENT : Councilmembers: NONE

APPROVED:

LORI HOLT PFEILER, Mayor of the
City of Escondido, California

ATTEST:

MARSHA WHALEN, City Clerk of the
City of Escondido, California

CITY OF ESCONDIDO
City Council

Agenda Item No.:_____
Date: November 14, 2001

TO: Honorable Mayor and City Council

FROM: Patrick Thomas, Director of Public Works

SUBJECT: Joint Driveway Easement and Easement Maintenance Agreement with North County Transit District: 901 W. Washington Avenue (City Corporation Yard)

RECOMMENDATION:

It is recommended that the City Council adopt a resolution authorizing the Mayor and City Clerk to sign the easement and maintenance agreement.

FISCAL ANALYSIS:

The agreement provides that the City will be responsible for 60% of the maintenance costs, with the Transit District covering 40%. This breakdown is based upon the proportionate land area of each agency. Costs of maintenance will be paid out of the Public Works Budget.

GENERAL PLAN ANALYSIS:

In conformance.

PREVIOUS ACTION:

None.

BACKGROUND:

The City-owned real property located at 901 W. Washington Avenue, Escondido is utilized as a City corporation yard and the adjacent property is owned by the North County Transit District, and will be utilized as a transit maintenance facility. Both the City of Escondido and the North County Transit District desire to jointly use an access drive to serve the properties, and the Joint Driveway Easement and Easement Maintenance Agreement recommended herein will provide for that. In return for the granting of this joint use easement, the Transit District has granted to the City a land use easement over adjacent District land adjacent to the City corporation yard drive.

Respectfully submitted,

RON GEROW
Real Property Agent

RONALD W. ANDERSON
Assistant Public Works Director/City Engineer

Subject: Re: Corp Yard Bridge

Ron, We hope to have the bridge construction started by Dec or Jan and finished by Feb. This work will be done in conjunction with the Old City Yard grading and paving. At this time I'm not sure if we really need any additional construction easements. We are working with Steve Hughes about the use of a crane that could lift the bridge from one side of the channel and set bridge onto the abutments without any additional area needed. I'll have to keep you informed as the plans develop.

>>> Ron Gerow 09/28 9:10 AM >>>
Hank,
I am preparing our request to Jason Jackson @ the Soil Conservation Service, to install the bridge across the flood channel. When do we plan to do this work? How long will it take?
Do we need working area additional to our property on the west side of the channel? If so, I'll need to secure a temporary right of entry from NCTD.
Pls let me know ASAP about the construction timing.

Mike;

As you requested, I have verified that the new Corporation Yard expansion on Washington Avenue has been constructed, fenced, landscaped and graded in accordance with the approved plans.

The height of the materials stored in the yard is below the height of the screening. Our neighbor (Emery Recycling, on the NCTD property at the rear) is NOT keeping their material storage to a proper height; the problem with this is that a person standing on Washington Avenue looks at our property, sees the top of the Emery Recycling stockpiles at the rear, and thinks it's the City yard!

Hank, Ross;

I need to do a certification for Mike that we're using the new corp yard properly. Can you verify the following to me:

Hank: how many 24" box-size trees did we plant? On the west & rear PL, did we plant Eucalyptus, Calif Pepper trees & shrubs, per the approved landscape plan?

Ross: Did we grade per the approved grading plan? Are the piles of grindings, earth, sand, etc 10' or less in height? Are the palletized stacks of poles & street lights 6' or less in height?

Do either of you belong to a subversive group, or kick the family dog?

Please let me know ASAP.

Ron G.
**** ANNOTATION BY RC3 ****
**** ON 08/15/95 AT 08:12 **
RON,

I DON'T BELIEVE WE HAVE STAYED WITH THE ORIGINAL GRADING PLAN AS WE HAD TO ELEVATE THE PROPERTY APPROX 12-18" TO OBTAIN COMPACTION. AS FAR AS ANY MATERIALS STORED AT THE YARD, THEY ALL ARE BELOW THE HEIGHT OF THE SCREENING. OBVIOUSLY OUR NEIGHBORS (EMERY RECYCLING) ARE NOT. THE ONLY TIME WE WERE IN VIOLATION WAS DURING CLEANUP WEEK, AS A RESULT OF SOME POOR DECISIONS BY EDI. THIS HAS BEEN RECTIFIED AND WE ARE IN COMPLIANCE. ROSS

CITY OF ESCONDIDO

Memorandum

DATE: May 10, 1994

TO: Dave Chapman, City Attorney

FROM: Ron Gerow, Real Property Agent RG

SUBJECT: Legal Opinion Request:
Rights of North County Transit Dist under CPUC

The North County Transit District owns real property, a portion of which they wish to lease to a cement crushing business for several years. The proposed development plans of the tenant would place their facility extending into a dedicated, but unimproved, public street.

When we reviewed the plans we informed them that the street was a dedicated public right of way, and that because there is a public sewer main within the street right of way we would not vacate the street. (The cement crushing operation could damage the sewer line)

The reply of North County Transit is attached.

I feel that the CPUC provides a benefit to the transit district only for the district's use of the public street right of way for crossing, or perhaps even lateral, rail installation & use as a public transit facility, but <u>not</u> as a short-term lease site to a non-public transit tenant.

Could I please have a legal opinion on this? Because of the on-going discussions with the transi district I would appreciate an answer by May 18, if possible.

Re: Lease of NCTD Property at Washington Avenue, Escondido

Gentlemen:

After consultation with the Escondido City Attorney, I am writing to you in response to the May 4, 1994, letter received from you, attached.

The City of Escondido does not agree with the statements made in the attached letter. The cited statute within the California Public Utility Code refers to the rights of use of the transit board for public transit purposes of public rights-of-way; in no way does the California Public Utility Code provide that the transit board has the ability to appropriate public street rights-of-way to be utilized as a site to be leased to a tenant involved in a commercial enterprise.

It is my understanding that the particular site anticipated for use by your prospective tenant has recently been redesigned so as to avoid protruding into the public right-of-way, and for that reason this question may be moot. However, I have been requested to emphasize to you that the appropriation of the public right-of-way as discussed in the attached letter is not provided for within the provisions of the California Public Utility Code.

Sincerely,

Ron Gerow
Real Property Agent

Re: Lease of NSDCTDB Property at Washington Street (APN 232-090-67)

Dear Gary,

Thank you for meeting with myself and Bill Emory at the Washington Street property. In response to your recent phone call, it is the position of the North San Diego County Transit Development Board ("NSDCTDB", "BOARD") that it is entitled to the use of Santa Fe Street by virtue of its' enabling legislation, a portion of which is attached. To cite Chapter 1188, Section 125241 of the California Public Utility Code:

> "The board (NSDCTDB) is entitled to the benefit of any reservation or grant, in all cases, where any right has been reserved or granted to any public agency to construct or maintain roads, highways, or other crossings over any public or private lands."

Subsequent to our conversation, we have also received a request from Lucky Bishop of the City Engineering Staff to construct a gate in the fence of the City Yard to provide access to the City's sewer line on the westerly portion of the subject property. Mr. Bishop has also requested that the City be allowed to cross Board property from time to time to clean the sewer line.

We will approve this request if the Board can use the City Yard and the gate for reciprocal access to Board property.

We look forward to continued cooperation from the City in regards to this interim lease proposal and future development of the Maintenance Facility Site on the subject property.

proceed to purchase these supplies, equipment, or materials in the open market without further observance of the provisions regarding contracts, bids, or advertisements.

125225. Contracts for the construction in excess of ten thousand dollars ($10,000) shall be awarded to the lowest responsible bidder after competitive bidding, except in emergency declared by the vote of two-thirds of the membership of the board.

125226. The board may insure against any accident or destruction of the system or any part thereof. The board may also provide insurance as provided in Part 6 (commencing with Section 989), Division 3.6, Title 1 of the Government Code.

125227. The board may contract for the services of independent contractors.

Article 3. Property

125240. The board may take by grant, purchase, devise, or lease, or condemn in proceedings under eminent domain, or otherwise acquire, and hold and enjoy, real and personal property of every kind within or without its area of jurisdiction necessary to the full or convenient exercise of its powers. The board may lease, mortgage, sell, or otherwise dispose of any real or personal property within or without its area of jurisdiction necessary to the full or convenient exercise of its powers.

125241. The board is entitled to the benefit of any reservation or grant, in all cases, where any right has been reserved or granted to any public agency to construct or maintain roads, highways, or other crossings over any public or private lands.

Article 4. Transit System

125260. The board shall plan, construct, and operate (or let a contract to operate) public transit systems within the area of its jurisdiction in conformance with the regional transportation plan developed pursuant to Chapter 2.5 (commencing with Section 65080) of Title 7 of the Government Code and the five-year transportation improvement program developed pursuant to Section 134 of Title 23 of the United States Code.

Article 5. Transportation Planning

125300. The board shall be responsible for short-term operational and financial planning for transit systems within the area of its jurisdiction.

125301. The council of governments which includes the area of the board shall be responsible for all regionwide transportation planning pursuant to Section 134 of Title 23 of the United States

Re: Landscaping of City of Escondido Corporation Yard Expansion

Dear Mr. Martin:

Thank you for your letter of March 12, 1994, proposing that the vocational landscaping class at Orange Glen High School could install the landscaping at the City's corporation yard expansion property.

We have reviewed our proposal and have examined the budget and time constraints required for this landscaping project, and have unfortunately determined that we must decline your proposal.

By the time the City would be able to arrange for the purchase and delivery of the tools and materials and carry out all of the trenching required, we would be facing your summer "break," and would, therefore, have to face a delay of installation of the landscaping and irrigation system until fall. Another of our concerns, which you are already aware of, is the potential for criticism from landscaping contractors who would be precluded from bidding for this landscaping project.

Don, thank you for your good spirit and cooperation in making this proposal to the City. I am sorry that we are not able to carry it out as we had hoped. If another situation should come about where I could call upon you again to ask for your consideration in making such a proposal, I will be in contact with you.

Sincerely,

March 12, 1994

To: Mr. Mike Wray
Mr. Ron Gerow

From: Mr. Don Martin

Subject: Landscaping of the City of Escondido Corporation Yard Expansion

The concept of letting the students in the vocational landscaping class at Orange Glen High School install the landscape in a real project is a golden orpportunity for the students to really aquire hands on learning. I welcome the chance to let the students not only learn about landscaping, but to also do something for the community and have a project that they can be proud of.

A possible way to work out the time logistics for work on the project is to work from 12:00 noon to 3, or Saturdays from 8:00 AM to 12:00 noon. I would like to get started as soon as possible and try to be done by the first of May.

An assumption on my part would be that the City of Escondido would supply all the tools and materials. Also, if the city could do all of the trenching before the students arrive, that would expidite the project by a couple of weeks. A restroom of some kind would need to be located on the site for the students to use.

No students would be allowed on the site without the supervision of the teacher, Mr. Martin.

Thank you for involving us,

Don Martin

CITY OF
ESCONDIDO
201 NORTH BROADWAY
ESCONDIDO, CA 92025

February 28, 1994

Mr. Paul Price, Director
North County Transit District
311 South Tremont Street
Oceanside, CA 92054

Dear Mr. Price:

As we discussed in our February 22, 1994, meeting in your office, I have reviewed my file, searching for any reference to a discussion, agreement, or statements regarding an access across the City property on Washington Avenue, from Washington Avenue to your property behind ours. I can find no reference to that in my file, nor, as I stated, do I have any recollection of its being discussed. I also checked with Public Works Director, Mike Adams, to see if he had any recollection of the subject, and he did not.

The City of Escondido is currently improving its property as a secured outdoor storage yard. The City's improvements call for paving, fencing, and landscaping along the side and rear property lines, and along the frontage setback. This means that there can be no access route across the City property outside of the City's improvements. Providing an access route through the property within the City's improvements, on the other hand, would eliminate the necessary security required to the site. It is also true that, in processing our development permits through the Planning Department, a detailed development plan was necessarily submitted, reviewed, and approved; that detail plan did not provide for an access route to your property at the rear of ours, and provision of such an access route at this time would require that the entire project be resubmitted through plot plan review within the Planning Department: an unacceptable setback to our development and utilization schedule for the property.

For the above reasons, it will not be possible for the City of Escondido to allow access to serve the NCTD property.

Sincerely,

Ron Gerow
Real Property Agent

RE: RAILROAD TRACK MATERIAL REMOVED AS PART OF THE CORPORATION YARD DEVELOPMENT

Dear Mr. Gerow:

Pursuant to your letter of February 11, 1993, the materials in question will become the property of the North San Diego County Transit Development Board (NSDCTDB) on February 19, 1993. The section of track is no longer required for railroad operations and has been out of service for over a year. However, the material is required as spares for the maintenance of the track in and around Escondido.

Please inform me of the expected cost to NSDCTDB for the removal of the material as soon as possible. It is likely that the material can be more economically removed by NSDCTDB track forces, rather than by city contractors. This work could begin the week of February 22.

Thank you for your attention to this matter. Please call me at 967-2864 if you require any additional information.

Sincerely,

W. T. Farquhar
Assistant Planner/Rail

Oceanside, CA 92054

RE: Railroad Track Material; City of Escondido Corporation Yard, Escondido

Dear Mr. Farquhar:

In response to your February 16, 1993, letter to me, this is to authorize you to go onto the City property adjacent to property of the North County Transit District to remove the track material from the property as we have discussed.

Please be advised that our property is a virtual mud bog; we have almost lost several pieces of heavy equipment while attempting to drive onto and across the property. It may be that your track removal equipment is rail-mounted, so that you will not have this problem.

I would appreciate it if you could accomplish the removal of the trackage during the next sixty (60) days; we will be utilizing our property as a spoils site for various City projects, and we could, therefore, be moving earth onto the property within approximately two months' time. You would want to have the rail removal accomplished before we begin doing that.

Sincerely,

Ron Gerow
Real Property Agent

Contact Person Telephone Number

** 903 West Washington Avenue, Escondido, CA. San Diego County
Project Location (include County)

Project Description: ** Expansion of the Public Works Storage Yard, on a separate parcel in the vicinity of the existing yard, including the proposed development of storage areas: police vehicle impound lot; streets, utilities, and parks storage; and warehouse storage. The total area devoted to storage is approximately 3.56 acres of a 10 acre parcel which is zoned M-2 (General Industrial). The related Plot Plan Case number is 92-32-PPL.

This is to advise that the City of Escondido (Lead Agency) has approved the above described project on January 26, 1993 and has made the following determinations regarding the above-described project:

1. The project will not have a significant effect on the environment.
2. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were not adopted for this project.
4. A statement of Overriding Considerations was not adopted for this project.
5. Findings were made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval is available to the General Public at: City of Escondido, Planning Department, 201 North Broadway, Escondido, CA 92025

CERTIFICATE OF FEE EXEMPTION
(De Minimus Impact Finding)

The City of Escondido has completed an Initial Study for the above-referenced property, including evaluation of the proposed project's potential for the adverse environmental impacts on fish and wildlife resources. Based on the completed Initial Study, the Planning Department finds that the proposed project will not encroach upon wildlife habitat area, will have no potential adverse individual or cumulative effects on wildlife resources and requires no mitigation measures to be incorporated into the proposed project which would affect fish or wildlife resources.

CERTIFICATION:

I hereby certify that the public agency has made the above finding and that the project will not individually or cumulatively have an adverse effect on wildlife resources, as defined in Section 711.2 of the Fish and Game Code.

TO SUMMARIZE OUR 2/22 MEETING
RE THE CORP YARD EXPANSION;

JIM IS GOING TO TALK TO
SOUTHLAND ABOUT THEIR DOING
THE GRADING ON SITE. IF THEY
GET THE SAN PASQUAL JOB,
THEY'LL GRADE AFTER THEY'VE
FINISHED WITH IT. IF THEY'RE
NOT THE SUCCESSFUL BIDDER, JIM
WILL TRY TO CONVINCE THEM TO
RETURN TO DO THE GRADING AFTER
THE SAN PASQUSAL DIRT IS ON
SITE. THIS WILL REQUIRE A
$26,000 CHANGE ORDER.

AFTER THE GRADING IS DONE
(SEVERAL MONTHS, TO ALLOW FOR
SAN PASQUAL) ROSS WILL INSTALL
ALL THE FENCING, WITH SLATS ON
WASHINGTON.

ROSS WILL PURCHASE STORM
DRAIN PIPE & INSTALL OVER A
PERIOD OF TIME. ROSS WILL ALSO
DO TRENCHING, AND USE CCC FOR
PLANTING, FOR THE REQUIRED
LANDSCAPING AFTER THE FENCE IS
IN PLACE.

IF I'VE SCREWED UP ANYTHING IN
THIS NOTE, PLS ANNOTATE A
CORRECTION TO THE REST OF US.

JIM,

I UNDERSTAND THAT THE GRADING ESTIMATE FOR THE CITY YARD IS $46,000 AND THAT THE BID FOR THE ROCK SPRINGS STORM DRAIN IS ABOUT $700,000. YOU HAVE ALSO ADVISED ME THAT GRADING OF THE CITY SITE WAS INCLUDED AS PART OF THE ROCK SPRINGS PROJECT IN ORDER TO DEAL WITH THE EXCESS DIRT THAT WE PERMITTED TO BE DUMPED THERE BY THE CONTRACTOR, BUT THAT WE DID NOT BUILD INTO THE CONTRACT SUFFICIENT GRADING TO ALLOW THE EXCESS DIRT TO BE PROPERLY "BLENDED" INTO THE YARD SITE.
SINCE THE ADDITIONAL GRADING APPEARS TO BE REQUIRED AS PART OF THE STORM DRAIN PROJECT, WHICH INCLUDES THE DUMPING ON THE CITY SITE, AND SINCE THE ADDITIONAL WORK WILL BE LESS THAN 7% OF THE CONTRACT PRICE, I CONCLUDE THAT IT CAN BE DONE BY A CHANGE ORDER TO THE ROCK SPRINGS STORM DRAIN CONTRACT.

DAVE

MIKE, THE BEST PRICE FOR GRADING THE CITY YARD SITE IS $46,000. THATS ONLY BECAUSE SOUTHLAND IS ALREADY THERE. THE SITE IS TOO SATURATED TO ATTEMPT ANY GRADING, RAIN IS FORCAST, AND ITS DOUBTFULL THAT IT WILL BE WORKABLE FOR A COUPLE MONTHS. I ALSO DOUBT THAT ROSS'S PEOPLE COULD AVOID GETTING STUCK TRYING TO REMOVE THE RR TRACKS.
CHAPMAN EXPRESSED CONCERN TO ME THAT DOING IT AS A CHANGE ORDER TO ROCK SPRINGS STORM DRAIN MIGHT BE ILLEGAL.
SOUTHLAND TOLD ME THAT IF IT GOES OUT TO COMPETITIVE BID, IT WILL COST MORE LIKE $65,000.
SINCE IT IS UNLIKELY THAT WE CAN MOVE ON THIS VERY SOON ANYWAY, WHAT ABOUT CHANGING THE CONCEPT OF THE SITE AND FILLING IT WITH EXCESS GENERATED OFF UPCOMING JOBS. ALL WE WOULD HAVE TO DO IS DICTATE IN THE SPECIFICATIONS WHERE THE DIRT HAS TO GO AND HOW MUCH EFFORT THE CONTRACTORS HAVE TO MAKE COMPACTING AND LEVELING. THAT WAY, WE MIGHT GET THE GRADING FOR FREE, OR AT LEAST HIDDEN IN OTHER PROJECTS. SAN PASQUAL HAS 5,000 CY OF EXPORT THAT HAS TO GO SOMEWHERE.
**** ANNOTATION BY MLA ****
**** ON 02/16/93 AT 16:51 **
JIM, I AGREE WITH THE ALTERNATIVE APPROACH. WE SHOULD HAVE USED IT FOR THE ROCK SPRINGS PROJECT OR CITRACADO BECAUSE OF THEIR PROXIMITY TO THE SITE...
ANYWAY..LETS YOU, ME, RON GEROW, ROSS AND HANK WORK OUT SOME DETAILS ON THIS ONE...THANKS MIKE

Re: City of Escondido Corporation Yard, Adjacent to North County Transit District (NCTD) Escondido Yard

Dear Mr. Price:

The City of Escondido is in the process of developing its corporation yard facility on the property recently purchased from NCTD. To that end, the property is now being cleared by City staff and contractors. As a part of this clearing operation, the rails located on the property are being removed and will be stacked on-site for future use by the City of Escondido.

Because I have been informed by Bill Farquhar, of your office, that NCTD may have a right to possession of these rails and wood ties, this letter is to notify you that the City of Escondido would not dispute this right, but would only expect reimbursement for the cost of removing and stacking the material.

Please let me know within 30 days if NCTD feels that these materials are, in fact, NCTD property.

Sincerely,

Ron Gerow
Real Property Agent

Reference: Plot Plan Review at 903 West Washington Avenue
Public Works Corporate Storage Yard Expansion
92-32-PPL (Related Case: ER 92-45)

The Plot Plan Review procedure is the initial development step intended only to advise the applicant of the principal zoning and development conditions that will be required by the City at the time of application for building permits. This plot plan procedure does not take the place of specific requests such as building or grading permits, review of public improvements, or compliance with fire code requirements.

On December 17, 1992, the Design Review Committee and the Staff Development Committee reviewed the proposed Storage Yard Expansion at 903 West Washington Avenue to determine if the project, as submitted, complies with the development requirements of the City of Escondido. This review, referred to as the PLOT PLAN REVIEW procedure, determines the adequacy of the proposed building, open space, parking and driveway layout, and other related facilities for proposed projects. It also advises the applicant of most other ordinances and conditions that would apply or be required at the time of application for building permits. This does not mean that all of the requirements and conditions will be listed, but the majority will be in order to make the preparation of building plans easier.

Any substantial delay between the date of this Plot Plan Review and a request for any other required permits to start development, may require plan modifications to conform to any new ordinances. If you have any questions regarding this matter, please call Tim Taylor at 738-4306.

CONDITIONS OF APPROVAL AND DEVELOPMENT COMMENTS

I. Development Standards/Parking:

There will be no required parking for the Storage Yard at this time, pursuant to Section 33-767 of the Off-Street Parking Ordinance, Article 39 and by Resolution 4853 by the Planning Commission which granted a waiver of parking requirements on January 12, 1993.

Details of the parking waiver are contained in the staff report to the Planning Commission.

II. Development Standards/Landscaping:

1. The revised landscaping plan submitted to the Planning Department can be approved once the Plot Plan has been approved.

2. The nineteen (19) street trees shown on the landscape plan will be sufficient to meet the street tree requirements. Because the minimum street tree size is 15 gallons, six feet tall with a trunk caliper of at least one (1) inch, and your plans show twelve (12) street trees to be 24-inch box size, the Parks and Recreation Superintendent has approved a proposal to use the larger trees to mitigate another City project described in the next paragraph. The precise location and type of trees shall be consistent with City standards and the current street tree list.

   The City project to widen Escondido Boulevard between Crest Street and Decatur Way has resulted in the removal of seven (7) mature eucalyptus trees. The required mitigation for the loss of these trees was to replace them at a 2:1 ratio with 18-inch to 24-inch box-size trees. Only five (5) of these trees could be planted in the immediate area. A proposal to plant the remaining nine (9) replacement trees off site was found to be acceptable. Therefore, this project proposes to mitigate the nine (9) trees on this site by increasing the size of twelve (12) of the street trees from 15-gallon to 24-inch box-size trees.

3. All required landscape improvements shall be installed and all vegetation growing in an established, flourishing manner prior to occupancy. The required landscape areas shall be free of all foreign matter, weeds and plant materials not approved as part of the landscape plan.

4. The grading plans do not show slopes in excess of three vertical feet; however, should they occur, they shall be landscaped with suitable material to control erosion. All slopes in excess of five vertical feet shall be landscaped with a

combination of trees, shrubs and ground cover which shall provide 100 percent coverage within one (1) year of installation. There shall be a minimum of six (6) 15-gallon trees and ten (10) 5-gallon shrubs for every 1,000 square feet of fill slope area. For cut slopes, there shall be a minimum of ten (10) 5-gallon trees and twelve (12) 1-gallon shrubs for every 1,000 SF of slope area.

III. Development Standards/Other:

1. The slats used in the six-foot-high chain link fence on West Washington should be beige or earth tone color to blend with the landscape.

2. A determination was made that slats will not be required in any of the other perimeter or storage area fencing.

3. No lighting was proposed during this project review. Should lighting be installed at a later date, the lighting shall be arranged so as not to reflect upon adjoining property or streets. Exterior lighting shall conform with Article XXXV of the Escondido Zoning Code.

IV. Development Standards/Engineering:

1. Any required street and alley improvements shall be to the satisfaction of the Engineering Department.

V. Development Standards/Fire:

1. Fire protection facilities and improvements shall be subject to the approval of the Fire Department.

2. A clear access must be maintained to all storage areas for fire fighting equipment and emergency vehicles.

VI. Development Standards/Building:

1. No structures are proposed.

VII. Signage:

1. Approval of this Plot Plan in no way implies approval of any sign or sign location. A separate permit is required, should you wish to install a sign.

VIII. Plan Processing Requirements:

1. We have a sufficient number of revised copies of the Plot Plan (Grading Plan) reflecting all the above conditions and modifications. These plans must be approved prior to issuance of grading permits. In addition, the agent (Ron Gerow) shall sign this letter where indicated on the last page and return a copy of the signed document.

2. We also have a sufficient number of detailed landscape plans. These plans can be approved after the Plot Plan has been approved.

3. This Plot Plan approval will expire one year from the date of this letter. If no grading permit is obtained during this period, this approval shall be considered null and void. An extension of the Plot Plan approval may be granted after consideration of the Community Development Director upon written request and submittal of required fee prior to the expiration date of this Plot Plan. This review determines consistency with current City ordinances and policies and in no way vests any rights to the developer to construct to these standards in the future, should the City ordinances and policies change.

NOTE: Review of this Plot Plan is based on the condition that the applicant has indicated all easements, covenants, conditions, and other such encumbering restrictions against the subject property, which could prevent development from occurring as denoted on the officially reviewed Plot Plan.

Please feel free to contact this office if you have any questions.

Jim Daugherty for

JoAnn Alpert
Planner II

The above conditions and requirements have been read and understood, and I understand that development shall occur in accordance with these and other applicable regulations of the City of Escondido.

RESOLUTION NO. 4853

A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF ESCONDIDO, CALIFORNIA, APPROVING A WAIVER OF PARKING REQUIREMENTS FOR THE PUBLIC WORKS STORAGE YARD EXPANSION AT THE WEST WASHINGTON AVENUE LOCATION.

APPLICANT: City of Escondido

CASE NO.: 92-32-PPL

WHEREAS, the Planning Commission of the City of Escondido did, on January 12, 1993, hold a public meeting to consider a request for a waiver of parking requirements in conjunction with the expansion of storage area for the Public Works Department on property generally located on the south side of West Washington Avenue, west of Rock Springs Road, addressed as 903 West Washington Avenue, more particularly described in the legal description, attached as Exhibit "B."

WHEREAS, the following determinations were made:

1. That the application was assessed in conformance with the California Environmental Quality Act and that a Negative Declaration, City Log No. ER 92-45, was issued.

2. That a staff report was presented, discussing the issues in the matter.

3. That a public meeting was held and that all persons desiring to speak did so.

NOW, THEREFORE, BE IT RESOLVED by the Planning Commission of the City of Escondido:

1. That the above recitations are true and correct.

2. That the Planning Commission certifies that it has reviewed and considered the environmental review and determined that it is complete and adequate for this project, and there are no significant environmental effects which are not mitigated.

3. That the Findings of Fact to be Considered, attached as Exhibit "A" were made by said Commission.

4. That, considering the Findings and applicable law, the Planning Commission hereby approves said parking waiver; no Conditions were made.

PASSED, ADOPTED AND APPROVED by a majority vote of the Planning Commission of the City of Escondido, California, at a regular meeting held on the 12th day of January, 1993, by the following vote, to wit:

AYES:	COMMISSIONERS:	**Bateman, Beatty, Drake, Jackson, Quinn, and Santurro.**
NOES:	COMMISSIONERS:	**None.**
ABSTAINED:	COMMISSIONERS:	**None.**
ABSENT:	COMMISSIONERS:	**Hassinger.**

James J. Santurro, Chairman
Escondido Planning Commission

ATTEST:

Barbara Redlitz, Secretary
Escondido Planning Commission

I hereby certify that the foregoing Resolution was passed at the time and by the vote above stated.

Ty Paulson, Minutes Clerk
Escondido Planning Commission

Decision may be appealed to City Council
pursuant to Zoning Code Sections 33-1265 and 33-1304.

EXHIBIT A

FINDINGS OF FACT

92-32-PPL/ER 92-45

1. The request for waiver of parking requirements is consistent with Section 33-767 of Article 39 (Off-street Parking Ordinance) which allows the Planning Commission, by resolution, to waive or modify off-street parking requirements for corporation storage yards.

2. The expansion, which is located on a non-contiguous parcel to the existing storage yard, will have no new structures, only fenced storage areas.

3. The personnel operating the storage yard will be taken from the personnel at the existing yard; no new personnel will be hired. Employees will park at the existing yard on North Spruce and be transported to West Washington in City vehicles and dropped off, thereby eliminating the need for parking at the West Washington site.

4. If, in the future, structures are proposed on the West Washington site, a new plot plan review will be required and parking will be provided, pursuant to the Off-street Parking Ordinance, at that time.

EXHIBIT B

RON GEROW...DO WE NEED TO PUSH SOMEONE (LIKE BERNARDIN) TO GET OR KEEP THE PUBLIC WORKS YARD NEW 10 ACRES MOVING????? ANY THOUGHTS?? MIKE ADAMS
**** ANNOTATION BY RG1 ****
**** ON 04/01/93 AT 13:41 **
MIKE;
OUR PLANS WE ALL HAD PREVIOUSLY MADE WERE ABORTED WHEN THE GOLF COURSE CAME UP ABOUT 15,000 CY'S SHORT OF DIRT, & SO SAN PASQUAL DIRT IS NOT AVAILABLE FOR THE CORP YARD. JIM AND HANK HAVE MET TO DETERMINE HOW THE GRADING PLAN CAN BE MODIFIED TO CHANGE THE SLOPES TO OMIT THE STORM DRAINS FOR NOW; JIM IS ALSO WORKING TO FINALIZE THE FILL LEFT ONSITE FROM THE ROCK SPRINGS PROJECT (IT WASN'T DONE PROPERLY).

I'M GOING TO SET ANOTHER MEETING FOR THE WEEK OF YOUR RETURN (YOU WILL RETURN, WON'T YOU) TO REGROUP & SET A NEW PLAN.....

RON G.

CITY OF ESCONDIDO
Planning Commission

Agenda Item No.: F.1
Date: January 12, 1993

TO: **Planning Commission**

FROM: **Planning Staff**

SUBJECT: A request for a waiver of parking requirements for the Public Works Storage Yard Expansion located at 903 West Washington Avenue (Related Case File: 92-32-PPL).

STAFF RECOMMENDATION: Approval

GENERAL PLAN DESIGNATION/TIER: PI (Planned Industrial)/Tier 1 Central

ZONING: M-2 (General Industrial)

ENVIRONMENTAL DETERMINATION:

Negative Declaration ER 92-45 was issued December 16, 1992. Staff feels that this environmental review addressed the parking issue associated with the project, and found that waiving the off-street parking requirement had no adverse environmental impacts.

BACKGROUND:

This request is associated with a proposed expansion of the Public Works Corporate Storage Yard on vacant land located on the south side of West Washington, west of Rock Springs Road. Three fenced storage areas will be created for police impound vehicles, sand, gravel, road grindings, landscape materials, street lights, sign poles, pipe, etc.; and various pieces of equipment that will be used and kept on-site for the operation of the yard and for the maintenance of City property (dump trucks, forklifts, bobcats, etc.).

Section 33-767 of the Zoning Code allows the Planning Commission, by resolution, to waive or modify off-street parking requirements for corporation storage yards or other similar uses requiring very limited number of persons for operations; this Section is directly applicable to this project.

ANALYSIS:

Consistency of Request With the Off-Street Parking Ordinance:

Generally, the Zoning Code requires a ratio of 1 parking space for every 5,000 sf of storage area required. For this project, the proposed storage area of 186,816 sf would produce a requirement of 37 parking spaces based on a ratio of 1:5000. However, because this project is both a corporation storage yard and will have a limited number of persons handling the operations, it is consistent with Section 33-767 of the Off-Street Parking Ordinance which allows this parking requirement to be waived.

No permanent structures will be built, on this site, except for screen fences around the yard's perimeter and fences around the storage areas. No additional personnel will be hired; the personnel from the North Spruce Yard will be operating both yards. When personnel is needed at the West Washington Yard, they will park at the North Spruce Yard and be driven over and dropped off, thereby eliminating the need for employee parking at the new yard.

If in the future employee parking at the West Washington Yard is needed, the Plot Plan will be modified and reviewed for provision of a parking area consistent with code requirements, but at this time no such need exists.

The existing City Corporation Yard, located on North Spruce Street, provides the necessary parking for 147 employees' vehicles and for pool vehicles. The Corporation Yard expansion, located northwest of the existing Corporation Yard and across the Flood Control Channel, will be utilized for outside storage only, which is permitted in the M-2 Zone; no personnel will be assigned to the Yard. Therefore, the existing parking provided at the North Spruce location is adequate for both locations.

The project has been reviewed and recommended for approval by the Design Review Board and by Planning Staff. Final approval of the Plot Plan application is pending this review by the Planning Commission for waiver of the off-street parking requirement.

Respectfully submitted,

Jo Ann Alpert

Hi Ron & Mike:

Just a note to let you know
that the Corp Yd expansion
rcv'd NO negative comments
during the Neg Dec noticing
period. The Parking Waiver
will be heard by the PC tonite
& we think that should go
well. There is a 10 day
appeal period after the
Parking Waiver Reso is filed
in the City Clerk's Ofc, so we
anticipate Jan 28 to be the
date we can proceed with Plot
Plan/Grading Plan approvals.
There is a Plot Plan letter
for Ron to sign at that time
also. I have it typed &
waiting in the file. Jo Ann

SUBJECT: Environmental Review Determination, Initial Study, Case No. ER 92-45
(Plot Plan: 92-32-PPL)

Dear Ron:

An analysis of your Environmental Review application has resulted in the enclosed "Notice of Proposed Negative Declaration," issued in draft form. Issuance of this document indicates the City determined the following finding applies to the proposed project:

> There is no substantial evidence that the project may have a significant effect on the environment.

Public notice of the Proposed Negative Declaration has been distributed for a public review period, ending on January 6, 1993. Depending on the relevance of any public comments received during the public review period, staff reserves the right to change the terms and conclusions of this "Proposed Negative Declaration."

Comments from various City Departments and/or agencies regarding the proposed development plans are also enclosed. These comments are preliminary in nature, and do not represent the City's final staff recommendation on the proposal. The comments are conveyed for your convenience, and are intended to provide advance notice of potential concerns expressed by individual departments. Please note that if any comments require a revision to your development plans or identify specific submittal requirements, these items must be addressed or your development application will be considered incomplete. If you have any questions regarding the details or appropriateness of any comment, please contact the appropriate individual department; your Planning Department contact is JoAnn Alpert (ext. 4554).

DEPARTMENT COMMENTS

Planning Department

1. Additional screening along Washington Avenue shall be provided by installing slats in the six-foot-high chain link fence in combination with nineteen (19), 24-inch box-size trees and enhanced landscaping as shown in the landscape plans that have been prepared.

2. A City project to widen Escondido Boulevard, between Crest Street and Decatur Way has resulted in the removal of seven (7) mature Eucalyptus trees. The required mitigation for the loss of these trees was to replace them at a 2:1 ratio with 18-inch to 24-inch box-size trees. Only five (5) of these trees could be planted in the immediate area. A proposal to plant the remaining nine (9) replacement trees off-site was found to be acceptable. This project, Corporate Yard Expansion, proposes to mitigate the nine (9) trees on this site by increasing the size of twelve (12) of the street trees from 15-gallon to 24-inch box size trees. The Parks and Recreation Superintendent has approved this proposal as a sufficient mitigation measure for the Escondido Boulevard project.

3. Perimeter screening, on the west side and rear property lines, is to be provided by enhanced landscaping to include Eucalyptus (Red Gum and Bushy Yate), California Pepper trees (Schinus molle) and shrubs (Acacia, Myoporum and Lantana) as shown on the proposed landscape plan submitted with the application.

4. Because adequate employee parking for the proposed expansion, as defined in the Parking Code, is not available at the existing Public Works Yard and no employee parking will be provided on this site, the Planning Commission will be consulted for a waiver of on-site parking requirements pursuant to Article 39, Section 33-767 (Off-street Parking Ordinance) because no additional employees will be hired as a result of this yard expansion.

5. The City of Escondido hereby notifies the applicant that State Law (AB 3158) effective January 1, 1991, requires certain projects to pay fees for purposes of funding the California Department of Fish and Game where the proposed project creates a potential for adverse environmental impacts on fish and wildlife resources. The fees may be waived for projects which are found by the Planning Department, and the California Department of Fish and Game to have a de minimus impact on fish and wildlife resources. Based on the completed Initial Study, the Planning Department finds that the proposed project will not encroach upon wildlife habitat area, will have no potential adverse individual or cumulative effects on wildlife resources, and requires no mitigation measure to be incorporated into the proposed project which would affect fish or wildlife resources. Therefore, the project will have a de minimus impact and no Fish and Game fee will be required.

NEGATIVE DECLARATION

CASE NO.: ER 92-45 (Related Case File: 92-32-PPL)

DATE ISSUED: December 16, 1992

PUBLIC REVIEW PERIOD: December 17, 1992 to January 6, 1993

LOCATION: South side of Washington Avenue, east of Rock Springs Road, addressed as 903 West Washington Avenue.

PROJECT DESCRIPTION: Expansion of the existing Public Works Corporate Storage Yard, onto a separate parcel in the vicinity of the existing Yard, including the proposed development of storage areas: police impound vehicle lot; streets, utilities, and parks storage (streetlights, fencing, sand, gravel, road grindings, vehicles/ equipment etc.); and warehouse storage (pipe, surplus/ auction items). The total area devoted to storage is approximately 3.56 acres with the remainder of the 10-acre site kept open for equipment and vehicular access. The parcel is zoned M-2 (General Industrial), and is located in the General Plan designated area of Planned Industrial - Tier 1 Central. The related plot plan case number is 92-32-PPL.

APPLICANT: City of Escondido

An Initial Study has been prepared to assess this project as required by the California Environmental Quality Act and Guidelines and Ordinances and Regulations of the City of Escondido. The Initial Study is on file in the City of Escondido Planning Department.

FINDING:

The findings of this review are that the project will not have a significant effect on the environment since there is no substantial evidence in the record to indicate project related impacts are potentially significant.

NOTICE OF PROPOSED NEGATIVE DECLARATION

The Escondido Planning Department has prepared a Negative Declaration for the project described below. This preliminary finding means that there will be no significant environmental effects from the project, as long as impacts are mitigated by conditions of project approval. The description of the project is as follows:

ER 92-45:

LOCATED: South side of Washington Avenue, east of Rock Springs Road, addressed as 903 West Washington Avenue.

APPLICANT: City of Escondido

PROJECT DESCRIPTION: Expansion of the existing City Public Works Corporate Storage Yard, onto a separate parcel in the vicinity of the existing yard, including the proposed development of storage areas: police impound vehicle lot; streets, utilities, and parks storage (streetlights, fencing, sand, gravel, road grindings, vehicles/ equipment etc.); and warehouse storage (pipe, surplus/ auction items). The total area devoted to storage is approximately 3.56 acres of the 10-acre site which is zoned M-2 (General Industrial), and is located in the General Plan designated area of Planned Industrial - Tier 1 Central. The related plot plan case number is 92-32-PPL.

The review and comment period will end January , 1993. A copy of the Environmental Initial Study and the Negative Declaration are on file and available for public review in the Escondido Planning Department, at 201 North Broadway. Written comments relevant to environmental issues will be considered if submitted to the Planning Department prior to 5 p.m., January , 1993.

This project has NOT been approved or denied. It has been reviewed for environmental impact only. Administrative approval of this case is anticipated on or about December , 1992, as long as written comments during this public review period for this Initial Study do not raise relevant environmental issues which were not considered in this analysis.

Further information may be obtained by contacting **JoAnn Alpert** at the Planning Department, telephone (619) 741-4671. Please refer to Case No. ER 92-45.

SUBJECT: Environmental Review Determination, Initial Study, Case No. ER 92-45
(Plot Plan: 92-32-PPL)

Dear Ron:

An analysis of your Environmental Review application has resulted in the enclosed "Notice of Proposed Negative Declaration," issued in draft form. Issuance of this document indicates the City determined the following finding applies to the proposed project:

> There is no substantial evidence that the project may have a significant effect on the environment.

Public notice of the Proposed Negative Declaration has been distributed for a public review period, ending on January , 1993. Depending on the relevance of any public comments received during the public review period, staff reserves the right to change the terms and conclusions of this "Proposed Negative Declaration."

Comments from various City Departments and/or agencies regarding the proposed development plans are also enclosed. These comments are preliminary in nature, and do not represent the City's final staff recommendation on the proposal. The comments are conveyed for your convenience, and are intended to provide advance notice of potential concerns expressed by individual departments. Please note that if any comments require a revision to your development plans or identify specific submittal requirements, these items must be addressed or your development application will be considered incomplete. If you have any questions regarding the details or appropriateness of any comment, please contact the appropriate individual department; your Planning Department contact is JoAnn Alpert (ext. 4554).

Sincerely,

Barbara Redlitz

Therefore, the project will have a de minimus impact and no Fish and Game fee will be required.

PL\T1123-17

INITIAL STUDY PART II
Supplemental Comments
ER 92-45
(Related Case 92-32-PPL)

The Corporate Yard Expansion will occur on a separate parcel of land on West Washington Avenue. At this time, there is no ~~land~~ physical connection between the existing Yard and the expansion parcel. The West Washington parcel is ~~now~~ vacant land dotted with mature Eucalyptus trees and low growing ~~mature~~ native vegetation. The yard will have three fenced storage areas, with the ~~rest of~~ remainder of the site available for vehicular access. No structures are planned at this time.

1. EARTH

Grading will be performed to fill an existing drainage ditch and to redirect drainage to a new storm drain, to remove soil that has been dumped and stored on this site, and to create level storage areas. However, no significant impacts will result because the site is essentially flat with no unique geologic features, and the proposed development and associated grading will not result in unstable earth conditions, changes to geologic substructures, or exposure of people or property to geologic hazards. As the site will be overlaid with road grindings, no wind or water erosion will occur.

2. AIR

There will be no substantial air emissions or objectionable odors associated with the storage of impound vehicles, the storage of various construction materials, or the loading and unloading activities.

3. DRAINAGE

The amount of runoff will not significantly increase because no impervious surfaces will be constructed. A drainage plan has been prepared that will provide a better pattern of drainage for the site and will handle a greater volume of runoff by directing it to a new storm drain facility.

4. BIOLOGICAL INVENTORY

The site contains a substantial number of mature Eucalyptus trees, including a stand of Eucalyptus immediately adjacent to Washington, and individual trees scattered on the interior of the site. Approximately 11 trees will be removed to allow for filling the drainage ditch and to clear for the storage areas; however, the stand of Eucalyptus adjacent to Washington Avenue will be preserved. No significant impacts will occur because the proposed landscape plan provides extensive new plantings along the west and south property lines which will include a mix of shrubs and 15-gallon and box-size trees.

The existing earthen drainage swale, which transverses the site, has no wetland vegetation and is not considered a stream course. Therefore, no adverse impacts are anticipated as a result of its being filled during grading.

The proposed development will not result in any impact on the City's biological resources, the plant life and/or the animal life since the site does not contain any significant vegetation other than Eucalyptus trees. Additionally, the site is not listed on the City's Biological Resources Inventory. It has further been found by the Planning Department that the proposed development will have a de minimus impact on the fish and wildlife resources as no riparian habitat or stream courses occur on site. ~~Note relationship to mitigation required for South Escondido Boulevard widening.~~

5. NOISE

There will be some increase in noise due to the operation of trucks and equipment in the storage yard. However, it will not exceed the levels of noise permitted in a heavy industrial zone (M-2), pursuant to the Noise Ordinance.

6. LIGHT AND GLARE

No lighting is proposed.

7. LAND USE

The proposed Public Works Yard is consistent with the underlying zoning of heavy industrial (M-2). The land is now vacant and is surrounded by existing industrial uses.

8. NATURAL RESOURCES

The storage yard will not be consuming any natural resources, therefore, this project will not result in an increased rate of consumption or depletion of any nonrenewable natural resource. The project will facilitate the City's recycling efforts by providing new storage areas.

9. RISK OF UPSET

The proposal does not involve a risk of explosion or the release of hazardous substances since items being stored are not potentially explosive. Should an emergency situation occur, a clear access of 20 feet in width will be maintained adjacent to the storage areas for emergency vehicle access.

10. POPULATION

This project will not increase the density of the population or growth rate of Escondido since existing Public Works Staff will be operating the storage yard functions.

11. HOUSING

There will be no effect on existing housing and no demand for additional housing since this is not a residential project and existing staff will run the yard.

12. TRAFFIC/CIRCULATION

No paved parking areas are proposed on site. The Parking Code would require approximately thirty-seven (37) new parking spaces based on the storage use. The existing storage yard cannot accommodate these additional parking spaces for the yard expansion. However, the Zoning Code has a provision, Section 33-767, that allows a waiver of parking requirements for special uses, including corporation storage yards, with Planning Commission approval. Also, there will be no additional employees hired because existing employees will perform the functions at the new storage yard. These employees will continue to park in the existing storage yard parking lot which is adequate to accommodate existing staff levels. A request to waive the on-site parking requirement will be made to the Planning Commission.

There will be various pieces of equipment parked on the site used in the daily operations of the Corporate Yard such as dump trucks, forklifts, bobcats, riding mowers, etc. Except for the fenced in storage areas, the entire site, which will be overlaid with road grindings, will be traveled by these vehicles and equipment.

13. PUBLIC SERVICES

No additional public services will be required for the proposed project since there will be no structures to serve. Irrigation will be installed for the new landscape; however, there are existing water lines in the street from which the service can be taken.

14. ENERGY

The project will not be using any fuel or energy, other than to run the equipment, since there are no structures to be built at this time.

15. UTILITIES

The proposed project will not result in a need for any new gas, electric, water, or sewer systems since the site will only be used for storage purposes and has no associated structures.

16. HUMAN HEALTH

The proposed development will not create any health hazards or potentially expose people to health hazards, since the project will comply with all applicable codes.

17. AESTHETICS

The site is not visible from the I-15 corridor. The peripheral views will be screened by new plantings of trees and shrubs. A combination of a six-foot-high chain link fence with slats and box-size trees will be added to the planting of shrubs and 15-gallon trees along West Washington to provide additional screening measures. Also, the existing stand of mature Eucalyptus trees on West Washington will be preserved.

18. RECREATION

As an industrial development, this project has no effect on recreational facilities.

19. ARCHEOLOGICAL/PALEONTOLOGICAL

The site is not listed on the archaeological resources sites inventory list; therefore, the project will not have any significant impact on the archaeological resources of the City.

20. MANDATORY FINDINGS OF SIGNIFICANCE

In staff's opinion, the proposed development will not have any significant impacts that directly or indirectly degrade the quality of the environment or adversely affect human beings directly or indirectly, since the site does not contain any sensitive plant/animal species, or important historic/prehistoric sites; no impacts have been identified which are individually limited but cumulatively considerable; and there is not potential to harm long-term environmental goals.

Mike & Ron:
Update on Corp Yd Expansion

The Plot Plan is scheduled for Design review on Thurs Dec 17 at appx. 9:15 am. The Neg Dec is in typing and w/b ready to publish next week, hopefully. There will be a 21 day ntc period for the Neg Dec. I am working on the Planng Comm report for the parking waiver. Due to PC mtgs being reduced in number during the holidays, the 1st available opening is Jan 26 to hear the waiver request. However, if a case from Jan 12 drops out I have asked that we move the waiver up to that mtg.

I will provide you with a copy of the Neg Dec & the PC report for your review prior to issuance. Jo Ann

**** ANNOTATION BY BJR ****
**** ON 12/10/92 AT 09:39 **
JO ANN,
IF THE WAIVER IS READY TO GO ON THE PC 1/12 MEETING, LET'S MAKE ROOM FOR IT, DESPITE A HEAVY AGENDA. (IN CANCELLING THE 12/22 PC MEETING, THE PC WAS AWARE THAT THEY WOULD LIKELY HAVE A HEAVY AGENDA IN JANUARY, AND DIDN'T WANT ANYONE TO BE DELAYED BY THEIR DECISION TO CANCEL THE DEC MTG). PLS PLAN TO HAVE THE REPORT READY FOR PC DISTRIBUTION BY 1/6, INCLUDING REVIEW BY ENG DEPT OF THE STAFF REPORT. OBVIOUSLY, IF SOMETHING COMES UP THAT THE NEG DEC REVIEW PERIOD IS DELAYED UNTIL AFTER THE 12TH, ITEM WILL HAVE TO BE BUMPED TO 1/26. BARB

EXPANSION OF CITY CORPORATION YARD

PARKING

The existing City Corporation Yard, located on North Spruce Street, provides all necessary parking, both for employees' vehicles and for pool vehicles, for the corporation yard operation. The corporation yard expansion, being in close proximity to the existing corporation yard, will be used for exterior storage only; no personnel will be assigned there. Therefore, all required parking for the Corporation Yard operation will continue at the North Spruce Street site. When an employee needs to access the corporation yard expansion site on Washington Avenue, he will be dropped at the site by a vehicle from the North Spruce Street site. Employee and pool parking will not be allowed at the Washington Avenue site.

HEAVY EQUIPMENT STORED ONSITE:

ESCONDIDO PLANNING DEPARTMENT — Questions & Prelim. Review

CHECKLIST FOR GP 1502
Corporation Yard Expansion

REQUIREMENTS NOT COMPLETE — ESTIMATED PROCESSING TIME

1. ✓ Indicate on plan that ~~existing~~ grindings, etc. are to be removed. ✓
2. Show height of new fence to be installed — both perimeter and around new storage areas. Indicate if slats will be installed in any of the fencing — we recommend screening around storage areas & impound area.
3. Indicate where site lighting will occur
4. ✓ Indicate more clearly where the road is to storage areas, if it will be gravel or paved, or if trucks, etc. will be randomly driven over the site.
5. ✓ Need hours of operation — when loading, unloading, etc. will take place.
6. ✓ Provide sheet 1 of grading plan - 2 additional (If only received multiple copies of ~~sheet~~ 2 of 2 copies)
7. ✓ Indicate total area of storage & impound lot as shown on plan.

All of these requirements must be met prior to Planning Department ~~clearance~~ issuance of the Neg. Declaration. The estimated processing times reflect time required to process each individual item based upon current workloads and may be subject to change without notice. Any or all of these items may be processed simultaneously. Therefore, it is most prudent to submit all of the requirements at one time and allow for the longest listed processing time. Any and all submittals to the Planning Department must be accompanied by a copy of this checklist indicating which items are being submitted.

JoAnn Alpert — Planner | Planner II — Title | 10.27.92 — Date

8. Add Detail note regarding the filling in of the existing drainage ditch and that it will be replaced by new storm drain system.

ESCONDIDO PLANNING DEPARTMENT

CHECKLIST FOR Landscape Plan - Questions & Preliminary Review - Corp. Yard Expansion

REQUIREMENTS NOT COMPLETE — ESTIMATED PROCESSING TIME

1. Indicate what will be done for erosion/dust control on areas of site that are not used for storage or roadways (Suggest non-irrigated hydroseed with temporary irrigation until it is established)

2. Since there can be no significant planting along the easterly property line, due to new 54" storm drain, another method of screening should be provided (Slats in fence, vines on fence, or ?) Slope area should have a min. of ground cover if 3ft or higher.

3. Can any landscape be provided in mounded area at center front portion of the site?

4. Will perimeter fences have slats? (This may be determined to be appropriate after Design Review). If not, have vines been considered?

All of these requirements must be met prior to Planning Department ~~clearance~~ issuance of the Neg. Dec. . The estimated processing times reflect time required to process each individual item based upon current workloads and may be subject to change without notice. Any or all of these items may be processed simultaneously. Therefore, it is most prudent to submit all of the requirements at one time and allow for the longest listed processing time. Any and all submittals to the Planning Department must be accompanied by a copy of this checklist indicating which items are being submitted.

JoAnn Alpert	Planner II	10.26.92
Planner	Title	Date

5. Add scale to Landscape plan

6. Change legend so Euc. symbol matches plan Lehmanni

CORPORATION YARD EXPANSION

Design Section comments to Planning Dept. requirements
dated October 28, 1992

1. Indicate on plan that the existing grindings, etc are to be removed.

   Added note to plan indicating that the existing grindings are to be used in storage areas in lieu of gravel.

2. Show height of new fence to be installed, both perimeter and around new storage areas. Indicate if slats will be installed in any of the fencing. ....

   The reference legend on the grading has been changed to describe the new chain link fencing as 6 foot in height without slats. All screening is to be provided by trees and shrubs along the perimeter of the site with no additional screening to be provided.

3. Indicate where site lighting will occur. PD req'd for improved

   At this stage of site development no on site lighting will be installed.

4. Indicate more clearly where the road is to the storage areas, if it will be gravel or paved, or if trucks, etc. will be randomly driven over the site.

   The on site areas are to be covered with asphalt grindings. This will allow vehicles to travel over any area on site. No further delineation of roadway is needed. Noted location on plan.

5. Need hours of operation - when loading, unloading etc. will take place.

   Normal operating hours hours are 7:00 a.m to 5:00 p.m.

6. Provide sheet 1 of grading plan. - 2 additional copies

   Design Section will provide these.

7. Indicate total area of storage and improved lot as shown on the plan.

   These areas are now shown on the grading plan and on L.S. reference plan.

8. Add detail note regarding the filling in of the existing drainage ditch and that it will be replaced by a new storm drain system.

   Note has been added.

9. Indicate what will be done for erosion/dust control on areas of the site that are not used for storage or roadways. .....

   Since the entire storage and improved areas are to have asphalt grindings compacted in place there is no need for any additional erosion/dust control. ..... Hydroseeding would soon become a continuing maintenance headache on site.

CORPORATION YARD EXPANSION

Design Section comments to Planning Dept. requirements
dated October 28, 1992

10. Since there can be no significant planting along the easterly property line, due to the new 54" storm drain, another method of screening should be provided ..... slope area should have a minimum of ground cover if 3 foot or higher.

Engineering prefers not to have wood slats in fence, vines etc. in the easterly fence. This fence is not on City property. The City is reluctant to demand that slats be placed in the private fence. The sloped area along the easterly property line is less than 3 foot in height.

11. Can any landscaping be provided in the mounded area at the center front portion of the site?

Mounded area is for the future building pad site. No trees or new landscaping are planned or recommended due to the necessity of their removal and disposal at a yet to be determined future date.

12. Will perimeter fence have wood slats .....?

Slats in fence will not be necessary because of the intense planting of shrubs and trees along the property's perimeter. This topic was discussed by members of the Planning Dept. , and Parks and Recreation Dept. prior to placing the plans on paper. In lieu of wood slats, trees and shrubs will provide a more affective sight and sound buffer.

13. Add scale to Landscape Plan.

All current plans have scales. Only the drawing given to Planning Department "The Big Picture" did not show the scale. The scale is 1" = 40 feet, and is now shown.

14. Change legend so that Euc. Lehmanni symbol matches plan.

The real landscape plans show the symbol accurately in the legend as well as the plans. The drawing given to Planning for reference only is insignificantly in error due to a plotter glitch.

DESIGN ENGINEERING IS WILLING TO DISCUSS ANY OF THE WRITTEN REPLIES HEREIN. PLEASE CONTACT ME AT EXTENSION 4574.

Sincerely, Henry Hildebrant

ESCONDIDO PLANNING DEPARTMENT Questions & Prelim. Review

CHECKLIST FOR GP 1502

Corporation Yard Expansion

REQUIREMENTS NOT COMPLETE — ESTIMATED PROCESSING TIME

1. Indicate on plan that existing grindings, etc. are to be removed.
2. Show height of new fence to be installed — both perimeter and around new storage areas. Indicate if slats will be installed in any of the fencing — we recommend screening around storage areas & impound area.
3. Indicate where site lighting will occur
4. Indicate more clearly where the road is to storage areas, if it will be gravel or paved, or if trucks, etc. will be randomly driven over the site.
5. Need hours of operation — when loading, unloading, etc. will take place.
6. Provide sheet 1 of grading plan - 2 additional copies (I only received multiple copies of sheet 2 of 2)
7. Indicate total area of storage & impound lot as shown on plan.

All of these requirements must be met prior to Planning Department ~~clearance~~ issuance of the Neg. Declaration. The estimated processing times reflect time required to process each individual item based upon current workloads and may be subject to change without notice. Any or all of these items may be processed simultaneously. Therefore, it is most prudent to submit all of the requirements at one time and allow for the longest listed processing time. Any and all submittals to the Planning Department must be accompanied by a copy of this checklist indicating which items are being submitted.

JoAnn Alpert — Planner | Planner II — Title | 10.27.92 — Date

8. Add Detail note regarding the filling in of the existing drainage ditch and that it will be replaced by new storm drain system.

ESCONDIDO PLANNING DEPARTMENT

CHECKLIST FOR Landscape Plan - Questions & Preliminary Review - Corp. Yard Expansion

REQUIREMENTS NOT COMPLETE — ESTIMATED PROCESSING TIME

1. Indicate what will be done for erosion/dust control on areas of site that are not used for storage or roadways (Suggest non-irrigated hydroseed with temporary irrigation until it is established)

2. Since there can be no significant planting along the easterly property line, due to new 54" storm drain, another method of screening should be provided (Slats in fence, vines on fence, or ?) Slope area should have a min. of ground cover if 3ft or higher.

3. Can any landscape be provided in mounded area at center front portion of the site?

4. Will perimeter fences have slats? (This may be determined to be appropriate after Design Review). If not, have vines been considered?

ll of these requirements must be met prior to Planning Department ~~clearance~~ issuance of the Neg. Dec. . The estimated processing times reflect time required to rocess each individual item based upon current workloads and may be subject to change thout notice. Any or all of these items may be processed simultaneously. Therefore, it s most prudent to submit all of the requirements at one time and allow for the longest isted processing time. Any and all submittals to the Planning Department must be ccompanied by a copy of this checklist indicating which items are being submitted.

JoAnn Alpert — Planner | Planner II — Title | 10.26.92 — Date

5. Add scale to Landscape plan
6. Change legend so Euc. symbol matches plan Lehmanni

SUBJECT: Letter of Intent for Lease

Dear Ms. Walton:

We are in receipt of your recent letter dated August 21, 1992 regarding a proposed lease of a portion of the 10 acre Public Works Yard site on Washington Avenue. As we indicated to you, at our earlier meeting, we look forward to viewing your crushing sites in Temecula and Victorville but have not made any decision regarding lease of the future Public Works Yard site. We also explained to you, at our earlier meeting, that if we did decide to lease any City property that we would most likely have to competitively bid the lease. We will be reviewing this detail with our Attorney's Office.

Sincerely,

Mike Adams
Director of Public Works

RE: Letter of Intent for Lease

Dear Mr. Adams.

Thank you for your letter of receipt dated September 8, 1992. We too are looking forward to your visit on the 17th of this month for a tour of two of our sites. I wanted to remind you of our experience with the State of California in getting projects generated such as the one proposed in the City of Escondido. I believe we discussed at the meeting the possibility of forming this project to occupy City property as a **PILOT PROJECT in recycling.** I understand that there has not been any decisions made in regards to the Property. The Letter of Intent was only meant to give form to a concept so your Legal office could review the information. The advantages are many, reduced maintenance costs, avoidance of tipping fees for disposal; discounted aggregate base expenditures; lower transportation costs; conservation of landfill space; accurate diversion statistics;lease revenue to the City; extending quarry life as well as replacing barrels of oil when reclaimed asphalt concrete is recycled as asphalt.

Thank you again for your input and review of Crush Masters Pilot Project Proposal. Please feel free to have your legal dept contact me directly. See you on the 17th !!

Sincerely,

Marcia Walton

City of Escondido
Department of Public Works
475 N. Spruce
Escondido, CA.

RE: Letter of Intent for Lease of Approximately ten (10) acres of City of Escondido, Department of Public Works Property located at Washington Street, Escondido, California.

This letter is intended to outline the general terms and conditions under which Crush Masters ("Lessee") would enter into a lease agreement ("Lease") with landowner ("Lessor") for the above referenced property ("Property");

1. **Property.** The property shall consist of approximately ten (10) acres of Lessors's Public Works Property located at Washington Street, Escondido. The actual boundaries determined by Lessor, subject to approval by Lessee.

2. **Property Use.** Lessee intends to collect and store concrete and asphalt ("Material") on the Property, and recycle it into aggregate road base.

3. **Lease Term.** The Lease term shall be for a period of five (5) years ("Lease Term"), and shall commence ten (10) days after Lessee obtains all Use Permits (as defined in item 7 below).

4. Option to Extend Lease Term . Upon expiration of the Lease Term, Lessee shall have the option to extend the Lease Term for an additional five (5) year period, provided that Lessee is not in default of any of the terms and conditions of the Lease.

5 Indemnity. Lessee shall agree to indemnify and hold Lessor harmless for any and all costs, damages and liabilities incurred as a result of Lessee's use of the Property.

6 Tipping Privileges. During Lease Term, the City of Escondido Department of Public Works shall be entitled to deposit clean material, as determined by Lessee, at the property free of charge. The foregoing tipping privileges are only applicable to material which is generated by the City of Escondido. Lessee shall provide lessor with an accounting of the total monthly tonnage deposited at the property by the City of Escondido, within seven (7) days from the end of each month.

7. Material Privileges Crush Masters will provide the City of Escondido with Class II spec road base material (or designated specified material) at a fee of $3.50 per ton. Crush Masters will provide the City of Escondido with a total monthly tonnage of recycled base material utilized by the City of Escondido within seven (7) days of each month.

8.Rent. shall pay to Lessor rent in the sum of Three Thousand Dollars ($3,000) per month.

9. Use Permits. The Lease is contingent upon Lessee obtaining all permits necessary to commence business operations upon the Property, including without limitation, conditional use, signnage, air quality, water resources, and/or all other applicable use of environmental permits ("Use Permits"). All Use Permits shall be obtained at Lessee's sole cost and expense. In the event Lessee is unable to obtain any Use Permit(s), or the cost to obtain Use Permit(s) is excessive, as determined by Lessee, Lessee may terminate the lease upon written notice to lessor.

10. **Restoration**. Upon expiration of the Lease, Lessee shall restore the Property to its original condition.

11. **Insurance.** Lessee shall maintain a policy of Liability of Insurance on the Property in the face amount of One Million Dollars ($1,000,000) and shall name the Lessor as an Additional Insured.

12. **AB 939 Diversion Statistics.** Lessee shall provide Lessor with diversion statistics regarding the total volume of material that was diverted by the City of Escondido.

13. **Ownership of Material; Gate Fee.** Lessee shall assume ownership of all material accepted for deposit on the Property. All gate fees collected by Lessee for the deposit of Material shall be retained by Lessee as its sole property.

The foregoing is only an expression of some aspects of the proposed Lease transaction described above. It is understood that all of the material terms are subject to the preparation by Lessee, based on the foregoing, of a definitive Lease Agreement satisfactory in form to Lessor. The provisions of this Letter of Intent shall not be binding on either party unless and until a final written lease agreement is prepared and executed by both parties.

Sincerely,
CRUSH MASTERS

CITY OF ESCONDIDO

memorandum

August 20, 1992

TO: Jo Ann Alpert, Planner II

FROM: Ron Gerow, Real Property Agent

SUBJECT: City Yard Expansion Plot Plan, Case File 92-32 PPL

In response to your July 10 memo, I have been able to research and assemble the following information.

1. There are three storage areas proposed for the site. On the attached site plan, I have labeled each of these three storage areas. They are as follows:

   A. Police Impound Lot - In this storage area, there will be impounded cars and asset seizures from the Police Department. Incoming and outgoing traffic from this area will be minimal. The extent of vehicles and assets stored will fluctuate widely during the year, therefore, total numbers cannot be estimated.

   B. Streets, Utilities, and Parks Exterior Storage - This area will be utilized for the storage of sand, gravel, grindings, and cold mix—all in storage piles not exceeding 10 feet in height. Sign poles, street lights, fence poles, and fencing fabric will be stored on pallets and stacked—not exceeding six feet in height. Pavers, timbers, miscellaneous pipe, meter boxes, plants, planting material, and tree trimming chip piles will also be stored in this area.

   C. Warehouse Exterior Storage - This storage area will enclose pipe storage and surplus/auction items.

2. The above information should enable you to assess the adequacy of the landscaping design. I will have Neal Osias prepare a landscape design without all the matchlines, as you have requested.

3. Notification to SDG&E has been signed and is attached.

4. The assessor's number list has been retyped in the prescribed manner and is attached. When you can determine the fees to be paid to the County Assessor's Office and the *Times Advocate*, please let me know and I will process a warrant.

5. a. We do not plan to utilize any portion of the corporation yard for parking of vehicles. The existing corporation yard, adjacent to the property, will be utilized for employee and fleet vehicle parking.

   b. I have completed items 32 and 33.

   c. I believe that paragraph 1 above will give you the description of the project parameters which you need.

   d. There will be daily use of the storage yard. Materials stored will be added to and taken from on a regular basis. The types of equipment to be utilized will include trucks, dump trucks, forklifts, and miscellaneous yard equipment.

   e. We do not want to include future building plans at this time, because we are sure that any current plans would change before we are in a position to begin constructing any buildings on the property.

I think this answers all of the questions in your July 10 memo to me. Please let me know if there is any further information that I can provide you with.

CITY OF ESCONDIDO

memorandum

DATE: July 10, 1992

TO: Ron Gerow, etal.

FROM: Jo Ann Alpert, Planner II

SUBJECT: City Yard Expansion Plot Plan
Case File 92-32 PPL

Thank you for your submittal Ron, you did an excellent job on the panoramic photo display of the site. In doing a preliminary review, per your request, I have the following comments:

1. The site plan/garding plan does not delineate the various storage areas. As was mentioned in our previous meetings, we must know the location of these areas as well as the type and maximum height of the storage in order make assessments of the impacts on the surrounding properties and roadways. You may want to have a separate site plan from the grading plan for clarity of both. Please submit a site plan depicting this information.

2. Landscape Design: Again, we cannot assess the adequacy of the proposed landscape without knowing more about the storage areas. Also, if the landscape plan could be drawn at a scale that would eliminate all the matchlines we would like that to be done. This would make plan review alot easier for staff as well as the public.

3. The notification to SDG&E of your pending site improvements form was not signed in your submittal. I am attaching a copy of this form to your memo for signature and to be returned as part of the application package.

4. The assessors number list was not typed properly, the Assessor's Office requires a particular format for processing, which generates the labels that we use for public notice (I am attaching a copy of the format to be used and returning your list to you). Also, there are fees to pay to the Assessor's Office and the Times Advocate for publishing the Negative Declaration. Could you find out how these fees will be handled and let me know.

5. Initial Study:

   a. You have indicated that there is no parking, but parking will be required for fleet vehicles, and our parking

ordinance does calculate parking requirements for storage so we need to discuss this.

b. Items #32 and 33 must be completed

c. Please expand on description of project/project parameters (item #5)

d. Item #26 - Noise: We'll have to know more about the activities at the site in order to evaluate this (i.e., number and types of vehicles and their activities, how often are storage materials moved, dumped, etc). Please expand on this section.

e. Item #31 - Relationship to larger project: You've indicated no, but I want to be sure you don't want to mention future building plans. This could, of course, complicate the issues, but as long as you are aware that another environmental review will needed for the future buildings, we can just review for storage at this time.

Please share this memo with those who would be affected, and if you need any help or clarification please call me on x4554.

967-2828

Mr. Paul Price, Director
North County Transit District
311 South Tremont Street
Oceanside, CA 92054

Re: NCTD Escondido Yard/City of Escondido Corporation Yard

Dear Mr. Price:

The enclosed plat illustrates the City of Escondido's requirements for street dedication along Washington Avenue, affecting North County Transit District's proposed Escondido yard.

You will note that the street widening will require a redesign of the rail facilities, in that several switches are proposed to be located within the public right-of-way. There also is proposed storage area, parking access, and a guard house which will have to be relocated.

Due to the fact that your property is located adjacent to the City's property, it may well be that a land exchange between our two agencies, which could be occasioned by a boundary adjustment, could be beneficial to the overall development plans for each of our facilities. I am therefore recommending that, after your staff has had an opportunity to review the enclosed plat, we meet to discuss the resultant land use issues.

Sincerely,

Ron Gerow
Real Property Agent

JACK

HANK HAS FINISHED UP THE GRADING AND LANDSCAPING FOR THE NEW ADDITION (10 ACRES) TO THE PUBLIC WORKS YARD. WE ARE CHARGING AHEAD WITH PLANNING AND PERMITING BECAUSE WE NEED THE SPACE TO CLEAN UP/OUT THE EXISITNG SPRUCE YARD AND THE MUTUAL YARD.

GRADING AND LANDSCAPING WILL COST US PROBABLY OVER $100,000 (MOST OF THAT AMOUNT IS ALREADY IN THE BANK).

DO YOU KNOW WHAT IS HAPPENING ON THE RECYCLE FACILITY?

PLEASE ADVISE.....MIKE ADAMS

STAFF DEVELOPMENT COMMITTEE - PLOT PLAN REVIEW
Planning Department

PROPERTY ADDRESS: (None) Washington Av. CASE #:

Planning Commission
Escondido, California

DATE:

Requirement for Plot Plan Review
The Plot Plan Review Process shall be required for all buildings or developments containing two (2) or more dwelling units, and all office, commercial and industrial developments, regardless of size, or at the time a use changes which would require additional off-street parking.

Plot Plan Review shall not be required for properties covered by a Planned Unit Approval, Planned Development or by a Residential Subdivision of single family lots.

Proposed Use of Property
List or describe the intended uses of this proposed project.

City Corporation Yard

Assessor's Book 232 Page 090 Parcel No. 2, 4, 3, 40, 65 ZONING: M-2

Located: On the South side of Washington Ave.

between Hale Ave street and Spruce St street.

SIGNATURES
We, the undersigned, are owner(s) or agent(s) of the owner(s) of portions or all of the property described above. We realize that prior to issuance of a Building Permit, it will be necessary to submit and receive approval of our development through the Plot Plan Approval Process. (If necessary please attach sheet with additional signatures).

STAFF DEVELOPMENT COMMITTEE - PLOT PLAN REVIEW

Planning Department

PLOT PLAN REVIEW PROCEDURE

1. The applicant obtains from the office of the Planning Department an application f a Plot Plan Review, which must be signed by all the property owner(s) or authori: agent(s) requesting the review and giving the address, present zoning, and legal description of properties involved in the development.

2. Applicant prepares all documents and plans in accordance with the instruction she

3. Applicant submits ten prints of the plot plan, typical floor plan(s) and exterior elevations to a workable scale and submitted to the Planning Department.

4. The Staff Development Committee reviews the proposal and formulates a decision within four (4) weeks of the date of submittal of all required documents. The Plot Plan is approved, conditionally approved or disapproved by the Staff Development Committee.

5. The applicant is notified by mail as to the decision of the Staff Development Committee and any requirements of conditional approval.

6. The applicant may meet with Staff to resolve any deficiencies in the Plot Plan.

7. The applicant must submit seven corrected copies of the plot plan prior to final approval and issuance of building permits.

8. Building plans may be submitted for plan check after final approval has been grar by the Community Development Director.

INSTRUCTION SHEET FOR
STAFF DEVELOPMENT COMMITTEE - PLOT PLAN REVIEW -

A. Documents Required at Time of Submittal:

1. Fee
2. Application - Filled out and signed by owner or owner's agent.
3. Photostatic copy of title policy or preliminary title report.
4. Ten copies of the Plot Plan drawing.
5. Ten copies of the elevations and floor plans of the proposed development.
6. Complete legal description of subject property (on separate sheet if lengthy)

B. Items that MUST be included on the Plot Plan drawing:

1. Legal description of property.

2. Existing and future streets and rights-of-way.
   (a) Rights-of-way.
   (b) Distance from property line to center line of right-or-way.
   (c) Street widths and alley widths.
   (d) Intersections.
   (e) Existing fire hydrants within 300 feet of the perimeter of the property.
   (f) Size and location of existing sidewalk and curb cuts.
   (g) Existing easements.
   (h) Proposed street widening.
   (i) Proposed intersection radii (25' generally all zones).
   (j) Proposed hydrants, off-site; on site.
   (k) Proposed sidewalk and curb cut(s); size and location.
   (l) Proposed new easements; type, location and width.

3. Proposed and Existing Buildings or Structures with Accurate Dimensions and Setbacks.
   (a) Square footage each floor; total square footage.
   (b) Height of all buildings in feet and stories.
   (c) Proposed landscaping.
   (d) Dimensions of setbacks and distances between structures.

4. Parking Layout and Dimensions.
   (a) All parking spaces be numbered, total number of spaces.
   (b) Ingress and egress to include all private drives.
   (c) Loading facilities.
   (d) Lighting.
   (e) Layout and design of parking area.

5. Service areas.
   (a) Location of trash and garbage collection stations; size and access.

6. Location of any buildings or structures to be removed.

7. Type and use of all buildings and structures.

8. Location of natural drainage course -- areas subject to inundation; drainage easements.

9. Existing topography and proposed grading, if other than flat.

10. Site.
   (a) Scale and north arrow, with north pointing to the top of the drawing.
   (b) Description, type of development, name of developer.
   (c) Boundary of site with bearings and distances, dimensions and relationship of adjacent property.
   (d) Square footage of site (lot area).
   (e) Number of dwelling units and description (1-bedroom, 2-bedroom, etc.)
   (f) Lot coverage in square footage and per cent.
   (g) Location and height of all walls, fences.
   (h) Dimensions of paved areas and open spaces and recreation areas.
   (i) Paving specifications to be noted.
   (j) Location and dimensions of existing and proposed exterior doors, entryways, walkways, balconies, stairways, roof eaves, etc.

11. Location map including surrounding area and subject property cross-hatched or shaded - distance to center line of nearest cross street indicated.

12. Existing zoning of the property.

C. Drafting of Plot Plan:

1. Plat must be 24" x 30" or 24" x 36".
2. Border lines 22" x 28" or 22" x 34".

APPLICANT'S PLEASE NOTE: Pursuant to the City's recently adopted grading ordinance all development applications must be accompanied by a slope analysis depicting the following slope categories:

0% - 19.9%
20% - 30%
over 30%

Applicant's should obtain copies of the revised grading ordinance and note development requirements for each slope category.

DESIGN REVIEW PROJECTS

In addition to the listed Plot Plan or Public Hearing case submittal requirements, projects subject to Design Review shall include the following items:

1. Site Plan and photographs of buildings within 100 feet (100') of the project property lines.

2. Colored building elevations including landscaping (size at time of planting).

3. Description of building materials including colors and/or a color board.

4. Landscaping Plan at the same scale as the Site Plan showing size and types of all plant material, hardscape materials, outdoor furniture and fencing.

5. Specification of all existing trees designating removal, retention, or relocation on site.

6. Grading Plan including slope heights, inclination, and designation of cut or fill.

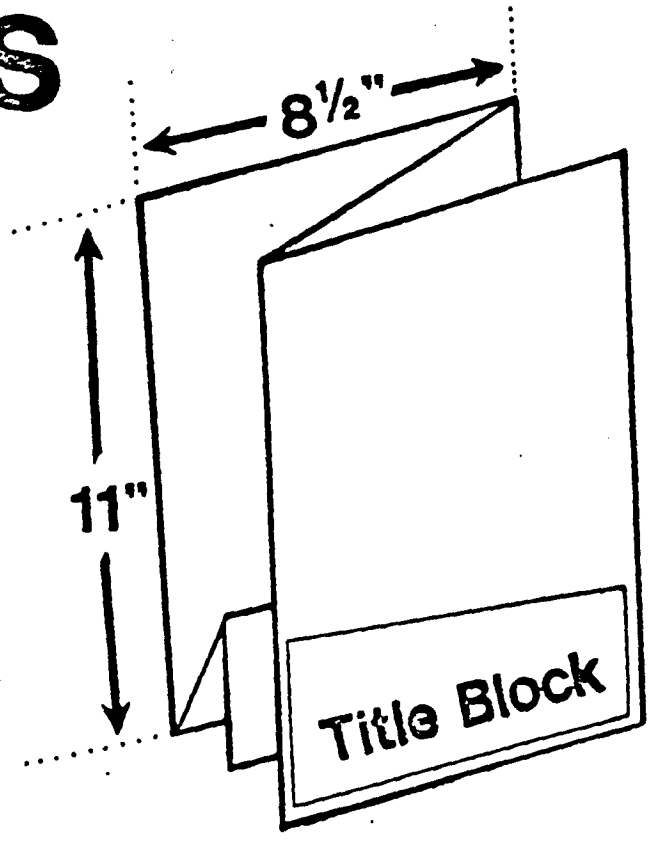
7. Signage Program which indicates colors, materials, location, size, etc. of any freestanding monument or pole signs, wall signs and tenant signs.

Please refer to the City Design Review Guidelines to ensure that the above submittals meet Review criteria. If there are conflicts, please state the reasons for varying from the Guidelines

NOTE: Applicable plans must be prepared and signed by a licensed design professional as required by State law.

NOTICE
TO APPLICANTS

All Subdivision and Development Plans must Be Folded as Follows:



The SDG&E Company's Gas Planning Department has requested notification of new projects proposed in Escondido for utility planning purposes only.

This is to certify that I have routed a copy of the site plan and project description to the SDG&E Gas and Planning Department addressed as:

SDG&E
P.O. Box 1831
San Diego, CA 92112

Attn: Land Management - Room 712

Signature of Owner or Applicant _____ Date _____

0313-10/9-3

ADDITIONAL APPLICATION REQUIREMENTS

1. A graphic bar scale is required on all project plans.

2. An Initial Study form must be completed and submitted with all Plot Plan applications.

3. For projects which will require multiple tenant signs, a sign criteria package shall be included in the submittal. The criteria shall include maximum letter height, maximum sign length, a list of preferred colors (3 max.), etc., as well as elevations of the structure(s) which indicate where signs are anticipated. Dimensioned plans and elevations of any desired freestanding sign shall also be included and will be evaluated against the Design Guidelines for signs in the Downtown Revitalization Area(available at the Planning counter).

******* PRE-APPLICATION MEETING *******

Pre-application meetings are required for all Plot Plan projects and Public Hearing (CUP, PD, Variance, etc) cases. Please call the Planning Department at (619) 741-4671 to schedule a meeting with the appropriate Planner.

APPENDIX A
DATE FILED: _____

LOG NO. EIR _____

CITY OF ESCONDIDO
INITIAL STUDY FORM - PART I
(To Be Completed by Applicant)

GENERAL INFORMATION

1. Name, address and telephone number of developer or project sponsor:

CITY OF ESCONDIDO, c/o Ron Gerow
x4568

2. ADDRESS OF PROJECT: South side Washington Ave,
Assessor's Parcel No. between Hale & Spruce 232-090-2,3,40,65

3. Name, address and telephone number of person to be contacted regarding this project:

Ron Gerow x4568

4. List other agencies which have, or must, approve the project:

5. Describe the proposed project (attach statement if necessary):

City Corporation Yard

6. Describe the type of application (Cond. Use Permit, Variance, etc.)

7. Size of parcel (acreage): 10.16

8. Square footage of each building: none

9. If a subdivision, range of lot sizes: From: _____

Square Feet to _____ Square Feet.

10. Number of floors: NA

11. Number of parking spaces provided: none

12. Is this project to be developed in several phases? If so, give dates:
No

13. Amount of Grading proposed in yards: NA

Height of Maximum cut slope: NA

Height of Maximum fill slope: NA

Slope Inclinations: NA

14. Is this a portion of any larger project? If so, describe on an attached sheet. Expansion of existing Corporation Yard.

15. If residential, include the number of units, size of units (number of rooms), and/or lots, and type of household size expected.

16. If commercial, indicate the type (CG, CT, etc.) square footage of sales area.

17. If industrial, indicate type and estimated number of employees:
Corporation Yard - Storage only

18. If institutional, indicate the major function, estimating number of employees, estimated occupancy.

19. If the project involves a variance, conditional use permit or rezoning application, state this, and indicate clearly why the application is required (see required findings in Zoning Code).

Are the following items applicable to the project or its effects: Discuss below all items checked yes (attach additional sheets if necessary).

YES	NO	
___	✓	20. Change in existing features of any lakes or hills, or substantial alteration of topography or drainange. (If yes, submit accurate topo and grading plan).
___	✓	21. Change in scenic views or vistas from existing residential areas or public lands or roads.
___	✓	22. Change in patern, scale or character of general area of project.
___	✓	23. Significant amounts of solid waste or litter.
___	✓	24. Result in dust, ash, smoke, fumes or odors being discharged in the vicinity.
___	✓	25. Change in lake, stream or ground water quality or quantity, or alteration of existing drainange patterns.
___	✓	26. Substantial change in existing noise or vibration levels in the vicinity
___	✓	27. Site on filled land or on slope of 10% or more. (If site contains any slope in excess of 10%, submit accurate topo).
___	✓	28. Use or disposal of potentially hazardous materials, such as toxic substances, flammables or explosives.
___	✓	29. Substantial increase in demand for municipal services (police, fire, water, sewage, etc.).
___	✓	30. Substantially increase fossil fuel consumption (electricity, oil,. natural gas, etc.).
___	✓	31. Relationship to a larger project or series of projects.

ENVIRONMENTAL SETTING (Attach Sheets)

32. Describe the project site as it exists before the project, iincluding informatio of topography, soil stability, plants and animals, and any cultural, historical or scenic aspects. (Please review the Escondido historical Survey at the Planning Dept.). Describe any existing structures on the site, and the use of the structures.

33. Describe the surrounding properties, including information on zoning plants and animals and any cultural, histroical or scenic aspects. Indicate the type of land use (residential, commercial, etc.), intensity of land use (one-family, apartment, houses, shops, department stores, etc.).

34. Archaeological Setting

A. Is the property within 1/4 mile of a stream course?
____ Yes ___✓ No.

B. Are there any granitic outcrops on the project site?
____ Yes ___✓ No.

C. Are there any isolated areas of dark soil development on the project site? ____ Yes ___✓ No.

D. Are there any surface concentrations of stone flakes, bone, or pottery fragments on the property?
____ Yes ___✓ No.

E. Are there any pre-historic assemblages of rock or rock art on the property? ____ Yes ___✓ No.

35. For projects consisting of residential units (adult or family), request in writing a letter from the:

A. Escondido Union School District.
B. Escondido Union Hich School District.

describing the project's impact on enrollment and submit the school letters WITH THE FORM.

36. In all cases in which a mature tree is being removed from a right-of-way, include a justification and picture of the tree.

CERTIFICATION

I hereby certify that the statements furnished above and in the attached exhibits present the data and information required for this initial evaluation to the best of my abiolity, and that the facts, statements, and information presented is true and correct to the best of my knowledge and belief.

I further understand that additional information or requirements may be necessary.

6-2-92
(DATE)

(SIGNATURE)

TO WHOM IT MAY CONCERN:

When filing for a public hearing the notification requirements must be accurate. In the case of a person who is obligated to provide a list of parcel numbersof property owners within 500 feet of the exterior boundaries of the property, this list should be taken from the latest Assessor's Rolls, and said list shall be certified as being accurate by the persons submitting said list. The Planning Staff will not check to verify if the list is correct. However, we may spot check certain applications and if an application is scheduled for public hearing and it is found that the parcel numbers as required are incorrect, the public hearing will be null and void, and the applicant will have to again refile the application, and the public hearing procedure will begin again.

The Assessor's maps will be needed in order to show the subject property and properties within 500 feet of the exterior boundaries. A line 500 feet from the exterior limits of the property line shall be drawn on the Assessor's maps or plat map which is submitted along with the list of parcel numbers. The list of parcel numbers submitted needs to be typed on a separate sheet so as to be clear and capable of being processed by the Planning Department secretaries.

The importance on accuracy is the obligation of the persons certifying and submitting the information needed for notification of public hearing.

The Planning Department will obtain mailing addresses for all parcel owners from the list of assessor parcel numbers submitted. This is to insure that all lists are accurate and as up-to-date as possible. An additional fee will be charged for this service, in addition to the application fee, and will vary depending on the number of required public hearings.

FEE SCHEDULE FOR PROPERTY OWNER MAILING LIST

Please consult the Planning Department for

current assessor's fees for mailing purposes.

NOTICES FOR MOBILE HOME PARKS
ADJACENT TO OR WITHIN 500' OF SUBJECT PROPERTY

All residents within the entire mobile home park require a separate typed addressed label even if only a small portion of the mobile home park falls within 500' of the subject parcel.

-Self adhesive address labels (so each label can peel off separately)

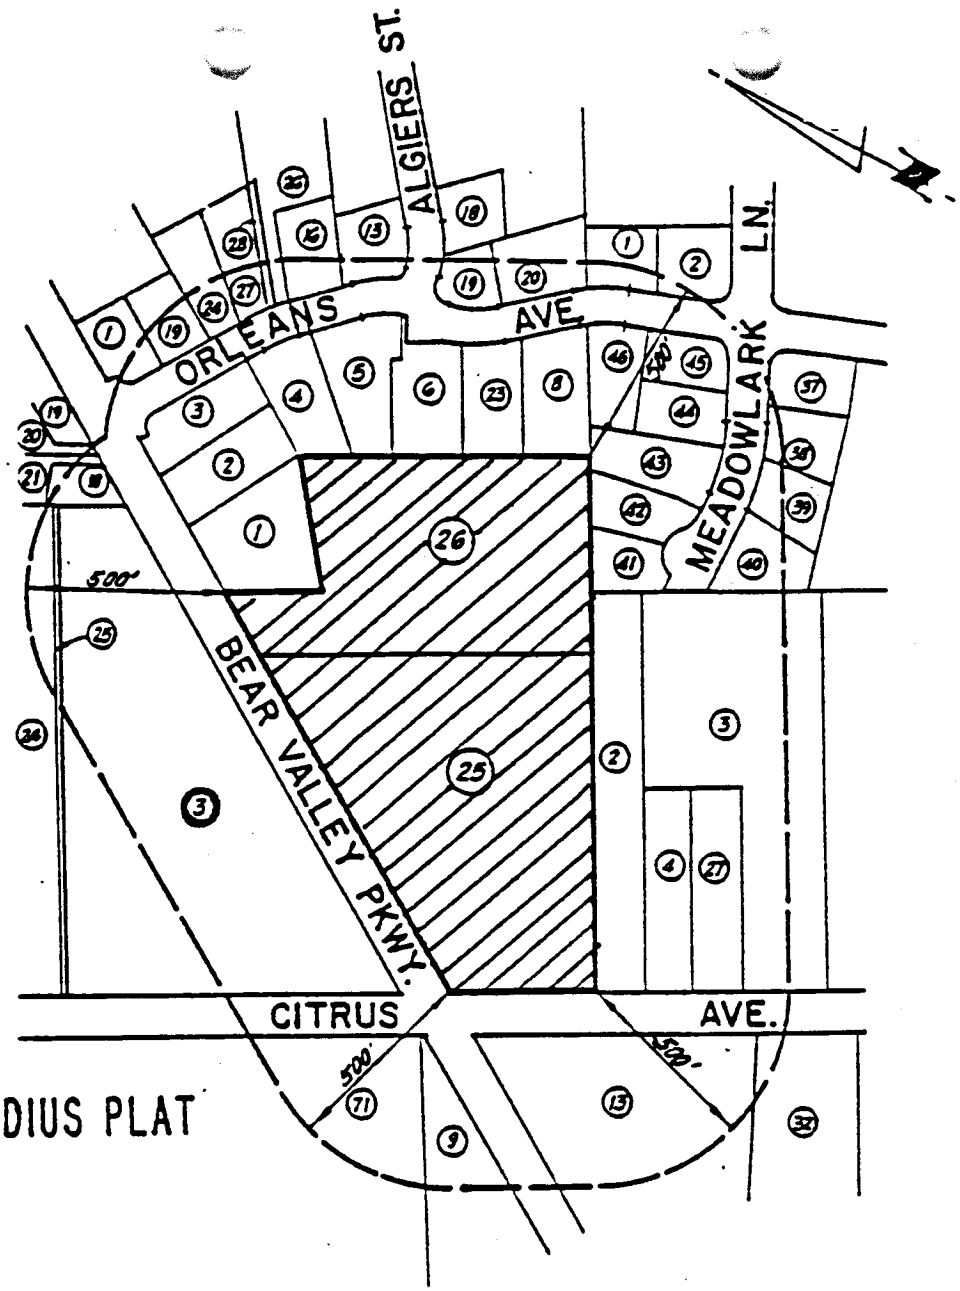
- 1" x 2 3/4" label size

- 8 1/2" x 11" sheet size

- 1-2 sets of labels may be required depending on whether the items is heard by the City Council.

- It is not necessary to include the name of the resident on each label, "occupant" or "resident" is sufficient.

kh



500' RADIUS PLAT

Above is a sample 500 foot radius plat and below is a sample list of parcel numbers, as we would like them submitted. Please prepare each on a sheet of 8-1/2 inch by 11 inch paper and show how each parcel number corresponds to the coding system used on the map you submit. The parcel numbers must be typed.

Application No: _____ Property Address: _____

HAZARDOUS MATERIALS QUESTIONNAIRE

New State law, effective July 1, 1989, (AB 3205, Chapter 1589.-Statutes 1988) prohibits a City or a County from issuing Certificate of Occpancy if a business will handle Hazardous Materials unless the business has met or is meeting the requirement of a Business Plan for Emergency Response with the San Diego County Department of Health Services, Environmental Health Services, Hazardous Materials Management Division.

The new law may also prohibit the permitting of a facility handling Acutely Hazardous Materials to be constructed within 1,000 feet of the outer boundary of a school (K thru 12) unless first meeting the requirements of a Risk Management and Prevention Program.

To determine whether your business is subject to these new requirements, please read and complete this questionnaire.

If the answer to any of the questions below is yes, applicant must contact the Hazardous Materials Management Division, 1255 Imperial Ave., 3rd Fl., San Diego, CA 92138-5261. Telephone: (619) 338-2222..

AIR POLLUTION CONTROL QUESTIONNAIRE

New State law, effective July 1, 1989, (AB 3205, Chapter 1589. Statutes 1988) requires that an applicant for a building permit provide information indicating whether a permit is required from the Air Pollution Control District. This law further prohibits a City or a County from issuing Certificate of Occupancy unless a business has complied with provisions of the law that are administered by the Air Pollution Control District.

The new law also imposes additional permitting requirements for a facility within 1,000 feet of the outer boundary of a school (K thru 12).

To determine whether your business is subject to these new requirements, please complete this questionnaire.

Business Name (DBA)	Contact Person	Phone
City of Escondido	Ron Gerow	(619) 432-4568

Mailing Address	City	State	Zip

New hazardous materials law takes effect on July 1 for all non-residential projects

New state regulations on hazardous materials will impact all non-residential projects that haven't received their occupancy certificate by July 1 — projects may not be able to receive the certificate without further approvals.

This does not apply to residential construction.

The new regulations require disclosure of hazardous materials that will be used or stored on the site once it is occupied. In some cases, an emergency response plan must be on file with the County of San Diego.

In addition, businesses using hazardous materials cannot be located within 1,000 feet of a school with students from Kindergarten through grade 12;the determination will be made by the county's Air Pollution Control District.

To determine if hazardous materials will be used on-site once the building is complete, a questionnaire must be filled out for all projects needing Certificates of Occupancy after July 1.

These questionnaires, prepared by the hazardous materials division of the County of San Diego's health department, are available from the Building Inspection Department.

The questionnaires are designed to screen projects for substances on the Extremely Hazardous Subetances list prepared by the federal Environmental Protection Agency.

Continued on next page

Hazardous Materials Fact Sheet

The law: Chapter 6.95 of the California Health and Safety Code.

For projects under construction: Will have to fill out a county Hazardous Materials questionnaire before the Certificate of Occupancy can be issued.

For projects being submitted: Questionnaire will be made at submittal.

If hazardous materials will be used or stored by occupants: Review will come from the hazardous materials division of the County's health department.

Within 1,000 feet of the outer boundary of a school (grades K-12): Permit may not be allowed; review will come from the county's Air Pollution Control District and hazardous materials division.

Information: 741-4647 (Building Inspection), 338-2222 (County Health), 694-3307 (Air Pollution).

Hazardous materials survey law takes effect in California

Continued from front page

As the provisions this law are applied , projects permitted before and after July 1 must both comply equally, however the procedure will be differ slightly for each.

For projects permitted before July 1, including those already under construction, applicants will be asked to fill out the county's hazardous materials questionnaire.

If the building's occupant will be using or storing any chemicals on the EPA's list, the applicant will be referred to the County of San Diego Department of Health Services Environmental Health Services Hazardous Materials Management Division for approval.

That agency may require that an emergency response plan be prepared.

In addition, the county Air Pollution Control District may also have to review the project if it is within 1,000 feet of the outer boundary of a school containing grades Kindergarten through 12.

For projects now being submitted to the Building Inspection Department, the questionnaire forms will be used until a new permit application is available. The new permit application will include a statement on hazardous materials; applicants may still be required to fill out the hazardous materials questionnaire.

If the project will have hazardous materials on-site once complete, it will have to receive approval from County Health (and Air Pollution, if necessary) as part of the normal plan-check review. Construction permits will not be issued without these approvals, if the OKs are needed.

The County has staff available for questions as well. At Hazardous Materials Services, the number is 338-2222; APCD is 694-3307.

Materials regulated by the new law include solvents, sludges and pesticides.

A "hazardous substance" has been defined as any material required to have a Material Safety Data Sheet, which is available from the supplier, according to information from the County's Department of Health Services.

In addition, these hazardous substances also must have placard warnings during transportation.

San Diego, CA 92112-4150

RE: PROPOSED SITE ALTERNATIVES FOR SDG&E MULCHYARD OPERATION

Dear Mr. Acuna:

I would like to apologize for this delayed response to your March 31, 1992 letter. As we discussed on several occasions over the phone, the reason for this delay stems from the fact that greenwaste recycling (currently not a permitted use) was part of a Citywide amendment to the Zoning Code which it has been acted upon by the City Council on May 13, 1992. The ordinance amending Art. XXXIII (Recycling Facility) will become effective 30 days after the first reading on June 10, 1992. Should the Council approves the subject ordinance, large recycling facilities (including the one proposed by SDG&E) would be administratively (through the Plot Plan process) permitted in the M-2 (General Industrial) zone. A Conditional Use Permit would be required for such facilities in the M-1 (Light Industrial) zone.

Based on the following reasons, the site selection alternatives listed in your aforementioned letter are infeasible at this time:

A. Vineyard site: As we discussed, this site is located within SPA # 8 Quail Hills Development. Recycling of greenwaste is not on the list of permitted uses for this SPA.

B. Santa Fe Site: This site is part of a property that has been recently purchased by the City of Escondido. The City is tentatively planning for using this site as an expansion for the Public Works Department Facilities. For more information regarding this site please contact Mr. Ron Gerow, Real Property Agent at the Engineering Department, his phone No. is 741-4568.

I hope that this letter clarifies our Department's position regarding the issues raised in your letter. Should you have any question or if I could be of any help regarding additional site investigation, please call me at 741-4671.

Cordially,

ABDUL FARRAH.

Ron:
Rozanne & I met with Neal today to discuss his landscape plan for the Public Works Yard expansion. We were unable to give him final recommendations because we do not have a site plan that shows where various activities & storage will take place; this information is critical when deciding on species of plant material to provide the appropriate screening. We wanted to let you know why there are no final decisions on the landscape plan at this time.
Thanks! Jo Ann

SUBJECT: Corporation Yard Expansion

The attached deed and Record of Survey show the property we have just acquired from North County Transit.

We need two services from you:

1. Have someone meet Ross Calarco at the property, to show Ross the approximate location of the front property line (probably by measuring from ultimate improvements across Washington. This is urgent, as Ross needs to place a chain link fence the length of the property.

2. Have the property surveyed and staked, with the corners set and flagged. This is required to initiate environmental documentation so we can use the property.

Check with Mike Adams, who will give this the highest priority, or something close.

Complainant: (Please specify: tenant, neighbor, other ✓)

Name: Captain Mike Calhoun Escondido Fire Department

Address: 310 North Quince Escondido, CA. 92025

Telephone Number: 619 741-4702

Details of Complaint: (Please be specific)

Migrant workers have a camp and debris in a drainage that runs through this property. A camp fire started a grass fire that almost extended to the property at 1035 West Washington (Escondido Feed and Supply) Several times the last couple of months my crew and other crews have responded to extinguish camp fires. Another fire in the area could threaten the rail road bridge or nearby businesses

Date reported to manager/owner: _____

Important: Complainant must sign in order for this complaint to be valid. Your name will be kept confidential.

SUBJECT: CODE VIOLATIONS AT 901/903 WEST WASHINGTON AVENUE

Sir:

Our office recently received several complaints regarding the above-referenced location. The complaints involve illegal trespass, indescriminate burning, which has endangered adjacent properties, and trash and debris being strewn throughout the site. These problems have been increasing steadily over the past months and must be acted on to avert possible injury and/or large scale property damage.

We must require that substantial actions be taken within thirty (30) days to correct the problems noted.

Please contact me for specific details and courses of action.

Sincerely,

Jon Schmidt

CHARLIE,

RE: TRACKING # C4-0040
PROPERTY ACROSS FROM
MERCEDES REPAIR SHOP,
OWNED BY TRANSIT
AUTHORITY.

WE WERE AWARE OF THE PROBLEM
PRIOR TO RECEIVING YOUR
ASSIGNMENT ON THIS PROPERTY.
THERE IS ALOT OF HISTORY
REGARDING THIS PROPERTY AND
HAZARDOUS CONTAMINATED EARTH
THAT WAS REMOVED WITH OUT
PROPER APPROVAL FROM COUNTY
HAZ. MAT.. APPARENTLY THE
PROPERTY WAS ONCE OWNED BY THE
RAILROAD WHO SOLD IT TO THE
TRANSIT DISTRICT WHO INTURN
WILL SELL IT TO THE CITY. THE
CITY INFORMED THE TRANSIT
DISTRICT THAT THERE WAS SOME
POSSIBLE PROBLEMS WITH
CONTAMINATED SOIL;S ON THE
PROPERTY AND NOT TO CLOSE
ESCROW UNTIL THEY HAD RECEIVED
A CLEAN BILL OF HEALTH FROM
CNTY. HAZ. MAT.. DIDN'T HAPPEN
THAT WAY. ESCROW CLOSED AND
THE TRANSIT DISTRICT STARTED
HAULING SOILS OFF THE PROPERTY
WITHOUT PROPER APPROVAL OR
PERMIT FROM HAZ. MAT..

MEANTIME THE CITY WILL NOT
PURCHASE IT UNTIL ALL OF THESE
MATTERS ARE CLEARED UP.
TRANSIT DISTRICT FEELS
BETRAYED, RAIL ROAD MAY BE
LIBEL IF PROBLEM WAS NOT
DISCLOSED, THE TRANSIT DIST.
DOES NOT WANT TO MAINTAIN THE
PROPERTY, AND THE MERCEDES
SHOP OWNER HAS TO DEAL WITH
THIS JUNK ON THE PROPERTY
ACROSS THE STREET FROM HIM.

RON DEROW IS VERY FAMILAR WITH
THIS MATTER AND HAS AGREED TO
WRITE THE LETTER FOR THE

MAYOR'S SIGNATURE. MEANWHILE
SEAN DONOVAN WILL WRITE A NICE
"IT HAS COME TO OUR ATTENTION
LETTER" RE: THE JUNK, AND
REQUEST THAT THE TRANS. DIST.
ABATE IT. WE CAN ATTACH A COPY
OF THAT LETTER WITH THE
MAYORS. I EXPECT RON'S LETTER
BY FRI. 8/9/91.

MICHAEL

(619) 741-4647

August 8, 1991

Mr. George Johnson
North County Transit District
311 South Tremont
Oceanside, Ca. 92054

RE: vacant lot located at 901 West Washington Ave. Escondido, Ca.
Assessors Parcel Number 232-090-03.

Dear Mr. Johnson:

Pursuant to our conversation of August 5, 1991 there is an accumulation of abandon furniture, scrap materials and trash deposited on this property. The abandon furniture is be used by transients to sleep upon. The presence of this rubbish is unsightly and unhealthy and is prohibited pursuant to the Escondido Municipal Code section 6-484 (a)(1) and (a)(2).

I am aware there is some controversy regarding the future ownership of this property and history behind how it came to be owned by the transit district but, the problem at hand can only be corrected by the present owner and needs to be addressed as soon as possible.

The City Of Escondido is therefor making a formal request to the North County Transit District to remedy the situation and bring the property into conformance with the requirements of the Escondido Municipal Code.

If you have any question with regards to this letter please feel free to contact me at 741-4650. Thanks in advance for your assistance in this matter.

Sincerely,

Sean Donovan
Code Enforcement Officer

GRADING PLAN

CORPORATION YARD EXPANSION

GENERAL NOTES

1. FOLLOWING THE APPROVAL OF THE GRADING PLAN BUT NO LATER THAN 48 HOURS BEFORE STARTING GRADING, THE CONTRACTOR SHALL OBTAIN A GRADING PERMIT FROM THE ENGINEERING FIELD OFFICE, 201 N. BROADWAY, (619) 741-4664.

2. GRADE AREAS SHOWN ON THESE PLANS IN ACCORDANCE WITH ARTICAL 55, *EXCAVATION AND GRADING OF, THE ESCONDIDO ZONING CODE.*

3. THE SOILS REPORT PREPARED BY DATED AND ALL ALL SUPPLEMENTS THEREOF ARE INCORPORATED AND MADE A PART OF THIS PLAN.

4. ONLY GRADING AND PRIVATE DRAINAGE FACILITIES ARE APPROVED ON THIS GRADING PLAN. ALL OTHER FEATURES ARE SHOWN FOR ILLUSTRATION PURPOSES ONLY.

5. ALL FILLS SHALL BE COMPACTED TO A MINIMUM OF 90% OF MAXIMUM DENSITY. A COMPACTION REPORT SHALL BE SUBMITTED TO THE FIELD ENGINEER PRIOR TO ROUGH GRADING INSPECTION FOR ALL FILLS EXCEEDING ONE FOOT IN DEPTH. THE COMPACTION REPORT SHALL BE REVIEWED AND APPROVED BY THE FIELD ENGINEER PRIOR TO ROUGH GRADING APPROVAL.

6. ALL SLOPES SHALL BE CONTOUR-GRADED SO AS TO ROUND CORNERS AND TO BLEND MANUFACTURED SLOPES INTO ADJACENT NATURAL SLOPE. SEE *APPENDIX A* OF THE GRADING ORDINANCE FOR SPECIFIC REQUIREMENTS.

7. ALL SLOPES OVER THREE FEET IN HEIGHT SHALL BE LANDSCAPED AND IRRIGATED AS DETAILED ON THE LANDSCAPE AND IRRIGATION PLANS.

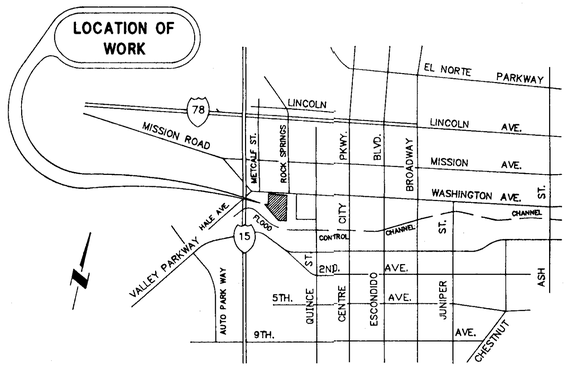
EARTHWORK QUANTITIES

CUT = 11,000 CUBIC YARDS

FILL = 11,000 CUBIC YARDS

EXPORT = 4,400 CUBIC YARDS (UNSUITABLE MATERIAL)

IMPORT = 4,400 CUBIC YARDS



VICINITY MAP
NOT TO SCALE

NOTE

1. THE QUANTITIES OF CUT/FILL SHOWN HEREON WERE COMPUTED USING REASONABLE ENGINEERING METHODS. THE QUANTITIES ESTIMATED ARE FOR USE IN CALCULATING THE FEES AND BONDS REQUIRED BY THE CITY

2. QUANTITIES SHOWN ARE ESTIMATES AND SHOULD NOT BE USED FOR BID PURPOSES. THE CONTRACTOR TO DO HIS OWN ESTIMATION FOR HIS OWN SATISFACTION

ENGINEER'S NOTICE TO CONTRACTORS:

THE LOCATION OF ANY UNDERGROUND STRUCTURES AS SHOWN ON THESE PLANS HAVE BEEN OBTAINED FROM AVAILABLE RECORDS AND ARE SHOWN FOR THE BENEFIT OF THE CONTRACTOR. THE CONTRACTOR SHALL TAKE ALL PRECAUTIONARY MEASURES TO PROTECT ALL UNDERGROUND OR OVERHEAD STRUCTURES WHETHER SHOWN OR NOT SHOWN ON THESE PLANS.

2 OF 2

CITY OF ESCONDIDO
Planning Commission

Agenda Item No.: _____
Date: January 12, 1992

TO: **Planning Commission**

FROM: **Planning Staff**

SUBJECT: A request for a waiver of parking requirements for the Public Works Storage Yard Expansion located at 903 West Washington Avenue (Related Case File: 92-32-PPL).

STAFF RECOMMENDATION: Approval

GENERAL PLAN DESIGNATION/TIER: PI (Planned Industrial)/Tier 1 Central

ZONING: M-2 (General Industrial)

ENVIRONMENTAL DETERMINATION:

Negative Declaration ER 92-45 was issued December 16, 1992. Staff feels that this environmental review addressed the parking issue associated with the project, and found that waiving the off-street parking requirement had no adverse environmental impacts.

BACKGROUND:

This request is associated with a proposed expansion of the Public Works Corporate Storage Yard on vacant land located on the south side of West Washington, west of Rock Springs Road. Three fenced storage areas will be created for police impound vehicles, sand, gravel, road grindings, landscape materials, street lights, sign poles, pipe, etc.; and various pieces of equipment that will be used and kept on-site for the operation of the yard and for the maintenance of City property (dump trucks, forklifts, bobcats, etc.).

Section 33-767 of the Zoning Code allows the Planning Commission, by resolution, to waive or modify off-street parking requirements for corporation storage yards or other similar uses requiring very limited number of persons for operations; this Section is directly applicable to this project.

ANALYSIS:

Consistency of Request With the Off-Street Parking Ordinance:

Generally, the Zoning Code requires a ratio of 1 parking space for every 5,000 sf of storage area required. For this project, the proposed storage area of 186,816 sf would produce a requirement of 37 parking spaces based on a ratio of 1:5000. However, because this project is both a corporation storage yard and will have a limited number of persons handling the operations, it is consistent with Section 33-767 of the Off-Street Parking Ordinance which allows this parking requirement to be waived.

No permanent structures will be built, on this site, except for screen fences around the yard's perimeter and fences around the storage areas. No additional personnel will be hired; the personnel from the North Spruce Yard will be operating both yards. When personnel is needed at the West Washington Yard, they will park at the North Spruce Yard and be driven over and dropped off, thereby eliminating the need for employee parking at the new yard.

If in the future employee parking at the West Washington Yard is needed, the Plot Plan will be modified and reviewed for provision of a parking area consistent with code requirements, but at this time no such need exists.

The existing City Corporation Yard, located on North Spruce Street, provides the necessary parking for 147 employees' vehicles and for pool vehicles. The Corporation Yard expansion, located northwest of the existing Corporation Yard and across the Flood Control Channel, will be utilized for outside storage only, which is permitted in the M-2 Zone; no personnel will be assigned to the Yard. Therefore, the existing parking provided at the North Spruce location is adequate for both locations.

The project has been reviewed and recommended for approval by the Design Review Board and by Planning Staff. Final approval of the Plot Plan application is pending this review by the Planning Commission for waiver of the off-street parking requirement.

Respectfully submitted,

Jo Ann Alpert

DATE FILED: 6-2-92

LOG NO. EIR 92-45

CITY OF ESCONDIDO
INITIAL STUDY FORM - PART I
(To Be Completed by Applicant)

GENERAL INFORMATION

1. Name, address and telephone number of developer or project sponsor:

CITY OF ESCONDIDO, c/o Ron Gerow
x4568

2. ADDRESS OF PROJECT: South side Washington Ave,
Assessor's Parcel No. between Hale & Spruce 232-090-2, 3, 40, 65

3. Name, address and telephone number of person to be contacted regarding this project:

Ron Gerow x4568

4. List other agencies which have, or must, approve the project:

5. Describe the proposed project (attach statement if necessary):

City Corporation Yard

6. Describe the type of application (Cond. Use Permit, Variance, etc.)

Plot Plan: 92-32PPL

7. Size of parcel (acreage): 10.16

8. Square footage of each building: none

9. If a subdivision, range of lot sizes: From: —

Square Feet to _____ Square Feet.

10. Number of floors: NA

11. Number of parking spaces provided: none

12. Is this project to be developed in several phases? If so, give dates: No

13. Amount of Grading proposed in yards: NA

Height of Maximum cut slope: NA

Height of Maximum fill slope: NA

Slope Inclinations: NA

14. Is this a portion of any larger project? If so, describe on an attached sheet. Expansion of existing Corporation Yard.

15. If residential, include the number of units, size of units (number of rooms), and/or lots, and type of household size expected.

N/A

16. If commercial, indicate the type (CG, CT, etc.) square footage of sales area.

N/A

17. If industrial, indicate type and estimated number of employees:

Corporation Yard - Storage only

18. If institutional, indicate the major function, estimating number of employees, estimated occupancy.

N/A

19. If the project involves a variance, conditional use permit or rezoning application, state this, and indicate clearly why the application is required (see required findings in Zoning Code).

N/A

Are the following items applicable to the project or its effects: Discuss below all items checked yes (attach additional sheets if necessary).

YES	NO	
___	✓	20. Change in existing features of any lakes or hills, or substantial alteration of topography or drainange. (If yes, submit accurate topo and grading plan).
___	✓	21. Change in scenic views or vistas from existing residential areas or public lands or roads.
___	✓	22. Change in patern, scale or character of general area of project.
___	✓	23. Significant amounts of solid waste or litter.
___	✓	24. Result in dust, ash, smoke, fumes or odors being discharged in the vicinity.
___	✓	25. Change in lake, stream or ground water quality or quantity, or alteration of existing drainange patterns.
___	✓	26. Substantial change in existing noise or vibration levels in the vicinity
___	✓	27. Site on filled land or on slope of 10% or more. (If site contains any slope in excess of 10%, submit accurate topo).
___	✓	28. Use or disposal of potentially hazardous materials, such as toxic substances, flammables or explosives.
___	✓	29. Substantial increase in demand for municipal services (police, fire, water, sewage, etc.).
___	✓	30. Substantially increase fossil fuel consumption (electricity, oil,. natural gas, etc.).
___	✓	31. Relationship to a larger project or series of projects.

ENVIRONMENTAL SETTING (Attach Sheets)

32. Describe the project site as it exists before the project, iincluding informatio of topography, soil stability, plants and animals, and any cultural, historical or scenic aspects. (Please review the Escondido historical Survey at the Planning Dept.). Describe any existing structures on the site, and the use of the structures.
Level unimproved Land with scattered trees.

33. Describe the surrounding properties, including information on zoning plants and animals and any cultural, histroical or scenic aspects. Indicate the type of land use (residential, commercial, etc.), intensity of land use (one-family, apartment, houses, shops, department stores, etc.).
ALL surrounding properties are industrially developed.

34. Archaeological Setting

A. Is the property within 1/4 mile of a stream course?
____ Yes ✓ No.

B. Are there any granitic outcrops on the project site?
____ Yes ✓ No.

C. Are there any isolated areas of dark soil development on the project site? ____ Yes ✓ No.

D. Are there any surface concentrations of stone flakes, bone, or pottery fragments on the property?
____ Yes ✓ No.

E. Are there any pre-historic assemblages of rock or rock art on the property? ____ Yes ✓ No.

35. For projects consisting of residential units (adult or family), request in writing a letter from the:

A. Escondido Union School District.
B. Escondido Union Hich School District.

describing the project's impact on enrollment and submit the school letters WITH THE FORM.

36. In all cases in which a mature tree is being removed from a right-of-way, include a justification and picture of the tree.

CERTIFICATION

I hereby certify that the statements furnished above and in the attached exhibits present the data and information required for this initial evaluation to the best of my abiolity, and that the facts, statements, and information presented is true and correct to the best of my knowledge and belief.

I further understand that additional information or requirements may be necessary.

6-2-92
(DATE)

(SIGNATURE)

TO WHOM IT MAY CONCERN:

When filing for a public hearing the notification requirements must be accurate. In the case of a person who is obligated to provide a list of parcel numbersof property owners within 500 feet of the exterior boundaries of the property, this list should be taken from the latest Assessor's Rolls, and said list shall be certified as being accurate by the persons submitting said list. The Planning Staff will not check to verify if the list is correct. However, we may spot check certain applications and if an application is scheduled for public hearing and it is found that the parcel numbers as required are incorrect, the public hearing will be null and void, and the applicant will have to again refile the application, and the public hearing procedure will begin again.

The Assessor's maps will be needed in order to show the subject property and properties within 500 feet of the exterior boundaries. A line 500 feet from the exterior limits of the property line shall be drawn on the Assessor's maps or plat map which is submitted along with the list of parcel numbers. The list of parcel numbers submitted needs to be typed on a separate sheet so as to be clear and capable of being processed by the Planning Department secretaries.

The importance on accuracy is the obligation of the persons certifying and submitting the information needed for notification of public hearing.

The Planning Department will obtain mailing addresses for all parcel owners from the list of assessor parcel numbers submitted. This is to insure that all lists are accurate and as up-to-date as possible. An additional fee will be charged for this service, in addition to the application fee, and will vary depending on the number of required public hearings.

FEE SCHEDULE FOR PROPERTY OWNER MAILING LIST

Please consult the Planning Department for

current assessor's fees for mailing purposes.

NOTICES FOR MOBILE HOME PARKS
ADJACENT TO OR WITHIN 500' OF SUBJECT PROPERTY

All residents within the entire mobile home park require a separate typed addressed label even if only a small portion of the mobile home park falls within 500' of the subject parcel.

-Self adhesive address labels (so each label can peel off separately)

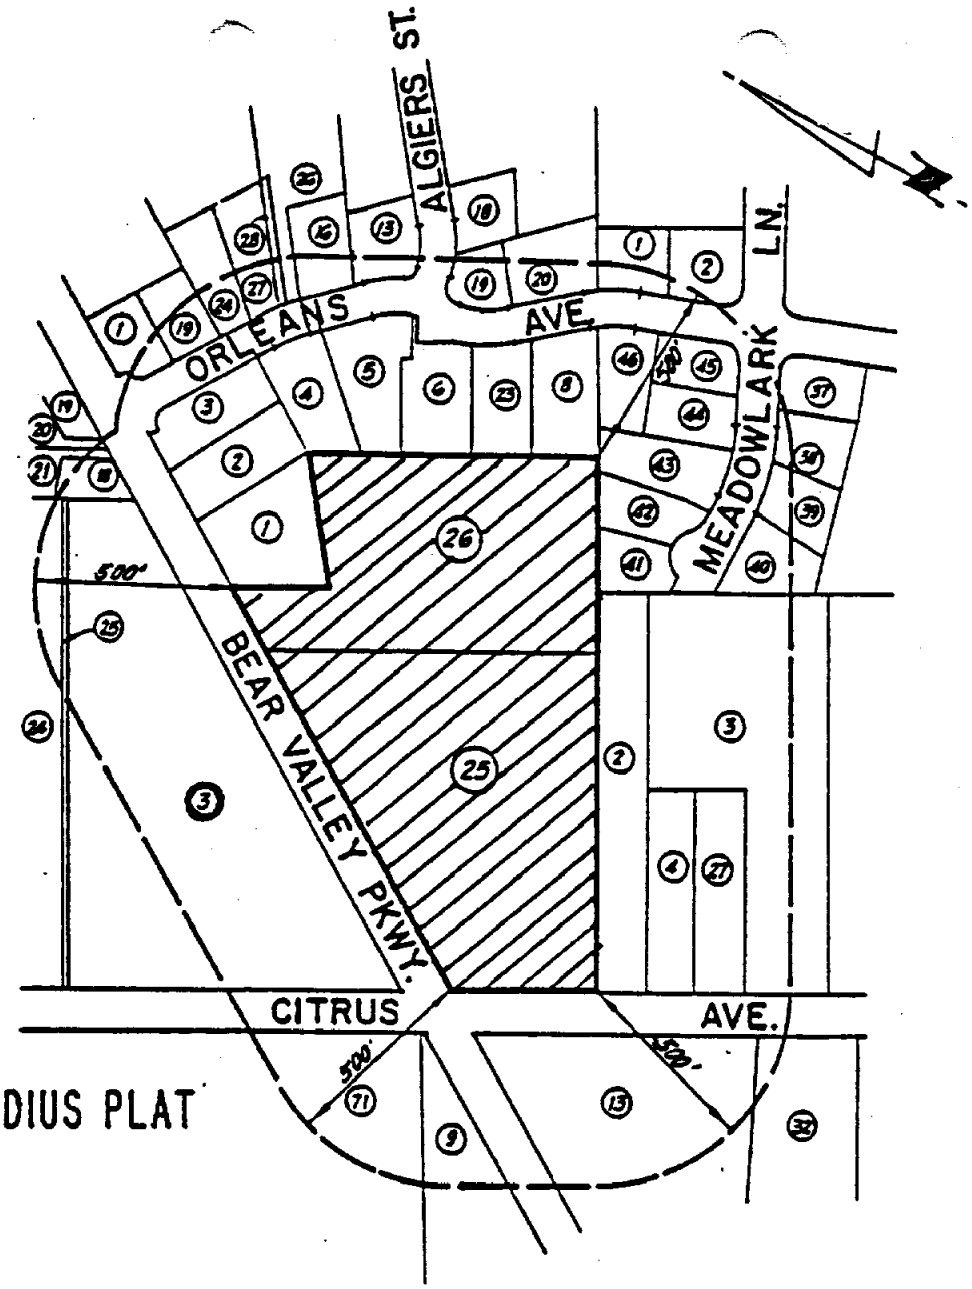
- 1" x 2 3/4" label size

- 8 1/2" x 11" sheet size

- 1-2 sets of labels may be required depending on whether the items is heard by the City Council.

- It is not necessary to include the name of the resident on each label, "occupant" or "resident" is sufficient.

kh



500' RADIUS PLAT

Above is a sample 500 foot radius plat and below is a sample list of parcel numbers, as we would like them submitted. Please prepare each on a sheet of 8-1/2 inch by 11 inch paper and show how each parcel number corresponds to the coding system used on the map you submit. The parcel numbers must be typed.

Application No: _____ Property Address: _____

HAZARDOUS MATERIALS QUESTIONNAIRE

New State law, effective July 1, 1989, (AB 3205, Chapter 1589.-Statutes 1988) prohibits a City or a County from issuing Certificate of Occpancy if a business will handle Hazardous Materials unless the business has met or is meeting the requirement of a Business Plan for Emergency Response with the San Diego County Department of Health Services, Environmental Health Services, Hazardous Materials Management Division.

The new law may also prohibit the permitting of a facility handling Acutely Hazardous Materials to be constructed within 1,000 feet of the outer boundary of a school (K thru 12) unless first meeting the requirements of a Risk Management and Prevention Program.

To determine whether your business is subject to these new requirements, please read and complete this questionnaire.

If the answer to any of the questions below is yes, applicant must contact the Hazardous Materials Management Division, 1255 Imperial Ave., 3rd Fl., San Diego, CA 92138-5261. Telephone: (619) 338-2222..

AIR POLLUTION CONTROL QUESTIONNAIRE

New State law, effective July 1, 1989, (AB 3205, Chapter 1589. Statutes 1988) requires that an applicant for a building permit provide information indicating whether a permit is required from the Air Pollution Control District. This law further prohibits a City or a County from issuing Certificate of Occupancy unless a business has complied with provisions of the law that are administered by the Air Pollution Control District.

The new law also imposes additional permitting requirements for a facility within 1,000 feet of the outer boundary of a school (K thru 12).

To determine whether your business is subject to these new requirements, please complete this questionnaire.

Business Name (DBA)	Contact Person	Phone

New hazardous materials law takes effect on July 1 for all non-residential projects

New state regulations on hazardous materials will impact all non-residential projects that haven't received their occupancy certificate by July 1 — projects may not be able to receive the certificate without further approvals.

This does not apply to residential construction.

The new regulations require disclosure of hazardous materials that will be used or stored on the site once it is occupied. In some cases, an emergency response plan must be on file with the County of San Diego.

In addition, businesses using hazardous materials cannot be located within 1,000 feet of a school with students from Kindergarten through grade 12; the determination will be made by the county's Air Pollution Control District.

To determine if hazardous materials will be used on-site once the building is complete, a questionnaire must be filled out for all projects needing Certificates of Occupancy after July 1.

These questionnaires, prepared by the hazardous materials division of the County of San Diego's health department, are available from the Building Inspection Department.

The questionnaires are designed to screen projects for substances on the Extremely Hazardous Substances list prepared by the federal Environmental Protection Agency.

Continued on next page

Hazardous Materials Fact Sheet

The law: Chapter 6.95 of the California Health and Safety Code.

For projects under construction: Will have to fill out a county Hazardous Materials questionnaire before the Certificate of Occupancy can be issued.

For projects being submitted: Questionnaire will be made at submittal.

If hazardous materials will be used or stored by occupants: Review will come from the hazardous materials division of the County's health department.

Within 1,000 feet of the outer boundary of a school (grades K-12): Permit may not be allowed; review will come from the county's Air Pollution Control District and hazardous materials division.

Information: 741-4647 (Building Inspection), 338-2222 (County Health), 694-3307 (Air Pollution).

Hazardous materials survey law takes effect in California

Continued from front page

As the provisions this law are applied , projects permitted before and after July 1 must both comply equally, however the procedure will be differ slightly for each.

For projects permitted before July 1, including those already under construction, applicants will be asked to fill out the county's hazardous materials questionnaire.

If the building's occupant will be using or storing any chemicals on the EPA's list, the applicant will be referred to the County of San Diego Department of Health Services Environmental Health Services Hazardous Materials Management Division for approval.

That agency may require that an emergency response plan be prepared.

In addition, the county Air Pollution Control District may also have to review the project if it is within 1,000 feet of the outer boundary of a school containing grades Kindergarten through 12.

For projects now being submitted to the Building Inspection Department, the questionnaire forms will be used until a new permit application is available. The new permit application will include a statement on hazardous materials; applicants may still be required to fill out the hazardous materials questionnaire.

If the project will have hazardous materials on-site once complete, it will have to receive approval from County Health (and Air Pollution, if necessary) as part of the normal plan-check review. Construction permits will not be issued without these approvals, if the OKs are needed.

The County has staff available for questions as well. At Hazardous Materials Services, the number is 338-2222; APCD is 694-3307.

Materials regulated by the new law include solvents, sludges and pesticides.

A "hazardous substance" has been defined as any material required to have a Material Safety Data Sheet, which is available from the supplier, according to information from the County's Department of Health Services.

In addition, these hazardous substances also must have placard warnings during transportation.

memorandum

CITY OF ESCONDIDO
RECEIVED
AUG 21 1992
PLANNING DEPT.

August 20, 1992

TO: Jo Ann Alpert, Planner II

FROM: Ron Gerow, Real Property Agent Ron G

SUBJECT: City Yard Expansion Plot Plan, Case File 92-32 PPL

In response to your July 10 memo, I have been able to research and assemble the following information.

1. There are three storage areas proposed for the site. On the attached site plan, I have labeled each of these three storage areas. They are as follows:

   A. Police Impound Lot - In this storage area, there will be impounded cars and asset seizures from the Police Department. Incoming and outgoing traffic from this area will be minimal. The extent of vehicles and assets stored will fluctuate widely during the year, therefore, total numbers cannot be estimated.

   B. Streets, Utilities, and Parks Exterior Storage - This area will be utilized for the storage of sand, gravel, grindings, and cold mix—all in storage piles not exceeding 10 feet in height. Sign poles, street lights, fence poles, and fencing fabric will be stored on pallets and stacked—not exceeding six feet in height. Pavers, timbers, miscellaneous pipe, meter boxes, plants, planting material, and tree trimming chip piles will also be stored in this area.

   C. Warehouse Exterior Storage - This storage area will enclose pipe storage and surplus/auction items.

2. The above information should enable you to assess the adequacy of the landscaping design. I will have Neal Osias prepare a landscape design without all the matchlines, as you have requested.

3. Notification to SDG&E has been signed and is attached.

4. The assessor's number list has been retyped in the prescribed manner and is attached. When you can determine the fees to be paid to the County Assessor's Office and the *Times Advocate*, please let me know and I will process a warrant.

5. a. We do not plan to utilize any portion of the corporation yard for parking of vehicles. The existing corporation yard, adjacent to the property, will be utilized for employee and fleet vehicle parking.

   b. I have completed items 32 and 33.

   c. I believe that paragraph 1 above will give you the description of the project parameters which you need.

   d. There will be daily use of the storage yard. Materials stored will be added to and taken from on a regular basis. The types of equipment to be utilized will include trucks, dump trucks, forklifts, and miscellaneous yard equipment.

   e. We do not want to include future building plans at this time, because we are sure that any current plans would change before we are in a position to begin constructing any buildings on the property.

I think this answers all of the questions in your July 10 memo to me. Please let me know if there is any further information that I can provide you with.

II. ENVIRONMENTAL IMPACTS

1. Earth

A. Will the proposal result in:	YES	NO	MAYBE
(1) Unstable earth conditions or in changes in geologic substructures?	___	✓	___
(2) Disruptions, displacements, compaction or overcovering of the soil?	✓	___	___
(3) Change in topography or ground surface relief features?	___	✓	___

	YES	NO	MAYBE
(4) The destruction, covering or modification of any unique geologic or physical features?		✓	
(5) Any increase in wind or water erosion of soils, either on or off the site?		✓	
(6) Changes in siltation, deposition, or erosion which may modify the channel of a river or stream, inlet or lake?		✓	
(7) Exposure of people or property to geologic hazards such as earthquakes, landslides, mudslides, ground failure or similar hazards?		✓	
2. Air. Will the proposal result in:			
A. Substantial air emissions or deterioration of ambient air quality?		✓	
B. The creation of objectionable odors?		✓	
C. Alteration of air movement, moisture or temperature, or any change in climate, either locally or regionally?		✓	
3. Water. Will the proposal result in:			
A. Changes in currents, or the course of direction of water movements?		✓	
B. Changes in absorption rates, drainage patterns, or the rate and amount of surface water runoff?	✓		
C. Alterations to the course or flow of flood waters?		✓	
D. Change in the amount of surface water in any water body?		✓	
E. Discharge into surface waters, or in any alteration of surface water quality, including but not limited to temperature, dissolved oxygen or turbidity?		✓	
F. Alteration of the direction or rate of flow of ground waters?		✓	

	YES	NO	MAYBE
G. Change in quantity of ground waters, either through direct additions or withdrawals, or through inception of an aquifer by cuts or excavations?		✓	
H. Substantial reduction in the amount of water otherwise available for public water supplies?		✓	
I. Exposure of people or property to water related hazards such as flooding?		✓	

4. Biological Inventory

A. List any endangered species in the area of the property shown in the City's biological inventory.

Stand of Mature Eucalyptus

B. Major vegetation removed?		✓	
C. Is mitigation of the property necessary?		✓	
D. Plant Life. Will the proposal result in:			
(1) Change in the diversity of species, or number of any species or plants (including trees, shrubs, grass, crops, microflora and aquatic plants)?		✓	
(2) Reduction of the numbers of any unique, rare or endangered species or plants?		✓	
(3) Introduction of new species of plants into the area, or in a barrier to the normal replenishment of existing species?		✓	
(4) Reduction in acreage of any agricultural crop?		✓	
E. Animal Life. Will the proposal result in:			
(1) Change in the diversity of species, or numbers of any species of animals (birds, land animals, including reptiles, fish and shellfish, benthic organisms, insects or microfauna)?		✓	

	YES	NO	MAYBE
(2) Reduction of the numbers of any unique, rate or endangered species of animals?	___	✓	___
(3) Introduction of new species of animals into an area, or result in a barrier to the migration or movement of animals?	___	✓	___
(4) Deterioration to existing fish or wildlife habitat?	___	✓	___
5. Noise. Will the proposal result in:			
A. Increases in existing noise levels?	___	✓	___
B. Exposure of people to severe noise levels?	___	✓	___
6. Light and Glare. Will the proposal produce new light and glare?	___	✓	___
7. Land Use. Will the proposal result in a substantial alteration of the present or planned land use of an area?	___	✓	___
8. Natural Resources. Will the proposal result in:			
A. Increase in the rate of use of any natural resources?	___	✓	___
B. Substantial depletion of any nonrenewable natural resource?	___	✓	___
9. Risk of Upset. Does the proposal involve a risk of an explosion or the release of hazardous substances (including, but not limited to, oil, pesticides, chemicals or radiation) in the event of an accident or upset conditions?	___	✓	___
10. Population. Will the proposal result in?			
A. Additional population served by the project?	___	✓	___

	YES	NO	MAYBE
B. Will the proposal alter the location, distribution, density or growth rate of the human population shown in the General Plan or of an area?	___	✓	___
11. Housing. Will the proposal affect existing housing, or create a demand for additional housing?	___	✓	___
12. Traffic/Circulation. Will the proposal result in:			
A. Generation of substantial additional vehicular movement?	___	___	✓
B. Effects on existing parking facilities, or demand for new parking?	___	___	✓
If YES, how much new parking? _____			
C. Substantial impact upon existing transportation systems?	___	✓	___
D. Alterations to present patterns of circulation or movement of people and/or goods?	___	✓	___
E. Alterations to waterborne, rail or air traffic?	___	✓	___
F. Increase in traffic hazards to motor vehicles, bicyclists or pedestrians?	___	✓	___
G. Amount of vehicle trips per day by the project? _____			
13. Public Services. Will the proposal have an effect upon, or result in a need for new or altered governmental services in any of the following areas?			
A. Fire Protection?	___	✓	___
(1) Amount of additional men needed. _____			
B. Police Protection?	___	✓	___
(1) Amount of additional men needed. _____			

	YES	NO	MAYBE
C. Schools?		✓	
(1) Amount of pupils generated. _____			
D. Parks or other recreational facilities?		✓	
(1) Amount of park land needed to serve the project. _____			
E. Maintenance of public facilities including roads?		✓	
F. Other governmental services?		✓	
If YES, what services? _____			

14. Energy. Will the proposal result in:

A. Use of substantial amounts of fuel or energy?		✓	
B. Substantial increase in demand upon existing sources of energy, or require the development of new sources of energy?		✓	

15. Utilities. Will the proposal result in a need for new systems, or substantial alterations to the following utilities?

A. Power or natural gas?		✓	
B. Communications systems?		✓	
C. Water?		✓	
Amount of water to be consumed. _____			
D. Sewer or septic tanks?		✓	
Amount of sewage generated. _____			
E. Storm water drainage?		✓	
F. Solid waste and disposal?		✓	
Amount of waste generated. _____			

	YES	NO	MAYBE
16. Human Health. Will the proposal result in:			
A. Creation of any health hazard or potential health hazard (excluding mental health)	—	✓	—
B. Exposure of people to potential health hazards?	—	✓	—
17. Aesthetics. Will the proposal result in the obstruction of any scenic vista or view open to the public, or will the proposal result in the creation of an aesthetically offensive site open to public view?	—	—	✓
18. Recreation. Will the proposal result in an impact upon the quality or quantity of existing recreational opportunities?	—	✓	—
19. Archaeological/Paleontological.			
A. Will the proposal result in an alteration of a significant archaeological or historical site, structure, object or building?	—	✓	—
B. Are mitigating measures necessary?	—	✓	—
20. Mandatory Findings of Significance.			
A. Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?	—	✓	—
B. Does the project have the potential to achieve short-term, to the disadvantage of long-term, environmental goals? (A short-term impact on the environment is one which occurs in a relatively brief, definitive period of time while long-term impacts will endure well into the future).	—	✓	—

	YES	NO	MAYBE
C. Does the project have impacts which are individually limited, but cumulatively considerable? (A project may impact on two or more separate resources where the impact on each resource is relatively small, but where the effect of the total of those impacts on the environment is significant).		✓	
D. Does the project have environmental effects which will cause substantial adverse effects on human beings either directly or indirectly?		✓	

III. List mitigating measures required to mitigate impacts (one must be listed for each YES or MAYBE answer and elsewhere where indicated). (ATTACH SEPARATE SHEET). Not applicable

IV. Describe modifications of project to mitigate impacts.. (ATTACH SEPARATE SHEET IF NECESSARY. Not applicable

V. DETERMINATION (TO BE COMPLETED BY THE COMMUNITY DEVELOPMENT DIRECTOR).

On the basis of this initial evaluation:

1. [X] I find the proposed project WILL NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared.

2. [ ] I find that although the proposed project will have a significant effect on the environment, there will not be a significant effect in this case because the mitigation measures described wherein have been added to the project. A NEGATIVE DECLARATION will be prepared.

3. [ ] I find the proposed project MAY have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT is required.

ESCONDIDO PLANNING DEPARTMENT

CHECKLIST FOR Landscape Plan - Questions & Preliminary Review - Corp. Yard Expansion

REQUIREMENTS NOT COMPLETE — ESTIMATED PROCESSING TIME

1. Indicate what will be done for erosion/dust control on areas of site that are not used for storage or roadways (Suggest non-irrigated hydroseed with temporary irrigation until it is established)

2. Since there can be no significant planting along the easterly property line, due to new 54" storm drain, another method of screening should be provided (Slats in fence, vines on fence, or?) Slope area should have a min. of ground cover if 3ft or higher.

3. Can any landscape be provided in mounded area at center front portion of the site?

4. Will perimeter fences have slats? (This may be determined to be appropriate after Design Review). If not, have vines been considered?

All of these requirements must be met prior to Planning Department ~~clearance~~ issuance of the Neg. Dec. . The estimated processing times reflect time required to process each individual item based upon current workloads and may be subject to change without notice. Any or all of these items may be processed simultaneously. Therefore, it is most prudent to submit all of the requirements at one time and allow for the longest listed processing time. Any and all submittals to the Planning Department must be accompanied by a copy of this checklist indicating which items are being submitted.

JoAnn Alpert (Planner) — Planner II (Title) — 10.26.92 (Date)

PUBLIC WORKS DEPT ENGINEERING DIV

CHECKLIST FOR GP 1502

Corporation Yard Expansion

REQUIREMENTS NOT COMPLETE — ESTIMATED PROCESSING TIME

1. Indicate on plan that existing grindengo, etc. are to be removed.
2. Show height of new fence to be installed - both perimeter and around new storage areas. Indicate if slats will be installed in any of the fencing - we recommend screening around storage areas & impound area
3. Indicate where site lighting will occur
4. Indicate more clearly where the road is to storage areas, if it will be gravel or paved, or if trucks, etc. will be randomly driven over the site.
5. Need hours of operation - when loading, unloading, etc. will take place.
6. Provide sheet 1 of grading plan - 2 additional copies (I only received multiple copies of sheet 2 of 2)
7. Indicate total area of storage & impound lot as shown on plan.

All of these requirements must be met prior to Planning Department ~~clearance~~ issuance of the Neg. Declaration. The estimated processing times reflect time required to process each individual item based upon current workloads and may be subject to change without notice. Any or all of these items may be processed simultaneously. Therefore, it is most prudent to submit all of the requirements at one time and allow for the longest listed processing time. Any and all submittals to the Planning Department must be accompanied by a copy of this checklist indicating which items are being submitted.

CORPORATION YARD EXPANSION

Design Section comments to Planning Dept. requirements dated October 28, 1992

1. Indicate on plan that the existing grindings, etc are to be removed.

   Added note to plan indicating that the existing grindings are to be used in storage areas in lieu of gravel.

2. Show height of new fence to be installed, both perimeter and around new storage areas. Indicate if slats will be installed in any of the fencing. ....

   The reference legend on the grading has been changed to describe the new chain link fencing as 6 foot in height without slats. All screening is to be provided by trees and shrubs along the perimeter of the site with no additional screening to be provided.

3. Indicate where site lighting will occur.

   At this stage of site development no on site lighting will be installed.

4. Indicate more clearly where the road is to the storage areas, if it will be gravel or paved, or if trucks, etc. will be randomly driven over the site.

   The on site areas are to be covered with asphalt grindings. This will allow vehicles to travel over any area on site. No further delineation of roadway is needed. Noted location on plan.

5. Need hours of operation - when loading, unloading etc. will take place.

   Normal operating hours hours are 7:00 a.m to 5:00 p.m.

6. Provide sheet 1 of grading plan. - 2 additional copies

   Design Section will provide these.

7. Indicate total area of storage and improved lot as shown on the plan.

   These areas are now shown on the grading plan and on L.S. reference plan.

8. Add detail note regarding the filling in of the existing drainage ditch and that it will be replaced by a new storm drain system.

   Note has been added.

9. Indicate what will be done for erosion/dust control on areas of the site that are not used for storage or roadways. .....

   Since the entire storage and improved areas are to have asphalt grindings compacted in place there is no need for any additional erosion/dust control. ..... Hydroseeding would soon become a continuing maintenance headache on site.

CORPORATION YARD EXPANSION

Design Section comments to Planning Dept. requirements
dated October 28, 1992

10. Since there can be no significant planting along the easterly property line, due to the new 54" storm drain, another method of screening should be provided ..... slope area should have a minimum of ground cover if 3 foot or higher.

Engineering prefers not to have wood slats in fence, vines etc. in the easterly fence. This fence is not on City property. The City is reluctant to demand that slats be placed in the private fence. The sloped area along the easterly property line is less than 3 foot in height.

11. Can any landscaping be provided in the mounded area at the center front portion of the site?

Mounded area is for the future building pad site. No trees or new landscaping are planned or recommended due to the necessity of their removal and disposal at a yet to be determined future date.

12. Will perimeter fence have wood slats .....?

Slats in fence will not be necessary because of the intense planting of shrubs and trees along the property's perimeter. This topic was discussed by members of the Planning Dept. , and Parks and Recreation Dept. prior to placing the plans on paper. In lieu of wood slats, trees and shrubs will provide a more affective sight and sound buffer.

13. Add scale to Landscape Plan.

All current plans have scales. Only the drawing given to Planning Department "The Big Picture" did not show the scale. The scale is 1" = 40 feet, and is now shown.

14. Change legend so that Euc. Lehmanni symbol matches plan.

The real landscape plans show the symbol accurately in the legend as well as the plans. The drawing given to Planning for reference only is insignificantly in error due to a plotter glitch.

DESIGN ENGINEERING IS WILLING TO DISCUSS ANY OF THE WRITTEN REPLIES HEREIN. PLEASE CONTACT ME AT EXTENSION 4574.

Sincerely, Henry Hildebrant

November 18, 1992

TO: Patricia Borchmann, Planning Department
Barbara Redlitz, Planning Department

FROM: Henry Hildebrant, Engineering Department
Dale Mathre, Engineering Department

SUBJECT: Tree Mitigation for Escondido Blvd. - Decatur to Hwy 78

A meeting was held today with JoAnn Alpert and Rozanne Cherry (Planning Department); Dale Mathre and Neil Osias (Parks & Recreation); and Mike Adams, Henry Hildebrant, Ron Gerow and Scott Baxter (Engineering Department) regarding the new City Yard site issues. There was discussion to use part of the nineteen 24" box trees that are being planted on the frontage of Washington as replacement for the nine 24" box trees required for mitigation on Escondido Boulevard. Since the nineteen 24" box trees on the City Yard site are over and above what would be normally required for similar frontage landscaping, it was agreed that the nine box trees from Escondido Boulevard would be considered mitigated by nine of the nineteen trees on the City Yard site. For your information, a total of 66 trees are being planted on the new City Yard site.

CORPORATION YARD EXPANSION

Design Section memo to Planning Dept. regarding the IMPOUND STORAGE AREA at the new Corporate Yard site.

dated November 24, 1992

To: Jo Ann Alpert, Planner II
From: Henry Hildebrant, Principal Civil Engineer

I have discussed the issue of Lighting for the impound storage area with Police Officer Dana Ray. Officer Ray has discussed the issue with his supervisors and determined the following: The Police Dept. at this time is not planning on using the area set aside for the impound storage area. For the interim proposed improvements of the Corporation Yard Expansion there will be no lighting installed onsite.

Sincerely,

Henry S. Hildbrant,
Principal Design Engineer

(MITIGATED)
NEGATIVE DECLARATION

CASE NO.: ER 90-51

DATE ISSUED: December 1, 1992

PUBLIC REVIEW PERIOD: December 2 - December 22, 1992

LOCATION: Escondido Boulevard from Highway 78 to Decatur, Lincoln Avenue

PROJECT DESCRIPTION: Road widening and street improvements on Escondido Boulevard from Highway 78 overpass to Decatur Way, approximately 1,160 linear feet, and approximately 230 linear feet of "Stick-Out" improvements located on the west side of Escondido Boulevard near the intersection with El Norte Parkway. Improvements on Escondido Boulevard will comply with Collector Road standards, per the City of Escondido Circulation Element (84' right-of-way, 64' paved width). The proposed project also includes improvements on Lincoln Avenue, approximately 250 linear feet east and west of the intersection with Escondido Boulevard. Improvements on Lincoln Avenue will comply with Local Collector Road standards, per the City of Escondido Circulation Element (66' right-of-way, 42' paved width). Improvements on Escondido Boulevard will require right-of-way acquisition in certain sections to accommodate ultimate permanent improvements, and concrete sidewalks. The project requires the lowering of Escondido Boulevard up to one foot and after allowing for the proposed structural section, the estimated approximate export quantity is 3,000 cubic yards. No retaining walls are required on this project. Reconstruction of private driveways, relocation of mailboxes and utilities are part of this project, along with removal of seven mature eucalyptus trees that are within the roadway. The City standards for tree replacement (Ord. 91-55) would require replacement at 2:1 ratio, for a total of 14 trees. Five property owners agreed to planting an 18"-24" jacaranda tree in front yard, and agreed to accept maintenance responsibility for the trees on private property. The project proposes to plant the remaining nine (9) replacement trees off site, at the proposed public works yard on Washington Avenue, with 24" box-sized trees. This proposal was determined to comply with the City's standards for tree replacement.

APPLICANT: City of Escondido

An Initial Study has been prepared to assess this project as required by the California Environmental Quality Act and Guidelines and Ordinances and Regulations of the City of Escondido. The Initial Study is on file in the City of Escondido Planning Department.

FINDINGS:

The findings of this review are that the Initial Study identified effects which are potentially significant, but revisions in the project plans made by or agreed to by the applicant would provide mitigation to a point where impacts are reduced to a less than significant level.

NOTICE OF PROPOSED NEGATIVE DECLARATION

The Escondido Planning Department has prepared a Negative Declaration for the project described below. This preliminary finding means that there will be no significant environmental effects from the project, as long as impacts are mitigated by conditions of project approval. The description of the project is as follows:

ER 92-45:

LOCATED: South side of Washington Avenue, east of Rock Springs Road, addressed as 903 West Washington Avenue.

APPLICANT: City of Escondido

PROJECT DESCRIPTION: Expansion of the existing Public Works Corporate Storage Yard, onto a separate parcel in the vicinity of the existing yard, including the proposed development of storage areas: police impound vehicle lot; streets, utilities, and parks storage (streetlights, fencing, sand, gravel, road grindings, vehicles/ equipment etc.); and warehouse storage (pipe, surplus/ auction items). The total area devoted to storage is approximately 3.56 acres of the 10-acre site which is zoned M-2 (General Industrial), and is located in the General Plan designated area of Planned Industrial - Tier 1 Central. The related plot plan case number is 92-32-PPL.

The review and comment period will end January 6, 1993. A copy of the Environmental Initial Study and the Negative Declaration are on file and available for public review in the Escondido Planning Department, at 201 North Broadway. Written comments relevant to environmental issues will be considered if submitted to the Planning Department prior to 5 p.m., January 6, 1993.

This project has NOT been approved or denied. It has been reviewed for environmental impact only. Administrative approval of this case is anticipated on or about December17, 1992, as long as written comments during this public review period for this Initial Study do not raise relevant environmental issues which were not considered in this analysis.

Further information may be obtained by contacting **JoAnn Alpert** at the Planning Department, telephone (619) 741-4671. Please refer to Case No. ER 92-45.

NEGATIVE DECLARATION

CASE NO.: ER 92-45 (Related Case File: 92-32-PPL)

DATE ISSUED: December 16, 1992

PUBLIC REVIEW PERIOD: December 17, 1992 to January 6, 1993

LOCATION: South side of Washington Avenue, east of Rock Springs Road, addressed as 903 West Washington Avenue.

PROJECT DESCRIPTION: Expansion of the existing Public Works Corporate Storage Yard, onto a separate parcel in the vicinity of the existing Yard, including the proposed development of storage areas: police impound vehicle lot; streets, utilities, and parks storage (streetlights, fencing, sand, gravel, road grindings, vehicles/ equipment etc.); and warehouse storage (pipe, surplus/ auction items). The total area devoted to storage is approximately 3.56 acres with the remainder of the 10-acre site kept open for equipment and vehicular access. The parcel is zoned M-2 (General Industrial), and is located in the General Plan designated area of Planned Industrial - Tier 1 Central. The related plot plan case number is 92-32-PPL.

APPLICANT: City of Escondido

An Initial Study has been prepared to assess this project as required by the California Environmental Quality Act and Guidelines and Ordinances and Regulations of the City of Escondido. The Initial Study is on file in the City of Escondido Planning Department.

FINDING:

The findings of this review are that the project will not have a significant effect on the environment since there is no substantial evidence in the record to indicate project related impacts are potentially significant.

SUBJECT: Environmental Review Determination, Initial Study, Case No. ER 92-45
(Plot Plan: 92-32-PPL)

Dear Ron:

An analysis of your Environmental Review application has resulted in the enclosed "Notice of Proposed Negative Declaration," issued in draft form. Issuance of this document indicates the City determined the following finding applies to the proposed project:

> There is no substantial evidence that the project may have a significant effect on the environment.

Public notice of the Proposed Negative Declaration has been distributed for a public review period, ending on January 6, 1993. Depending on the relevance of any public comments received during the public review period, staff reserves the right to change the terms and conclusions of this "Proposed Negative Declaration."

Comments from various City Departments and/or agencies regarding the proposed development plans are also enclosed. These comments are preliminary in nature, and do not represent the City's final staff recommendation on the proposal. The comments are conveyed for your convenience, and are intended to provide advance notice of potential concerns expressed by individual departments. Please note that if any comments require a revision to your development plans or identify specific submittal requirements, these items must be addressed or your development application will be considered incomplete. If you have any questions regarding the details or appropriateness of any comment, please contact the appropriate individual department; your Planning Department contact is JoAnn Alpert (ext. 4554).

Sincerely,

Barbara Redlitz

DEPARTMENT COMMENTS

Planning Department

1. Additional screening along Washington Avenue shall be provided by installing slats in the six-foot-high chain link fence in combination with nineteen (19), 24-inch box-size trees and enhanced landscaping as shown in the landscape plans that have been prepared.

2. A City project to widen Escondido Boulevard, between Crest Street and Decatur Way has resulted in the removal of seven (7) mature Eucalyptus trees. The required mitigation for the loss of these trees was to replace them at a 2:1 ratio with 18-inch to 24-inch box-size trees. Only five (5) of these trees could be planted in the immediate area. A proposal to plant the remaining nine (9) replacement trees off-site was found to be acceptable. This project, Corporate Yard Expansion, proposes to mitigate the nine (9) trees on this site by increasing the size of twelve (12) of the street trees from 15-gallon to 24-inch box size trees. The Parks and Recreation Superintendent has approved this proposal as a sufficient mitigation measure for the Escondido Boulevard project.

3. Perimeter screening, on the west side and rear property lines, is to be provided by enhanced landscaping to include Eucalyptus (Red Gum and Bushy Yate), California Pepper trees (Schinus molle) and shrubs (Acacia, Myoporum and Lantana) as shown on the proposed landscape plan submitted with the application.

4. Because adequate employee parking for the proposed expansion, as defined in the Parking Code, is not available at the existing Public Works Yard and no employee parking will be provided on this site, the Planning Commission will be consulted for a waiver of on-site parking requirements pursuant to Article 39, Section 33-767 (Off-street Parking Ordinance) because no additional employees will be hired as a result of this yard expansion.

5. The City of Escondido hereby notifies the applicant that State Law (AB 3158) effective January 1, 1991, requires certain projects to pay fees for purposes of funding the California Department of Fish and Game where the proposed project creates a potential for adverse environmental impacts on fish and wildlife resources. The fees may be waived for projects which are found by the Planning Department, and the California Department of Fish and Game to have a de minimus impact on fish and wildlife resources. Based on the completed Initial Study, the Planning Department finds that the proposed project will not encroach upon wildlife habitat area, will have no potential adverse individual or cumulative effects on wildlife resources, and requires no mitigation measure to be incorporated into the proposed project which would affect fish or wildlife resources. Therefore, the project will have a de minimus impact and no Fish and Game fee will be required.

2. A City project to widen Escondido Boulevard, between Crest Street and Decatur Way, has resulted in the removal of seven (7) mature Eucalyptus trees. The required mitigation for the loss of these trees was to replace them at a 2:1 ratio with 18-inch to 24-inch box-size trees. Only five (5) of these trees could be planted in the immediate area. A proposal to plant the remaining nine (9) trees off-site was found to be acceptable. This project, Corporate Yard Expansion, proposes to mitigate the nine (9) trees on this site by increasing the size of twelve (12) street trees from 15-gallon size to 24-inch box size trees. The Parks and Recreation Superintendent has approved this proposal as a sufficient mitigation measure for the Escondido Boulevard project.

3. Perimeter screening, on the west side and rear property lines, is to be provided by enhanced landscaping to include Eucalyptus (Red Gum and Bushy Yate), California Pepper trees (Schinus molle) and shrubs (Acacia, Myoporum and Lantana) as shown on the proposed landscape plan submitted with the application.

4. Because adequate employee parking for the proposed expansion, as defined in the Parking Code, is not available at the existing Public Works Yard and no employee parking will be provided on this site, the Planning Commission will be consulted for a waiver of on-site parking requirements pursuant to Article 39, Section 33-767 (Off-street Parking Ordinance) because no additional employees will be hired as a result of this yard expansion.

5. The City of Escondido hereby notifies the applicant that State Law (AB 3158) effective January 1, 1991, requires certain projects to pay fees for purposes of funding the California Department of Fish and Game where the proposed project creates a potential for adverse environmental impacts on fish and wildlife resources. The fees may be waived for projects which are found by the Planning Department, and the California

Department of Fish and Game to have a de minimus impact on fish and wildlife resources. Based on the completed Initial Study, the Planning Department finds that the proposed project will not encroach upon wildlife habitat area, will have no potential adverse individual or cumulative effects on wildlife resources, and requires no mitigation measure to be incorporated into the proposed project which would affect fish or wildlife resources. Therefore, the project will have a de minimus impact and no Fish and Game fee will be required.

PL\T1123-17

INITIAL STUDY PART II
Supplemental Comments
ER 92-45
(Related Case 92-32-PPL)

The Corporate Yard Expansion will occur on a separate parcel of land on West Washington Avenue. At this time, there is no physical connection between the existing Yard and the expansion parcel. The West Washington parcel is vacant land dotted with mature Eucalyptus trees and low growing native vegetation. The yard will have three fenced storage areas, with the remainder of the site available for vehicular access. No structures are planned at this time.

1. EARTH

Grading will be performed to fill an existing drainage ditch and to redirect drainage to a new storm drain, to remove soil that has been dumped and stored on this site, and to create level storage areas. However, no significant impacts will result because the site is essentially flat with no unique geologic features, and the proposed development and associated grading will not result in unstable earth conditions, changes to geologic substructures, or exposure of people or property to geologic hazards. As the site will be overlaid with road grindings, no wind or water erosion will occur.

2. AIR

There will be no substantial air emissions or objectionable odors associated with the storage of impound vehicles, the storage of various construction materials, or the loading and unloading activities.

3. DRAINAGE

The amount of runoff will not significantly increase because no impervious surfaces will be constructed. A drainage plan has been prepared that will provide a better pattern of drainage for the site and will handle a greater volume of runoff by directing it to a new storm drain facility.

4. BIOLOGICAL INVENTORY

The site contains a substantial number of mature Eucalyptus trees, including a stand of Eucalyptus immediately adjacent to Washington, and individual trees scattered on the interior of the site. Approximately 11 trees will be removed to allow for filling the drainage ditch and to clear for the storage areas; however, the stand of Eucalyptus adjacent to Washington Avenue will be preserved. No significant impacts will occur because the proposed landscape plan provides extensive new plantings along the west and south property lines which will include a mix of shrubs and 15-gallon and box-size trees.

The existing earthen drainage swale, which transverses the site, has no wetland vegetation and is not considered a stream course. Therefore, no adverse impacts are anticipated as a result of its being filled during grading.

The proposed development will not result in any impact on the City's biological resources, the plant life and/or the animal life since the site does not contain any significant vegetation other than Eucalyptus trees. Additionally, the site is not listed on the City's Biological Resources Inventory. It has further been found by the Planning Department that the proposed development will have a de minimus impact on the fish and wildlife resources as no riparian habitat or stream courses occur on site.

5. NOISE

There will be some increase in noise due to the operation of trucks and equipment in the storage yard. However, it will not exceed the levels of noise permitted in a heavy industrial zone (M-2), pursuant to the Noise Ordinance.

6. LIGHT AND GLARE

No lighting is proposed.

7. LAND USE

The proposed Public Works Yard is consistent with the underlying zoning of heavy industrial (M-2). The land is now vacant and is surrounded by existing industrial uses.

8. NATURAL RESOURCES

The storage yard will not be consuming any natural resources, therefore, this project will not result in an increased rate of consumption or depletion of any nonrenewable natural resource. The project will facilitate the City's recycling efforts by providing new storage areas.

9. RISK OF UPSET

The proposal does not involve a risk of explosion or the release of hazardous substances since items being stored are not potentially explosive. Should an emergency situation occur, a clear access 20 feet in width will be maintained adjacent to the storage areas for emergency vehicle access.

10. POPULATION

This project will not increase the density of the population or growth rate of Escondido since existing Public Works Staff will be operating the storage yard functions.

11. HOUSING

There will be no effect on existing housing and no demand for additional housing since this is not a residential project and existing staff will run the yard.

12. TRAFFIC/CIRCULATION

No paved parking areas are proposed on site. The Parking Code would require approximately thirty-seven (37) new parking spaces based on the storage use. The existing storage yard cannot accommodate these additional parking spaces for the yard expansion. However, the Zoning Code has a provision, Section 33-767, that allows a waiver of parking requirements for special uses, including corporation storage yards, with Planning Commission approval. Also, there will be no additional employees hired because existing employees will perform the functions at the new storage yard. These employees will continue to park in the existing storage yard parking lot which is adequate to accommodate existing staff levels. A request to waive the on-site parking requirement will be made to the Planning Commission.

There will be various pieces of equipment parked on the site used in the daily operations of the Corporate Yard such as dump trucks, forklifts, bobcats, riding mowers, etc. Except for the fenced in storage areas, the entire site, which will be overlaid with road grindings, will be traveled by these vehicles and equipment.

13. PUBLIC SERVICES

No additional public services will be required for the proposed project since there will be no structures to serve. Irrigation will be installed for the new landscape; however, there are existing water lines in the street from which the service can be taken.

14. ENERGY

The project will not be using any fuel or energy, other than to run the equipment, since there are no structures to be built at this time.

15. UTILITIES

The proposed project will not result in a need for any new gas, electric, water, or sewer systems since the site will only be used for storage purposes and has no associated structures.

16. HUMAN HEALTH

The proposed development will not create any health hazards or potentially expose people to health hazards, since the project will comply with all applicable codes.

17. AESTHETICS

The site is not visible from the I-15 corridor. The peripheral views will be screened by new plantings of trees and shrubs. A combination of a six-foot-high chain link fence with slats and box-size trees will be added to the planting of shrubs and 15-gallon trees along West Washington to provide additional screening measures. Also, the existing stand of mature Eucalyptus trees on West Washington will be preserved.

18. RECREATION

As an industrial development, this project has no effect on recreational facilities.

19. ARCHEOLOGICAL/PALEONTOLOGICAL

The site is not listed on the archaeological resources sites inventory list; therefore, the project will not have any significant impact on the archaeological resources of the City.

20. MANDATORY FINDINGS OF SIGNIFICANCE

In staff's opinion, the proposed development will not have any significant impacts that directly or indirectly degrade the quality of the environment or adversely affect human beings directly or indirectly, since the site does not contain any sensitive plant/animal species, or important historic/prehistoric sites; no impacts have been identified which are individually limited but cumulatively considerable; and there is not potential to harm long-term environmental goals.

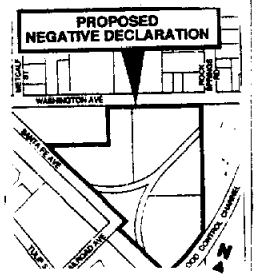
NOTICE OF PROPOSED NEGATIVE DECLARATION

NOTICE OF PROPOSED NEGATIVE DECLARATION

The Escondido Planning Department has prepared a Negative Declaration for the project described below. This preliminary finding means that there will be no significant environmental effects from the project, as long as impacts are mitigated by conditions of project approval. The description of the project is as follows:

ER 92-45:
LOCATED: South side of Washington Avenue, east of Rock Springs Road, addressed as 903 West Washington Avenue.
APPLICANT: City of Escondido
PROJECT DESCRIPTION: Expansion of the existing Public Works Corporate Storage Yard, onto a separate parcel in the vicinity of the existing yard, including the proposed development of storage areas: police impound vehicle lot; streets, utilities, and parks storage (streetlights, fencing, sand, gravel, road grindings, vehicles/equipment etc.); and warehouse storage (pipe, surplus/auction items). The total area devoted to storage is approximately 3.56 acres of the 10-acre site which is zoned M-2 (General Industrial), and is located in the General Plan designated area of Planned Industrial - Tier I Central. The related plot plan case number is 92-32-PPL.



The review and comment period will end January 6, 1993. A copy of the Environmental Initial Study and the Negative Declaration are on file and available for public review in the Escondido Planning Department, at 201 North Broadway. Written comments relevant to environmental issues will be considered if submitted to the Planning Department prior to 5 p.m., January 6, 1993.

This project has NOT been approved or denied. It has been reviewed for environmental impact only. Administrative approval of this case is anticipated as long as written comments during this public review period for this Initial Study do not raise relevant environmental issues which were not considered in this analysis.

Further information may be obtained by contacting JoAnn Alpert at the Planning Department, telephone (619) 741-4671. Please refer to Case No. ER 92-45.

CERTIFICATE OF FEE EXEMPTION
(De Minimus Impact Finding)

The City of Escondido has completed an Initial Study for the above-referenced property, including evaluation of the proposed project's potential for the adverse environmental impacts on fish and wildlife resources. Based on the completed Initial Study, the Planning Department finds that the proposed project will not encroach upon wildlife habitat area, will have no potential adverse individual or cumulative effects on wildlife resources and requires no mitigation measures to be incorporated into the proposed project which would affect fish or wildlife resources.

CERTIFICATION:

I hereby certify that the public agency has made the above finding and that the project will not individually or cumulatively have an adverse effect on wildlife resources, as defined in Section 711.2 of the Fish and Game Code.

INITIAL STUDY - PART I

(To be completed by Applicant)

ENVIRONMENTAL CHECKLIST FORM

General Information:

1. Name, address and telephone number of developer or project sponsor:
   Division Chief Scott Alvord, Escondido Fire Department, 201 N. Broadway, Escondido, CA 92025 (760) 839-5402

2. Address of Project:
   905 W. Washington Avenue, Escondido, CA

3. Name, address and telephone number of person to be contacted regarding this project:
   Rozanne Cherry, Senior Planner, 201 N. Broadway, Escondido, CA 92025 (760) 839-4536

4. List other agencies which have, or must, approve the project: NA

5. Describe the proposed project (attach statement if necessary): The proposed project includes the establishment of the Public Safety Facilities Overlay Zone (PSF) on the subject site, and a Conditional Use Permit for the temporary relocation of Fire Station #1 to an area within the existing City's Public Works yard involving 840 SF of office space, 2,880 SF of living quarters, 5,032 SF of fire apparatus bays, with associated paving and parking. The four pre-manufactured modular buildings total 8,752 SF. Two buildings will be relocated on site from the existing station. The site is a 1.24 acre portion of a 10± acre Public Work's yard parcel in the M-2 (General Industrial zone), and the GI (General Industrial)Tier1/Central general plan designation.

6. Describe the type of application (Conditional Use Permit, Variance, etc.):
   Zone Change and Conditional Use Permit

7. Size of parcel (acreage): 1.24 acre portion of a 10± acre parcel

8. Square footage of each building: Relocated office building: 840 SF; relocated reserve apparatus building: 2,312 SF; new living quarters: 2,720 SF; and new responding apparatus building: 2,720 SF.

9. If a subdivision, range of lot sizes: NA From:___Square Feet to: _____Square Feet____

10. Number of Floors: all buildings are single story

11. Number of parking spaces provided: 18

12. Is this project to be developed in several phases? If so, give dates: No

13. Amount of grading proposed in yards: pad preparation and bio-swales only

Height of maximum cut slope: NA
Height of maximum fill slope: NA
Slope inclinations: NA

14. Is this a portion of any larger project? If so, describe on an attached sheet. The relocation of Fire Station #1 is required before the demolition and reconstruction of the current Fire Station #1 facilities can occur.

15. If residential, include the number of units, size of units (number of rooms), and /or lot, and type of household size expected. NA

16. If commercial, indicate the type (CG, CT, etc.) square footage of sales area. NA

17. If industrial, indicate type and estimate number of employees: NA

18. If institutional, indicate the major function, estimating number of employees, estimated occupancy: Responding Fire Protective Services (Fire Station) with approximately 13 employees on the largest shift; 11 firefighters and 2 office workers.

19. If the project involve a variance, conditional use permit or rezoning application, state this, and indicate clearly why the application is required (see required findings in Zoning Code): The Zoning Code requires a Zone Change to apply the Public Safety Facilities Overlay (PSF) to sites designated for fire stations, and requires a Conditional Use Permit for the development of the Fire Department facilities on the site.

Are the following items applicable to the project or its affects: Discuss below all items checked yes (attach additional sheets if necessary).

20. Change in existing features of any lakes or hills, or substantial alteration of topography or drainage. (If yes, submit accurate topo and grading plan). _____Yes _X_ No.

21. Change in scenic views or vistas from existing residential areas or public lands or roads. _____Yes _X_ No.

22. Change in pattern, scale or character or general area of project. _____ Yes _X_ No.

23. Significant amounts of solid waste or litter. __Yes _X_ No.

24. Result in dust, ash smoke, fumes or odors being discharged in the vicinity. ____ Yes X_ No.

25. Change in lake, stream or ground water quality or quantity, or alteration of existing drainage patterns. _____Yes __X___ No.

26. Substantial change in existing noise or vibration levels in the vicinity. _____Yes __X___ No.

27. Site on filled land or on slope of 10 percent or more. (If site contains any slope in excess of 10 percent, submit an accurate topo). _____Yes ___X__ No.

28. Use of disposal of potential hazardous materials, such as toxic substances, flammables or explosives. _____Yes ___X__ No.

29. Substantial increase in demand for municipal services (police, fire, water, sewage, etc.). _____Yes __X___ No.

30. Substantially increase fossil fuel consumption (electricity, oil, natural gas, etc.) Substantial increase in demand for municipal services (police, fire, water, sewage, etc.).___Yes _X_ No.

31. Relationship to a larger project or series of projects. __X___Yes _____ No. The relocation of Fire Station #1 is required before the demolition and reconstruction of the current Fire Station #1 facilities can occur.

Environmental Setting (Enclose several photographs of property taken from various vantage points, with specific shots taken to display trees, shrubs, topography, and stream courses(s) if any.)

32. Describe the project site, as it exists before the project, including information of topography, soil stability, plants and animals, and any cultural historical or scenic aspects. (Please review the Escondido Historical Survey at the Planning Department.) Describe any existing structures on the site and use of the structures. The project site is only a 1.24 acre portion of a flat 10± acre parcel currently used by the Escondido Public Works Division as an operations and storage yard. The entire site has been disturbed and no sensitive habitat exists. Some mature ornamental trees occur around the perimeter of the parcel. Existing operations include storage of equipment and materials and parking of large vehicles. Cultural /historic resources are not present.

33. Describe the surrounding properties, including information on zoning, plants and animals and any cultural, historical or scenic aspects, Indicate the type of land use (residential, commercial, etc.,), intensity of land use (one family, apartment, houses, shops, department stores, etc.). The parcel is surrounded by M-2 zoning developed with heavy industrial uses, including a concrete batch plant, small multi-tenant industrial buildings, a truck maintenance facility and a train maintenance facility that is under construction.

34. Archaeological Setting

    a. Is the property within ¼ mile of a steam course? __X__ Yes _____No. Escondido Creek, a concrete-lined channel, borders the south easterly corner of the 10 acre parcel.
    b. Are there any granitic outcrops on the project site? ____ Yes __X__ No.
    c. Are there any isolated areas of dark soil development on the project site? _____Yes _X__ No.
    d. Are there any surface concentrations of stone flakes, bone, or pottery fragments on the property? _____Yes __X__ No
    e. Are there any prehistoric assemblages of rock or rock art on the property? Any surface concentrations of stone flakes, bone, or pottery fragments on the property? ___Yes __X__ No

35. For projects consisting of residential units (adult or family) request in writing a letter from the:
    1. Escondido Union School District
    2. Escondido Union High School District

Describing the project's impact on enrollment and submit the school letters WITH THE FORM. NA

In all cases in which a mature tree is being removed from a right-of-way, include a justification and picture of the tree. Mature eucalyptus trees adjacent to the easterly driveway will be removed as a safety hazard since some are leaning dangerously and many are diseased and have weak structure.

CERTIFICATION

I hereby certify that the statements furnished above and in the attached exhibits present the data and information required for this initial evaluation to the best of my ability, and that the facts, statements, and information presented is true and correct to the best of my knowledge and belief.

I further understand that additional information or requirements may be necessary.

NOTICE OF NEGATIVE DECLARATION

Case Number: ER 2006-14 – Zone Change and Conditional Use Permit for the Temporary Relocation of Fire Station #1

Project Description: .

1. A change of zoning to apply the Public Safety Facilities Overlay Zone (PSF) to the 1.24 acre site currently zoned M2 (General Industrial).
2. A Conditional Use Permit for the construction of approximately 8,752 SF of facilities to temporarily house Fire Station #1 during the demolition of the existing station and construction of new facilities. The proposed facilities include 840 SF of office space, 2,880 SF of living quarters, 5,032 SF of fire apparatus bays, with associated paving and parking. Two building will be relocated on site from the existing station. The site is a 1.24 acre portion of a 10± acre parcel used by the City's Public Works Department.

Location: On the south side of W. Washington Avenue between Rock Springs Road and Metcalf Avenue, addressed as 905 W. Washington Avenue.

Applicant: City of Escondido

The review and comment period will end on **July 24, 2006**. A copy of the Environmental Initial Study and the Negative Declaration are on file and available for public review in the City of Escondido Planning Division, at 201 North Broadway. Written comments relevant to environmental issues will be considered if submitted to the Planning Division prior to 5:30 p.m., July 24, 2006. Due to the City's 9/80 work schedule, City hall is closed on Friday, July 14, 2006.

Further information may be obtained by contacting **Rozanne Cherry** at the Planning Division, telephone (760) 839-4536. Please refer to Case No. ER 2006-14.

NEGATIVE DECLARATION

Zone Change and Conditional Use Permit for the Temporary Relocation of Fire Station #1

Case Number: ER 2006-14

Date Issued: June 29, 2006

Public Review Period: July 4, 2006 – July 24, 2006

Location: On the south side of W. Washington Avenue between Rock Springs Road and Metcalf Avenue, addressed as 905 W. Washington Avenue.

Project Description: **Case 2006-33-CUP/CZ**

1. A change of zoning to apply the Public Safety Facilities Overlay Zone (PSF) to the 1.24 acre site currently zoned M2 (General Industrial).
2. A Conditional Use Permit for the construction of approximately 8,752 SF of pre-manufactured modular buildings to temporarily house Fire Station #1 during the demolition and reconstruction of the existing station. The proposed facilities include 840 SF of office space, 2,880 SF of living quarters, 5,032 SF of fire apparatus bays, with associated paving and parking. Two building will be relocated on site from the existing station. The site is a 1.24 acre portion of a 10± acre parcel used by the City's Public Works Department.

Applicant: City of Escondido

An Initial Study has been prepared to assess this project as required by the California Environmental Quality Act and Guidelines as well as Ordinances and Regulations of the City of Escondido. The Initial Study is on file at the City of Escondido Planning Division.

Findings: The finding of this review are that the project will not have a significant effect on the environment since there is no substantial evidence in the record to indicate project related impacts are potentially significant.

Project Location (include County)

A Conditional Use Permit for the construction of approximately 8,752 SF of facilities to temporarily house Fire Station No. 1 during the demolition of the existing fire station on Quince Street and construction of new facilities. The proposal also includes a Zone Change to apply the Public Safety Facilities (PSF) Overlay Zone to the 1.24 acre site currently zoned M-2 (General Industrial).
Project Description

This is to advise that on **August 9, 2006** the City of Escondido approved the above-described project and has made the following determinations regarding the above-described project:

1. The project ____ will, __X__ will not, have a significant effect on the environment.

2. ____ An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.

   __X__ A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.

3. Mitigation measures ___ were, _X_ were not, adopted this project.

4. A mitigation reporting or monitoring plan ____ was, _X_ was not, adopted for this project

5. A Statement of Overriding Considerations ____ was, _X_ was not, adopted for this project.

6. Findings _X_ were, ____ were not, made pursuant to the provisions of CEQA.

A copy of the Negative Declaration and record of project approval is available for review by the general public at the City of Escondido Planning Division, 201 N. Broadway, Escondido, California 92025. Telephone number (760) 839-4671.

CERTIFICATE OF FEE EXEMPTION
(De Minimis Impact Finding)

_X___ Check here if applicable

Findings of Fact:

1. The City of Escondido, Planning Division, has completed an Initial Study for the above-referenced property, including evaluation of the proposed project's potential for adverse environmental impacts on fish and wildlife resources.

2. Based on the completed Initial Study and substantial evidence considering the record as a whole, the City of Escondido finds that the proposed project will not encroach upon fish or wildlife habitat area, will have no potential adverse individual or cumulative effects on fish or wildlife resources, requires no mitigation measures to be incorporated into the proposed project which would affect fish or wildlife, and hereby rebuts the presumption of adverse effect contained in Section 753.5(d) of Title 14, California Code of Regulations.

Certification:

I hereby certify that the public agency has made the above findings of fact and that, based upon the Initial Study and hearing record, the project will not individually or cumulatively have an adverse effect on fish or wildlife resources, as defined in Section 711.2 of the Fish and Game Code.

Initial Study Part II
Supplemental comments

Zone Change and Conditional Use Permit for the Temporary Relocation of Fire Station #1
ER 2006-14, 2006-33-CUP/CZ

Project Description

The following evaluates the potential environmental impacts associated with the proposed application of Public Safety Facilities Overlay Zone to the subject site and the proposed temporary relocation of Fire Station #1. The attached environmental Initial Study is consistent with the California Environmental Quality Act (CEQA) Guidelines, and has been used to focus this study on physical factors that may be impacted by the proposed project. This Initial Study will serve to identify and evaluate any effects determined to be potentially significant.

The project involves a change of zoning to apply the Public Safety Facilities Overlay Zone (PSF) to the 1.24 acre site currently zoned M2 (General Industrial), and a Conditional Use Permit for the construction of approximately 8,752 SF of pre-manufactured modular buildings to temporarily house Fire Station #1 during the demolition and reconstruction of the existing station. The proposed facilities include 840 SF of office space, 2,880 SF of living quarters, 5,032 SF of fire apparatus bays, with associated paving and parking. Two buildings will be relocated on site from the existing station. The site is a 1.24 acre portion of a 10± acre parcel used by the City's Public Works Department.

Environmental Setting

The temporary site for Fire Station #1 is a 1.24-acre portion of the City's 10± acre Public Works Yard that has existing driveway access to Washington Avenue. The Public Facilities Safety Overlay Zone (PSF) would only be applied to the 1.24-acre portion of the site. The site is located in the northeastern corner of the open yard area adjacent to the Palomar Transit Mix concrete batch plant to the east. The proposed project entails the temporary location of Fire Station #1's personnel, equipment, and associated modular buildings for a period of up to two years while Fire Station #1 is being demolished and reconstructed at 310 N. Quince Street. The temporary site is level and has been completely disturbed by the on-going use as an outdoor equipment and materials storage area. No areas of native vegetation remain on the site.

Adjacent land uses and zoning are as follows:

North:	M-2 (General Industrial) zoning- across Washington Avenue are several small multi-tenant industrial buildings.
South:	M-2 zoning- outdoor storage yard for the City of Escondido Public Works Department and NCTD's train maintenance facility under construction beyond.
East:	M-2 zoning- Palomar Transit Mix Concrete Batch Plant.
West:	M-2 zoning- Outdoor storage yard and parking area for the City of Escondido Public Works Department and a truck maintenance facility beyond.

I. Land Use and Planning

City of Escondido Significance Criteria

Significant land use impacts would occur if the project substantially conflicted with established uses, disrupted or divided an established community or resulted in a substantial alteration to the present or planned land uses. Consistency with the City of Escondido General Plan and zoning and other applicable environmental plans and policies, is evaluated in making a determination of potential significant land use impacts. Aesthetic impacts would be significant if the project resulted in the obstruction of any scenic view or vista open to the public; damage of significant scenic resources within a designated State scenic highway, create an aesthetically offensive site open to

the public, and/or substantial degradation of the existing visual character or quality of the site and its surroundings. Significant aesthetic impacts would also occur if the project generated new sources of light or glare that adversely affected day or nighttime views in the area, including that which would directly illuminate or reflect upon adjacent properties or could be directly seen by motorists or persons residing, working or otherwise situated within sight of the project.

In keeping with the policies of the Escondido General Plan, which were based on the philosophy of locating fire and police facilities so that response times are minimized, the Public Safety Facilities (PSF) Overlay Zone was developed to provide standards and procedures for the development of these facilities throughout the city. The Public Safety Facilities Overlay is applied only to specific locations proposed for Fire or Police Department facilities and is used in conjunction with the existing zoning of the site. The PSF Overlay Zone allows the placement of Police and Fire Department facilities in any residential, commercial, industrial, open space or specific plan zoning designations, subject to the issuance of a Conditional Use Permit (CUP). The Overlay also allows variations in the underlying zoning development standards to meet public safety needs and ensure the efficient operation of the facility. The temporary Fire Station #1 site is in the M-2 (General Industrial) zone which does not allow fire stations. The establishment of the PSF Overlay on this property would allow the temporary relocation of Fire Station #1 with a Conditional Use Permit. The site is in close proximity to the existing location and would be utilized for approximately two years while Fire Station #1 is being reconstructed. Once Fire Station #1 is reconstructed and commences operations, the temporary site would no longer need the PSF designation and the buildings would be occupied by Public Works Department staff and equipment which is permitted by the current zoning. Fire Policy B1.6 of the Escondido General Plan states that the City shall undertake a systematic capital improvements program for Fire Department facilities to ensure a minimum of seven fire stations are in place prior to General Plan buildout. This proposed temporary relocation of Fire Station #1 is part of the overall plan to improve the City's Public Safety Facilities with the construction of a new Police and Fire Administration facility and four new fire stations throughout the City. The Police and Fire Administration facility was approved June 7, 2006, Case No. 2006-12-CUP/CZ, and the four new fire stations will be analyzed individually for potentially significant environmental impacts as part of the development review process for each site. With the approval of a CUP for the relocation site, no significant effects are anticipated from the application of the overlay zone as it would not result in a substantial alteration to present or planned land uses since public safety facilities are typically found in industrial areas.

The proposed 1.24 acre site, a portion of a 10± acre property owned by the City of Escondido, is located on the south side of W. Washington Avenue. The proposed development site is located in the north east corner of the existing Public Works operations yard. The General Plan Land Use Designation for the site is General Industrial (GI). The current zoning is consistent with the General Plan land use designation with M2 (General Industrial) zoning. The proposed project would establish a public safety facility (fire station) in a vacant area of the public works yard which currently contains materials stockpiles and stored equipment, materials and vehicles. The proposed temporary facilities for Fire Station #1 consist of four, pre-manufactured modular buildings with associated paving and parking areas. The buildings would total 8,752 SF and be clustered near the existing driveway off of Washington Avenue at the east end of the site. The 840 SF office building and the 2,312 SF reserve apparatus bay building would be moved from the current Fire Station #1 location to the subject site. New pre-manufactured modular buildings would be constructed on-site to house 2,880 SF of living quarters and 2,720 SF of responding apparatus bays. Eighteen parking spaces would be added. The maximum height of the buildings would be approximately 32-feet at the apparatus bays. The existing M-2 industrial zoning limits building height to whatever height is allowed under the Uniform Building Code based on the type of construction. The proposed single-story buildings are well within the limits of the UBC. The facilities as designed, also meet the 10-foot front yard setback required in the M-2 zone. Although the proposed Public Safety Facilities Overlay Zone would allow the facility to vary from the required standards of the underlying M2 zone, the project is not proposing any deviations from the current development standards.

The type of pre-manufactured modular buildings proposed and the height would not be out of character in the area and no aesthetic impacts would result from the construction of the facility as the design of the facility is not out of scale with surrounding development, since adjacent development includes buildings and structures in excess of 32-feet, such as the materials silos at the concrete batch plant to the east and the metal and block truck maintenance building to the west. Development of the proposed project would also not obstruct designated scenic views or vistas open to the public since neither the City nor the State designates W. Washington Avenue as a view shed resource. In addition, existing mature trees and chain link fence with slats along the Washington Avenue frontage will remain

and 11 new 24"-box size trees will be planted; providing screening of the facility from the street. Therefore, the project will have no adverse impact on a scenic vista or the existing industrial character of the surrounding area.

The proposed Project would not conflict with applicable environmental plans since no wetland area or sensitive or protected habitat such as coastal sage scrub or native grassland occurs on the site. Therefore, the project would not interfere with the preservation of high quality habitat or biological corridors and linkage area identified by the MHCP (Multiple Habitat Conservation Plan). The project site is not listed as Prime Agricultural lands as identified in the Final Environmental Impact Report (Figure II-2), which was prepared for the city's 1990 General Plan. Therefore, the proposed project will not create any planning or land use impacts.

Development of the proposed temporary fire station would create a new source of light and glare in the area. The primary source of light would be from the parking lot and lighting around the buildings. The lights are proposed to be low pressure sodium lights, which are consistent with the City's Outdoor Lighting Ordinance (Article 35 of the Escondido Zoning Code). The lamps will be shielded to reduce potential glare impacts to adjacent properties and motorists. Therefore, no lighting impacts are anticipated.

II. Agricultural Resources

City of Escondido Significance Criteria

Project impacts to agricultural resources would be significant if they lead to direct or indirect loss of Prime Farmland, Unique Farmland or Farmland of Statewide Importance, defined by the California Department of Conservation, or conflicted with the City's existing agricultural zoning or Williamson Act Contract.

The project area is located within the City's older urban area and the 1.24-acre portion of the site is currently utilized as the City's Public Works yard. The subject property is not listed as Prime Agricultural Lands as identified in the General Plan Final Environmental Impact Report, which was prepared for the City's 1990 General Plan revision. The site is not specifically zoned for agricultural use and is not subject to the provisions of a Williamson Act contract. The location of the temporary fire station and application of the Public Safety Facilities Overlay Zone on the property would therefore not result in significant individual or cumulative impacts to agricultural resources.

III. Transportation/Traffic

City of Escondido Significance Criteria

According to the City of Escondido Environmental Quality Regulation (Article 47, Sec. 33-924), impacts would be considered significant if the project:

1. *Caused the level of service (LOS) of a circulation element street to fall below a mid-range of LOS "D" and /or added more than 200 ADT to a circulation element street with a LOS below the mid-range "D" yet above LOS "F". According to the Escondido General Plan, the minimum acceptable LOS is "C".*
2. *Exceeded, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads and highways.*
3. *Resulted in a change of air traffic patterns, including either an increase in traffic levels or in a location that results in substantial safety risks or increased hazards due to a design feature.*
4. *Results in inadequate emergency access or parking capacity, or the project conflicts with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks).*

The project site fronts onto West Washington Avenue, which is classified as a Collector Road (84' ultimate R-O-W) on the City's Circulation Element. Full width street improvements have been installed along the project's frontage (which includes curb, gutter and sidewalk) and the street provides two lanes in each direction, separated by a two-way left turn lane. On-street parking is prohibited. Access to the site is provided from two existing gated driveways along Washington Avenue, which are separated by approximately 500 feet. Existing traffic volumes along West Washington Avenue are approximately 16,000 ADT (Average Daily Trips) and the street operates at a Level-of-Service (LOS) "B." The intersection of Washington Avenue and Rock Springs Road, which is located

approximately 150 feet east of the eastern driveway, is signalized and operates at a Level-of-Service "C" or better. The intersection of Metcalf St. and Washington Avenue, located approximately 530 feet west of the western driveway, is unsignalized and operates at a LOS "D" during the AM peak and LOS "F" during the PM peak period (southbound left-turns onto Washington Avenue). The design for the signalization of this intersection has been completed and funded. The temporary relocation of Fire Station #1 from 310 Quince Street to the City's Public Works Yards would involve the following operational items:

2 office staff (only on site during business hours)
11 fire personnel per shift (24-hour shift)
2-4 guests per day
15 anticipated service calls per 24-hour day (two trucks/vehicles typically respond per each call)

The facility would contain two large trucks/engines and two smaller paramedic vehicles/rigs. Fire Department vehicles would be restricted to the western driveway for entry into the site, and the eastern driveway for exit from the site to minimize potential conflicts with other Public Works vehicles, and to facilitate efficient on-site circulation. The Engineering Division anticipated the project would generate up to 154 Average Daily Trips, of which approximately 120 trips would be attributed to the larger fire trucks/rigs. A PCE (Passenger Car Equivalent) factor of 2 was applied to each fire vehicle to represent the operational characteristics of the larger vehicles. Based on the number of trips anticipated from the facility and the level of service on the adjacent roadways and intersections, the Engineering Division concluded the proposed project is not anticipated to have any significant individual or cumulative impacts to the circulation system nor degrade the levels of service on any of the adjacent roadways or intersections. The project would not add 200 additional trips to a circulation element street with a service level below the mid-range of LOS D, nor would the project cause the level of service of a circulation element street to fall below the mid-range of Level-of-Service D. The proposed project also would not result in any significant change in the operation of area intersections. Therefore, the project would not result in a significant impact to the environment.

Temporary Construction Traffic – Temporary construction-related traffic impacts would occur during grading and construction activities, which includes employee trips to and from the site, equipment delivery and removal, and other related activities. Heavy equipment would be used for site preparation and relocation of the existing pre-manufactured buildings from Fire Station #1 to the Public Works Yard, along with delivery of new pre-manufactured buildings. Site preparation would be minimal since the area is flat and does not require any extensive grading, or import/export of material. Due to the relatively small size of the project and short construction cycle anticipated for the project, the temporary increase in vehicle trips is not considered significant and no mitigation is required.

IV. Air Quality

City of Escondido Significance Criteria:

Project impacts exceeding any of the following South Coast Air Quality Management District (SCAQMD) daily emissions criteria can be considered significant:

• *Carbon Monoxide*	*550 lbs.*
• *Reactive Organic Gases*	*55 lbs.*
• *Oxides of Nitrogen*	*55 lbs.*
• *Fine Particulate Matter*	*150 lbs.*
• *SOx*	*250 lbs.*
• *Lead*	*3.2 lbs.*

Project impacts would be considered significant if the project conflicted with or obstructed implementation of the applicable air quality plan; violated any air quality standards or contributed substantially to an existing or projected air quality violation; and resulted in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard. Significant impacts would also occur if the project exposed sensitive receptors to substantial pollutant concentrations or created objectionable odors affecting a substantial number of people.

The project area is located within the San Diego Air Basin (SDAB). Air quality at a particular location is a function of the kinds and amounts of pollutants being emitted in the air locally and throughout the basin, and the dispersal rates of pollutants within the region. The major factors affecting pollutant dispersion are wind speed and direction, the vertical dispersion of pollutants (which is affected by inversions), and the local topography. The air basin currently is designated a state and federal non-attainment area for ozone and particulate matter. However, in the SDAB, only part of the ozone contamination is derived from local sources; under certain conditions, contaminants from the South Coast Air Basin (such as the Los Angeles area) are windborne over the ocean into the SDAB. Local agencies can control neither the source nor the transportation of pollutant from outside the air basin. The Air Pollution Control District's (APCD) policy, therefore ha been to control local sources effectively enough to reduce locally produced contamination to clean air standards.

For long term emissions, the direct impacts of a project can be measured by the degree to which the project is consistent with regional plans to improve and maintain air quality. Local air quality impacts are directly related to the number of vehicle trips and operation levels on adjacent streets and intersections. The proposal to temporarily locate Fire Station # 1 on the 1.24 acre site is anticipated to generate approximately 154 average weekday trips for employees, visitors and responses to calls. Most of these trips are already taking place within the air basin through the use of the existing Fire Station # 1 located at 310 N. Quince Street, which is about one-half mile away from the subject site. The addition of the project trips does not significantly impact the existing level-of-service on the adjacent roadway network. Since the project would relocate existing trips that are already occurring within the air basin and not deteriorate the Level of Service on adjacent streets and intersections, the project would not result in a significant impact to local or regional air quality.

There are no sensitive receptors such as residential uses or schools, in the vicinity of the site and no objectionable odors will be generated by the office, living quarters and vehicle parking uses proposed.

Consequently, while the proposed project would have an incremental impact to basin-wide air-quality issues resulting from the cumulative impacts of thousands of sources, the individual impacts attributed to the proposed project are small on a regional scale and will not cause ambient air quality standards to be exceeded. Since the project would not materially degrade the levels of service on adjacent streets and intersections, and would not violate daily emissions thresholds, the project will not have a significant impact on air quality and no mitigation measures are required.

Construction-Related Emissions

Construction-related activities are temporary, short-term sources of air emissions. Sources of construction-related emissions include:

- Fugitive dust from grading activities;
- Construction equipment exhaust;
- Construction-related trips by work, delivery trucks, and material-hauling trucks; and
- Construction-related power consumption.

The proposed project includes the temporary re-location of Fire Station #1 for a period of up to two years while Fire Station # 1 is being demolished and reconstructed at 310 N. Quince Street. The temporary Fire Station # 1 site at Washington Avenue is level and has been completely disturbed by the on-going use as an outdoor equipment and materials storage area. The proposal to relocate modular buildings from the Quince site to the subject site and the installation of two new pre-manufactured modular buildings would not require any grading since the site is flat. However, a minor amount of grading is proposed for the construction of bio swales to treat the runoff around the perimeter of the 1.24-acre site, and for the site preparation needed for paving the access and parking areas, and installing the buildings.

Since construction is a one-time temporary activity and Best Available Control Technology (BACT) will be required, the average daily construction emissions are projected to be below thresholds of significance. Dust from grading and other site preparation would generate particulate matter emission. The City of Escondido Grading Ordinance and erosion control requirements include provisions for dust control to reduce impacts to air quality during grading and construction activities. At a minimum, these ordinances and provisions require projects to perform regular watering and timely revegetation of disturbed areas to minimize the dust and airborne nuisance impacts to off-site receptors. With the appropriate use of grading and operation procedures (in conformance with APCD Best Management Practice for dust control), the air-quality impacts can be reduced to below a level of significance.

The application of the Public Facilities Overlay Zone to the subject 1.24-acre site would not negatively affect air quality on a city-wide basis since local air quality impacts are directly related to the number of vehicle trips and operation levels on adjacent streets and intersections. As discussed above, the proposed project would not have a significant impact on air quality.

V. Biological Resources

City of Escondido Significance Criteria

Project impacts upon biological resources may be significant if the project generates impacts that create any of the following results:

1. *Substantial direct or indirect-effect on any species identified as a candidate, sensitive, or special status in local/regional plans, policies or regulations, or by the State of California Department of Fish and Game (CDFG) or U.S. Fish and Wildlife Service (USFWS);*
2. *Substantial effect upon sensitive natural communities identified in local/regional plans, policies, regulations or by the agencies CDFG and USFWS);*
3. *Substantial affects (e.g. fill, removal, hydrologic interruption) upon federally protected wetlands under Section 404 of the Clean Water Act;*
4. *Substantial interference with movement of native resident or migratory wildlife corridors or impeding the use of native wildlife nursery sites;*
5. *Conflict with any local policies/ordinance that protect biological resources (e.g. tree preservation policy or ordinance)*
6. *Conflict with provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved habitat conservation plan.*

The subject parcel is located within an urbanized area and substantially surrounded by industrial development. The 1.24 acre project site is completely disturbed as a result of current development and uses on the site, which is primarily outdoor material storage. The proposal to locate four modular buildings on the site and apply the Public Safety Overlay Zone would not have a significant impact on the biological resources since no sensitive vegetation or wildlife exists on the site. Additionally, there are no wetland or riparian areas or native trees on-site. Although, diseased and unsafe eucalyptus trees will be removed from the right-of-way, the remaining mature trees along the project's frontage would be preserved. Therefore, the proposed project would not have any significant, adverse, individual or cumulative impacts on biological resources.

VI. Cultural Resources

City of Escondido Significance Criteria

A *significant impact to cultural resources would occur if implementation of the project causes substantial change to a historical or archaeological resource pursuant to Section 15064.5 of the California Environmental Quality Act Guidelines, the destruction of unique paleontological resources or unique geologic feature, or disturb any human remains.*

The subject 1.24-acre parcel is currently utilized as a materials storage area for the City's Public Works yard. No structures are currently located on the site. There is no physical evidence of any historic or cultural resources on the site. A review of the City's Archaeological Resource Inventory reveals there are no archaeological sites located on the subject parcel or in the vicinity of the proposed project. Since there are no historical, archaeological, and/or paleontological resources known to be present within the subject area, the project will not result in any significant impacts.

The application of the Public Safety Facilities Overlay Zone would not negatively affect any cultural resources since none exist on-site or are in the vicinity of the proposed development.

VII. Geology and Soils

City of Escondido Significance Criteria

A significant geologic impact would occur if a project exposed people or structures to major geologic hazards such as earthquake damage (rupture, ground shaking, ground failure, and landslides), slope and/or foundation instability, erosion, soil instability or other problems of a geologic nature.

The subject site is flat and does not contain any significant natural, geologic, or physical features. The proposed project will require a minor amount of grading for site preparation and the development of bio-swales around the perimeter of the site. Any future grading would be reviewed to ensure that it is consistent with the Grading Ordinance. Any grading and subsequent compaction of the site, as necessary, would be per City standards to the satisfaction of the City Engineer.

The project would not expose people or structures to geologic hazards since there are no known active faults within the immediate vicinity and the North County region is not known for its seismic activity. Although Escondido is within a seismic zone 4, the nearest active faults are the Carlsbad fault to the west, the Elsinor Fault approximately 15 miles east of the site and the Rose Canyon and Newport-Inglewood (offshore) Fault zones approximately 17 and 22 miles southwest and northwest of the site, respectively. In the event of a major earthquake on these or other faults in the southern California region, the site could be subjected to moderate to severe ground shaking. However, the site is not considered to possess a significantly greater seismic risk than that of the surrounding area in general. Therefore, no significant impacts to geology or soils are expected.

The application of the Public Facilities Overlay Zone to the subject site would not enhance the potential for geologic hazards since the site is flat and there are no significant natural, geologic, or physical features.

VIII. Hazards and Hazardous Materials

City of Escondido Significance Criteria

A significant impact to the environment and the public associated with hazards and hazardous materials would result from a project if any of the following occurred:

1. *Creation of a significant hazard to the public or the environment though routine transport, use or disposal of hazardous materials or from reasonably foreseeable upset and accident;*
2. *Emission and/or handling of hazardous materials substances or waste within one-quarter mile of an existing or proposed school;*
3. *Location of a project on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5;*
4. *Location within an airport land-use plan or within two miles of a public airport. Or the project is located within the vicinity of a private air strip;*
5. *Impairment/interference with an adopted emergency response plan or emergency evacuation plan; and*
6. *Expose people or structures to a significant risk of loss, injury or death involving wild fires.*

The subject site is zoned M-2, General Industrial, and is located within the Hazardous Chemical Overlay. Typical uses for this zoning designation include heavy manufacturing, warehousing, processing, and outdoor storage areas. The proposal to temporarily relocate Fire Station # 1 is subject to the issuance of a Conditional Use Permit. The proposed uses include an administrative office, living quarters, and two buildings which will house the emergency-related vehicles and associated equipment. The proposed project would not include the storage of any hazardous substances on-site, such as diesel fuel. All fire vehicles would be fueled at an off-site location. As such, the project would not create a significant risk of upset or hazard to human health and safety.

The project site is not located near an airport or private airstrip and the site has not been identified on the Hazardous Waste Sites List which is published by the California Environmental Protection Agency (CAL/EPA) through the County Health Department's HMMD (Hazardous Material Management Division). The site is located in an urban setting and is not located within a Fire Hazard Area, as identified in the Final Environmental Impact Report for the 2000 General Plan Update (Figure 5.7-2). Therefore, no significant hazards or hazardous material impacts would occur as a result of the project

The application of the Public Facilities Overlay Zone to the subject 1.24-acre site would not enhance the potential for impacts associated with hazards and hazardous materials on the project site since the fire station will not store or dispense vehicle fuel, or other hazardous material.

IX. Hydrology and Water Quality

City of Escondido Significance Criteria:

Significant impacts associated with hydrology and water quality would result from the project if water quality standards or waste discharge requirements were violated; groundwater and surface water quality and quantity were substantially altered; drainage patterns were substantially altered so as to increase erosion/siltation and increase surface runoff; increased runoff would exceed the capacity of existing or planned drainage systems or add a substantial source of pollution; the project were located in a 100-year floodplain and cannot be protected; and, if the project exposed people to hydrological hazards, such as flooding or inundation by seiche, tsunami, or mudflow.

The subject site is currently developed as the City's Public Works storage and materials yard. The site is not in a 100-year flood hazard area. The amount of run-off would be expected to increase once the site is developed due to the amount of impervious surfaces associated with the proposed development which includes a parking lot, access driveways, and building pads for the modular structures. There is an existing 54-inch-wide storm drain located along the eastern property line of the 1.24 acre site. The Engineering Division has indicated that the proposed project would not require the construction of new storm drain facilities or adversely impact any existing facilities.

Water quality on the site could potentially be diminished by sediment discharge due to construction activities, nutrients from fertilizers, trash and debris deposited in drain inlets, hydrocarbons from paved areas, and pesticides from landscaping. To address water quality issues, Best Management Practices (BMPs) will be employed both during and following construction of the project. Construction and post-construction BMPs will be developed as part of the site/grading plan for the project. Post-construction BMPs include the installation of bio-swales along the perimeter of the site. The proposed bio-swales and existing catch basin would adequately treat the run-off before it enters the storm drain system. Existing and proposed landscaping along Washington Avenue would also assist in treating the run-off generated by the increase in impervious surfaces. Therefore, the proposed project will not result in any significant impacts to hydrology or water quality.

The application of the Public Safety Facilities Overlay Zone to the 1.24-acre site would not enhance the potential for hydrology and water quality impacts since the underlying zoning already permits industrial-related development that could potentially result in impacts to water quality.

X. Mineral Resources

City of Escondido Significance Criteria

Impacts to mineral resources would be substantial if the proposed project resulted in the loss of significant state or locally important mineral resources.

Since the subject site does not contain any significant natural resources, the temporary relocation of Fire Station # 1 to the site would not substantially increase the use of, or result in the depletion of any nonrenewable natural resources, based on the limited use of the structures. The proposal will not utilize substantial amounts of additional fuel or energy or require the development of new sources of energy since the project entails relocating an existing fire station of limited size and energy requirements.

The application of the Public Safety Facilities Overlay Zone to the subject parcel would not enhance the potential for mineral resource impacts since fire stations typically are limited in size with average energy requirements, and the underlying zoning already permits development that could potentially result in impacts to mineral resources.

XI. Noise

City of Escondido Significance Criteria

Significant noise impacts would occur if the project: exposed persons to, or generated noise levels in excess of standards established in the local general plan or noise ordinance or applicable standards of other agencies; exposed persons to, or generated excessive ground-borne vibration or ground-borne noise levels. Significant noise effects would also occur if the project resulted in substantial permanent or temporary/periodic increase in ambient noise levels in the project vicinity above noise levels existing without the project. According the General Plan Noise Policy E1.4, projects that increase noise levels by 5 dB or greater should be considered as generating a significant impact and should be mitigated.

The site is located in an existing and future noise contour of 65dB or greater due to the proximity of circulation element streets and the Interstate 15 freeway. General Plan Policy E1.5 states that the City shall enforce its Noise Ordinance as the method to control noise from sources other than transportation sources. The Noise Ordinance limits are in terms of one-hour average sound level. The allowable noise limit for the M-2 zone is 75dB anytime. The proposal to temporarily locate Fire Station No. 1 to the subject site would not have a significant impact since only 154 ADTs would be generated as a result of the proposed uses. The on-site uses are an administrative office, a reserve and responding apparatus parking bays, and living quarters for the emergency personnel, which do not create any significant noise. Pursuant to discussions with the Fire Department, there will be no emergency generator on site and the sirens for the emergency vehicles would not be utilized until the vehicles leave the site. In addition, there are no sensitive noise receptors such as residential units or a hotel adjacent to or in the vicinity of the site. Therefore, because the noise levels associated with the minor amount of peak vehicle trips would not exceed the allowable 75dB, the impact is considered to be less than significant.

Noise impacts from construction are a function of the noise generated by the construction equipment, the location and sensitivity of nearby land uses, and the timing and duration of the noise-generating activities. Construction noise would be minimal and would be primarily associated with the development of the parking lot, the construction of two pre-manufactured buildings and the relocation of two pre-manufactured buildings on-site. Because the site is level, only a very minor amount of grading would be required for the development of the bio swales and pads for the bildings. As indicated above, there are no sensitive noise receptors adjacent to the site. Because construction operations would be required to conform to the City's Noise Ordinance and because construction noise is temporary, no significant impact from construction noise would occur.

The application of the Public Facilities Overlay Zone to the subject site would not enhance the potential for noise impacts since the site already permits heavy industrial development that could potentially result in localized noise impacts.

XII. Population and Housing

City of Escondido Significance Criteria

Significant population and housing impacts would occur if the proposed project induced substantial population growth in an area and, displaced substantial numbers of people or existing housing

The subject parcel is currently zoned M-2, General Industrial, and the General Plan land use designation is GI, General Industrial. The proposed project will not displace existing residents since the area is currently developed with industrial uses. The employees working and/or living at the current Fire Station #1 site (310 N. Quince Street) will be temporarily relocated to the subject site while the new fire station is under construction. The proposed project would not be considered growth-inducing since no new residential units and no zone change to residential is proposed.

The application of the Public Safety Facilities Overlay Zone to the subject parcel would not cause substantial population or housing impacts since the site does not currently sustain residential uses and no permanent residential units are proposed.

XIII. Public Services

City of Escondido Significance Criteria

Impacts to public services would occur if there was a substantial increase in the demand for services (police and fire protection, schools or other public facilities) by the project, which would also cause a reduction in service levels.

Fire – Development of the site as a temporary fire facility for a period of up to two years would accommodate any anticipated fire service needs since the personnel and equipment currently assigned to Fire Station #1 at 310 N. Qunice will be relocated to this site. This site is approximately ½ -mile north west of the Quince Street location and located on a circulation element street (Collector road), so response time will not be affected. No significant impacts to fires services are anticipated.

Law Enforcement –No significant impacts to Police services are anticipated.

Schools – The site is within the Escondido Union School District and the Escondido Union High School District. The proposed development is not residential in nature and would not create an additional demand for school facilities.

No significant impacts to public services are anticipated as a result of the development of a Temporary Fire Facility for housing fire personal and vehicles on site.

The application of the Public Facilities Overlay Zone to the subject 1.24-acre site would not affect or create any impacts to public services on a city wide basis since the site would meet Fire Department needs.

XIV. Recreation

City of Escondido Significance Criteria

Significant impact would occur if the project resulted in an increase of the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated. A significant impact would also occur if the project includes or requires the construction or expansion of recreational facilities, which might have an adverse physical effect on the environment.

The proposed temporary City Fire facility and the application of the Public Safety Facilities Overlay Zone would not cause an increase in the demand on the City's recreational facilities because the development is non-residential and

would not directly result in a population increase. The proposed project will not impact the quality or quantity of existing recreational opportunities since no recreational opportunities currently exist on site. The project site is not listed as a potential park site in the City's Master Plan of Parks and Trails. Therefore, no significant impact to recreational resources would occur as a result of the development of the temporary Fire Facility.

XV. Utilities and Service Systems

City of Escondido Significance Criteria

Impacts would be significant if the proposed project resulted in demands for wastewater treatment requirements in excess of the capacity of existing facilities Or if the project triggered the need for construction of new water or wastewater treatment facilities or the expansion of existing facilities, the construction of which could cause significant environmental effects. The project would cause significant impacts if the project required/resulted in, the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects. Significant impacts would also occur if the project resulted in a determination by the wastewater treatment provider and/or a landfill operator, which serve, or may serve, the project that capacity of existing facilities to serve the project's projected demand in addition to the provider's existing commitments is inadequate.

Sewer Service – City of Escondido sewer service is available and adequate to serve the proposed temporary fire station by extending the sewer main into the site.

Water Service – City of Escondido water service is available and adequate to serve the proposed temporary fire facility by extending the existing water main into the site. .

Storm Water – Drainage from the Temporary Fire Station site would be directed into on-site bio-swales and then into an existing storm drain system that runs north and south along the eastern boundary. No significant drainage impacts are anticipated based on the proposed site plan and uses of the site.

Solid Waste – Escondido Disposal, Inc. (EDI) currently provides solid waste removal service for the Escondido area. EDI also operates a solid waste transfer station at their Washington Avenue site where solid waste is consolidated into larger transfer trucks and taken to a class III landfill for disposal. No significant solid waste disposal impacts are anticipated.

Energy Service – The majority of fuel and energy usage associated with this development would be for space and water heating needs (natural gas) and for everyday lighting and power needs (electricity). The proposal would not utilize substantial amounts of fuel or energy, or require the development of new sources of energy due to its limited size and energy requirements.

The application of the Public Facilities Overlay Zone to the subject 1.24-acre site would not negatively affect utility services on a city-wide basis since the subject site already permits some form of development that could potentially result in localized utility service impact. Therefore, no significant impacts to utility services would occur.

XVI. Mandatory Findings of Significance

City of Escondido Significance Criteria

Significant impacts would occur if the project: degraded the quality of the environment; substantially reduced the habitat of a fish r wildlife species; caused a fish or wildlife population to drop below self-sustaining levels; threatened to eliminate a plant or animal community; reduced the number, or restricted the range of a rare or endangered plant or animal; or eliminated important examples of the major period s of California history or prehistory. Significant impacts would also occur if the project, individually and/or cumulatively, resulted in substantial adverse effects on human beings, either directly or indirectly.

There are no potentially significant impacts associated with proposal to temporarily locate Fire Station # 1 to the subject site. Consequently, the project is not expected to have any significant impacts, either long-term or short-term, nor will it cause a substantial adverse effect on human beings, either directly or indirectly.

Source of Information/Material Used in Preparation of this Analysis

1. Escondido General Plan – 1990
2. Escondido General Plan EIR
3. Escondido Zoning Code and Land Use Map
4. SANDAG Summary of Trip Generation Rates
5. Escondido Drainage Master Plan (1995)
6. County of San Diego Health Department, Hazardous Material Management Division (HMMD) Hazardous Sites List
7. Escondido Historical Resources Survey
8. Site Visits/Field Inspection
9. Project Description and Preliminary Information
10. Comments from other Departments
11. Draft Escondido Subarea Plan Implementing the Multiple Habitat Conservation Plan (MHCP) – June 2001
12. Traffic Impact Analysis prepared for the SANCO Recycling Materials Processing Facility by Linscott, Law & Greenspan, dated 6-24-02 (Case Nos. ER 2001-04, 2002-38-CUP).
13. Traffic Impact Analysis prepared for the proposed Vulcan Materials/CalMat Division asphalt batch plant by Linscott, Law & Greenspan, dated 3-5-03 (Case Nos. ER 2001-26, 2001-27-CUP).

CITY OF ESCONDIDO
Planning Division
201 North Broadway
Escondido, CA 92025-2798
(760) 839-4671

Environmental Checklist Form

1. Project title: Zone Change & Conditional Use Permit, Case No. 2006-33-CUP/CZ

2. Lead agency name and address: Planning Division, City of Escondido, 201 North Broadway, Escondido, CA 92025

3. Contact person and phone number: Rozanne Cherry, Senior Planner (760) 839-4546

4. Project location: 905 W. Washington Avenue

5. Project sponsor's name and address: Division Chief Scott Alvord, Escondido Fire Department, 201 North Broadway, Escondido, CA 92025

6. General Plan designation: General Industrial (GI) 7. Zoning: General Industrial (M2),

8. Description of project: (Describe the whole action involved, including, but not limited to, later phases of the project and any secondary, support, or off-site features necessary for its implementation. Attach additional sheets if necessary.)

   The proposed project includes the establishment of the Public Safety Facilities Overlay Zone (PSF) on the subject site, and a Conditional Use Permit for the temporary relocation of Fire Station #1 to an area within the existing City's Public Works yard involving 840 SF of office space, 2,880 SF of living quarters, 5,032 SF of fire apparatus bays, with associated paving and parking. The four pre-manufactured modular buildings total 8,752 SF.

9. Surrounding land uses and setting (briefly describe the project's surroundings):

   The site is surrounded by General Industrial (M2) zoning and industrial development. North-(M2) Several small multi-tenant industrial buildings. South- (M2) Outdoor storage yard for the City of Escondido Public Works Department and NCTD's train maintenance facility under construction beyond. East- (M2) Palomar Transit Mix Concrete Batch Plant. West- (M2) Outdoor storage yard and parking area for the City's Public Works Department and truck maintenance facility beyond.

10. Other public agencies whose approval is required (e.g., permits, financing approval, or participation agreement).

    None

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors checked below potentially would be affected by this project involving at least one impact that is a "Potentially Significant Impact" as indicated by the checklist on the following pages.

☐ Aesthetics	☐ Agriculture Resources	☐ Air Quality
☐ Biological Resources	☐ Cultural Resources	☐ Geology/Soils
☐ Hazards & Hazardous Materials	☐ Hydrology/Water Quality	☒ Land Use/Planning
☐ Mineral Resources	☒ Noise	☐ Population/Housing
☐ Public Services	☐ Recreation	☒ Transportation/Traffic
☐ Utilities/Service Systems	☐ Mandatory Findings of Significance	

DETERMINATION: (To be completed by the Lead Agency)

On the basis of this initial evaluation:

☒ I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION shall be prepared.

☐ I find that, although the proposed project might have a significant effect on the environment, there would not be a significant effect in this case because revisions in the project have been made by, or agreed to, the project proponent. A MITIGATED NEGATIVE DECLARATION shall be prepared.

☐ I find that the proposed project might have a significant effect on the environment, and an ENVIRONMENTAL IMPACT REPORT shall be required.

☐ I find that the proposed project might have a "potentially significant impact" or "potentially significant unless mitigated impact" on the environment, but at least one effect: 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT shall be required, but it must analyze only the effects that remain to be addressed.

☐ I find that, although the proposed project might have a significant effect on the environment, because all potentially significant effects: (a) have been analyzed adequately in an earlier EIR or NEGATIVE DECLARATION pursuant to applicable standards, and (b) have been avoided or mitigated pursuant to that earlier EIR or NEGATIVE DECLARATION, including revisions or mitigation measures that are imposed upon the proposed project, nothing further shall be required.

City of Escondido — For

EVALUATION OF ENVIRONMENTAL IMPACTS:

1. A brief explanation is required for all answers except "No Impact" answers that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" answer is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g., the project falls outside a fault rupture zone). A "No Impact" answer should be explained where it is based on project-specific factors as well as general standards (e.g., the project would not expose sensitive receptors to pollutants, based on a project-specific screening analysis).

2. All answers must take into account the whole action involved, including off-site, on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.

3. Once the lead agency has determined that a particular physical impact might occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect might be significant. If there are one or more "Potentially Significant Impact" entries once the determination is made, an EIR shall be required.

4. "Negative Declaration: Less Than Significant with Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less Than Significant Impact." The lead agency must describe the mitigation measures and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section XVII, "Earlier Analyses," may be cross-referenced).

5. Earlier analyses may be used where an effect has been adequately analyzed in an earlier EIR or Negative Declaration, pursuant to the tiering, program EIR, or other CEQA. Section 15063(c)(3)(D). In this case, a brief discussion should identify the following:

   a. Earlier Analysis Used. Identify and state where it is available for review.

   b. Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of an adequately analyzed earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.

   c. Mitigation Measures. For effects that are "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.

6. Lead agencies are encouraged to incorporate references to information sources for potential impacts into the checklist (e.g., general plans, zoning ordinances). Reference to a previously prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.

7. Supporting Information Sources: A source list should be attached, and other sources used or individuals contacted should be cited in the discussion.

8. This is only a suggested form, and lead agencies are free to use different formats; however, lead agencies normally should address the questions from this checklist that are relevant to a project's environmental effects in whatever format is selected.

9. The explanation of each issue should identify:

   a. The significance of criteria or threshold, if any, used to evaluate each question; and
   b. The mitigation measure identified, if any, to reduce the impact to less than significant

Issues:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporation	Less Than Significant Impact	No Impact
I. LAND USE AND PLANNING				
Would the project:				
a. Physically divide an established community? (1,3,9)	☐	☐	☐	☒
b. Conflict with any applicable land-use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to, the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect? (1,2,3)	☐	☐	☒	☐
c. Conflict with any applicable habitat conservation plan or natural community conservation plan? (1,2,3)	☐	☐	☐	☒
d. Have a substantial adverse effect on a scenic vista? (1,2,3,8)	☐	☐	☐	☒
e. Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway? (1,7,8)	☐	☐	☐	☒
f. Substantially degrade the existing visual character or quality of the site and its surroundings? (1,8,9)	☐	☐	☐	☒
g Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area? (1,2,9)	☐	☐	☐	☒
II. AGRICULTURE RESOURCES				
In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Department of Conservation as an optional model to use in assessing impacts on agriculture and farmland. Would the project:				
a. Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use? (1,2)	☐	☐	☐	☒
b. Conflict with existing zoning for agricultural use, or a Williamson Act contract? (1,2)	☐	☐	☐	☒
c. Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland to non-agricultural use? (2,9)	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporation	Less Than Significant Impact	No Impact
III. TRANSPORTATION/TRAFFIC				
Would the project:				
a. Cause an increase in traffic which is substantial in relation to the existing traffic load and capacity of the street system (e.g., result in a substantial increase in either the number of vehicle trips, the volume-to-capacity ratio on roads, or congestion at intersections)? (1,2,4,11,12)	☐	☐	☒	☐
b. Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways? (1,2,4)	☐	☐	☐	☒
c. Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks? (2,4)	☐	☐	☐	☒
d. Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)? (1,9)	☐	☐	☐	☒
e. Result in inadequate emergency access? (1,2,8,9)	☐	☐	☐	☒
f. Result in inadequate parking capacity? (9)	☐	☐	☐	☒
g. Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)? (1,3,9)	☐	☐	☐	☒
IV. AIR QUALITY				
Where applicable, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:				
a. Conflict with or obstruct implementation of the applicable air quality plan? (1,2)	☐	☐	☐	☒
b. Violate any air quality standard or contribute substantially to an existing or projected air quality violation? (1,2)	☐	☐	☒	☐
c. Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)? (1,2,3,9)	☐	☐	☐	☒
d. Expose sensitive receptors to substantial pollutant concentrations? (2)	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporation	Less Than Significant Impact	No Impact
e. Create objectionable odors affecting a substantial number of people? (2)	☐	☐	☐	☒

V. BIOLOGICAL RESOURCES

Would the project:

a. Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service? (2)	☐	☐	☐	☒
b. Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service? (2)	☐	☐	☐	☒
c. Have a substantial adverse effect on federally projected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means? (2)	☐	☐	☐	☒
d. Interfere substantially with the movement of any native resident or migratory fish or wildlife species, or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites? (2)	☐	☐	☐	☒
e. Conflict with any local policies or ordinances protecting biological resources such as a tree preservation policy or ordinance? (2,3)	☐	☐	☐	☒
f. Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan? (2,3,10)	☐	☐	☐	☒

VI. CULTURAL RESOURCES

Would the project:

a. Cause a substantial adverse change in the significance of a historical resource as defined in §15064.5? (7,9)	☐	☐	☐	☒
b. Cause a substantial adverse change in the significance of an archaeological resource pursuant to §15064.5? (1,2)	☐	☐	☐	☒
c. Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature? (1,2)	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporation	Less Than Significant Impact	No Impact
d. Disturb any human remains, including those interred outside of formal cemeteries? (1,2)	☐	☐	☐	☒
VII. GEOLOGY AND SOILS				
Would the project:				
a. Expose people or structures to potentially substantial adverse effects, including the risk of loss, injury, or death involving: (1,2)	☐	☐	☐	☐
i. Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42. (1,2)	☐	☐	☒	☐
ii. Strong seismic ground shaking? (1,2)	☐	☐	☒	☐
iii. Seismic-related ground failure, including liquefaction? (1,2)	☐	☐	☒	☐
iv. Landslides? (1,2)	☐	☐	☐	☒
b. Result in substantial soil erosion or the loss of topsoil? (1,2,9)	☐	☐	☐	☒
c. Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse? (1,2)	☐	☐	☐	☒
d. Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or prop (1,2)	☐	☐	☐	☒
e. Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems where sewers are not available for the disposal of wastewater? (1,2)	☐	☐	☐	☒
VIII. HAZARDS AND HAZARDOUS MATERIALS				
Would the project:				
a. Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials? (1,2,3,9)	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporation	Less Than Significant Impact	No Impact
b. Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment? (1,2,3,9)	☐	☐	☐	☒
c. Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school? (1,2,3,9)	☐	☐	☐	☒
d. Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment? (6)	☐	☐	☐	☒
e. For a project located within an airport land-use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in safety hazard for people residing or working in the project area? (1,2)	☐	☐	☐	☒
f. For a project within the vicinity of a private airstrip, would the project result in a safety hazard for people residing or working in the project area? (1,2)	☐	☐	☐	☒
g. Impair implementation of, or physically interfere with, an adopted emergency response plan or emergency evacuation plan? (1,2)	☐	☐	☐	☒
h. Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands? (1,2)	☐	☐	☐	☒
IX. HYDROLOGY AND WATER QUALITY				
Would the project:				
a. Violate any water quality standards or waste discharge requirements, including but not limited to increasing pollutant discharges to receiving waters (Consider temperature, dissolved oxygen, turbidity and other typical storm water pollutants)? (1,2,9)	☐	☐	☐	☒
b. Have potentially significant adverse impacts on ground water quality, including but not limited to, substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)? (1,2,9)	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporation	Less Than Significant Impact	No Impact
c. Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river in a manner which would result in substantial/increased erosion or siltation on- or off-site? (1,2,)	☐	☐	☐	☒
d. Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or off-site and/or significant adverse environmental impacts? (1,2,9)	☐	☐	☐	☒
e. Cause significant alteration of receiving water quality during or following construction? (1,2)	☐	☐	☐	☒
f. Cause an increase of impervious surfaces and associated run-off? (1,2)	☐	☐	☒	☐
g. Create or contribute runoff water which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff? (1,2,5)	☐	☐	☐	☒
h. Cause potentially significant adverse impact on ground water quality? (1,2)	☐	☐	☐	☒
i. Cause or contribute to an excedance of applicable surface or ground water receiving water quality objectives or degradation of beneficial uses? (1,2)	☐	☐	☐	☒
j. Is the project tributary to an already impaired water body, as listed on the Clean Water Act Section 303(d) list? If so, can it result in an increase in any pollutant for which the water body is already impaired? (1,2)	☐	☐	☐	☒
k. Create or exacerbate already existing environmentally sensitive areas? (1,2)	☐	☐	☐	☒
l. Create potentially significant environmental impact on surface water quality, to either marine, fresh, or wetland waters? (1,2)	☐	☐	☐	☒
m. Impact aquatic, wetland or riparian habitat? (1,2)	☐	☐	☐	☒
n. Otherwise substantially degrade water quality? (1,2)	☐	☐	☐	☒
o. Place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map? (1,2,5)	☐	☐	☐	☒
p. Place within a 100-year flood hazard area structures which would impede or redirect flood flows? (1,2,5)	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporation	Less Than Significant Impact	No Impact
q. Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam? (1,2)	☐	☐	☐	☒
r. Inundation by seiche, tsunami, or mudflow? (1,2)	☐	☐	☐	☒
X. MINERAL RESOURCES				
Would the project:				
a. Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state? (1,2)	☐	☐	☐	☒
b. Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land-use plan? (1,2)	☐	☐	☐	☒
XI. NOISE				
Would the project result in:				
a. Exposure of persons to, or generation of, noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies? (1,2)	☐	☐	☒	☐
b. Exposure of persons to, or generation of, excessive groundborne vibration or groundborne noise levels? (1,2)	☐	☐	☐	☒
c. A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project? (1,2)	☐	☐	☐	☒
d. A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project? (1,2)	☐	☐	☒	☐
e. For a project located within an airport land-use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels? (1,2)	☐	☐	☐	☒
f. For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels? (1,2)	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporation	Less Than Significant Impact	No Impact
XII. POPULATION AND HOUSING				
Would the project:				
a. Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)? (1,2,9)	☐	☐	☐	☒
b. Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere? (8,9)	☐	☐	☐	☒
c. Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere? (8,9)	☐	☐	☐	☒
XIII. PUBLIC SERVICES				
Would the project:				
a. Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services: (1,2,9)				
Fire protection?	☐	☐	☒	☐
Police protection?	☐	☐	☐	☒
Schools?	☐	☐	☐	☒
Parks?	☐	☐	☐	☒
Other public facilities?	☐	☐	☐	☒
XIV. RECREATION				
a. Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated? (1,2,3,9)	☐	☐	☐	☒
b. Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment? (1,2,3,9)	☐	☐	☐	☒

		Potentially Significant Impact	Less Than Significant with Mitigation Incorporation	Less Than Significant Impact	No Impact
XV.	UTILITIES AND SERVICE SYSTEMS				
	Would the project:				
a.	Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board? (1,2)	☐	☐	☐	☒
b.	Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects? (1,2)	☐	☐	☐	☒
c.	Require, or result in, the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects? (1,2)	☐	☐	☒	☐
d.	Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed? (1,2)	☐	☐	☐	☒
e.	Result in a determination by the wastewater treatment provider which serves, or may serve, the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments? (1,2)	☐	☐	☐	☒
f.	Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs? (1,2)	☐	☐	☐	☒
g.	Comply with federal, state, and local statutes and regulations related to solid waste? (1,2)	☐	☐	☐	☒
XVI.	MANDATORY FINDINGS OF SIGNIFICANCE				
a.	Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number, or restrict the range, of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory? (1,2,7,10)	☐	☐	☐	☒
b.	Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.) (2)	☐	☐	☒	☐

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporation	Less Than Significant Impact	No Impact
c. Does the project have environmental effects which would cause substantial adverse effects on human beings, either directly or indirectly? (1,2)	☐	☐	☐	☒

CITY ACCEPTANCE

THIS IS TO CERTIFY that the interest in real property conveyed by the attached deed or grant, dated as shown hereon and from the persons named (Grantor) to the City of Escondido, a municipal corporation, is hereby accepted pursuant to Ordinance Number 97-14 of the City Council of the City of Escondido, dated July 2, 1997, and the Grantee consents to recordation thereof by said Grantees duly authorized officer.

☒ Real Property Agent

☐ City Engineer

Ron Gerow

APPENDIX F

Vapor Encroachment Screening Matrix and Vapor Intrusion Screening Level

Phase I ESA Vapor Encroachment Conditions (VEC) matrix includes a (1) Search Radius Test, (2) Chemicals of Concern Test (COC), and (3) a Critical Distance Test [1].

(1) Search Radius Test: Are there any known or suspect contaminated properties in the primary area of concern within the corresponding search radii?

☒ Yes ☐ No — If ***No***, then screening for a VEC is complete and no VEC *currently* exists, go to #4. If ***Yes***, then:

(2) Chemicals of Concern Test: Are COC likely to be present within the area of concern for those known or suspect contaminated sites identified based on the Search Distance Test?

☒ Yes ☐ No — If ***No***, then screening for a VEC is complete and no VEC *currently* exists, go to #4. If ***Yes***, then:

(3) Critical Distance Test: A plume test to determine whether or not COC in the contaminated plume(s) may be within the critical distance.

☒ Yes ☐ No — (3a) Is information related to the contaminated(s) plume available (i.e., isoconcentration maps, site drawings, etc.)?

(3b) If ***No***, then a VEC cannot be ruled out; check ***Yes*** in #4 below indicating it is likely a VEC exists. If ***Yes***, then:

☒ Yes ☐ No — (3c) Is the site less than 100 feet to the nearest edge of a contaminated [non-petroleum hydrocarbon] plume(s)? If ***Yes***, then check ***Yes*** in #4 below indicating it is likely a VEC exists.

☒ Yes ☐ No — (3d) Is the site less than 30 feet to the nearest edge of a dissolved petroleum hydrocarbon plume(s)? If ***Yes***, then check ***Yes*** in #4 below indicating it is likely a VEC exists.

If the distance from the nearest edge of a contaminated plume to the nearest existing or planned structure on the site is less than 100 feet for non-petroleum hydrocarbon COC, or less than 30 feet for dissolved petroleum hydrocarbons, then it is presumed that a VEC *currently* exists beneath the site. If the distance from the nearest edge of the contaminated plume is greater than or equal to 100 feet for non-petroleum hydrocarbons, or 30 feet for dissolved petroleum hydrocarbon chemicals of concern, then it is presumed unlikely that a VEC *currently* exists beneath the site.

(4) Is it likely that a VEC *currently* exists beneath the site?

☒ Yes ☐ No — If ***No***, then the VEC screening is complete and no further investigation is recommended at this time. If ***Yes,*** Ninyo & Moore recommends performing additional assessment, such as a Tier 2 VEC assessment according to ASTM E 2600-15.

[1] Based on guidance presented in the ASTM E 2600-15 Standard.

EXPERIENCE HIGHLIGHTS

City of San Diego, As-Needed Environmental Services Site Assessment and Mitigation Process Contract

City of San Diego, As-Needed Environmental Consultant Services for Brownfield Assessment Project

County of San Diego, Cedar and Kettner Development Project

Cajon Valley Union School District, Magnolia Elementary School

PROFESSIONAL AFFILIATIONS

San Diego Association of Environmental Professionals

As a Senior Project Environmental Scientist for Ninyo & Moore, Mr. Olivares manages and conducts Phase I and Phase II Environmental Site Assessments (ESAs), underground storage tank unauthorized release case investigations, human health risk assessments, indoor air quality studies, Caltrans Initial Site Assessments (ISAs), and California Environmental Quality Act (CEQA) hazardous materials technical studies (HMTS) for Environmental Impact Reports (EIRs). Mr. Olivares performs all phases of environmental investigations, coordinates and observes subsurface drilling activities, conducts investigations of subsurface contamination and logging of exploratory borings, conducts groundwater monitoring utilizing a variety of methods, authors reports, and interfaces with regulatory agencies.

REPRESENTATIVE PROJECT EXPERIENCE

City of San Diego, As-Needed Environmental Services Site Assessment and Mitigation Process Contract, San Diego, California: Project Manager for two, five-year contracts awarded to Ninyo & Moore, which includes conducting environmental site assessments at contaminated, City-owned properties throughout the County of San Diego. Scope of services include: work plan and health and safety plan preparation, field investigations (drill, sample, analytical testing), remediation, human health risk assessments, groundwater monitoring and sampling, and report preparation including corrective action plans and site conceptual models. The purpose of the contract is to assist the City of San Diego in obtaining regulatory agency closure of its properties that have been affected by unauthorized releases from underground storage tanks (USTs).

City of San Diego, Successor Agency to the Redevelopment Agency, As-Needed Environmental Consulting Services, Brownfields Assessment Project, San Diego, California: Project Manager for this three year contract awarded to Ninyo & Moore, which includes conducting Phase I and II ESAs at various brownfield sites within redevelopment areas of City Heights, Central Imperial, and Southeastern San Diego. Work was performed as part of a United States Environmental Protection Agency (USEPA) community-wide grant program. Ninyo & Moore's scope of services included developing a program-level Quality Assurance Project Plan (QAPP) and site-specific, Phase I ESAs, Field Sampling Plans, Phase II ESAs, human health risk assessments, and participating in community outreach efforts. The contract also includes preparation of remedial plans and estimates. The purpose of the contract is to assist the City and other stake holders with assessment of brownfield sites to support redevelopment efforts in the community.

County of San Diego, Cedar and Kettner Development Project, San Diego, California: Project Manager for the Cedar and Kettner Development Project, which was performed as part of a five-year contract awarded to Ninyo & Moore by the County of San Diego DGS. The site was historically occupied by Hercules Oil Refining Company and an automotive repair facility. Scope of services included: pre-characterization of soil; preparation of a Soil and Groundwater Management Plan (SGMP), Community and Contractor Health and Safety Plans; and construction field support involving implementation of the SGMP, community monitoring, and worker monitoring.

Cajon Valley Union School District, Magnolia Elementary School, El Cajon, California: Project Manager performed an indoor air quality (IAQ) study, soil vapor survey, and human health risk assessment at Magnolia Elementary School located in El Cajon, California. The project was initiated in response to concerns that indoor air may be impacted with chlorinated hydrocarbons as a result of groundwater contaminants from an adjacent aerospace/electronics facility migrating into the school buildings via the vapor intrusion pathway. The Department of Toxic Substances Control (DTSC) provided regulatory oversight.

REPRESENTATIVE PROJECT EXPERIENCE (continued)

City of Chula Vista, Sweetwater Union High School District Property, Chula Vista, California: Project Manager for this Phase II ESA project, which was performed as part of a USEPA community-wide grant program. Ninyo & Moore's scope of services included: preparation of a sampling and analysis plan; collection of soil and soil vapor samples to evaluate contaminants associated with underground storage tanks (USTs) and fueling areas, maintenance areas, and a paint shop; and preparation of a Phase II ESA report. The purpose of the project was to assist the City and District with the assessment of a brownfield site to support redevelopment efforts.

Miramar Pipeline Relocation, 17 Miles from Naval Base Point Loma to Marine Corps Air Station Miramar, San Diego, California: Project Environmental Scientist for an environmental assessment related to the relocation of portions of an existing 17-mile fuel pipeline. Ninyo & Moore's scope included: 1) preparation of an HMTS to document potential releases of hazardous materials or wastes from historical activities along the project alignment; 2) preparation of an SGMP to assist the contractor in the excavation, notification, monitoring, segregation, characterization, handling, and reuse and/or disposal of waste that may be encountered during earthwork activities; and 3) soil sampling and analytical testing to provide a screening evaluation of the environmental condition of existing soils along the proposed alignment.

City of San Diego, Southeastern San Diego Community Plan Update, San Diego, California: Project Manager for the preparation of an HMTS for the comprehensive update of the Southeastern San Diego Community Plan. The purpose of the HMTS was to document the presence of properties, which may have been impacted by hazardous materials or wastes, and to document the significance of impacts from the project area with respect to CEQA, and to discuss measures that can be implemented to reduce or mitigate the potential impacts.

Otay Truck Route, San Diego, California: Project Manager prepared an ISA for the Otay Truck Route Improvement Project in San Diego County, California. The area evaluated for this ISA was generally bounded by Siempre Viva Road to the north, Customhouse Court to the east, the international border to the south, and Britannia Boulevard to the west in the community of Otay Mesa. The purpose of the project was to provide the construction of additional travel lanes to the existing truck route for truck traffic entering the Otay Mesa Border Crossing Port of Entry and to provide a travel lane for Border Patrol and emergency vehicles. The ISA involved evaluation of properties within the boundaries of the project area and off-site properties, which have the potential to negatively impact the project area.

Metropolitan Transit System, 13th Street Light Rail Vehicle Maintenance Facility and Newton Avenue Taxi Inspection Facility San Diego, California: Project Manager for the implementation of the facility's Storm Water Pollution Prevention Plan (SWPPP). The project included monthly inspections, sampling, an annual inspection for the comprehensive site compliance evaluation for potential pollutant sources, and reporting to comply with the facility's Regional Water Quality Control Board industrial storm water permit requirements.

NCTD Sorrento Valley Double Track Project, ISA, San Diego, California: Project Environmental Scientist for an ISA for the Sorrento Valley Double Track Project. The project consists of construction of a second rail track extending the railroad double tracks from Sorrento Valley Station at MP 248.9 northwest approximately 1 mile to MP 247.8. The purpose of the ISA was to document potential environmental concerns related to hazardous materials and/or hazardous wastes including oil/water separators, waste oil, polychlorinated biphenyls, asbestos- containing material, lead-based paint, aerially-deposited lead, and railroad related hazards.

University Avenue Pipeline, San Diego, California: Project Environmental Scientist performed an HMTS for the University Avenue Pipeline Replacement Project located in San Diego, California. The purpose of the HMTS was to document the presence of properties and areas of potential environmental concern, which may have been impacted by releases of hazardous materials and/or wastes within the project area, which have the potential to impact the project, in order to assist with project planning and preliminary design.

West Vista Way Sewer Project, Vista California: Project Environmental Scientist for an environmental and geotechnical evaluation for the West Vista Way Sewer project in Vista, California. The project included the installation of a 15- to 16-inch diameter sewer pipeline along West Vista Way and a 12-inch diameter sewer pipeline from Huff Street to Grapevine Road. Of particular concern was a section of sewer crossing beneath Emerald Drive where a shallow groundwater table and potential contamination was suspected due to the presence of nearby unauthorized releases from several gas stations.

EXPERIENCE HIGHLIGHTS

Portfolio Manager for ARCO/BP, San Diego, Riverside, and LA Counties

City of Escondido On-Call Environmental Contract

California Department of Toxic Substances Control, Orange and LA Counties

PROFESSIONAL AFFILIATIONS

San Diego Association of Geologists

Ms. Richards, a Senior Geologist with Ninyo & Moore, has professional experience conducting hazardous substance characterization of soil, soil vapor, and groundwater; site and regional hydrogeology assessments; and environmental assessments for a variety of clients. She has been responsible for sites across different regulatory agencies in southern California and has performed due diligence in various southern states. Her responsibilities have included task and life-cycle cost estimation and budget management, proposal preparation for nation-wide and local projects, preparation of technical reports, health and safety support, and leadership of environmental staff.

REPRESENTATIVE PROJECT EXPERIENCE

Assessment and Remediation at Former Gasoline Fueling Station, Temecula, California: Manager for a former ARCO facility project with potential contribution of hydrocarbon-impact to nearby municipal wells. Ms. Richards participated in and managed additional multi-zone groundwater investigations to demonstrate the limits of the dissolved plumes in the direction of the municipal wells. She provided management oversight for installation of an SVE system, and coordinated operations and maintenance of the existing GWE and SVE systems to pro-actively limit potential dissolved phase migration. She provided review of the laboratory analytical data, tables, figures, and graphs to evaluate and summarize the data and progress.

CrVI Remediation Project at J&S Plating, Bell Gardens, California: Provided oversight for soil sampling and remediation at a former plating facility with a CrVI plume extending four blocks. Evaluated historic groundwater elevations for off-site soil sampling depths to determine the presence of CrVI. Reviewed lithologic logs and soil sampling analytical data to recommend the injection depths of Calcium Polysulfide (CPS) at 60+ locations. Ms. Richards oversaw the injection of CPS and adjusted injection depths during field activities, as needed. Data recorded for each location included drilling time to reach injection interval, lithologic conditions, CPS volumes, time duration for injection, and refusal issues. Reviewed groundwater sampling analytical data following CPS injection for remediation progress. Prepared update documents for meetings with California Department of Toxic Substances Control (DTSC).

Southern California Due Diligence of Gasoline Stations, San Diego County, California: As Program Manager, she reviewed 42 operating gasoline sites and prepared soil, groundwater, and/or vapor assessment workplans for the purpose of a major oil lease agreement, in six weeks. Many sites were open cases with the regulatory agency, and with years of data. Ms. Richards coordinated the field activities for three drilling teams, four groundwater sampling teams, and two remediation teams to assess the 42 sites in four weeks. Monitoring well and/or borehole installation, dispenser sampling, and groundwater sampling were performed at all sites. As needed, vapor sampling and remediation system sampling was performed. Ms. Richards evaluated the incoming field and analytical data to determine additional assessment. She organized the multiple report preparation for submittal to the client, lessor, and the regulatory agency.

REPRESENTATIVE PROJECT EXPERIENCE (continued)

Post Remediation Monitoring and Vapor Risk Assessment at former Dry Cleaner, Santee, California: As Project Manager, she coordinated monitoring of the off-site PCE/TCE plume following two chemical oxidation remediation injections. She demonstrated the dissolved plume reduction in concentration and size (on-site only) through natural attenuation. She coordinated soil vapor sampling to evaluate conditions following reduction of the dissolved phase plumes. Though the remediation was highly effective in removing chlorinated solvents from groundwater, and it did reduce the vapor concentrations by an order of magnitude, the resulting human health risk exceeded the permissible limits. A conceptual remediation plan to address the indoor air quality was submitted to the Regional Water Quality Control Board for review.

Emergency Response Assessment, Chula Vista, California: Provided coordination for an emergency response assessment of gasoline spill from an overturned gasoline delivery tanker that resulted in gasoline entering the storm drain and discharging into a riverbed. Ms. Richards was active and supportive in the communication between the client, regulatory agencies, and work crews. She oversaw management of the installation of monitoring points in the riverbed to verify discharge had been captured in the constructed outfall pond. Reviewed the data for submittal to agencies for no further action after three sampling events.

LPH Remediation and Vapor Risk Assessment, Gasoline Station, San Diego, California: As Project Manager, she provided oversight for the groundwater sampling, soil vapor monitoring, and LPH removal at an active gasoline station. Ms. Richards oversaw the soil vapor sampling to evaluate the potential benzene or MTBE exposure to workers in the station. She reviewed the analytical soil vapor data and modeling that documented no human health risk for the site. For the LPH, she coordinated a dual-phase extraction (DPE) feasibility test for removal of LPH to the extent practical. Following the feasibility test, she presented the data documenting the limitations of the remediation option due to the lithology and recommended remediation by natural attenuation in a Corrective Action Plan submitted to the regulatory agency. The recommendation was further supported by the dissolved plume stability, limited extent of LPH, no human health risk and that the site had non-beneficial groundwater use designation. The regulatory agency required alternative equipment to test the capability of DPE. Ms. Richards coordinated the second feasibility test utilizing the alternative equipment, but it resulted in the same conclusion. The data was presented in a closure report with the criteria for low threat closure and has received concurrence from the regulatory agency.

Mr. Beck's project experience includes soil, soil vapor, sediment, sludge, surface water, groundwater and soil vapor surface and subsurface site assessments, hazardous building materials, human health and ecological risk assessments, remedial design, and remedial/removal actions involving volatile and semi-volatile organic compounds, polychlorinated biphenyls, metals, refined petroleum products, and pesticides, underground storage tanks, radiological surveys, and various phases of hydrologic/groundwater supply projects. Other experience includes site assessment investigations for real estate transfers, including Navy property, school sites, power and coal gasification plants, Brownfields, pipeline, transportation and railroad rights-of-way, regulatory compliance involving U.S. Environmental Protection Agency, California Department of Toxic Substances Control, California Fish and Game Department, Regional Water Quality Control Board, Department of Health Services, Air Pollution Control District, California Integrated Waste Management Board, State Water Resources Control Board, and California Coastal Commission, environmental construction management services, characterization at NPL sites, RCRA, SARA, CERCLA, TSCA, CWA, SWDA, and CIWMB projects, technical studies for inclusion in CEQA/NEPA documents, preliminary endangerment assessments, expert witness and litigation support, enhanced oil recovery projects, and extensive drilling in the U.S. and abroad.

REPRESENTATIVE PROJECT EXPERIENCE

Metropolitan Transit Development Board, On-Call 5-Year Environmental Services Contract, San Diego County, California Contract Manager and Principal Environmental Geologist for this on-call contract. Mr. Beck's services have included third party review, regulatory liaison, site assessments, permitting, stormwater compliance, construction management services, hazardous materials management and disposal, and lead and asbestos abatement oversight. Most recently, Mr. Beck has been integrally involved in the Mission Valley East Light Rail Extension project, providing critical senior technical expertise and quality review on stormwater pollution prevention protocols.

San Diego City Schools, As Needed Environmental Consulting Services Contract, San Diego, California: Principal-in-Charge, Technical Advisor, and QA/QC Manager for Phase I Environmental Site Assessments (ESA) at 13 proposed and existing elementary, middle, and high school sites within the jurisdiction of the San Diego Unified School District (SDUSD). The proposed sites included properties with existing commercial, industrial, and residential land uses. Phase II ESAs were also conducted on 9 existing SDUSD school sites and 2 proposed SDUSD school sites. Mr. Beck also provided technical input and report preparation assistance regarding implementation of Remedial Action Workplans at several of the sites to cleanup lead and organochlorine pesticides in soil. This work was performed under the direction of the California Department of Toxic Substances Control.

County of San Diego Burnsite and Landfill Engineering Services As-Needed Contract, Various Locations, San Diego County, California: Principal-in-Charge and Technical Advisor for an on-call environmental services to the County of San Diego Department of Public Works as part of its three year, $500,000, Burn Site and Landfill Engineering Services As-Needed Contract. The general scope of work for this contract focuses on conducting investigations and remedial action at County inactive solid waste disposal sites, most of which are former burn sites. The specific engineering services required by the County include characterizing and delineating former burn sites; preparing landfill closure and post-closure maintenance plans; preparing construction plans, specifications, and cost estimates for landfill maintenance projects; implementing remedial action plans, preparing of health and safety plans; value engineering; and assistance during the bidding process for construction activities.

REPRESENTATIVE PROJECT EXPERIENCE (continued)

Centre City Development Corporation (CCDC), On-call Environmental Consulting Services Contract, San Diego, California: Contract Manager and Principal Environmental Geologist on this on-call contract. Our services on this contract in the past years have included performing Phase I and Phase II Environmental Assessments on Downtown San Diego properties slated for purchase and redevelopment, third-party review of environmental consultants reports, and development and implementation of soil management protocols on construction sites within the CCDC jurisdiction. Mr. Beck performed complex third-party reviews and acted as Technical Liaison for the CCDC, working with stakeholders and regulators on complex urban redevelopment projects. As an example, Mr. Beck authored and has helped to implement the conclusions of a hazardous materials constraints analysis as part of the Downtown Community Plan Update and Master Environmental Impact Report. The analysis presented a summary of current downtown San Diego redevelopment trends in hazardous materials management from a regulatory and practical perspective, suggested methods that have proven effective in the identification, assessment, and mitigation of environmental issues, and provided general conclusions regarding the potential impact of hazardous materials releases on redevelopment in the 1500 acre downtown area. Mr. Beck was commended by the CCDC and other key downtown stakeholders for this concise and technically sound planning document.

San Diego Unified Port District, San Diego, California: Since 1994, Mr. Beck has been Program Director, Project Manager, Technical Advisor, and QA/QC Manager on numerous Port District on-call site assessment contracts involving Phase I due diligence, Phase II investigation, National Contingency Plan, Preliminary Endangerment Assessment, Remedial Investigation, Feasibility Studies, Risk Assessment, Public Participation Plans, Remedial Action Plans, NEPA/CEQA studies, and dealing with regulatory compliance issues and public concerns. Mr. Beck's involvement on such projects as the San Diego Convention Center Expansion and the Naval Training Center Landfill, has led to the swift and successful completion of these high profile, environmentally sensitive projects. Mr. Beck continues to provide technical input, QA/QC management, and regulatory liaison and negotiation for the former Campbell Shipyard remediation (landside and sediment), the East Parking Lot remediation of coal gasification wastes, the Tow Basin PCB remediation, and the assessment of contamination at the future Spinnaker Hotel site.

San Diego County Regional Airport Authority (SDCRAA) On-Call Services Agreement, San Diego, California: Principal Environmental Geologist for this contract, provided technical input and services to SDCRAA regarding environmental issues pertaining to airport operations, maintenance, construction, and expansion.. Mr. Beck also is Principal Environmental Geologist and Contract Manager for the environmental constraints study for the final alternative sites that will considered as potential locations for either a new airport or the expansion of existing facilities.

California Integrated Waste Management Board (CIWMB) Closed, Illegal and Abandoned Disposal Site Investigation Program, Various Locations, California: Principal-in-Charge and Technical Advisor for the Closed, Illegal and Abandoned (CIA) Site Investigation Program. This contract includes subsurface investigations of illegal disposal sites, solid waste disposal and co disposal sites where further site characterization is necessary for monitoring, enforcement action, or site cleanup. Investigations have included excavating and logging trenches and test pits and drilling borings to characterize subsurface materials, delineation of the extent of burned wastes or other buried wastes to evaluate recommended remedial action. The disposal site projects have all been sites where there has been an identified potential risk to human health and the environment.

NTC Inactive Landfill, San Diego, California: Principal-in-Charge and Technical Advisor for the Naval Training Center Inactive Landfill. The project involved identifying, delineating and characterizing buried wastes, a geotechnical investigation, evaluating remedial action alternatives, providing cost estimates for implementing corrective action, extensive interfacing with the client, RWQCB, CIWMB and other agencies, and presentation of data at various meetings and to technical advisory boards. A subsequent subsurface investigation to delineate the extent of burned wastes within the site and in outlying areas and to characterize the burn material in accordance with LEA requirements. Principal reviewer of the remedial action plan to clean close the site by removing the wastes and affected media.

Chula Vista Bayfront Master Plan EIR, Chula Vista, California: Principal Environmental Geologist for a hazardous materials technical study (HMTS) for the Chula Vista Bayfront Master Plan. The technical report will be utilized in the preparation of an Environmental Impact Report (EIR), and is not intended for the purpose of design or construction. The project area consists of a number of parcels along the bayfront in the city of Chula Vista, California totaling approximately 550 acres under the ownership and jurisdiction of the San Diego Unified Port District (Port), including land acquired from B.F. Goodrich, vacant and underutilized areas, and the existing South Bay Power Plant parcel. Mr. Beck's services included review of maps, reports and other environmental documents pertaining to the site; review regulatory agency databases for the site and for properties located within a 1,000-foot radius of the project area; and review of a HMTS report documenting findings and providing opinions and recommendations regarding possible environmental impacts to the project area.

Mitigation, Monitoring and Reporting Program

MITIGATION MONITORING REPORTING PROGRAM (MMRP)

PROJECT NAME: Membrane Filtration Reverse Osmosis Facility Project

NEG. DEC. NO. : ENV 19-0002 and ADM 19-0032

SCH NO.: 2020039020

APPROVAL BODY: Escondido Zoning Administrator

PROJECT DESCRIPTION: The project proposes the construction a Membrane Filtration Reverse Osmosis (MFRO) Facility that would provide advanced treatment for Title 22 quality reuse water produced at the Hale Avenue Resources Recovery Facility (HARRF). The facility would utilize membrane filtration (MF) (i.e., microfiltration or ultrafiltration membranes) and reverse osmosis (RO) technologies sized for a total production capacity of 2.0 million gallons per day (mgd). High quality treated water would be blended with Title 22 recycled water within an on-site blend tank. The treated water would be used for agricultural purposes and would be distributed to growers through existing non-potable reuse water/agriculture pipelines. The proposed project would consist of a commercial/industrial-like building (MFRO Facility), which would include partitioned areas to house the MFRO equipment, pumps, chemical storage, electrical room, control room, restrooms, break room, and janitorial closet. The MFRO Facility treatment equipment is proposed to operate with a minimum production capacity of 0.5 mgd (350 gallons per minute [gpm]) and maximum RO effluent production capacity of 2.0 mgd (1,390 gpm) which would be blended with conventionally (tertiary) recycled water for distribution. The MFRO Facility would be designed to accommodate installation of additional equipment in the future that would provide an additional 1.0 mgd of production capacity. The project would also include the product water pipeline, which is a one-mile long pipeline that would transport the product water to an existing recycled water pipeline.

PROJECT LOCATION: The proposed project is located in northern San Diego County in the City of Escondido. The project is located at 901 West Washington Avenue, approximately 55 feet southwest of the West Washington Avenue and Rock Springs Road intersection. The parcel is approximately 10.3 acres in size and is owned by the City. The Assessor's Parcel No. (APN) is 232 090-72-00. The site is accessible via a driveway along West Washington Avenue and a shared access driveway with two gated entrances on the west side. The site also is accessible towards the southeastern corner of the property from a bridge across the concrete flood control channel that connects the site to the City's Public Works Yard.

Mitigation Monitoring and Reporting Program for the Membrane Filtration Reverse Osmosis Facility Project

Mitigated Negative Declaration/Initial Study Environmental Checklist

Project No. ENV 19-0002 and ADM 19-0032

The City of Escondido adopts this Mitigation Monitoring and Reporting Program (MMRP) in accordance with Public Resources Code (PRC) Section 21081.6 and Section 15097 of the California Environmental Quality Act (CEQA) Guidelines. The purpose of the MMRP is to ensure that the Membrane Filtration Reverse Osmosis Facility Project (proposed project), which is the subject of the Draft Mitigated Negative Declaration (MND) and Initial Study Environmental Checklist, complies with all applicable environmental mitigation requirements. The mitigation described in the MND and summarized below provides a broad purpose and overview of actions that will occur in order to reduce identified environmental impacts.

For each project that is subject to CEQA, PRC Section 21081.6 requires the Lead Agency to monitor performance of the mitigation measures included in any environmental document to ensure that the specified mitigation is implemented. The City of Escondido is the designated Lead Agency for the proposed project. The City is responsible for review of all monitoring reports, enforcement actions, and document disposition related to implementation of the MMRP.

After review and approval by the Lead Agency, minor changes to the MMRP are permitted but can only be made by the City of Escondido. No deviations from this MMRP shall be permitted unless it continues to satisfy the requirements of PRC Section 21081.6, as determined by the City of Escondido.

The organization of the MMRP follows the subsection formatting style presented within the MND and Initial Study Environmental Checklist. Only those subsections of the environmental issues presented in the Initial Study Environmental Checklist that have mitigation measures are provided below in the MMRP table. All other subsections do not contain mitigation measures. For each mitigation measure, the MMRP table identifies the following: (1) mitigation measure; (2) implementation action; (3) responsible agency/party; (4) monitoring schedule; and (5) verification date.

MITIGATION MONITORING AND REPORTING PROGRAM

Mitigation Measures	Implementation, Monitoring, and Reporting Action	Responsibility	Monitoring Schedule			Verification Date
			Before Construction	During Construction	After Construction	
Biological Resources						
BIO-1: Avoidance of Nesting Birds and Raptors. To prevent direct impacts to nesting birds, including raptors, protected under the federal MBTA and CFG Code, the City shall enforce the following: Project activities requiring the removal and/or trimming of vegetation suitable for nesting birds shall occur outside of the general bird breeding season (January 15 to September 15) to the extent feasible. If the activities cannot avoid the general bird breeding season, a qualified biologist shall be retained to conduct a pre-activity nesting bird survey within seven days prior to the activities to confirm the presence or absence of active bird nests. If no active bird nests are found by the qualified biologist, then the activities shall proceed with the reassurance that no violation to the MBTA and CFG Code would occur. If an active bird nest is found by the qualified biologist, then vegetation removal and/or trimming activities at the nest location shall not be allowed to occur until the qualified biologist has determined that the nest is no longer active. Avoidance buffers should start at 300 feet for passerine birds and 500 feet for raptors. However, buffers could be reduced at the discretion of the qualified biologist depending on the bird species and project activities required in the vicinity of the active nest.	• Require project activities requiring vegetation removal to occur outside of general bird breeding season and/or require a qualified biologist to perform a pre-construction survey of active nests belonging to nesting birds and raptors.	Applicant; Qualified Biologist	X			
Cultural Resources						
CUL-1: It is recommended the City should enter into a Tribal Cultural Resource Treatment and Monitoring Agreement (also known as a pre excavation agreement) with a tribe that is traditionally and culturally affiliated (TCA) with the Project Location (“TCA Tribe”) prior to issuance of	• Applicant should enter into a Tribal Cultural Resource Treatment and Monitoring Agreement.	Applicant; City of Escondido Community Development Department Planning Division	X			

MITIGATION MONITORING AND REPORTING PROGRAM (cont.)

Mitigation Measures	Implementation, Monitoring, and Reporting Action	Responsibility	Monitoring Schedule			Verification Date
			Before Construction	During Construction	After Construction	
Cultural Resources (cont.)						
CUL-1 (cont.) a grading permit. The purposes of the agreement are (1) to provide the applicant with clear expectations regarding tribal cultural resources; and (2) to formalize protocols and procedures between the City and the TCA Tribe for the protection and treatment of, including but not limited to, Native American human remains; funerary objects; cultural and religious landscapes; ceremonial items; traditional gathering areas; and cultural items located and/or discovered through a monitoring program in conjunction with the construction of the proposed project, including additional archaeological surveys and/or studies, excavations, geotechnical investigations, grading, and all other ground disturbing activities.						
CUL-2: Prior to issuance of a grading permit, the City shall retain a qualified archaeologist meeting the Secretary of the Interior's Professional Qualifications Standards for archaeology (U.S. Department of the Interior 2008), and Native American monitors associated with TCA Tribes to implement the monitoring program. Because the project is located within shared territory of the Luiseno and Kumeyaay people, Native American monitors representing the interest and values of both the Luiseno and Kumeyaay people shall be retained for the project. The archaeologist shall be responsible for coordinating with the Native American monitors. This verification shall be presented to the City in a letter from the project archaeologist that confirm that Native American monitors representing both Luiseno and Kumeyaay TCA Tribes have been retained.	• Retain a qualified archaeologist and Native American monitors. • Provide verification that a qualified archaeologist and Native American monitors have been retained.	Applicant; City of Escondido Community Development Department Planning Division	X			

MITIGATION MONITORING AND REPORTING PROGRAM (cont.)

Mitigation Measures	Implementation, Monitoring, and Reporting Action	Responsibility	Monitoring Schedule			Verification Date
			Before Construction	During Construction	After Construction	
Cultural Resources (cont.)						
CUL-2 (cont.) The City, prior to any pre-construction meeting, shall approve all persons involved in the monitoring program.						
CUL-3: The qualified archaeologist and a Native American monitor(s) shall attend the pre grading meeting with the grading contractors to explain and coordinate the requirements of the monitoring program.	• Require monitoring program coordination.	City of Escondido Community Development Department Planning Division; Qualified Archaeologist; Native American Monitor(s); Grading Contractor	X			
CUL-4: During the initial grubbing, site grading, excavation or disturbance of the ground surface, the qualified archaeologist and the Native American monitor shall be on site full-time. The frequency of inspections shall depend on the rate of excavation, the materials excavated, and any discoveries of tribal cultural resources as defined in California Public Resources Code Section 21074. Archaeological and Native American monitoring will be discontinued when the depth of grading and soil conditions no longer retain the potential to contain cultural deposits. The qualified archaeologist, in consultation with the Native American monitor, shall be responsible for determining the duration and frequency of monitoring.	• Require on-site archaeological monitor and Native American monitor(s).	City of Escondido Community Development Department Planning Division; Archaeological Monitor; Native American Monitor; Field Engineering Division	X	X		

MITIGATION MONITORING AND REPORTING PROGRAM (cont.)

Mitigation Measures	Implementation, Monitoring, and Reporting Action	Responsibility	Monitoring Schedule			Verification Date
			Before Construction	During Construction	After Construction	
Cultural Resources (cont.)						
CUL-5: In the event that previously unidentified cultural resources that qualify as historical, unique archaeological, and/or tribal cultural resources are discovered, the qualified archaeologist and the Native American monitor shall have the authority to temporarily divert or temporarily halt ground disturbance operation in the area of discovery to allow for the evaluation of potentially significant cultural resources. Isolates and clearly non-significant deposits shall be minimally documented in the field and collected so the monitored grading can proceed.	• Require identification and preservation of any unidentified cultural resources.	City of Escondido Community Development Department Planning Division; Project Archaeologist; County Coroner; Native American Monitor		X		
CUL-6: If a potentially significant historical, unique archaeological, and/or tribal cultural resource is discovered, the qualified archaeologist shall notify the City of said discovery. The qualified archaeologist, in consultation with the City, the TCA Tribe and the Native American monitor, shall determine the significance of the discovered resource. Recommendations for the resource's treatment and disposition shall be made by the qualified archaeologist in consultation with the TCA Tribe and the Native American monitor and be submitted to the City for review and approval.	• Require identification and preservation of any significant historical, unique archaeological, and/or tribal cultural resource. • Consultation with the City, the TCA Tribe, and the Native American Monitor.	City of Escondido Community Development Department Planning Division; Project Archaeologist; Native American Monitor; TCA Tribe		X		
CUL-7: The avoidance and/or preservation of significant cultural resources that qualify as historical, unique archaeological, and/or tribal cultural resources must first be considered and evaluated as required by CEQA. Where any significant resources have been discovered and avoidance and/or preservation measures are deemed to be infeasible by the City, then a research design and data recovery program to mitigate impacts shall be prepared by the qualified archaeologist (using professional archaeological methods), in consultation with the TCA Tribe and	• Require research design and data recovery program. • Consultation with TCA Tribe and Native American Monitor.	City of Escondido Community Development Department Planning Division; Project Archaeologist; Native American Monitor; TCA Tribe		X		

MITIGATION MONITORING AND REPORTING PROGRAM (cont.)

Cultural Resources (cont.)						
CUL-7 (cont.) the Native American monitor, and shall be subject to approval by the City. The archaeological monitor, in consultation with the Native American monitor, shall determine the amount of material to be recovered for an adequate artifact sample for analysis. Before construction activities are allowed to resume in the affected area, the research design and data recovery program activities must be concluded to the satisfaction of the City.						
CUL-8: As specified by California Health and Safety Code Section 7050.5, if human remains are found on the project site during construction or during archaeological work, the person responsible for the excavation, or his or her authorized representative, shall immediately notify the San Diego County Coroner's office. Determination of whether the remains are human shall be conducted on-site and in situ where they were discovered by a forensic anthropologist, unless the forensic anthropologist and the Native American monitor agree to remove the remains to an off-site location for examination. No further excavation or disturbance of the site or any nearby area reasonably suspected to overlie adjacent remains shall occur until the Coroner has made the necessary findings as to origin and disposition. A temporary construction exclusion zone shall be established surrounding the area of the discovery so that the area would be protected, and consultation and treatment could occur as prescribed by law. In the event that the remains are determined to be of Native American origin, the Most Likely Descendant, as identified by the Native American Heritage Commission, shall be contacted in order to determine proper treatment	• Require identification and preservation of any undiscovered cultural resources or human remains.	City of Escondido Community Development Department Planning Division; Project Archaeologist; Native American Monitor; Forensic Anthropologist; County Coroner		X

Cultural Resources (cont.)						
CUL-8 (cont.) and disposition of the remains in accordance with California Public Resources Code section 5097.98. The Native American remains shall be kept in-situ, or in a secure location in close proximity to where they were found, and the analysis of the remains shall only occur on-site in the presence of a Native American monitor.						
CUL-9: If the qualified archaeologist elects to collect any archaeological materials that qualify as tribal cultural resources, the Native American monitor must be present during any testing or cataloging of those resources. Moreover, if the qualified archaeologist does not collect the archaeological materials that qualify as tribal cultural resources that are unearthed during the ground disturbing activities, the Native American monitor, may at their discretion, collect said resources and provide them to the TCA Tribe for respectful and dignified treatment in accordance with the Tribe's cultural and spiritual traditions. The project archaeologist shall document evidence that all cultural materials have been curated and/or repatriated as follows: 1. It is the preference of the City that all tribal cultural resources be repatriated to the TCA Tribe as such preference would be the most culturally sensitive, appropriate, and dignified. Therefore, any tribal cultural resources collected by the qualified archaeologist shall be provided to the TCA Tribe. Evidence that all cultural materials collected have been repatriated shall be in the form of a letter from the TCA Tribe to whom the tribal cultural	• Require that a Native American monitor is present during any testing or cataloging. • Any tribal cultural resources collected by the qualified archaeologist shall be repatriated to the TCA Tribe, and/or curated. Cultural Resources (cont.)						
CUL-10 (cont.) The report will include California Department of Parks and Recreation Primary and Archaeological Site Forms for any newly discovered resources.						
Geology and Soils						
GEO-1: In the event of unanticipated discovery of paleontological resources, the City shall cease ground-disturbing activities within 100 feet of the find until it can be assessed by a qualified paleontologist. The qualified paleontologist shall assess the find, implement recovery measures if necessary, and determine if paleontological monitoring is warranted once work resumes.	• Discovery of paleontological resources requires assessment by qualified paleontologist.	Applicant; Qualified Paleontologist		X		
Hazards and Hazardous Materials						
HAZ-1: Soil and Groundwater Construction Management Plan. A soil and groundwater management plan (SGWMP) shall be prepared prior to project construction to minimize exposure in the event that adverse environmental conditions are encountered during soil and groundwater disturbance activities. The plan shall include, but not be limited to, observation and monitoring activities in areas with known potential soil contamination (CREC) and any areas where contaminated or potentially contaminated soil or groundwater are encountered; community health and safety practices; roles and responsibilities of the contractor; and handling, sampling, transportation, and disposal, as applicable, of contaminated or potentially contaminated soil and/or groundwater.	• Require preparation of a soil and groundwater management plan.	Applicant; Construction Contractor	X			

MITIGATION MONITORING AND REPORTING PROGRAM (cont.)

Mitigation Measures	Implementation, Monitoring, and Reporting Action	Responsibility	Monitoring Schedule			Verification Date
			Before Construction	During Construction	After Construction	
Noise						
NOI-1: Construction Equipment Noise Reduction. Noise levels from project-related construction equipment shall not exceed 75 dBA L_{EQ} (one hour). To reduce noise levels, the following measures shall be implemented: • All construction equipment operating at the project site shall be equipped with properly operating mufflers. • Noise and groundborne vibration construction activities whose specific location on the project site may be flexible (e.g., operation of compressors and generators, cement mixing, general truck idling) shall be conducted as far as possible from the nearest noise- and vibration-sensitive land uses east of the project site. • When the use of impact tools is necessary, they shall be hydraulically or electrically powered wherever possible to avoid noise associated with compressed air exhaust from pneumatically powered tools. Where use of pneumatic tools is unavoidable, an exhaust muffler on the compressed air exhaust shall be used and external jackets on the tools themselves shall be used where feasible. • All stationary construction noise sources used at the project site shall be located away from adjacent receptors, to the extent feasible, and be muffled and enclosed within temporary sheds or other insulation barriers to the extent feasible.	• Require construction equipment to be operated in a manner that does not exceed 75 dBA L_{EQ}. • Require designation of a construction relations officer.	Applicant; Construction Contractor; Construction Relations Officer		X		

MITIGATION MONITORING AND REPORTING PROGRAM (cont.)

Mitigation Measures	Implementation, Monitoring, and Reporting Action	Responsibility	Monitoring Schedule			Verification Date
			Before Construction	During Construction	After Construction	
Noise (cont.)						
NOI-1 (cont.) • A construction relations officer shall be designated for the proposed project to serve as a liaison with surrounding residents and property owners and be responsible for responding to any concerns regarding construction noise and vibration. The liaison's telephone number(s) shall be prominently displayed at the project site. Signs shall also be posted that include permitted construction days and hours at the project site.						
Tribal Cultural Resources						
See mitigation measures CUL-1 through CUL-10 under Cultural Resources.
